

# Residential Wiring According to the 2011 NEC (Homestudy)

<b>Credit Hours</b>	8 hours
<b>Course Timetable</b>	Attached
<b>Course Description</b>	This course will cover the requirements in the 2011 NEC for installing electrical systems in dwelling units. Code sections for residential wiring installations are organized by equipment type or location in the dwelling and include: Service and Subpanels, Kitchen, Pantry and Dining Rooms, Bathrooms and Laundry, Living Areas (and Bedrooms), Stairways and Hallways, Luminaires, Fans and Switches, Outdoors, Garages, Basements, and Crawl Spaces, Heating and Cooling, Swimming Pools and Spas, Generators, Limited Energy, Installation and Wiring Methods.
<b>Course Objectives</b>	After completing this course the participant will have a better understanding of the requirements in the 2011 NEC for wiring dwelling units and will be able to apply that knowledge to common electrical installations.
<b>Method of Presentation</b>	The homestudy course requires the participant to answer multiple choice questions after reviewing the content. After all the questions have been answered, the user can mail, email, or fax the answer sheet to JADE Learning. The course is then graded by JADE Learning.
<b>Method of Evaluation</b>	The licensee must complete all 100 multiple choice questions with a score of at least 75% in order to get credit for the course. Credit will not be awarded unless the licensee has completely answered all questions and the passing grade has been met.
<b>Qualification of Instructor</b>	Resume of course instructor David Burtt is attached.
