

Is Your Business Prepared for a Disaster?

Disaster Preparedness – The cost of doing business

Disasters can happen at any time and for a variety of reasons. Disaster threats can vary from business to business.

Whatever your threat is, are you prepared to keep your doors open and your business going?

The purpose of [Be Ready Business](#) is to, **at no cost**, foster economic resilience to disasters via preparation of Utah's private sector. We seek to help you prepare today for tomorrow's disasters. Every month [Be Ready Business](#) will provide information/tips in the Chamber newsletter on how to prepare your business and help you answer the following questions as well as support you across the business continuity planning and disaster recovery spectrum.

1. [What is the cost if I am not prepared for a disaster?](#)
2. [What is Business Continuity Planning \(BCP\)?](#)
3. [Where can I find BCP tools?](#)
4. [How do I identify and prepare for threats to my business?](#)

In addition, [Be Ready Business](#) hosts seminars and workshops which bring together experts and provide mentorship to building business continuity and resiliency in your critical operations.

Private Sector Preparedness Council Seminars (Business Continuity Planning Topics)
