Suggested Watering Guide for Central/Northern Utah

All this hot weather causes us to be thirsty. Your tap water is the best beverage to quench that thirst. Take a refillable water bottle with you to help your body stay healthy and hydrated.

Our landscapes also get thirsty this time of year. It is time to re-check the following:

- When is watering taking place?
- How much water is being applied?
- Is the water going where you want it to go?

Please refer to the Suggested Watering Guide to help your landscape only get the water it needs.

If you have any questions regarding this article please contact Dan McDougal, Communications Manager, at Taylorsville-Bennion Improvement District: 801-968-9081 / danmcdougal@tbid.org or visit our website at www.tbid.org
