Hello Sir,

We have been talking to Trevor Brooksby. He has mentioned that there are some parts that need to be replaced on the sewer treatment plant. We have discussed going to the CIB meeting for funding to replace those parts. We were thinking it would be a good idea to get that discussion on the commission meeting agenda for Tuesday next week. Also we would like to discuss a sewer infrastructure masterplan at the same time and what funding is available for that plan. If you could get that on the agenda, Trevor, as well and Aaron and I, would be at the meeting to discuss those items. Let me know if you have any questions I will have some costs for the project to you by Monday.

Thanks,

Bryan

Matt
I received this today. What do you think?
Thanks!
Brian
