Account Code.

Form **W-9**
(Rev. December 2011)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)
DRAGONFLY TECH LLC

Business name/disregarded entity name, if different from above
NIGHTVISION4LESS

Check appropriate box for federal tax classification:
☐ Individual/sole proprietor ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☑ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ C

☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)
PO Box 820

Requester's name and address (optional)

City, state, and ZIP code
Oakhurst, NJ 07755-0820

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
☐☐☐ - ☐☐ - ☐☐☐☐

Employer identification number
4 6 - 3 3 4 1 0 6 7

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here Signature of U.S. person ▶ Date ▶ 08/10/2021

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

Description Features Specification Reviews(0) Also Bought

Noteworthy Features: Manual Gain Control
Feature Summary: The Manual Gain Control is one of the best performance enhancing options you can have on a night vision device. This feature gives the user the ability to override the automatic gain control that is standard on most units, thus allowing the manual gain adjustment to boost light gain beyond where the built-in auto gain would go in very low light situations. In essence it gives the user control to "tweak the brightness" of the night vision device to the users preference based on current light conditions which will often result in resolving objects that were too washed out or too dark to previously be identified.

Product Info:
Our PVS-14 Monocular with a genuine L3 Unfilmed White Phosphor Autogated image tube is just about the ultimate night vision device out there. These units coupled with the right accessories and in the proper configuration will provide awesome night time performance for almost any ask! Currently in use by US Armed Forces, these optics are the first choice for conducting combat operations to include dismounted terrain navigation in extremely low light conditions.

The highly versatile NO/PVS-14 system can be used as a hand-held or hands-free single eye goggle, or as a night weapon system when coupled to a daytime close quarters battle sight. Each system ships with a fully adjustable Head-mount Assembly and adapter to allow right or left eye use.

Simple user controls include a 3-position switch (OFF/ON/Momentary and constant IR). The system's Generation 3 image tube features Automatic Brightness Control and is protected by fully-automated sensors that shut off the unit within seconds if accidentally exposed to bright light. Sophisticated electronics turn off the monocular when removed from the head or helmet mount or when shifted into to the "UP" position.

Light weight, rugged and waterproof, the NO/ PVS-14 is a powerful performer for use in confined as well as open spaces.

Included items:

- Head-mount Assembly
- Swing Arm Adapter
- Soft Case
- Sacrificial Filter
- Demist Shield
- Lens Tissue
- 1 x AA Battery
- Tube Data Card

- Operating Manual
- Warranty Card

The Superior Tactical PVS-14 Night Vision Monocular uses an L3Harris 24UA White Phosphor image intensifier. The PVS-14 is a rugged, lightweight, multi-purpose night vision device that is combat proven. The PVS-14 design was originally commissioned by the United States Military to enable nighttime operations, and is used globally in some of the most challenging environments. The PVS- 14 can be used handheld, helmet mounted or mounted on the included head harness. PVS-14s. The PVS- 14 monocular conforms to 810G Military standards. The PVS-14 monocular is a full-featured unit, weighing less than 12.4 ounces/ 0.32 kilograms. The unit includes manual gain control, an automatic bright light shut-off feature, and a built-in Infrared (IR) illuminator. The automatic brightness control ensures a consistent, steady image by automatically adjusting the visual in real time, based on the available light in the area. The bright light shut-off feature ensures that the high-quality photocathode tube is protected. Superior Tactical PVS-14 includes an array of optional accessories to support virtually any operation.

ITAR STATEMENT

Specifications subject to change without notice. Export of the commodities described herein is strictly prohibited without a valid export license issued by the U.S. Department of State Office of Defense Trade Controls prescribed in the International Traffic in Arms Regulation (ITAR), Title 22, Code of Federal Regulations, Parts 120-130.

EXPORT REGULATIONS

Export of night vision equipment and optical sighting equipment is controlled by the U.S. Department of State Office of Defense Trade Controls, in accordance with International Traffic in Arms (ITAR), Title 22, Code of Federal Regulations Part 120—130 and/or the Export Administration Regulations (EAR) U.S. Department of Commerce.

It is unlawful to export, or attempt to export or otherwise transfer or sell any hardware or technical data or furnish any service to any foreign person, whether abroad or in the United States, for which a license or written approval of the U.S. Government is required, without first obtaining the required license or written approval from the Department of the U.S. Government having jurisdiction.

It is the Resellers/End Users responsibility to request and obtain export licenses for the export of the subject items, and to ensure that the requirements of all applicable laws, regulations and administrative policies are met. Sales or transfers to entities on the List of Debarred Parties, Denied Persons list and Embargoed Countries are strictly prohibited.

These lists can be found at the above US Government websites or at the following links

Specially Designated Nationals list https://www.treasury.gov/resource-center/sanctions/SDN-List/Pages/default.aspx

Important Export Restrictions: Commodities, products, technologies, and services listed herein are subject to one or more of the U.S. export control laws and regulations enforced by the U.S. Department of State, the U.S. Department of Commerce, or the U.S. Department of the Treasury. It is unlawful and strictly prohibited to engage in conduct requiring a license or other approval from the proper U.S. Department without such license or approval. Such conduct includes, but is not limited to, the export, or attempt to export or otherwise transfer or sell any commodity, product or technical data, or furnishing any service to any foreign party, whether abroad or in the United States. Furthermore, U.S. law prohibits the sale, transfer, or export of items to Embargoed Countries and entities on the Department of State's List of Debarred Parties, the Department of Commerce's Denied Persons List, and the Department of the Treasury's Specially Designated Nationals and Blocked Persons List. It is the Buyer's responsibility to be aware of the Lists of Embargoed Countries, Debarred Parties, Denied Persons, and Specially Designated Nationals and Blocked Persons. These Lists can be found at the applicable U.S. Government agency website.

Having lawfully received the above commodities, the Buyer and Entity and/or Person(s) listed in Ship To (1) assumes all responsibility to further comply with the requirements imposed by all applicable laws, regulations and administrative policies and (2) certifies that it will so comply. Diversion contrary to U.S. law is prohibited.

The export control laws and regulations are complex; therefore any summary of such laws and regulations herein is not comprehensive and is not to be taken as legal advice or counseling.

All Exports: These commodities, technology or software were exported from the United States in accordance with the Export Administration Regulations. Diversion contrary to United States law is prohibited.

Questions & Answers

What/how could I record what I'm viewing?

Expert Answer

You would have to use this with a camera, camcorder, or a scope with recording capability. There is no on-board recording capability.

by Ethan C., Gear Expert, September 13, 2019

Will this monocular fit a Sony HDR-XR500 camcorder like an Astroscope 8000? This camcorder has a 37mm filter thread... Your description says....

Expert Answer

Yes, this will fit a camcorder, you would just need an adapter, which unfortunately we do not carry at this time. Night Optics makes a PVS-14 Camera Adapter. It has a 46mm thread, which you can then just use step-down rings available at any camera store to fit to your 37mm thread.

Quality but at a high price!

by Crusader, Verified Owner, August 27, 2017

Very high quality and compact. It does what it's supposed to do and attaches perfectly fine to the L4 G 11 Mount (not included) for the ballistic helmet I have. It comes in a nice olive green pouch that can be attached to your leg, belt, waist, and...
