She inquired about the potential funds needed and questioned budget availability. Mr. Taylor called for direction on concepts that the Council desires. Mr. McGrath clarified that zoning will allow either active or passive features, or a mixture of the two.

7:43:21 PM Mr. Taylor said that Administration is recommending something that would be compatible with the existing Veterans Memorial, including some kind of a water feature. He called for general direction from the Council, so that conceptual plans and related costs can be brought back.

7:44:20 PM Council Members discussed ideas for a water feature and a possible compromise that allows for a gathering place, i.e. a farmers market, a fountain, amphitheater, a small river, etc. Council Member Armstrong suggesting getting input from the LARP Committee, the Planning Commission, citizens, etc.

8:00:02 PM Council Member Ernest Burgess stated that he prefers a fountain or a trickle water fall, but is not in favor of a splash pad or playground. He cautioned that the City must be able to maintain whatever is developed in the area.

8:01:55 PM Council Member Barbour questioned the width of a stream feature. Mr. McGrath indicated that it would probably be about 12 feet wide. Council Member Barbour said that she envisions something commercial going in on the corners of the property once the open space is developed that will bring in sales tax revenue to help with maintenance costs.

8:03:12 PM Mr. Taylor summarized that the Council's direction is to come back with a conceptual design of some use for controlled events; not necessarily something that will draw a lot of outside public, but for a use that will be of benefit to the City.
