

Is your business prepared? [Follow this link to find out!](#)

As we reflect on 2015 I hope that you can say that your business is more prepared for disasters and other unforeseen operational disruption. As we finish the newsletter review of the [12-Point Program to Business Continuity Planning](#) please review these 4 points and follow their respective links for more information.

[#9 Insurance Coverage](#)

Businesses pay insurance premiums expecting the coverage will cover losses, yet fewer than 5% of Utah businesses carry earthquake insurance. Review your policies with your provider and identify alternate types of insurance to cover possible gaps.

[#10 Cyber Security Measures](#)

Every business relies on computers and the Internet, making this man-made hazard one of the likeliest, and largest, threats your company will ever face. Educate your employees to safe, smart use, and harden systems against attacks.

[#11 Data Protection / Storage / Recovery](#)

Data loss can cause huge business interruptions. Human error, power failure, a fire at your site, all could affect your [data storage](#). What should you do to protect, store, and recover, vital records?

[#12 Workplace Emergency Supplies Cache](#)

Is your [workplace prepared](#) with enough supplies to sustain occupants for 12 hours or longer? Food and water, additional medications, and means to stay warm, are all supplies to consider placing in your cache

In the coming year will engage the **“Resolve to Be Business Ready in 2016”** Campaign. Looking forward to your participation and meeting with each of your business in 2016.

Remember that at no cost to you, [Be Ready Business](#) provides an informative monthly newsletter article that includes tips and links for the [12 Points of Business Continuity Planning](#) and other tools. To access previous newsletters please [link here](#). In addition we can also support your business in developing and or maintaining disaster continuity. We look forward to the many visits in 2016.
