

# Thanksgiving Village Home Owners Association

November 25, 2014

Attention: Utah County Board of Commissioners  
Utah County Public Works Department  
Thanksgiving Point Golf Club  
Thanksgiving Village Community Boy Scouts and Volunteers

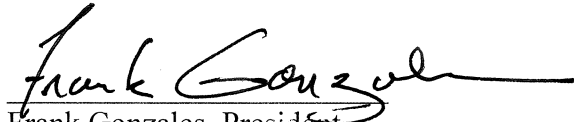

This letter has two purposes. The first is to acknowledge and show appreciation for the cooperation from the Thanksgiving Point Golf Club Administration represented by Fred Harsh; the Utah County Public Works Department represented by Aaron Eager; and more than forty volunteers from the Thanksgiving Village Community following the initiative and leadership of Dustin Bybee and his Boy Scout Troop.

The second purpose is almost unique but of equal importance. In a national environment of governmental gridlock, common patterns of litigation, confrontation and blame, we have an extraordinary example of what civic responsibility and cooperation should and can be. We have a calm identification of need, cordial acceptance of responsibility, spontaneous offers of help from Boy Scouts and adult volunteers and County level cooperation.

The result of this coming together of many has been to restore the environmental health of the large waterfall pond on the golf course and to enhance the beauty of the surroundings for many homes. This has been done in a spirit of total cooperation. The project resulted in the spraying of phragmites, and the removal of tamarisk trees and many varieties of weeds.

It is the commitment of the Thanksgiving village Home Owners Association to see that this example of doing what should be done, in the way it should be done will be the future standard.

Best Regards,

Frank Gonzales, President  
Thanksgiving Village HOA
