# Surplus Items For Yard Sale

- **Blue zero turn lawn mower**
  - Ran before stored in quonset hut, facilities tried getting it to run with no success. Some parts were purchased to try to fix the issue, we believe it is electrical.
  - Recommended price: $75
-
- **Black zero turn lawn mower**
  - Same situation as the blue zero turn mower. Other than we believe it to be a fuel issue. This particular mower does not have a carburetor and is some type of throttle body injection.
  - Recommended price: $150

The facilities department currently has two other zero turn lawn mowers that run well and fulfill all of the grounds keeping requirements we have. In the interest of saving money on parts and labor, it is best to put these mowers up for sale.

- **Truck shell**
  - The white truck shell was found underneath the rodeo grandstands, and has never been needed for any facilities vehicles.
  - Recommended price: $50

- **Flat deck trailer**
  - The trailer has not been in use for many years, and we currently have a utility trailer that fits the needs of our county well. The lights don't work and would require new tires as well if we wanted to utilize it.
  - Recommended price: $150

- **Horizontal band saw**
  - The band saw has been stored in and around the facilities shop for many years. There are no uses for it as we have much more modern equipment to do the job. It does need a motor to be able to function.
  - Recommended price: $50

- **Walk behind lawn mower**
  - Mower has a plastic carburetor, and will not run. Has not been used for many years.
  - Recommended price: $10

**Attempted to sell the truck shell, flat deck trailer, and band saw but had no success**
