

LEED AND CONCRETE

ACI Continuing Education

Presenter: Thomas S. Brennan LEED AP

January 11, 2011

COURSE OUTLINE

1. LEED PROGRAM OVERVIEW
2. CHARACTERISTICS THAT MAKE CONCRETE A GREEN CONSTRUCTION MATERIAL
3. HOW THE USE OF CONCRETE CAN DIRECTLY CONTRIBUTE IN ACHIEVING LEED CERTIFICATION
 - a. Increased Recycled Content of the Building
 - b. Increased Use of Regional Materials
 - c. Reduced Heat Island Effect: Non Roof
4. INDIRECT CONTRIBUTIONS TO LEED
 - a. Construction Waste Management
 - b. Low Emitting Materials: Paints and Coatings
5. OPPORTUNITIES FOR THE CONCRETE INDUSTRY TO INCREASE ITS CONTRIBUTIONS TO LEED
6. Q & A
