

RESOLUTION 2021-J

A RESOLUTION ESTABLISHING AN INTENT TO MODIFY CITY RECREATIONAL OFFERINGS BY EXPANDING PICKLEBALL COURTS AT PLEASANT VIEW PARK

WHEREAS, Pleasant View City periodically reviews and adjusts existing recreational offerings based on changing community needs and desires; and

WHEREAS, on September 14, 2021, the Pleasant View Pickleball Association (PVPA) presented a petition to the city requesting the installation of additional pickleball courts at Pleasant View Park; and

WHEREAS, efforts are being coordinated between the city and PVPA to explore pickleball court expansion. The proposed location is west of and across from the existing pickleball courts. This has been deemed the most feasible and cost-effective option through use of existing property owned by the city. The intent is to expand the playable areas of existing courts and allow options for tournament play; and

WHEREAS, this requires the relocation of an existing baseball/softball diamond and related programmed activities for youth offerings. The city has a prior baseball/softball diamond location at Shady Lane Park that is being evaluated to relocate existing play, however, it is anticipated that funding will be required to restore this diamond to playable condition; and

WHEREAS, estimated completion costs for this project are \$500,000. The city has identified its funding limitations and an inability for the city to serve as the sole contributor of funding required for completion of this project; and

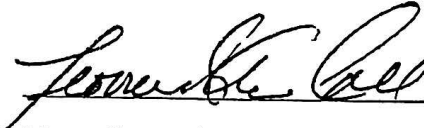

WHEREAS, the PVPA has begun to proactively fundraise for the expansion of existing courts. Additional funding sources, including grant and sponsorship funding, are also being identified and considered. City funding has not yet been provided towards this project in lieu of a needed project scope.

NOW THEREFORE, BE IT RESOLVED, that the Pleasant View City Council establishes a desire and intent to pursue options to expand the number of existing pickleball courts at Pleasant View Park with consideration to add up to eight (8) additional courts, pending and contingent on the availability of and securement of all required funding for project completion.

This resolution is also contingent on the successful ability to relocate all existing recreational offerings impacted by this change.

PASSED AND ADOPTED by the Pleasant View City Council this 9th day of November 2021.

PLEASANT VIEW CITY, UTAH

Mayor, Leonard M. Call

Attest:

City Recorder
