UTAH DEPARTMENT OF AGRICULTURE AND FOOD
GRANT AGREEMENT

____1. **CONTRACTING PARTIES:** This Grant Agreement (Agreement), is between the Utah Department of Agriculture and Food ("UDAF"), Grantor, and the following Grantee:

Grantee Name: **Daggett County Weed Department,** Contact Person: **Becky Bindl,**

Street Address: **PO Box 219** City: **Manila** State: **Utah** Zip code: **84046**

A (please check one):

☐ Sole Proprietor ☒ Governmental Agency ☐ Other-Specify Type _____

____2. **GRANTEE IS AN INDEPENDENT CONTRACTOR:** Grantee is an Independent Contractor, and has no authority, express or implied, to bind the State of Utah, UDAF, or any of their officers, agents, or employees.

____3. **CERTIFICATION OF NON-DEBARMENT:** For Grantees receiving any Federal funds: Grantee certifies that neither it nor its principals, officers, agents, employees, contractors or sub-contractors are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from entering into this Agreement by any governmental entity. If Grantee cannot so certify, it shall submit a written explanation and shall obtain *prior* written approval for this Agreement from the UDAF Commissioner, or his/her designee. Failure of Grantee to obtain such prior written approval shall be considered a material breach of this Agreement.

____4. **PURPOSE OF AGREEMENT:** To pass funds to Grantee for the following purpose: Invasive Species Mitigation fund for the Identifying Effective Control and Revegetation Strategies for **Birch Springs Draw Phase 1** pursuant to § UCA 4-17-114 and UCA § 4-17-115.

____5. **AGREEMENT PERIOD:** This Agreement is effective **07/01/2022** and expires **06/30/2023**, unless terminated early due to a breach or other reason stated in this Agreement or extended or amended, at Grantor's discretion and with Grantor's approval.

____6. **AGREEMENT AMOUNT:** The total amount Grantee will receive pursuant to this Agreement is **$62,500.00.**

____7. **FUNDING:** The funding provided to Grantee pursuant to this Agreement constitutes a grant of state money and/or federal pass-through money as defined in UCA § 63G-6a-103(36), § 63J-1-220, and § 51-2a-201.5. If Grantee is receiving any funding through any other source or is providing any amount of matching funds for this project, such funding must be disclosed and reported as set forth in paragraph 10 of this Agreement. As such, Grantee agrees to be bound by all applicable terms under those Utah Code sections, including, but not limited to, the auditing and reporting requirements set forth in UCA § 51-2a-101 *et seq.*

____8. **EXPENDITURE OF FUNDS.** Grantee shall expend the funds provided pursuant to this Agreement only for the purpose(s) stated in this Agreement and as outlined in Grantee's FY2023 application for Invasive Species Mitigation Application (Attachment B).

____9. **COMPLIANCE WITH STATE AND FEDERAL LAW.** Grantee shall comply with all state and federal laws that apply to the subject matter and purpose of the Grant.

___10. **GRANTEE REPORTING AND INSPECTION REQUIREMENTS:** Grantee shall comply with the following reporting and inspection requirements:

A. Upon request by Grantor, Grantee shall prepare and provide Grantor with the reports below:

(1) An annual written description and an itemized report detailing the expenditure of the state money, or the intended expenditure of any state money that has not been spent;

(2) A final written itemized report when all the state money is spent;

(3) Written certification that Grantee, as defined both in this Agreement and as defined in the Additional Terms and Conditions, agrees to, and is in compliance with, all stated terms and conditions set forth in Attachment A ("Additional Terms and Conditions");

(4) An annual written description and an itemized report detailing the expenditure of any other funding anticipated, received or actually expended, including any such funding that has not been spent; and

(5) A final written itemized report regarding any funds received or expended pursuant to subsection (4).

B. Upon request, Grantee will provide access to UDAF for inspection of the project during the planning, surveying, construction, testing and completion of the project.

___11. **BILLING REQUIREMENTS:** Payments to Grantee shall be made as follows:

A. Grantee shall submit payment requests no more often than once a month. Grantee will use the payment request process established by Grantor through the Amplifund platform and submission of a request shall be by Grantee and the contractor, sub-contractor, sub-grantee or assignee (if any) who either authorized, performed or oversaw the actual work completed, and has the legal authority to bind that specific entity.

(1) Grantee will maintain all invoices, receipts and any other documentation associated with the project until all work undertaken pursuant to this Agreement is complete, and a final report detailing the work completed is filed with UDAF.

(2) Grantee shall allow UDAF to examine any and all records under paragraph 11 within a reasonable time upon request by Grantor. For purposes of this Agreement, a reasonable time shall not exceed thirty (30) days after the date of the original request, unless otherwise specified in this Agreement.

B. Grantor may delay or deny payment to Grantee for billings or claims for services that do not meet the billing deadlines outlined below.

(1) **Final Billings:** Grantee shall submit all billings for costs incurred on or before June 30th of a given fiscal year **no later than July 10th** of the following fiscal year, regardless of Grantee's billing period or the expiration or termination date of this Agreement. Final billings not received by UDAF by July 10th of a given fiscal year may not be reimbursed in full or in part.

(2) **Billings Upon Termination of Agreement:** Grantee shall submit all final billings under this Agreement within 14 days of termination of the Agreement, regardless of the Grantee's billing period. Billings not received by UDAF within that 14-day period after the termination date may not be reimbursed in full or in part.

C. Grantee and Grantor may negotiate a payment and billing budget to track payments and project progress. This budget shall not be effective or waive any provision in paragraph 11 unless it is in writing, signed and dated by both Grantee and Grantor, and unless the provision to be waived is specifically identified in that writing. In the absence of those requirements, all provisions in paragraph 11 remain in full force and effect and are legally binding.

D. In accordance with Attachment A, UDAF may withhold 10% of the total grant award of **$62,500.00** until all work undertaken pursuant to this Agreement is complete, the project is approved by UDAF, GIS data of the treatment areas is completed, and a final report detailing the work completed is filed with UDAF.

___12. **REDUCTION OF FUNDS:** If Grantor becomes subject to a legislative change, revocation of statutory authority, lack of appropriated funds or unavailability of funds, which would render Grantee's delivery or performance under this Agreement impossible, or unnecessary, Grantor may terminate this Agreement in whole or in part. If the legislature does not appropriate funds for paying Grantor's obligations on this Agreement, or if funding to Grantor is reduced due to an order by the Governor, or is required by state law, or if federal funding (when applicable) is not provided, or requires any return or "giveback" of funds required for Grantor to continue payments, or if the federal or state executive branch mandates any cuts or holdbacks in spending, or if UDAF decides to reduce the payments pursuant to this Agreement, Grantor may terminate this Agreement or proportionately reduce the requirements of this Agreement and the amounts to be paid by Grantor to Grantee for meeting such requirements.

___13. **INDEMNIFICATION:** Grantee acknowledges that Grantor is a governmental entity as defined by the Utah Governmental Immunity Act, UCA § 63G-7-101, *et. seq.* Grantor does not waive any defenses otherwise available under the Governmental Immunity Act. Unless the Utah Governmental Immunity Act also applies as to Grantee, Grantee shall indemnify, hold harmless, and release the State of Utah, and all of its officers, agents, employees and volunteers from and against any and all loss, damages, injury, liability, suits, and proceedings relating to this Agreement which are caused in whole or in part by the acts, omissions, or negligence of Grantor or any of its officers, agents, employees and volunteers.

___14. **COPYRIGHT:** INTENTIONALLY DELETED

___15. **ASSIGNMENT:** Grantee shall not assign, sell, sub-grant, or sub-contract its rights or responsibilities under this Agreement unless approved in writing by Grantor. If Grantee elects to so do, Grantee does so with the express understanding that no provision under this Agreement is waived by Grantor, unless specifically acknowledged in writing, and Grantee is still bound and required to fulfill all obligations, terms and conditions set forth under this Agreement, whether performed by Grantee, its officers, agents, employees, contractors or sub-contractors.

___16. **AMENDMENTS:** The parties may modify this Agreement only by written amendment signed by both parties. Any amendments shall be attached to the original signed copy of this Agreement.

___17. **REMEDIES:** If Grantor determines that Grantee, its officers, agents, employees, contractors or sub-contractors, have failed to comply with, or breached, any of the terms or conditions set forth in this Agreement (including the terms and conditions set forth in any attachments to this Agreement), Grantor may pursue any of the following remedies against Grantee, and/or its officers, agents, employees, contractors or sub-contractors, at its discretion; including but not limited to:

a. **Disallow Costs.** Grantor may disallow any costs otherwise allowed under this Agreement to Grantee and adjust its payments to Grantee by deducting such disallowed costs.

b. **Withhold Payment.** It may withhold funds from Grantee for non-compliance with any of the terms of this Agreement, misuse of public funds, or failure to comply with State and federal law.

(1) If an audit finding or judicial determination is made that Grantee misused public funds, Grantor may also withhold funds otherwise allocated to Grantee to cover the costs of any audits, attorneys' fees and other expenses. Grantor shall give Grantee prior written notice that the payment(s) will be withheld. The notice shall specify the reasons for such withholding. Grantor shall inform Grantee whether any amounts withheld may be released, and if so, the actions that Grantee must take to bring about the release of any amounts withheld.

(2) If an independent CPA audit or Grantor review determines that the payments made by Grantor to Grantee were incorrectly paid or were based on incorrect information from the Grantee, Grantor may adjust or withhold Grantee's payments for the remainder of the contract period or until Grantor fully recoups the funds.

c. **Require Repayment.** Upon written request by Grantor, any overpayments, disallowed costs, excess payments or questioned costs are immediately due and payable by Grantee. In the alternative, Grantor shall have the right to withhold any or all subsequent payments pursuant to this Agreement until it fully recoups these funds. In such cases, Grantee shall not be relieved of meeting the requirements of this Agreement.

d. **Require Corrective Action.** Grantee shall comply with the terms of any corrective action plan required by Grantor.

e. **Pursue Any Legal Remedy.** Grantor and Grantee may avail themselves of all remedies allowed by state or federal law.

f. **Terminate the Agreement.** Grantor may terminate this Agreement in accordance with the termination provisions outlined below.

___18. **RIGHT TO TERMINATE UPON THIRTY DAYS NOTICE.** Grantor may terminate this Agreement, with or without cause, in advance of the Agreement's expiration date, by giving the other party 30 days written notice.

___19. **NO THIRD-PARTY BENEFICIARY RIGHTS.** No provision in this Agreement is intended or shall create any rights with respect to the subject matter of this Agreement in any third party.

___20. **JURISDICTION:** The provisions of this Agreement shall be construed and governed by the laws of the State of Utah. The parties will submit to the jurisdiction of the courts of Utah for any dispute arising out of this Agreement or the breach thereof. Venue shall be in Salt Lake City, in the Third Judicial District Court for Salt Lake County, Utah.

___21. **ENTIRE AGREEMENT:** This Agreement, including any attachments and/or documents referenced herein, constitutes the entire agreement between the parties and supersedes all prior and contemporaneous oral or written agreements.

___22. **GRANTEE HAS NOT ALTERED THIS AGREEMENT:** By signing this Agreement, Grantee represents that neither it nor its employees or representatives have in any way altered the language or provisions in the Agreement, and that this Agreement contains exactly the same provisions that appeared in this document and its exhibits when Grantor originally sent it to Grantee.

___23. **AUTHORITY OF PERSON SIGNING FOR THE GRANTEE:** Grantee represents that the person who has signed this Agreement on behalf of Grantee has full legal authority to bind Grantee and to execute this Agreement.

IN WITNESS WHEREOF, the parties executed this Agreement:

Additional Terms and Conditions

_____ 1. Grantee, on behalf of itself, its officers, agents, employees, contractors, sub-contractors or assigns (hereinafter Grantee), will be liable for compliance with all local, state, and federal laws, rules and ordinances pertaining to the work being done in this agreement.

_____ 2. Grantee will provide the Utah Department of Agriculture (UDAF) a report meeting the requirements set forth in UCA § 9-8-404(1)(a)(i) and (ii) to, "take into account the effect of the expenditure or undertaking on any historic property." This report will be completed and signed by an archeologist holding a valid Principal Investigator Permit issued by Public Lands Policy and Coordinating Office.

_____ 3. Grantee will refrain from all ground disturbing activities until UDAF provides a written letter to the grantee authorizing work to proceed. This is to ensure that requirements of UCA § 9-8-404(1)(a) have been met.

_____ 4. If during ground disturbing activity, Grantee encounters any subsurface archaeological deposits including, but not limited to, prehistoric artifacts or features (pithouses, charcoal staining from hearths, etc.), historic building foundations or walls, outhouse/privies, or dense trash deposits, work must be halted within 50' of the discovery and notification made to UDAF. If known historic properties are unintentionally affected, and not previously consulted on, in a manner that alters the characteristics of the properties that make it/them eligible to the National Register, UDAF will halt work and contact the state historic preservation officer (SHPO). UDAF will continue to halt work until an assessment of the discovery is completed by the agency and communicated to the SHPO.

_____ 5. Human Remains Discovery: If human remains, potential human remains, associated or unassociated funerary objects, or objects of cultural patrimony are discovered, work within 100' will stop immediately. Verbal notification of the discovery will be made immediately to local law enforcement authorities, the appropriate land management agency official, and the Antiquities Section of the Utah Division of State History. Human remains discovered on state or privately-owned land will be treated consistent with all requirements of applicable Utah state laws regarding the treatment of human remains including UCA § 76-9-704, UCA § 9-8-302, UCA § 9-8-309, and UCA § 9-9-401 *et seq*.

_____ 6. UDAF may, in its sole discretion, withhold 10% of the total grant award until all work undertaken pursuant to the grant agreement is complete and the final GIS data and final report detailing the work completed are filed with UDAF.

_____ 7. Upon request, Grantee will provide access to UDAF for inspection of the project during the planning, surveying, construction, testing, and completion of the project.

for Utah Department of Agriculture and Food FY 2023 Invasive Species Mitigation

Primary Contact: Becky Bindl

Opportunity Details

Opportunity Information

Title
FY2023 Invasive Species Mitigation

Description
The Utah Department of Agriculture and Food (UDAF) is now accepting Invasive Species Mitigation Weed Control Grant Applications for the 2022-23 season. The goal of this program is to allocate funds to projects which have management strategies with a high degree of potential success in the State of Utah.

Eligible Activities:
- Early detection and rapid response
- Treating critical acres that protect larger land use areas
- Monitoring and preventing the spread of small populations and new introductions
- Monitoring and rehabilitating established infestations
- Research related to invasive species

Total Program Funding
$1,800,000.00

Award Information

Award Range
$1,000.00 - $125,000.00

Award Period
07/01/2022 - 06/30/2023

Award Type
Competitive

Indirect Costs Allowed

Indirect Cost Description

Your administration / Indirect costs cannot exceed a total of 10% of your total project budget. Any grant application with a higher administration cost of 10% will not be accepted.

Indirect Cost Rate

10.00 %

Matching Requirement

No

Submission Information

Submission Window

02/01/2022 12:00 AM - 04/13/2022 5:00 PM

Submission Timeline Type

One Time

Submission Timeline Additional Information

We will accept applications up the close of business day at 5:00PM

Allow Multiple Applications

Yes

Application Review Start Date / Pre-Qualification Deadline

03/18/2022 12:00 AM

Other Submission Requirements

Only complete applications will be moved to the ranking committee for project ranking. As part of UDAF's dedication to excellence, each grant application will be reviewed for completeness. Any applications which are incomplete will not be considered for ranking and funding. All applications will require a Utah Spatial Invasive Infestation Project Analysis (SIIPA) included. If you are not familiar with the Utah SIIPA, please contact program manager.

Project Description

Utah SIIPA Modeling Tool

SIIPA Requirements for the UDAF Grant Application

In order to be considered for ISM funding you will be required to create a Utah SIIPA model of your project area.

If you have not created a SIIPA for your project, you should save at this point and do it before filling out the rest of the grant application.

The information from your SIIPA Project Report will be needed in order to complete your application.

Once you have built your project in the Utah SIIPA, you will be asked to save the following three files.

1- Print Map of your project and save as a PDF file.

2- Run report and save the report as a PDF file.

3- Download file (zipped Geodatabase file of your project).

Email the zipped Geodatabase file to bduncan@Utah.gov

Use the upload buttons below to provide the PDF map of your project and the PDF Project Report.

Upload SIIPA Project Report
Birch Spring draw phase 1 report.pdf

Upload SIIPA Project Map

Ranking Committee

Cost per Acre Evaluation (Reviewer Only)
Select an item...

(Reviewer Only)

In evaluating the cost per acre, there is a wide range of possibilities for each species. Please keep in mind the following items when giving a score.

1- An aerial applican is always cheaper than boom spraying. Boom spraying is always cheaper then Hand spraying. Hand spraying is always cheaper then backpack spraying. Backpack spraying is always cheaper than hand pulling.

- Some projects might require a specific type of chemical treatment due to slope, trees, powerlines, population, federal restrictions, or other factors. Your ranking should take this in account and be reflected in how your score.

2- Some species cost more to treat. Russian Olive, Tamarisk, Aurundo, Phragmites, Purple Loostrife, and Garlic Mustard will naturally have a higher cost per acre for treatment.

3- Restoration activities add as much as 40% more to a project which will dramatically impact the cost per acre. Make sure you are aware if the cost per acre includes a restoration component.

Taking all of these factors into consideration, you should give the project a cost per acre score between 0-10 with 10 being the best cost per acre for this type of project.

(Reviewer Only)

Ranking Committee

Chemical Profiles in relation to species/treatment/timing (Reviewer Only)
Select an item...

(Reviewer Only)

In evaluating the dynamics of the project there are multiple ways a project manager could apporach treatment and restoration. Please keep in mind the following items when giving a score.

1- Are they using the right chemical for the species they have outlined as their target species and will be utilizing public money to treat.

2- Are they applyng the chemical at the best time for the species they have identified as their target.

3- Are they applying a chemical which reduces / eliminates germintion prior to a restoration activity scheduled?

Taking all of these factors in to account. Was you able to find the necessary information in their project description and activities to give the project a ranking in this category. Give the project a socre between 0-10 with 10 being the higest score for this cetegory.

(Reviewer Only)

Ranking Committee

Partnership and Matching Funds (Reviewer Only)

Select an item...

(Reviewer Only)

In evaluating a score for partnership and matching funds, keep in mind that matching funds is not a requirement for funding. Please keep in mind the following intems when give a score.

1- Do you believe the partners listed are a list of name only partners?

2- Did the Project Manager list how the partners would be involved in the project? Are you convinced of these as true partnerships?

3- Does the inkind and monitary contributions listed add true value to the Project? (cost per acre, management, long term monitoring)

Taking all of these factors into acount, do you belive the project manger gathered enough partners to make the cosst to the public benificial. Give the project a score between 0-10 with 10 bewing the higest score for this category.

(Reviewer Only)

Project Information

Project Name / Project Description / Project Location

For the project name, please provide a descriptive name which incorporates the organization, the location, and the species in the name is preferred.

Some examples of project names would be:

Cache County Goatsrue mitigation west

Tooele County Yellow Starthistle Vernon treatment

Park City Corporation Vipers bugloss Virginia Mine restoration

Virgin City Scotch thistle Peterson property treatment

Please list the name of your Project

Birch Springs Draw Phase1 Canada Thistle treatment

For the project location, it should include a general location of your project at a more detailed level than which County your project is in.

Example:

Project is located in Utah County at the Boy Scout camp in Payson Canyon. The Boy Scout camp in located about 8 miles up the canyon and is
called Camp Maple Dell. The project incorporates the main scout camp along with known trails which lead up to the Payson lakes campground.

Please give a description of your project location

Birch Springs project area is from South Valley lateral to lower Birch springs drainage bordering the flaming Gorge reservoir S. W. and E. of Manila Utah. Conner Basin project is 20 miles west bordering sols canyon along Forest service. Birch creek project is located 25 miles SW in Birch creek drainage area . Greendale/ Dutch project is located 60 miles SE including Dutch John bench, Eagle creek and trail creek.

Project is located in which County. If your project covers multiple Counties hold down CTRL and make multiple selections

Daggett

Primary and Secondary Treatment Species

The Primary and Seconday Treatment Species should be the species with the highest frequency of treatment within your project.

Please pay attention to the following details:

Your Primary and Secondary Treatment species should be relational to your *budget* and your *treatments*.

The Utah SIIPA will evaluate all species within your project area and define a ranking score from your overall project.

Defining your Primary and Secondary Treatment species helps to outline your treatment timing, chemical profile, and treatment methods.

You can review your project species specifics from your Utah SIIPA Project Report. Look under the heading "Species" to see the breakout of your project.

Please select which Species is the Primary Target for treatment in your Project area.

Canada Thistle

Please select which Species is the Secondary Target for treatment in your Project area.

Musk Thistle

Primary / Secondary Treatment Species Acres

The Primary and Secondary Treatment Acres should be reflective in your total acres listed in your Utah SIIPA Report.

Please pay attention to the following details:

Your Primary and Secondary Treatment Acres should be relational to your budget and your treatments.

Your Primary and Secondary Treatment Acres should be calculated from your Project SIIPA Report.

If the Project SIIPA Report Acres is not a good representation of your project, you will need to explain why in the project description.

You can review your project species specifics from your Utah SIIPA Project Report. Look under the heading "Species" to see the breakout of your project.

Please list the Primary Treatment Species Acres From SIIPA Report. You can find this under the section called "Species" and find your species in the table.

1325

Please list the Secondary Target Species Acres From SIIPA Report. You can find this under the section called "Species" and find your species in the table.

1649

Please list all other Species of concern within your Project area.

Hoary cress, Perennial pepperweed , Russian Knapweed , Black Henbane, Spotted Knapweed, Russian Olive, Field Bindweed, Poison Hemlock Common Reed, and Scotch thistle .

Project Description

Please provide a detailed description of your proposed Project .

Please pay attention to the following details:

Your description should include any history of the project area if necessary.

If your budget does not match (Acres, Species) listed in your SIIPA project report, you will need to explain why in your description.

If your project includes a restoration activity that will disturb soil, identify it in your description and how many acres.

If your project is not being monitored by UDAF explain how you will measure your performance on this project.

Project Description

Birch springs draw phase 1 will be to control or eradicate noxious weeds. In 2019 we released 300 stem weevil for Canada thistle. There is evidence that these bugs are still working in 2021 with a dramatic impact on Canada thistle. Along with herbicide treatment this has improved the growth of native grass and reduced the threat of wildland fires and erosion due to more native grasses that will fill in making better grazing for domestic and wildlife animals. Daggett county depends on agriculture ,big game hunting, and tourism. Controlling the noxious weeds is vital for better hay ground, pasture for wildlife and domestic habitat. Using EDRR, EDDMAPPS and monitoring we can track ,map and treat with herbicide spraying the heavily infested areas to decrease the spread into neighboring properties. With the help of before and after pictures and transect lines we can monitor the areas and increase the growth of native grasses with applying the right herbicide treatment. The sippa report does not represent what noxious weeds are on the ground. The summer of 2021 was not as successful as I had hoped due to circumstances. Summer months bring tourism with ATVs, 4 wheelers ,foot traffic and truck traffic . Herbicide application along paths, trails and 2 track roads will reduce the spread of seeds brought into our county from other counties. I have hired 2 spray techs for the summer along with another boom truck giving us 2 trucks and a spray trailer, with the extra help I plan to get more accomplished. There has been an increase of spotted Knapweed in Daggett County with the help of EDRR and monitoring we can get to these infestation sights and stop the spread into other properties using the right herbicide chemicals to control the growth and spread. Local property owners and ranching LLCs have let me start spraying there stack yards to decrease the spread of noxious weed seeds from point A to point B while feeding and moving hay. There needs to be more of this in the upcoming year. Russian olives are a big threat to Daggett county as it seems there is more and more always emerging. The Russian olive issue will be one of my presentation points as how to treat and remove them with cutting and stump painting. With all of these efforts combined we plan on having a successful year treating and controlling noxious weeds .

Project Land Ownership and Partners

Land Ownership

Please list all land ownership acres.

You will find the acres broken out into land ownership in the SIIPA report under the section called "Acreage Report".

Please list all Federal Land (Acres) From SIIPA Report.
770

Please list all Private Land (Acres) From SIIPA Report.
9496

Please list all State Land (Acres) From SIIPA Report.
938

Primary Treatment Species Acres

Please list the acres for each land ownership for your Primary Treatment Species.

You will find the acres broken out into land ownership in the SIIPA report under the section called "Species".

Primary Treatment Species Acres (Federal Land) From SIIPA Report.
3

Primary Treatment Species Acres (Private Land) From SIIPA Report.
1246

Primary Treatment Species Acres (State Land) From SIIPA Report.
76

Secondary Treatment Species Acres

Please list the acres for each land ownership for your Secondary Treatment Species.

You will find the acres broken out into land ownership in the SIIPA report under the section called "Species"

Secondary Treatment Species Acres (Federal Land) From SIIPA Report.
31

Secondary Treatment Species Acres (Private Land) From SIIPA Report.
1554

Secondary Treatment Species Acres (State Land) from SIIPA Report.
64

Project Partner Contributions

Please list the Total In-Kind Contributions.

Total dollar amount for Private Contributions of In-Kind

$1,000.00

Total dollar amount for State and local Government Contributions of In-Kind
$500.00

Please list the Total Monetary Contributions

Total dollar amount for Private Monetary Contributions

Total dollar amount for State and local Government Monetary Contributions
$8,000.00

Total dollar amount for Federal Monetary Contributions
$5,000.00

Please list the dollar amount of the Total In-Kind Contributions
$1,500.00

Please list the dollar amount of the Total Monetary Contributions
$13,000.00

Please provide a complete list of Partners who are providing either In-kind value or Monetary value to your Project. Do not list partners who are not adding value to the project. You can upload a list of partners who support your project as additional information. If you list a partner here, you should have accounted for either In-Kind or Monetary contribution above.

Inkind Partners - Dagget county, Daggett county soil conservation, Daggett county Weed Board,

LLC ranch corporations ,Jesse Platt, James olsen,Sean Hughes,Ned Brady, Dave Roberts.

Monetary Partners- Daggett County, Private land owners and Blm contract

Budget

Proposed Budget Summary

Expense Budget

		Grant Funded	Total Budgeted
Personnel			
	Becky Bindl	$34,000.00	$34,000.00
	Subtotal	**$34,000.00**	**$34,000.00**
Equipment			
	Becky Bindl	$1,500.00	$1,500.00
	Subtotal	**$1,500.00**	**$1,500.00**
Supplies			
	Becky Bindl	$2,500.00	$2,500.00
	Subtotal	**$2,500.00**	**$2,500.00**
Chemicals			
	Becky Bindl	$19,500.00	$19,500.00
	Subtotal	**$19,500.00**	**$19,500.00**
Indirect			
	Becky Bindl	$5,000.00	$5,000.00
	Subtotal	**$5,000.00**	**$5,000.00**
	Total Proposed Cost	**$62,500.00**	**$62,500.00**

Revenue Budget

		Grant Funded	Total Budgeted
Grant Funding			
	Award Requested	$62,500.00	$62,500.00
	Subtotal	**$62,500.00**	**$62,500.00**
	Total Proposed Revenue	**$62,500.00**	**$62,500.00**

Proposed Budget Detail

See attached spreadsheet.

Proposed Budget Narrative

Personnel

Please list the total dollar amount of labor you are asking from the ISM program. Your labor can include: Private Land Owner County Employee Seasonal labor with County, Federal, Municipalities, and University.

Becky Bindl

The county has hired 2 spray technicians, also weed supervisor labor.

Equipment

Please list the total dollar amount of equipment you are asking from the ISM program. Items can include: Spray tank for ATV or UTV. Individual items in this category cannot exceed $5,000.00. If you are requesting the ISM to purchase an item that is in excess of $5,000.00 you will need to include it in the budget category of "Other" and provide a justification for the item.

Becky Bindl

Small engine parts and new hose for hand reel on boom truck. Small spray tanks for an ATV, Agitator unit for tank . Solenoids replacements

Supplies

Please list the total dollar amount of Supplies you are asking from the ISM program. An Example of Approved Items would include: Safety gloves, eye protection, hearing protection, first aid. Backpack and hand sprayers for remote locations. Various hand tools including shovels, rakes, and hammers. Tools needed for Monitoring. Tools needed for Mapping including gps units and tablets. Tools needed for documentation including camera, GoPro, etc. GIS cost associated with mapping. Printing, layout. Archaeological clearance, PLSS clearance with Project County. Purchase of Biological agents, material for collection. Education material such as signs, field guides, and other educational material

Becky Bindl

Various hand tools , flags for transect lines, Chalkboards for Transect lines, markers 300 foot measuring tape, updated first aid kits, Tyvek suits , safety gloves ,masks, and repository masks. GoPro units for new employees for Eddmapps and EDRR . Back pack sprayers ,signs and educational material

Chemicals

Please list the total dollar amount of Herbicide, Surfactant, and Fertilizer you are asking from the ISM program.

Becky Bindl

2 4 D Amine, DuraCor, Milestone, MSM-60 , Escort, Power max , Buccaneer, Kerb, Highlight Blue , 90-10 Surfactant

Indirect

Please list the total dollar amount you will be requesting from the ISM program for administration of your project. (Your administration cost cannot exceed a total of 10% of your total project budget) Any grant application with a higher administration cost of 10% will not be accepted.

Becky Bindl

Indirect money

Performance Plan

Proposed Performance Plan

Chemical Treatment

Goal Name	Goal Type	Goal Details
Treatment 1 Birch Springs /south Valley	Numeric	Number to be Achieved 150
Treatment 2 Birch springs /south valley lateral	Numeric	Number to be Achieved 10
Treatment 1 lower South Valley	Numeric	Number to be Achieved 80
Treatment 2 Lower south valley / Broadbents	Numeric	Number to be Achieved 10
Treatment 1 fowler field Spotted Knapweed	Numeric	Number to be Achieved 40
Treatment 2 Fowler field	Numeric	Number to be Achieved 15
Treatment 1 Frazenda	Numeric	Number to be Achieved 80
Treatment 2 Frazenda	Numeric	Number to be Achieved 10
Treatment 1 south valley Tinkers	Numeric	Number to be Achieved 20
Treatment 2 south valley meadows	Numeric	Number to be Achieved 40
Treatment 1 Conner Basin /gravel	Numeric	Number to be Achieved 30
Treatment 1 Birch creek	Numeric	Number to be Achieved 45
Treatment 1 Dutch John /Greendale	Numeric	Number to be Achieved 100

Goal Name	Goal Type	Goal Details
Treatment 2 Dutch John /Greendale	Numeric	Number to be Achieved 5
Treatment 1A Back pack spray Fowler	Numeric	Number to be Achieved 4
Treatment 1A Back pack spray gravel pits	Numeric	Number to be Achieved 5

Invasive Species Mapping

Goal Name	Goal Type	Goal Details
Treatment 3 Mapping Fowler	Numeric	Number to be Achieved 10
Treatment 4 Revisit South Valley	Numeric	Number to be Achieved 150
Treatment 4 Revisit Birch springs draw	Numeric	Number to be Achieved 50
Treatment 4 Revisit Conner Basin	Numeric	Number to be Achieved 80
Treatment 4 Revisit Dutch John /Greendale	Numeric	Number to be Achieved 100
Treatment 4 Revisit Birch creek	Numeric	Number to be Achieved 250

Monitoring / Documentation

Goal Name	Goal Type	Goal Details
Treatment 5 Transect Frazenda	Numeric	Number to be Achieved 2
Treatment 6 photo sets Frazenda	Numeric	Number to be Achieved 2
Treatment 6 Henry	Numeric	Number to be Achieved 2

Goal Name	Goal Type	Goal Details
Treatment 6 Town water plant	Numeric	Number to be Achieved 2

Education / Outreach

Goal Name	Goal Type	Goal Details
Treatment 7 Outreach /education	Numeric	Number to be Achieved 10
Treatment 7 Outreach /education	Numeric	Number to be Achieved 12

Proposed Performance Narrative

Chemical Treatment

Please define your treatment plan. You should include the following information: -Acres treated under this activity (Type this in "Number to be Achieved") -Projected timing of this activity (which month will this activity happen) -What application type will be used (Aerial, boom, spot etc.)

Treatment 1 Birch Springs /south Valley

Herbicide spraying with boom truck Birch creek drainage and south valley lateral starting on 07/2022

Treatment 2 Birch springs /south valley lateral

spot spray along pipe lines starting on 07/2022

Treatment 1 lower South Valley

Boom spray meadows along the lower south valley drainage starting in 08/2022

Treatment 2 Lower south valley / Broadbents

spot spray along fence lines bordering properties starting on 08/2022

Treatment 1 fowler field Spotted Knapweed

Boom spray for Russian and spotted knapweed in fowler field starting on 10/2022

Treatment 2 Fowler field

spot spray along ditch lines and fence lines starting on 10/2022

Treatment 1 Frazenda

Herbicide spraying with boom truck starting on 09/2022

Treatment 2 Frazenda

Herbicide spot spraying along pivot areas and pipe lines starting on 10/2022

Treatment 1 south valley Tinkers

Herbicide application with boom truck , meadows in south valley starting on 05/2023

Treatment 2 south valley meadows

Spot spray along ditches and pivot lines into areas along roadsides starting on 05/2023

Treatment 1 Conner Basin /gravel

Boom spray Conner basin area and county gravel pits starting on 11/2022

Treatment 1 Birch creek

Boom spray birch creek area along with old gravel pits starting on 06/2023

Treatment 1 Dutch John /Greendale

Boom spray Dutch John and Greendale area which consist of county airstrips gravel pits ,camping areas, trail creek meadows ,eagle creek pasture and hay ground starting on 07/2022

Treatment 2 Dutch John /Greendale

spot spray areas along water ways and fence lines bordering property boundaries starting on 07/2022

Treatment 1A Back pack spray Fowler

Back pack spray along water ways and fence lines starting on 10/2022

Treatment 1A Back pack spray gravel pits

Back pack spray Conner basin gravel pits stating on 06/2023

Invasive Species Mapping

Please define your Mapping plan. You should include the following information: -Number of Acres you will Mapping under this activity (Type this in "Number to be Achieved") -Projected timing of this activity (which month will this activity happen) -List the target species you will be mapping for this activity

Treatment 3 Mapping Fowler

Mapping of new infestations of spotted Knapweed starting on 07/2022

Treatment 4 Revisit South Valley

Revisit infestation sites in south valley lateral starting on 09/2022

Treatment 4 Revisit Birch springs draw

Revisit Birch springs starting on 08/2022

Treatment 4 Revisit Conner Basin

Revisit Conner Basin starting on 05/2023

Treatment 4 Revisit Dutch John/Greendale

Revisit Dutch John and Greendale areas starting on 10/2022

Treatment 4 Revisit Birch creek

Revisit Birch creek starting on 08/2022

Monitoring / Documentation

Please define your Monitoring plan. You should include the following information: -Number of Transects you will place under this activity (Type this in "Number to be Achieved") -Projected timing of this activity (which month will this activity happen) -List the target species you will be Monitoring for this activity

Treatment 5 Transect Frazenda

I will have 2 transect lines one for Musk Thistle and one for Canada Thistle starting on 07/2022

Treatment 6 photo sets Frazenda

Before pictures on September 24 2020 after pictures on 10/2022

Treatment 6 Henry

Before pictures on 08/2021 after pictures on 09/2022

Treatment 6 Town water plant

Before pictures on 08/2020 after pictures on 07/2022

Education / Outreach

Please define your Education / Outreach plan. You should include the following information: -Total people impacted from this activity (Type this in "Number to be Achieved") -Projected timing of this activity (which month will this activity happen) -How this will be accomplished (meeting, brochures, flyers, webinar, etc)

Treatment 7 Outreach /education

Distributing flyers to the community on the hazards of noxious weeds , starting on 12/2022

Treatment 7 Outreach /education

Presentation at weed board on the use of EDDMAPPS starting On 01/2022

Attachment C

DECLARATION OF CONFLICT OF INTEREST

FOR CONTRACTED OR GRANTED OBLIGATIONS WITH THE UTAH DEPARTMENT OF AGRICULTURE AND FOOD

Because contracted /grant obligations with the Utah Department of Agriculture and Food (UDAF) can be construed as "being employed" by the State of Utah you are required by state law (UCA § 67-16-101 et seq.) to disclose any conflict of interest you may have relating to your contract or grant with Utah Department of Agriculture and Food. Please list below and explain any involvement you may have with: State Government, Local Government including committees, districts, or boards, irrigation boards, Colorado River Salinity Control Program, United States Department of Agriculture, Bureau of Reclamation, Bureau of Land Management, U. S. Fish and Wildlife Service, or other party that has influence or participates with UDAF's Invasive Species Mitigation program.

1).

2).

3).

4).

I understand that the filing of this Declaration of Conflict of Interest with Utah Department of Agriculture and Food satisfies the requirements of Utah's Public Officers' and Employees' Ethics Act.

I hereby declare under criminal penalty under the law of Utah that everything stated in this document is true.
