

Blood Endowment Fund

Summary 2022

Presented by Davis County Library

Introduction

The Alan and Kay Blood Endowment Fund is a special endowment created in 1993 to purchase library materials for the residents of Kaysville. Originally, the Kaysville City Library was the recipient of those items, but in August 2006, the City Library joined the Davis County Library as the Kaysville Branch. Since that time, the Davis County Library has made requests to improve Library materials for the Kaysville Branch.

In March 2022, the Library approached the Endowment Board and requested \$20,000 to be spent on the adult, children's and young adult collections at the Kaysville Branch as well as increasing eAudiobooks for all ages. The Endowment Board approved this request. The following is a summary of how the funds were spent.

Summary on Awarded Blood Endowment Funds

Area	Amount Requested	Amount Spent	Number of Titles
