(sub total for day three	3.5 hrs of CEU time)	
End of Meeting		
Total CEU time		14 hrs

Classes:

**Soares Grounding & Bonding.** This is a PowerPoint presentation created by IAEI that has previously been approved. A team of Code Panel 5 Members will teach it: Chuck Mello, Christine Porter, and Phil Simmons, all currently approved instructors.

**Code Process, Comment Stage.** This is a PowerPoint presentation created by the IAEI on how the Code Process Works, with a focus on creating comments to amend or augment the National Electrical Code. Revisions are made for clarity, to encompass new technology, and to create a more user friendly document. This course has previously been submitted by the Puget Sound Chapter of IAEI and has been modified only to incorporate comments created by other NW Section chapters. It will be taught by Chuck Mello, Joe Andre, and Christine Porter.

**Fuseology.** This is a class created by Cooper Busman and has previously been approved. It will be taught by Al Hewitt of Cooper Busman. It will cover the basics of overcurrent protection and the Short Circuit Current Ratings for equipment.

NOTE: All instructors are approved in the State of WA
