8. **DISCUSSION AND POSSIBLE ACTION-GREEN FARM MASTER DEVELOPMENT AGREEMENT**

Amy Hugie went over the timeline for the Green Farm master development agreement.

Bryan Bayles asked about the water feature that is discussed in the master development agreement and if that was necessary for the Green Farm project.

Mike Flood said there is a fountain currently in Green Farm that has not worked. He expressed concern about whether the secondary water district would allow them to supply water to the current water feature and the new water feature.

Councilmember Swapp suggested connecting the water feature to culinary water and having it metered.

Mike Flood said he takes responsibility for what is not done in the project. He said he would like it done completely before speaking to it.

Amy Hugie suggested Nilson Homes coming to the September 6, 2023, meeting for an update.

Councilmember Dixon suggested a walkthrough with Green Farm residents so their concerns could be addressed.

Councilmember Morse asked why the home construction deadlines were always met but the master development deadlines were not.

Mr. Flood said that he is trying to work with the landscaping company to complete these deadlines.

Councilmember Swapp said that after reviewing emails it looks like both sides are failing a little bit because there were clear instructions on what Nilson Homes needed to do and not all of that was followed.

Mr. Flood said he would follow up on that.

Councilmember Swapp expressed concern about pushing this out 15 days.
