TOTAL COMPOSITE	95	180.4	3.4	6	58	64

Scores

PERCENTILE RANK (Low 1 — 25 — 50 — 75 — High 99)

In the upper left part of this report, averages are printed for the tests, totals, or composite. Several types of scores are reported, including the national percentile rank (NPR), which is the percent of students in this grade in the nation with a lower score on that test, total, or composite.

The graph to the right of the scores provides a visual display of the performance of the district for each test relative to other test areas. The NPRs for the various scores are displayed in horizontal bars. The varying lengths of these bars permit identification of the stronger and weaker areas of achievement for this district.

The lower part of the report provides detailed information about skills in each test area. The number of items for each skill, the average number attempted, the average percent correct for the district, and the average percent correct for students in this grade in the nation are reported. The percentile rank of the percent correct score for the district is also displayed as a horizontal bar. These bars permit identification of stronger and weaker areas of achievement.

SS = Standard Score, GE = Grade Equivalent, NS = National Stanine, NCE = Normal Curve Equivalent, NPR = National Percentile Rank
