

Current Issues in Storm Water Regulation in Utah

Salt Lake City, Utah • May 8, 2012 • ID# 381672

Save money by avoiding costly mistakes
in storm water management.

From recent litigation to changing permitting standards, failing to stay on top of current issues related to storm water regulation is risky. In this seminar, you will get answers to all your questions, such as: What new case and policy decisions impact my practices? What are the latest trends in the water quality arena?

Here is your chance to learn – in just one day – the facts about current legal issues, monitoring and inspection, the proper design and selection of BMPs ... everything you need to know to avoid reactive responses to regulatory changes, adequately plan and ensure compliance.

Benefits for You

- Find out what you need to know about the emerging permitting strategy
- Learn how to evaluate your storm water program to ensure compliance
- Tips to avoid problems in EPA enforcement
- Discover how the latest laws and regulations will impact storm water discharges

Special Offer!
Bring a Colleague – Save \$200
