Attached is the bid tabulation and my engineers estimate.

Stay safe and have a great day, you deserve it!

Received, thank you.

We will discuss the path for this project after Thanksgiving. When able, would you send us an email outlining your thoughts and recommendation(s)?

Thank you
Craig Ide

My recommendation would be to allow CIVCO to talk to the one contractor about his prices. We can then determine if we could negotiate a change order to lower the price to something we can all live with. The change order would be signed at the same time the contract was signed.

During this conversation we would also discuss changes to the plans and specifications that he would suggest to allow him to bid the project cheaper if we were to rebid, this information would also form the basis of the change order.

I do know of one other contractor that was looking at bidding it but did not get his bid together in time. If we do want to rebid, having discussions with the one contractor that did bid would be extremely helpful.

Stay safe and have a great day, you deserve it!
