

Disaster Supply Kit

REMEMBER:

- ▶ Store in a backpack, wheeled suitcase, or other portable container in an easy-access location, as near as possible to an exit
- ▶ Have a separate kit for each family member
- ▶ Items susceptible to water damage should be in plastic bags
- ▶ Check kit twice a year and replace items that have expired or don't work

Cover all 12 Areas of Emergency Preparedness in your disaster supply kits.

ADD ADDITIONAL ITEMS TO KITS TO FIT INDIVIDUAL NEEDS

1) Shelter & Fire

- Waterproof poncho
- Emergency reflective blanket
- Wool or fleece blanket or sleeping bag

Work and School Disaster Supply Kits

You spend about 50% of your day away from home. It is important to have basic disaster supplies wherever you spend time. Use the list on the front of this brochure to make smaller disaster supply kits appropriate for work, school, and wherever you and your family spend time outside of your home.

Work and school kits should be small enough to fit in a desk or locker and their contents should conform to work or school rules and policies.

Vehicle Emergency Kit

You also spend a lot of time in your vehicle. Have an emergency kit in the car to help you and your family be ready for an accident, breakdown, getting lost, or other vehicle related emergency.

Things to do...

- Learn simple repairs like changing a tire, jump starts, and checking fluids. Teach repair skills to all drivers at home.
- Always keep the gas tank at least half full.
- Perform regular vehicle maintenance.
- Check all fluids and tire pressure before any road trips.

If in an accident...

- Remain calm.
- Pull out of traffic and off the main road if possible. If not, **STAY IN THE VEHICLE** until emergency responders arrive.
- Check for injuries on yourself and others.
- If the situation is safe, take pictures of the vehicle damage and accident scene.
