Riverview Neighborhood Emergency Preparedness
September 2016

A few years ago we worked on emergency preparedness as a neighborhood. Many people have expressed interest in doing it again.

The biggest roadblock to getting prepared is feeling overwhelmed, that it would take a lot of work. To make it easy, we are breaking emergency preparedness into very small steps that only take 5 – 10 minutes each. Take one step a week and in two years you’ll be prepared.

Here are the first few steps for this month. Let’s all take them together so our neighborhood will be prepared.

Week #1—Decide to Prepare
Disasters can strike at any time without warning. Those who are unprepared suffer a lot more. Discuss emergency preparedness with your family and commit to spend a few minutes each week preparing.

Week #2—Pick an Out-of-state Contact
Identify an out-of-state contact in case you are separated during an emergency. Long distance phone calls may work when local calls don’t. Text messages and emails may work when phone calls don’t. Make sure everyone in your family carries the contact information with them.

Week #3—Pick Places to Meet
Pick two meeting places—one right outside your home for when your home isn’t safe and one a little farther away for when your neighborhood isn’t safe. Tell your family to check in so you will know they are safe.

Week #4—Communicate Special Needs
If you are disabled, handicapped, elderly, do not speak English, or have other special needs, get to know your next door neighbors. Make sure they know you may need extra assistance during a disaster.

Extra Credit—Multiple Ways to Communicate
Have more than one way to make phone calls and access the Internet (cellphone, Century Link, Comcast, Voice over IP, etc.). Make sure you can call, text, and email when the power is out.

Since your out-of-state contact may not be able to call you, contact them twice a day to check for messages.
