DIVISION OF DRINKING WATER Tim Davis Director Drinking Water Board Kristi Bell, Chair Eric Franson, P.E., Vice-Chair Dawn Ramsey Justin Maughan Corinna Harris Jeff Coombs David O. Pitcher Blake Tullis, Ph.D. Kimberly D. Shelley Tim Davis *Executive Secretary* 

DRINKING WATER BOARD MEETING August 30, 2023, 9:00 AM Via Zoom Webinar & In Person: Davis Conference Center / Zoom Webinar 1651 North 700 West Layton, Utah 84041

Tim Davis Cell # 385-226-6511

#### AGENDA

- 1. Call to Order
- 2. Roll Call Tim Davis
- 3. Approval of Meeting Minutes A. June 27, 2023
- 4. Disclosure for Conflict of Interest
- 5. Directors Report Tim Davis
  - A. New Employees; Tom McOmie
  - B. Enforcement Report (Board Packet Item Only)
  - C. Other
- 6. Rural Water Association Report Dale Pierson
- 7. Financial Assistance Committee Report
  - A. Status Report Michael Grange
  - B. Project Priority List Michael Grange
  - C. Cashflow Michael Grange
  - D. SRF Applications
    - i. State
      - a. Uintah Deauthorization Heather Pattee

ii. Federal

- a. Metropolitan Water District of SLC & Sandy -Michael Grange
- b. Fremont Water Works Company Kjori Shelley
- c. Irontown Additional Funding Cadence Hernandez
- d. Granger-Hunter WID Emerging Contaminants Allyson Spevak
- e. Henefer Change in Scope Heather Pattee

#### 8. Public Comment Period

- 9. Open Board Discussion
- 10. Other

A. Intended Use Plan – Michael Grange

11. Next Board Meeting

| Date:  | November 1, 2023                                  |
|--------|---|
| Time:  | 1:00 PM   |
| Place: | Multi Agency State Office Building / Zoom Webinar |
|        | 195 N 1950 W                                      |
|        | Salt Lake City, Utah 84116                        |

12. Adjourn

# Agenda Item 3(A)

DEIDRE HENDERSON Lieutenant Governor

#### Department of Environmental Quality

Kimberly D. Shelley Executive Director

DIVISION OF DRINKING WATER Tim Davis Director Drinking Water Board Kristi Bell, Chair Eric Franson, P.E., Vice-Chair Dawn Ramsey Justin Maughan Robert Rolfs Jeff Coombs David O. Pitcher Blake Tullis, Ph.D. Kimberly D. Shelley Tim Davis *Executive Secretary* 

DRINKING WATER BOARD MEETING June 27, 2023, 1:00 PM Via Zoom Webinar & In Person: Multi-Agency State Office Building 195 North 1950 West Salt Lake City, UT 84116

#### DRAFT MINUTES

#### 1. Call to Order

Kristi Bell, Chair, called the Drinking Water Board (Board, DWB) meeting to order at 1:05 PM.

2. Roll Call – Michael Grange

Board members present at roll call: Kristi Bell, Eric Franson, Justin Maughan, Robert Rolfs, and Blake Tullis. David Pitcher arrived after the roll call at 1:07 PM.

Division of Drinking Water (DDW, Division) staff present: Michael Grange, Jessica Fitzgerald, Heather Pattee, Linda Ross, Aaron Holloway, Allyson Spevak, Cadence Hernandez, and Kjori Shelley. Tim Davis arrived at 1:57 PM.

- Approval of Meeting Minutes
   A. May 16, 2023
- Eric Franson moved to approve the May 16, 2023, Drinking Water Board meeting minutes. Blake Tullis seconded. The motion was carried unanimously by the Board.
- 4. Disclosure for Conflict of Interest

There was no disclosure of a conflict of interest for this meeting.

5. Rural Water Association Report - Dale Pierson

The reports of the three contracted RWAU employees, Terry Smith, Curt Ludvigson, and Janell Braithwaite are in the packet.

In Dale Pierson's absence, Shannon Rasmussen, Rural Water Association of Utah (RWAU) Deputy Director, highlighted that the reports of the three (3) contracted RWAU staff, Terry Smith, Curt Ludvigson, and Janell Braithwaite are in the packet.

Shannon reported on recent RWAU activities including working closely with DDW Director Davis on the earmarks situation and making progress.

Shannon briefed the Board on the ongoing efforts to improve communication between the DDW and RWAU. The aim is to ensure that this information is promptly shared with RWAU and the Division staff to facilitate support for water systems.

6. Financial Assistance Committee Report A. Status Report – Michael Grange

#### Federal SRF Program

Michael Grange, Infrastructure Funding Section Manager, informed the Board that currently there is a negative balance of (\$83,000,000) in the Federal program as of April 30, 2023. However, there is approximately (\$36,000,000) expected to be received for project funding through the Bipartisan Infrastructure Law (BIL), interest and principal payments, and loans. The projected deficit for next year is estimated to be (\$47,000,000). The limited subsidy available is reflected in the current extended status shown in the snapshot.

Page 2 of the report are the projects that have been authorized by the Board for which SRF staff is in the process of closing loans and moving forward into construction.

#### ARPA Grant Funds

Approximately, there is \$579,000 available for emergency funding requests. This funding needs to be allocated by December 31, 2024. Spent by December 31, 2026. If no further emergency projects arise, the Board aims to identify small projects eligible for ARPA funds by Summer 2024. Congress has expressed a potential rescission of unallocated funds by December 2024.

Page 4 of the report outlines the ARPA project's progress on various initiatives. Staff is making progress on the various ARPA projects.

#### Lead Service Line Funds

Michael informed the Board that the Lead Service Line Funds are being distributed for service line inventory projects. Efforts are aimed at expediting fund allocation and assisting systems with inventory completion and future replacement.

#### **Emerging Contaminants Grants**

Michael informed the Board that the Division is currently only engaged with the Green River project, which received authorization during the May meeting. It is anticipated that additional requests for funding from the Emerging Contaminants Grants will be forthcoming shortly.

#### State SRF Program

The State SRF Program currently has a balance of \$1.8 million. For the coming year, the Division expects a decrease in funding due to sales tax projections, and deductions that go out for state match and operating budgets. By March 31, 2024, the State Project Funds are projected to have a balance of approximately \$4.8 million. Page 12 of the report lists the State SRF projects.

B. Project Priority List - Michael Grange

Michael reported that three (3) new projects are recommended to be added to the Project Priority List:

- 1. Roosevelt City scored 48.9 priority rating points. Their project is to install 12,000 ft of 12-inch transmission line and two pressure-reducing valves (PRV) stations to address low pressures and meet projected demands in the North Crescent area of the City.
- 2. Payson City Christian Life Assembly Church scored 28.0 priority rating points. Their project is to connect the Christian Life Assembly Church to the Payson City system. The Church is a single connection and is currently a separate water system. This project will regionalize the Church into the Payson City water system, therefore eliminating a small single-connection water system.
- 3. Foothill Water Users Association scored 23.7 priority rating points. Their project is to construct a new 250,000-gallon tank, resolve well, wellhouse, and electrical deficiencies, and install water meters and fire hydrant risers.

The Financial Assistance Committee (FAC) recommends that the Drinking Water Board approve the updated Project Priority List as presented, with the addition of these three (3) projects.

David Pitcher inquired about the inclusion of the Foothill Water Users Association project. Michael clarified that the association is facing managerial issues due to the transfer of their water rights to other entities, resulting in a lack of collateral for a loan. The Division is currently collaborating with them to determine ownership of the infrastructure and the loan's recipient before presenting the project to the Board

- David Pitcher moved that the Drinking Water Board approve the updated project priority list. Justin Maughan seconded. The motion was carried unanimously by the Board.
  - C. Cashflow Michael Grange

#### Federal SRF Program

According to the report, the available Federal Program balance for Fiscal Year (FY) 2023 is approximately \$93 million. This results in a surplus of approximately \$10 million compared to the current deficit of \$83.4 million. As the projects progress into construction and reimbursement requests are made, the funds will be available to meet those requests. Looking ahead to FY2024, the Cashflow projection indicates approximately \$126 million in available funds to support more projects.

Michael reported that there are approximately \$10 million in SRF funding requests being presented today, indicating adequate Cashflow to meet reimbursement requests through FY2024.

Michael gave an update on the projections starting from FY2025. The Cashflow report does not include any base grant or BIL funds due to the uncertainty surrounding earmarks and Congress's decision regarding them. The Division has chosen to exclude these funds from the Cashflow until there is more clarity on the future cash influx from the Safe Drinking Water Act and Capitalization Grant by Congress. Over the next two years, the Cashflow analysis shows that the Division can handle the current projects and likely those through the rest of this year. The specific Capitalization Grant for the Base Program remains unknown.

#### State SRF Program

The State SRF Program projections on Page 2 indicate approximately \$23 million for FY2023, \$16 million for FY2024, and \$11 million for FY2025. Despite the decrease in funding over the next few years, it is worth noting that the State program is primarily utilized for smaller municipalities and projects.

#### D. SRF Applications

- i. Federal
  - a. Payson City Christian Life Assembly Cadence Hernandez

Representing Payson City were Payson City Public Works Director, Travis Jockumsen and Cameron Phillips.

Cadence Hernandez informed the Board that Payson City is requesting financial assistance in the amount of \$343,000 to connect the Christian Life Assembly Church to their system. The Church is a single connection and is currently a separate water system. This project will regionalize the Church into the Payson City water system, therefore eliminating a small single-connection water system. This project scored 28 points on the Project Priority List.

The total project cost is \$343,000 and they are requesting the full amount from the Drinking Water Board.

Christian Life Assembly Church approached staff for help connecting to Payson City Water System. Staff suggested the church apply through Payson City for a streamlined evaluation, as the church was recently included within city limits. As this is a consolidation endeavor, Payson City will be held harmless from the consolidation.

The local MAGI for Payson City is \$45,100, which is 97% of the State MAGI. The current average water bill is \$63.90/ERC, which is 1.7% of the local MAGI. The estimated after-project water bill at full loan would be \$64.87/ERC or 1.73% of the local MAGI.

The Financial Assistance Committee recommends that the Drinking Water Board authorize a construction loan of \$343,000 with \$343,000 in principal forgiveness.

David Pitcher raised questions about the origin and transfer of the single connection to the city and its alignment with the annexed areas' master plan.

Travis reported Christian Life Assembly Church's well faces water quality problems. The church plans to use it for irrigation until future development requires both culinary systems. The area expansion matches ongoing development, and Payson City is building a new well for increased demand.

Eric Franson expressed concerns about Payson City's funding considering added water line and system expansion benefits. Travis noted current focus is Christian Life Assembly; benefits for Payson will come, but it's not a top priority now.

Kristi Bell inquired about the IPS points, and Heather Pattee clarified that the IPS points will be addressed once Payson City takes over the water system, those IPS points will disappear.

- Eric Franson moved that the Drinking Water Board authorize a construction loan of \$343,000 with \$343,000 in principal forgiveness. Blake Tullis seconded. The motion was carried unanimously by the Board.
  - b. Kane County WCD Michael Grange

Representing Kane County Water Conservancy District was Michael Noel.

Michael informed the Board that Kane County Water Conservancy District (KCWCD, the District) is requesting financial assistance to complete the Lead Service Line Inventory for the entire District as required by the Lead and Copper Rule Revisions. The total project cost is estimated at \$389,300 and the District is requesting the full amount from the Drinking Water Board.

The District and its consultant will collect and consolidate existing data on culinary water distribution systems and services. This data will be mapped in GIS format. Once this is done, areas with potential lead service lines will be highlighted, and additional field investigations may follow if needed. These investigations will update the lead and copper inventory in the GIS database, potentially involving potholing. The District will also devise a public outreach plan, a sample site & mitigation plan, and a replacement strategy in case further funding for physical line replacements becomes necessary.

The KCWCD service area spans several municipalities and ZIP codes, and a single MAGI for the District is not available. The District calculated a weighted MAGI of \$31,000 for its service area and staff concurs with the methodology the District used and with the MAGI it calculated. The weighted MAGI of \$31,000 is 66.7% of the State MAGI. The current average water bill is \$53.68 per ERC, which is 2.08% of the weighted MAGI. The estimated after-project water bill at a full loan is \$78.54/ERC or 3.04% of the weighted MAGI. Based on the weighted MAGI and after-project water bill, the District qualifies to be considered for additional subsidy.

The Financial Assistance Committee recommends that the Drinking Water Board authorize a planning loan of \$389,300 with 100% principal forgiveness to Kane County Water Conservancy District, from the Bipartisan Infrastructure Law's Lead Service Line Replacement Fund.

- Eric Franson moved that the Drinking Water Board authorize a planning loan of \$389,300 with 100% principal forgiveness to Kane County Water Conservancy District, from the Bipartisan Infrastructure Law's Lead Service Line Replacement Fund. Robert Rolfs seconded. The motion was carried unanimously by the Board.
  - c. Roosevelt City Allyson Spevak

Allyson Spevak informed the Board that Roosevelt has postponed their project.

d. Stockton - Additional - Heather Pattee

Representing Stockton were Mayor Nando Meli and Ted Mickelson with Jones and Demille Engineering.

Heather Pattee informed the Board that Stockton Town was authorized financial assistance to drill a new well in the amount of \$3,000,000 with \$600,000 in principal forgiveness at 2.0% for 30 years. After an in-depth conversation between the town and staff, it was determined that the financial evaluation had some incorrect numbers and did not accurately reflect the financial status of the Town. There was also discussion about adding radio read meters to the project cost to help with water conservation and leak detection.

This project scored 31.4 points on the Project Priority List.

The total project cost is \$3,200,000 and they are requesting the full amount from the Drinking Water Board.

The local MAGI for Stockton Town is \$50,576, which is 109% of the State MAGI. The current average water bill is \$35.71/ERC, which is 0.85% of the local MAGI. The recent loan that was authorized did increase their water bill to \$41.51, and the Town has been proactive in raising rates to \$58 right now. The estimated after-project water bill at full loan would be \$95.08/ERC or 2.26% of the local MAGI. Based on the after-project water bill, Stockton Town qualifies to be considered for additional subsidy.

Heather directed the Board toward the table displaying the options for the project. Option 1 was the original authorization made by the Board, while option 2 is the current recommendation by the Financial Assistance Committee.

The Financial Assistance Committee recommends the Drinking Water Board de-authorize a construction loan of \$3,000,000 with \$600,000 in principal forgiveness to Stockton Town, for a repayable loan amount of \$2,400,000 at 2.50% for 30 years.

The Financial Assistance Committee recommends that the Drinking Water Board authorize a construction loan of \$3,200,000 with \$960,000 in principal forgiveness to Stockton Town, for a

repayable loan amount of \$2,240,000 at 1.0% for 40 years, and an advance of \$450,000 from the principal forgiveness amount for engineering design and to purchase the meters.

Eric Franson raised concerns about the discrepancy in the table, noting that Option 2 had a smaller loan amount, longer term, and lower interest rate, yet a higher after-project water bill compared to Option 1. He further sought clarification that the after-project water bill under option 1 was much higher than the stated \$73.21.

Heather confirmed the accuracy of the table and explained that Option 1's previous debt calculations were incorrect, resulting in distorted figures in their previous presentation to the Board. She also confirmed the accuracy of Eric's statements regarding the after-project water bill. Option 2, with an after-project water bill of \$75, a 40-year term at a 1% interest rate, and a 70/30 split, aligned with the revised calculations.

- David Pitcher moved that the Drinking Water Board de-authorize a construction loan of \$3,000,000 with \$600,000 in principal forgiveness to Stockton Town, for a repayable loan amount of \$2,400,000 at 2.50% for 30 years. Justin Maughan seconded. The motion was carried unanimously by the Board.
- David Pitcher moved that the Drinking Water Board authorize a construction loan of \$3,200,000 with \$960,000 in principal forgiveness to Stockton Town, for a repayable loan amount of \$2,240,000 at 1.0% for 40 years, and an advance of \$450,000 from the principal forgiveness amount for engineering design and to purchase the meters. Justin Maughan seconded. The motion was carried unanimously by the Board.
  - e. Beaver City Additional Heather Pattee

Representing Beaver City was Jason Brown, the city manager.

Heather informed the Board that Beaver City was authorized financial assistance to replace 10,000 feet of old and inadequate distribution line, 2,200 feet of deteriorating pipeline, construct a well house over an existing well, and replace the roof of a well building on July 21, 2022. This project scored 45.4 points on the Project Priority List.

Original project funding as authorized by the Drinking Water Board was a loan of \$2,652,620 with \$1,330,620 in principal forgiveness at 0% for 40 years.

Beaver City opened bids in May 2023 and the apparent lowest bidder's bid came in slightly above the probable cost estimate. Therefore, Beaver City would like to request an additional \$150,000.

The local MAGI for Beaver City is \$33,300, which is 72% of the State MAGI. The current average water bill is \$42.68/ERC, which is 1.54% of the local MAGI. The estimated after-project water bill at full loan would be \$63.33/ERC or 2.28% of the local MAGI. Based on MAGI and the average monthly water bill, Beaver City qualifies to be considered for additional subsidy.

The Financial Assistance Committee recommends the Drinking Water Board authorize an increase in funding of \$150,000 for a total loan amount of \$2,802,620 with \$1,405,620 in

principal forgiveness, for a repayable loan amount of \$1,397,000 at 0% interest for 40 years to Beaver City.

Heather provided an update that Beaver City is nearing the closing stage, and upon authorization, they anticipate closing the project in mid-July.

- David Pitcher moved that the Drinking Water Board authorize an increase in funding of \$150,000 for a total loan amount of \$2,802,620 with \$1,405,620 in principal forgiveness, for a repayable loan amount of \$1,397,000 at 0% interest for 40 years to Beaver City. Eric Franson seconded. The motion was carried unanimously by the Board.
- 7. Directors Report Tim Davis
  - A. New Employees; Aaron Holloway

Aaron Holloway has joined the Administrative Services section as a Contract/Grant Analyst.

B. Comprehensive Rule Update

Tim Davis provided an update to the Board on the progress of updating the R309 100 Rules that will impact water systems across Utah. A comprehensive rule rewrite effort has been undertaken in collaboration with small and large districts. A draft of the revised rules, encompassing all ten sections of the R309 100 Rules, including pump rules, water protection rules, and changes to source water protection rules, has been sent to all water systems and stakeholders across the state. Informal comments on the draft have been requested by **July 17, 2023**.

The objective of this rewrite is to ensure the consistent application of rules and statutes across all water systems in the state, promoting connection to existing systems in locally designated service areas and discouraging the establishment of new water systems within existing service areas. The Director will have the authority to grant exemptions based on risk levels. Low-risk systems, if equipped with a master meter and an operator, will only need to provide annual notification of their status, operator contact, and administrative contact details. The new rules empower the Division to apply regulations to small water systems operating within distribution-only systems to ensure compliance.

Eric Franson raised a question regarding the apparent reversal of concern levels between regulations on master meters in the past.

Tim clarified that the Division's primary concern is identifying existing master meter systems throughout the state, where the type and activities taking place behind the meter are often unknown. The proposed rules aim to address this by giving water systems two years to identify their master meters serving a public water system. The focus initially is on identifying the locations and assessing the level of risk associated with each master meter, considering factors such as the number of connections and people served. This process will set the groundwork for implementing appropriate regulations. Additionally, any new master meter systems connecting in the future would need to provide annual identification. Historically, the Division has typically

become aware of these water systems only when issues arise, such as breakages or public health concerns.

Tim offered to share the draft of the rules with the Board, clarifying that there may be changes to the rules before they are officially presented.

C. Enforcement Report (Board Packet Item Only)

The Enforcement Report can be found in the Drinking Water Board Packet.

- D. Other nothing today
- 8. Public Comment Period

No public comments were made.

9. Open Board Discussion

Tim shared with the Board that today was Robert Rolf's final Board meeting.

Eric Franson proposed that the Board consider visiting projects funded by the Division ahead of a board meeting. The Board expressed interest in such visits. Tim agreed to compile a list of potential visits, with consideration for timing and coordination with the next Board meeting at the RWAU conference.

#### 10. Other

No other items were discussed.

11. Next Board Meeting

Date: August 30, 2023 Time: 9:00 AM Place: Davis Conference Center / Zoom Webinar 1651 North 700 West Layton, Utah 84041

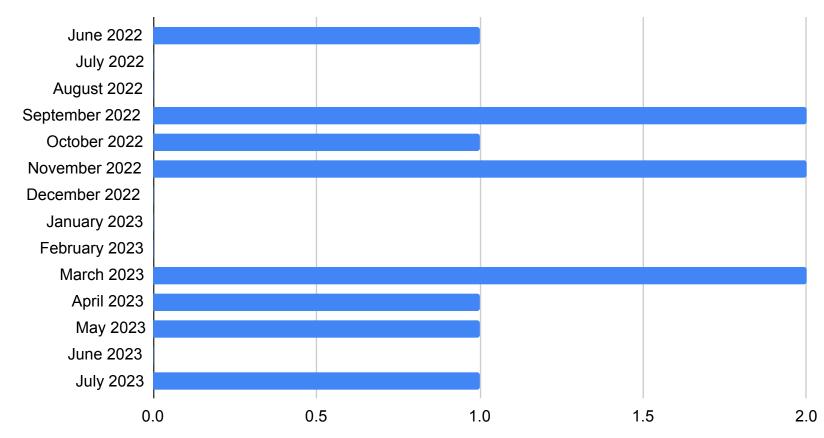

- 12. Adjourn
- David Pitcher moved to adjourn the meeting. Justin Maughan seconded. The motion was carried unanimously by the board.

#### The meeting adjourned at 2:12 PM.

#### DRINKING WATER BOARD BOARD PACKET FOR <u>PROJECT PRIORITY LIST</u>

## There are two new projects being added to the project priority list:

**Granger Hunter Improvement District** scored 40.7 priority rating points. Their project is to construct the Anderson Water Treatment Plant in order to treat groundwater by removing manganese from Well Nos. 16 and 18. Well No. 18 is currently proposed and would be constructed in close proximity to Well No. 16.

**Fremont Water Works** scored 15.3 priority rating points. Their project is to install a new 8-inch transmission line, new master meters for source flow monitoring, fire hydrants, and radio read meters with a radio read meter base and software.

#### **STAFF RECOMMENDATION:**

The Financial Assistance Committee recommends the Drinking Water Board approve the updated Project Priority List.

# Agenda Item 7(D)(i)(a)

Uintah City Presented to the Drinking Water Board August 30, 2023

#### DRINKING WATER BOARD BOARD PACKET FOR CONSTRUCTION ASSISTANCE

#### APPLICANT'S REQUEST:

Uintah City was authorized financial assistance to build two new 375,000-gallon water tanks with associated appurtenances on August 31, 2022.

The total project cost is \$4,273,831. Uintah City received an ARPA grant from the county in the amount of \$1,750,000 and will be contributing \$1,523,831 towards the project. They requested the balance of \$1,000,000 from the Drinking Water Board.

#### **STAFF COMMENTS:**

The original estimate for the project was \$3,523,831. After some discussion with the City and based on the trend of project costs increasing significantly over the past few months it was decided that the request from the Board would move forward with an increase in project cost to ensure there are sufficient funds to complete the project. If the City is able to complete the project with their contribution and the ARPA grant, they will not need the funding from the Board.

The project is under construction and is anticipated to be completed in October 2023. Based on the timeframe for completion of the project and verbal confirmation the project is moving along with no unexpected expenses, the staff is recommending the funds be deauthorized.

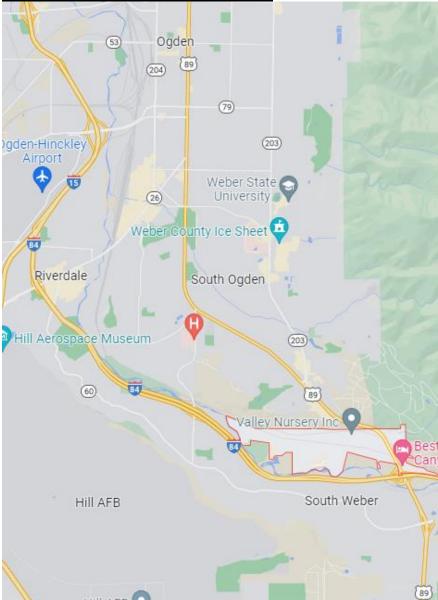

#### FINANCIAL ASSISTANCE COMMITTEE RECOMMENDATION:

The Drinking Water Board deauthorize a loan of \$1,000,000 at 2.0% interest/Fee for 20 years to Uintah City.

Uintah City August 30, 2023 Page 2

#### **<u>APPLICANT'S LOCATION</u>:**

Uintah City is located in Weber County approximately 7 miles South of Ogden.

#### MAP OF APPLICANT'S LOCATION:

## **PROJECT DESCRIPTION:**

Uintah City needs assistance to build two new 375,000 gallon water tanks with associated appurtenances to replace the existing deteriorating tank which has structural deficiencies and is undersized. Replacement of the tank will allow the City to correct the sizing and structural deficiencies and improve water supply to the entire city.

Uintah City August 30, 2023 Page 3

#### **POPULATION GROWTH:**

Population growth is based on Uintah City's estimates.

| Year    | Population | Connections |
|---------|------------|-------------|
| Current | 1,439      | 435         |
| 2030    | 1,512      | 481         |
| 2040    | 1,670      | 531         |

#### **COST ESTIMATE:**

| Legal/Bonding/Admin       | \$40,000    |
|---------------------------|-------------|
| Engineering - Design      | \$300,000   |
| Engineering - CMS         | \$300,000   |
| Construction -            | \$2,878,256 |
| Other SCADA, fencing, etc | \$250,000   |
| Contingency (~10%)        | \$495,575   |
| 1% Loan Origination Fee   | \$10,000    |
| Total                     | \$4,273,831 |

#### **COST ALLOCATION:**

| Funding Source           | Cost Sharing | Percent of Project |
|--------------------------|--------------|--------------------|
| DWB Loan (2.0 %, 20-yr)  | \$1,000,000  | 23%                |
| ARPA grant (from county) | \$1,750,000  | 41%                |
| Local Contribution       | \$1,523,831  | <u>36%</u>         |
| Total                    | \$4,273,831  | 100%               |

#### **IMPLEMENTATION SCHEDULE:**

(Estimated completion dates for major milestones – add or delete rows as needed)

| DWB Funding Authorization: | June 2022 |
|----------------------------|-----------|
| Complete Design            | Nov 2021  |
| DDW Plan Approval:         | Dec 2021  |
| Advertise for Bids:        | June 2022 |
| Bid Opening:               | June 2022 |
| Loan Closing:              | Aug 2022  |
| Begin Construction:        | July 2022 |
| Complete Construction:     | Dec 2022  |

#### **IPS SUMMARY:**

Uintah City does not have any IPS points

# Agenda Item 7(D)(ii)(a)

#### DRINKING WATER BOARD BOARD PACKET FOR CONSTRUCTION ASSISTANCE

#### APPLICANT'S REQUEST:

The Cottonwoods Connection Project (Project) is a collaboration between the Metropolitan Water District of Salt Lake & Sandy (MWDSLS) and Salt Lake City Department of Public Utilities (SLCDPU) to jointly construct new pipelines that, when interconnected, will provide a resilient water supply and add additional capacity and flexibility to exchange water supplies between the two agencies both in the near and long term. The Project is comprised of three separate pipeline sections designed to convey raw and finished water north and south between the Big Cottonwood Treatment Plant and the Little Cottowood Treatment Plant.

Current estimated project cost is \$51.4 million. Metropolitan Water proposes an in-kind engineering planning and design contribution of approximately \$340,000 and is requesting up to \$51 million from the Drinking Water Board.

Based on conversations with the District, Utah Department of Transportation constraints are dictating an aggressive project schedule. Engineering design is underway, and construction is expected to begin in July 2024 and end in June 2026. Project reimbursements of approximately \$21 million are expected during the first year, with \$18 million expected during the second year. However, these are currently only estimates and are subject to change, hence the District's request for up to \$51 million in assistance from the Drinking Water Board.

#### **STAFF COMMENTS:**

Metropolitan Water is a wholesale water supplier, and as such does not fit within the typical financial model staff uses to perform financial evaluations. In addition, calculating a Median Adjusted Gross Income for a large district such as Metropolitan Water is a difficult undertaking. Staff proposes that for the purposes of this financial assistance package the Board consider a portfolio financing approach as outlined in the table below.

| Option | Loan / Grant | Grant | Loan         | Term   | Hardship Grant<br>Assessment Feet |
|--------|--------------|-------|--------------|--------|-----------------------------------|
| 1      | 100% / 0%    | \$0   | \$51,000,000 | 30 yrs | 1.50%                             |

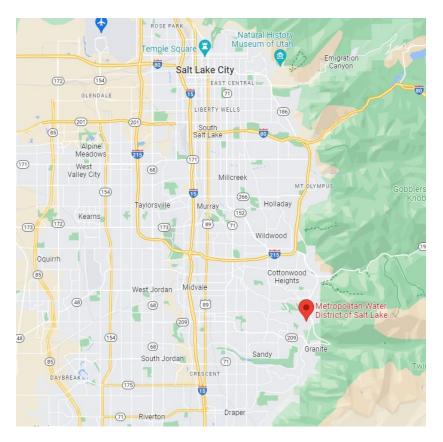

#### FINANCIAL ASSISTANCE COMMITTEE RECOMMENDATION:

The Financial Assistance Committee recognizes both the need for and value of the project to the Salt Lake Valley and forwarded the project to the full Board for further discussion without recommendation.

#### **<u>APPLICANT'S LOCATION</u>:**

Metropolitan Water is located in Salt Lake County and provides water services to several cities including Salt Lake City, Sandy, Millcreek, Holladay, and Cottonwood Heights.

## MAP OF APPLICANT'S LOCATION:

#### **PROJECT DESCRIPTION:**

The Cottonwoods Connection Project (Project) is a collaboration between the Metropolitan Water District of Salt Lake & Sandy (MWDSLS) and Salt Lake City Department of Public Utilities (SLCDPU) to jointly construct new pipelines that, when interconnected, will provide a resilient water supply and add additional capacity and flexibility to exchange water supplies between the two agencies both in the near and long term. The Project is comprised of three separate pipeline sections that are interconnected, refer to Figure ES-1 to convey raw and finished water north and south throughout the project's three lifecycle phases:

**Cottonwood Connector Schedule 1 (CC-1)** – The section from the Big Cottonwood Water Treatment Plant (BCWTP) west to Fort Union Blvd and Nutree Dr., will be owned by SLCDPU, and is recommended as a 36-inch welded steel pipeline (WSP). For Phase 1, it will convey between 5 and 40 million gallons per day (mgd) of raw water to the Salt Lake Aqueduct Replacement (SLAR) pipeline. In Phase 2, which may occur after Phase 3, CC-1 could convey approximately 15 mgd of raw water to the BCWTP. Ultimately, CC-1 will serve as a finished water aqueduct that will be a redundant pipeline to the Big Cottonwood Conduit (BCC); therefore, it is recommended to be designed to a seismic resiliency Class IV per American Lifelines Alliance (ALA) guidelines.

**Salt Lake Aqueduct Replacement (SLAR)** – The section from Fort Union Blvd and Nutree Dr., south to the Little Cottonwood Water Treatment Plant (LCWTP) will be owned by MWDSLS. The sub-reach from Fort Union Blvd to the 10 Million Gallon (MG) Reservoir is recommended as a 60-inch WSP, and the remainder of the pipeline from the 10 MG Reservoir to the LCWTP is recommended as a 72-inch WSP. For Phase 1, the SLAR will convey between 5 and 40 mgd of raw water from CC-1 to the LCWTP for treatment. Like CC-1 for Phase 2, the SLAR could convey approximately 15 mgd of raw water from the LCWTP to CC-1 and ultimately the BCWTP. However, if Phase 3 occurs before Phase 2, the SLAR will become a dedicated finished water pipeline, incorporating the current Little Cottonwood Conduit (LCC) capacity and conveying with the Salt Lake Aqueduct (SLA) a total of 145 mgd to the Terminal Reservoir. The SLAR is recommended to be designed to seismic resiliency Class IV per ALA guidelines.

**Cottonwood Connector Schedule 2 (CC-2)** – The section from the north end of the LCWTP to the south end of the LCWTP at the grit basin will be owned by SLCDPU and is recommended as a 36-inch WSP. CC-2 will be used only for Phase 1 and Phase 2 to convey raw water. If Phase 2 occurs after Phase 3, the LCC may be disconnected from the BCC and repurposed to convey raw water between the LCWTP and the BCWTP. CC-2 is recommended to be designed to seismic resiliency Class III per ALA guidelines.

Figure ES-1: Project Overview

# Agenda Item 7(D)(ii)(b)

### DRINKING WATER BOARD BOARD PACKET FOR CONSTRUCTION ASSISTANCE

### APPLICANT'S REQUEST:

Fremont Waterworks Company is requesting financial assistance to install a new 8-inch transmission line, new master meters for source flow monitoring, fire hydrants, and radio read meters with a radio read meter base and software.

This project scored 15.3 points on the Project Priority List.

The total project cost is \$1,429,250. Fremont Waterworks is contributing \$4,250. They are requesting the balance of \$1,425,000 from the Drinking Water Board.

### **STAFF COMMENTS:**

The local MAGI for Fremont Waterworks is \$28,900 which is 62% of the State MAGI. The current average water bill is \$45.73/ERC, which is 1.9% of the local MAGI. The estimated after project water bill at full loan for 30 years with 2.8% interest would be \$79.34/ERC or 3.29% of the local MAGI. Based on the after-project water bill and MAGI, Fremont Waterworks Company qualifies to be considered for additional subsidy.

Currently Fremont Waterworks has three loans through USDA. The combined balance owed on the loans is \$777,990. The only collateral they have is a water right that is currently in the name of Water Resources as it is being used as collateral for three of the loans. The water right appears to have 543 acre-feet of water for municipal use and has an estimated value of \$2,715,000. Deducting the balance of the three loans, the available value for collateral for this loan would be \$1,937,010.

| Option | Loan / Grant | Principal<br>Forgiveness | Loan        | Term   | Interest<br>Rate | Water<br>Bill | % Local<br>MAGI |
|--------|--------------|--------------------------|-------------|--------|------------------|---------------|-----------------|
| 1      | 100 / 0      | \$0                      | \$1,425,000 | 30 yrs | 2.8%             | \$79.34       | 3.29%           |
| 2      | 70 / 30      | \$428,000                | \$997,000   | 30 yrs | 2.0%             | \$68.38       | 2.84%           |
| 3      | 70 / 30      | \$428,000                | \$997,000   | 30 yrs | 1.0%             | \$65.93       | 2.74%           |

### FINANCIAL ASSISTANCE COMMITTEE RECOMMENDATION:

The Drinking Water Board authorize a construction loan of \$1,425,000 with \$428,000 in principal forgiveness to Fremont Waterworks Company, for a repayable loan amount of \$997,000 at 1.0% interest for 30 years.

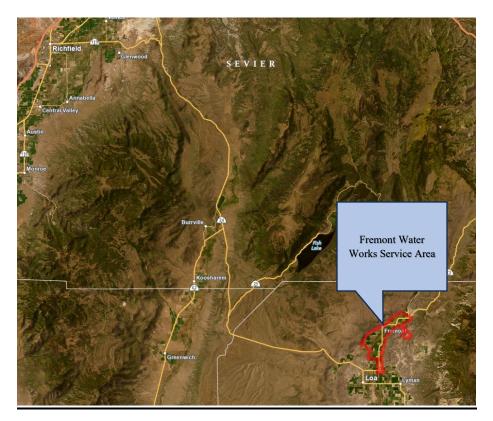

Fremont Waterworks has no IPS points.

Fremont Waterworks Company August 30, 2023 Page 2

### APPLICANT'S LOCATION:

Fremont Waterworks Company is located in Wayne County approximately 50 miles southeast of Richfield.

### MAP OF APPLICANT'S LOCATION:

### **PROJECT DESCRIPTION:**

Install a new 8-inch transmission line, new master meters for source flow monitoring, fire hydrants, and radio read meters with a radio read meter base and software.

There is little information available on water right pricing for Wayne County. Data from the nearby Sevier Valley shows the typical cost per acre-foot is approximately \$18,000 to \$22,000. In Koosharem (halfway between Sevier Valley and Fremont), the cost is approximately \$15,000 to \$20,000 per acre-foot. These values were used to make a conservative estimate for the Fremont Water Works water right of at least \$5,000 per acre-foot (assumed to be 25% to 50% of true market value (it is highly likely that these water rights have true market value of \$15,000 to \$20,000 per acre-foot)). At this rate, the water right owned by Fremont Water Works is worth around \$2,715,000.

Fremont Waterworks Company August 30, 2023 Page 3

### **POPULATION GROWTH:**

A moratorium has just been lifted and it is anticipated that the system will experience new growth over the next 5 to 10 years. It is anticipated that all development will be residential, and that additional infrastructure will be required to meet the increased demands. Any proposed subdivision will be required to determine their impact on the system and mitigate any deficiencies they cause.

| Year    | Population | Connections |
|---------|------------|-------------|
| Current | 320        | 222         |
| 5 year  | 344        | 284         |
| 10 year | 377        | 317         |

### **COST ESTIMATE:**

# Agenda Item 7(D)(ii)(c)

Irontown Presented to the Drinking Water Board August 30, 2023

### DRINKING WATER BOARD BOARD PACKET FOR CONSTRUCTION ASSISTANCE

### **APPLICANT'S REQUEST:**

Irontown is requesting additional funding to complete their waterline project replacing and upgrading distribution lines, and hydrants, and installing new water meters.

This project scored 47.1 points on the Project Priority List.

The system is requesting \$106,100 in additional funding.

### **STAFF COMMENTS:**

The local MAGI for Irontown is \$34,700, which is 75% of the State MAGI. The current average water bill is \$43.28/ERC, which is 1.5% of the local MAGI. The estimated after project water bill at full loan would be \$81.65/ERC or 2.82% of the local MAGI.

| Option | Loan / Grant | Grant    | Loan      | Term   | Interest<br>Rate | Water<br>Bill | % Local<br>MAGI |
|--------|--------------|----------|-----------|--------|------------------|---------------|-----------------|
| Base   | 100 / 0      | \$0      | \$106,100 | 30 yrs | 2.73%            | \$ 81.65      | 2.82%           |
| 1      | 80 / 20      | \$21,100 | \$85,000  | 30 yrs | 0%               | \$ 78.28      | 2.71%           |

### FINANCIAL ASSISTANCE COMMITTEE RECOMMENDATION:

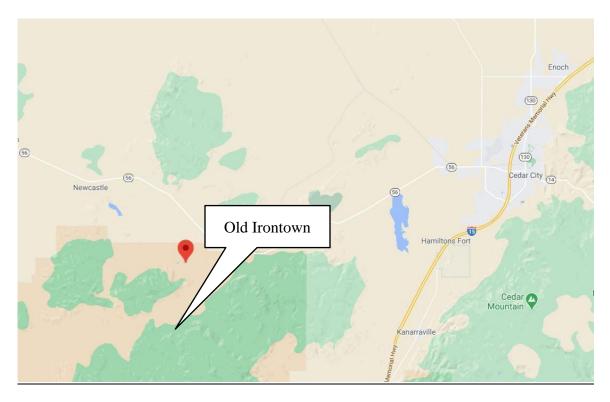

The Drinking Water Board authorize a loan of \$106,100 with \$21,100 in principal forgiveness for a repayable loan amount of \$85,000 at 0% interest for 30 years to Irontown.

Irontown has no points on their IPS report.

Irontown August 9, 2023 Page 2

### **<u>APPLICANT'S LOCATION</u>:**

Old Irontown is in Iron County, approximately 25 miles west of Cedar City.

### **PROJECT DESCRIPTION**

Replace 17,230 ft of 6-inch PVC distribution lines with 8-inch distribution line and replace 12 valves. Replace 1-inch lateral lines to the 50 existing water connections and install new water meters and meter enclosures. Replace 22 existing fire hydrants. These proposed improvements were identified in the Old Iron Town water master plan

Irontown August 9, 2023 Page 3

### **POPULATION GROWTH:**

Projected population and connections over the next 20 years is estimated by the system:

| Year | Population | Connections |
|------|------------|-------------|
| 2020 | 95         | 68          |
| 2030 | 133        | 74          |
| 2040 | 149        | 80          |

# Agenda Item 7(D)(ii)(d)

<u>Granger-Hunter Improvement District</u> Presented to the Drinking Water Board August 30, 2023

### DRINKING WATER BOARD BOARD PACKET FOR CONSTRUCTION ASSISTANCE

### **APPLICANT'S REQUEST:**

Granger-Hunter Improvement District is requesting financial assistance to construct the Anderson Water Treatment Plant in order to treat groundwater by removing manganese from Well Nos. 16 and 18. Well No. 18 is currently proposed and would be constructed in close proximity to Well No. 16.

This project scored 40.7 points on the Project Priority List.

The total project cost is \$11,457,840. Granger-Hunter has received a \$3,333,333 WaterSMART grant for this project. Granger-Hunter is contributing \$5,624,507. Granger-Hunter is requesting that the balance of \$2,500,000 be allocated from the Bipartisan Infrastructure Law's (BIL) Emerging Contaminant Assistance Fund to treat the manganese, which is eligible for financial assistance under the BIL's Emerging Contaminants funding criteria.

### **STAFF COMMENTS:**

The local MAGI for the Granger-Hunter Improvement District is \$36,400, which is 78% of the State MAGI. The current average water bill is \$59.99/ERC, which is 1.98% of the local MAGI. The estimated after-project water bill at full loan would be \$61.80/ERC or 2.04% of the local MAGI. Financial assistance from the Bipartisan Infrastructure Law's Emerging Contaminant Assistance Fund must be provided to systems as a 100% subsidy. Granger-Hunter, as a disadvantaged community, qualifies to receive assistance from this fund as indicated in the table below.

| Option | Loan / Grant | (Principal   | Loan | Term  | (HGA) | Water   | % Local |
|--------|--------------|--------------|------|-------|-------|---------|---------|
|        |              | Forgiveness) |      |       |       | Bill    | MAGI    |
| Base   | 0%/100%      | \$2,500,000  | \$0  | 0 vrs | 0.00% | \$61.55 | 2.03%   |

### FINANCIAL ASSISTANCE COMMITTEE RECOMMENDATION:

The Drinking Water Board authorize a construction loan of \$2,500,000 with \$2,500,000 in principal forgiveness from the Bipartisan Infrastructure Law's Emerging Contaminant Assistance Fund to Granger-Hunter Improvement District.

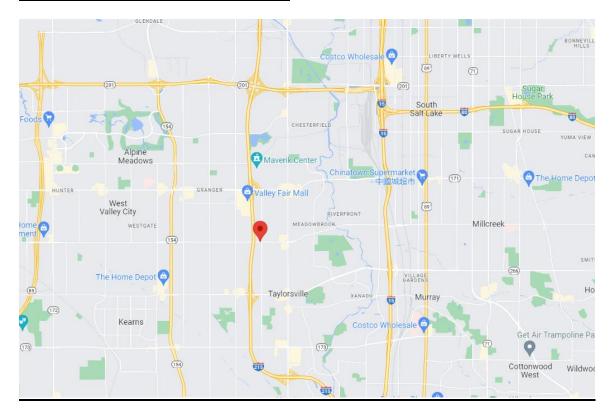

Granger-Hunter Improvement District has no points on their IPS report.

Granger-Hunter Improvement District August 30, 2023 Page 2

### **APPLICANT'S LOCATION:**

Granger-Hunter Improvement District is located in Salt Lake County approximately 9 miles southwest from Salt Lake City

### MAP OF APPLICANT'S LOCATION:

### **PROJECT DESCRIPTION:**

Construct the Anderson Water Treatment Plant in order to treat groundwater by removing manganese from Well Nos. 16 and 18. The location of Well No. 18 is yet to be determined but will be constructed in close proximity to Well No. 16. It is assumed that due to its proximity to Well No. 16 and a planned depth like that of Well No. 16, that the water quality will be like that of Well No. 16. Therefore, it is assumed that both Well Nos. 16 and 18 have similar water quality concerns with manganese, ammonia, and iron.

The Andersen WTP will include the following equipment: pressure filters with media (GreensandPlus type media), and pre- and post-chlorination provided by an onsite sodium hypochlorite generation system and injected with dosing pumps. This equipment is designed to address both the manganese and iron removal with the pressure filters, and oxidation of the manganese, iron, and ammonia with the additional chlorination step. It is recommended to plan on post-chlorination but include prechlorination as an option.

Granger-Hunter Improvement District August 30, 2023 Page 3

### **POPULATION GROWTH:**

Population is based on Granger-Hunter's estimates.

| Year    | Population | Connections |
|---------|------------|-------------|
| Current | 132,887    | 27,597      |
| 2030    | 143,163    | 30,049      |
| 2040    | 155,659    | 31,879      |

### **COST ESTIMATE:**

| Environmental             | \$25,000     |

# Agenda Item 7(D)(ii)(e)

<u>Henefer Town</u> Presented to the Drinking Water Board August 30, 2023

### DRINKING WATER BOARD BOARD PACKET FOR CONSTRUCTION ASSISTANCE

### APPLICANT'S REQUEST:

Henefer Town was authorized financial assistance in the amount of \$3,200,000 for 30 years at 1.0% Hardship Grant Assessment Fee to install a secondary water system including transmission and distribution on June 7, 2022, and May 16, 2023.

The total project cost is \$7,635,000,000. The original project has been separated into 2 projects with the distribution lines being funded with a Watersmart grant and Division of Water Resources loan. The Upper Ditch project will be funded with the Drinking Water Board funding. Henefer has run into an issue with the irrigation company they were working with to get the water from the intake structure at Echo reservoir. They would like to pump the water directly from the river to a storage pond within city limits.

### **STAFF COMMENTS:**

The local MAGI for Henefer Town is \$68,700, which is 148% of the State MAGI. The current average water bill is \$41.45/ERC, which is 0.72% of the local MAGI. The estimated after project water bill at full loan, with the additional request, would be \$105.92/ERC or 1.85% of the local MAGI.

| 1      | 100% Loan    | \$                  | \$3,200,000 | 30 yrs | 1.0%             | \$105.92 | 1.85%   |

### FINANCIAL ASSISTANCE COMMITTEE RECOMMENDATION:

The Drinking Water Board authorize a change in the scope of work to include construction of a 4-acre foot pond and pump station.

Conditions include that they resolve all points on their IPS report.

### **APPLICANT'S LOCATION:**

Henefer Town is located in Summit County approximately 10 miles North of Coalville.

### Heneter (6) Echo Coalville Hoytsville

### MAP OF APPLICANT'S LOCATION:

### **PROJECT DESCRIPTION:**

Henefer Town had a master plan completed in 2018 and the most cost effective solution for the system is to install a secondary irrigation system. Without the secondary irrigation system they would need to install many improvements to the culinary system to meet current and future requirements in source, storage, distribution and water rights

Constructing a secondary water system, including transmission and distribution. The Distribution System will include 260 water connections and fix asphalt and road areas. The Transmission Line will include 19,949 ft of 20" HDPE pipe, 3180 ft of 18" HDPE pipe, 1980 ft of 14" HDPE, and 80 ft of 12" HDPE pipe.

This project will be constructed in 2 phases, as separate projects and funded separately.

- 1. Henefer Secondary This is the original project that was funded with a WEEG grant (WaterSmart) of \$1.5M and a loan from Water Resources. The project is to install distribution lines to individual connections with meters and the Henefer Ditch lining project to conserve water seeping from the ditch for the secondary system. (This is the project that will seek UDAF funding.)
- 2. Henefer Upper Ditch *Updated scope:* Construction of a pump station adjacent to the Weber River to pump water from the river just under 1 mile to a 4 acre foot pond to be built on city owned property. *Original scope:* This is the project to replace/upsize the existing Henefer Upper pipeline from the Echo Reservoir to feed the Henefer Secondary distribution system. This is the project the town approached Drinking Water about funding.

**<u>POPULATION GROWTH:</u>** Population growth is based on Henefer's estimates.

| Year    | Population | Connections |
|---------|------------|-------------|
| Current | 1,025      | 315         |
| 2030    | 2,155      | 664         |
| 2040    | 3,285      | 1,014       |

### **COST ESTIMATE:**

| Legal/Bonding/Environ   | \$141,926      |
|-------------------------|----------------|
| Engineering - Design    | \$154,000      |
| Engineering - CMS       | \$154,000      |
| Construction -          | \$2,718,074    |
| Contingency (~10%)      | Included above |
| 1% Loan Origination Fee | \$32,000       |
| Total                   | \$3,200,000    |

### **COST ALLOCATION:**

| Funding Source     | Cost Sharing | Percent of Project |
|--------------------|--------------|--------------------|
| DWB Loan 2%, 20-yr | \$3,200,000  | 42%                |
| DWRe loan          | \$2,135,000  | 28%                |
| WaterSMART Grant   | \$1,500,000  | 20%                |
| Local Contribution | \$377,000    | 5%                 |
| UDAF Grant         | \$423,000    | 5%                 |
| Total              | \$7,635,000  | 100%               |

### **IMPLEMENTATION SCHEDULE:**

| DWB Funding Authorization: | Aug 2023 |
|----------------------------|----------|
| Complete Design            | Sep 2022 |
| DDW Plan Approval:         | NA       |
| Advertise for Bids:        | Sep 2023 |
| Bid Opening:               | Sep 2023 |
| Loan Closing:              | Oct 2023 |
| Begin Construction:        | Nov 2023 |
| Complete Construction:     | Oct 2024 |
