- A. Welcome & Roll Call
- B. <u>Pledge of Allegiance</u> Casey Warren
- **C.** <u>Invocation</u> TBA, by invitation
- D. Public Comment

(This is an opportunity to address the City Council regarding your concerns or ideas. No action will be taken during public comment. Please try to limit your comments to three minutes.)

E. <u>Presentations and Reports</u>

- 1. Mayor's Report
- 2. City Council Assignment Reports

F. <u>Consent Items</u>

1. Consideration to approve meeting minutes from:

September 5, 2023 Council Work Session September 5, 2023 Council Meeting

G. Action Items

1. Consideration of Resolution #2023-27 renewing a contract with Robinson Waste for garbage and recycling services.

Presenter: Shawn Douglas

2. Consideration of Resolution #2023-28 awarding a bid to Paragon Construction for the 2023 Water Line Improvement Project in an amount not to exceed \$642,882.00.

Presenter: Shawn Douglas

3. Consideration of Resolution #2023-29 adopting the Intercounty Automatic Aid Fire Agreement

Presenter: Jared Sholly

4. Consideration of Resolution #2023-30 for a Development Agreement for property located at approximately 4851 South 1500 West as requested by 6S T Development and Tesla.

Presenter: Steve Brooks

5. Consideration of Ordinance #972 regarding proposed Rezone Request from Mobile Home Park-Recreational Vehicle Park (RMH-1) Zoning and Multiple-Family Residential (R-4) Zoning to Regional Commercial (C-3) Zoning for property located at approximately 633 West 4400 South, Riverdale, Utah 84405, as requested by Wright Development Group.

Presenter: Mike Eggett

6. Motion to un-table and consideration of Ordinance #970 approving proposed Riverdale City Comprehensive General Plan Update.

Presenter: Mike Eggett, Chris Hupp (Psomas)

7. Discussion and action regarding potential noise issue at Shake Shack as it pertains to Riverdale City Code Title 4, Chapter 8: Noise Abatement.

Presenter: Steve Brooks

- 8. Motion to adjourn into a closed session pursuant to UCA 52-4-205(c) to discuss pending or reasonably imminent litigation.
- 9. Discussion and action to consider lawsuit settlement negotiations.

H. Comments

- 1. City Council
- 2. City Staff
- 3. Mayor

I. Adjournment

In compliance with the Americans with Disabilities Act, persons in need of special accommodation should contact the City Offices (801) 394-5541 at least 48 hours in advance of the meeting.

Certificate of Posting

The undersigned, duly appointed City Recorder, does hereby certify that the above notice and agenda was posted within the Riverdale City limits on this 28th day of September, 2023 at the following locations: 1) Riverdale City Hall Noticing Board 2) the City website at http://www.riverdalecity.com/3) the Public Notice Website: http://www.utah.gov/pmn/index.html.

Michelle Marigoni Riverdale City Recorder

**The City Council meeting on October 3, 2023 is viewable electronically and may be accessed by clicking on the link below. The regular City Council Chambers will be available for in-person participation. The Agenda for the meeting is also attached above. **

https://www.youtube.com/channel/UCegcYe-pIXSRZGd5llencvA/videos?view_as=subscriber

Minutes of the **Work Session** of the **Riverdale City Council** held Tuesday September 5, 2023, at 5:30 p.m., at the Civic Center in the Council Chambers, 4600 S Weber River Dr., Riverdale City, Weber County, Utah.

Present: City Council: Braden Mitchell, Mayor

Alan Arnold, Councilmember Bart Stevens, Councilmember

Steve Hilton, Councilmember (via telephone)

Karina Merrill, Councilmember

City Employees: Steve Brooks, City Administrator/Attorney

Casey Warren, Police Chief Michelle Marigoni, City Recorder

Excused: Anne Hansen, Councilmember

Visitors:

The City Council Work Session meeting began at 5:30 p.m. Mayor Mitchell welcomed all in attendance and noted for the record that all Councilmembers were present except for Councilor Hansen, who was excused. Members of the city staff were also present.

Public Comment:

Presentations and Reports:

- 1. Mayor's Report
- 2. City Council Assignment Reports
- 3. Staff Report
- 4. UDOT Presentation

Consent Items

1. Consideration to approve meeting minutes from:

August 15, 2023 Council Work Session August 15, 2023 Council Meeting

Mayor Mitchell asked if there were any changes or corrections to the minutes. There were no changes.

2. Consideration to appoint Casey Warren as Riverdale City Police Chief.

Action Items

 Consideration of Ordinance #969 approving changes to Riverdale Municipal Code Title 8, Chapter 6: Transfer of Water Right.

Mr. Douglas explained that the state has been asking cities to evaluate the amount of water required by developers. Riverdale's water requirements were a bit high since implementing the latest landscaping ordinances. Water usage has decreased.

2. Consideration of Ordinance #970 approving proposed Riverdale City Comprehensive General Plan update.

Mr. Eggett explained Psomas and their partners have been working on the new General Plan over the past year, after Riverdale received a grant from the Wasatch Front Regional Council to do so. He went over the executive summary, noting the appropriate public notice and public hearings were completed and that it has been recommended for approval by the Planning Commission. Chris Hupp was present for a short presentation.

3. Consideration of Ordinance #971 approving proposed modifications to Titles 3, 4, 5 and 7 of the Riverdale Municipal Ordinance Code concerning firearm possession and use.

Mr. Brooks reminded Council there was a gentleman who attended a meeting and brought up some portions of code which were outdated compared to the state law regarding firearm restrictions. The proposed updates would bring Riverdale's code up to the state's requirements.

Mr. Arnold inquired about the reason for having a separate code and not simply referring to state law. Mr. Brooks explained there are multiple code sessions that refer to more specific situations that aren't necessarily covered by state code. Mr. Arnold felt any rules set by the state should not have a second code for Riverdale.

 Consideration to adjourn into a closed session pursuant to UCA 52-4-205(c) to discuss pending or reasonably imminent litigation.

Mr. Brooks reported this would be an update regarding current legal situations.

Comments

- 1. City Council:
- 2. City Staff:
- 3. Mayor:
 - Mayor Mitchell asked what the location would be for the farmer's market. Mr. Brooks said he was not sure, but it was still moving forward and he would speak to Mr. Taylor later in the week.
 - The Utah League of Cities and Towns (ULCT) Conference was scheduled for the next day.

Adjournment

Having no further business to discuss, the Work Session was adjourned at 5:48 p.m.

Date Approved:

Minutes of the Regular Meeting of the Riverdale City Council held Tuesday, September 5, 2023, at 6:00 p.m., at the Civic Center, 4600 S Weber River Dr., Riverdale City, Weber County, Utah.

Present: City Council: Braden Mitchell, Mayor

Alan Arnold, Councilmember Bart Stevens, Councilmember

Steve Hilton, Councilmember (via telephone)

Karina Merrill, Councilmember

City Employees: Steve Brooks, City Administrator/Attorney

Casey Warren, Police Chief Michelle Marigoni, City Recorder

Excused: Anne Hansen, Councilmember

Visitors:

A. Welcome & Roll Call

The City Council meeting began at 6:00 p.m. Mayor Mitchell called the meeting to order and welcomed all in attendance, including all Council Members and all members of the public.

B. Pledge of Allegiance

Mayor Mitchell invited Bart Stevens to lead the Pledge of Allegiance.

C. Invocation

Mayor Mitchell offered the invocation.

D. Public Comment

Mayor Mitchell invited any member of the public with questions or concerns to address the Council and asked that they keep their comments to approximately three minutes, noting no action will be taken during public comment.

Scott Brenkman from Pleasant View spoke about Casey Warren and what a great leader he would be. He is a hard worker, knowledgeable, a great investigator and he has full faith and confidence in him as chief. He appreciated the time he was able to spend with Chief Warren. He thanked council for the awesome time he had at Riverdale and said it was a great choice to promote Casey.

James Ebert from Farr West said he worked for Riverdale for 23 years, and officers don't always work for the same city for that long. The culture at Riverdale is a great one and he was grateful to see it continue. Casey is very dedicated to his profession and his family. He asked Council to continue to take care of and support law enforcement. He has seen what has happened to law enforcement for the past few years and it takes a dedicated person to commit to the profession.

Dave Workman worked for Riverdale for 31 years. He was grateful for the job he had here at Riverdale from the beginning to the end. The city council and mayor always had his back and everyone in the county wanted to come to Riverdale. He thanked Council for their great decision to appoint Casey Warren. He respects and is grateful for the friendship with him.

E. Presentations and Reports

1. Mayor's Report:

- ULCT Conference tomorrow
- Saturday 8am day of service

2. City Council Assignment Reports

3. Staff Report

- The police department invited a little league team who was practicing nearby to join a block party. The coach appreciated it, and the kids loved it.
- The fire department helped 28 elderly homeowners change their smoke detector batteries.

4. UDOT Presentation

Nancy Cozzins presented an update on the 5600 South project.

F. Consent Items

1. Consideration to approve the City Council meeting minutes from August 15, 2023 Work Session and Regular Meeting.

Mayor Mitchell invited any corrections or comments regarding the above referenced meeting minutes. There were none.

MOTION: Councilmember Arnold moved to approve the meeting minutes. Councilmember

Merrill seconded the motion. There was not any discussion regarding this motion.

The motion passed unanimously in favor.

2. Consideration to appoint Casey Warren as Riverdale City Police Chief.

Mayor Mitchell said he did very well during the interview process.

MOTION: Councilor Stevens moved to approve the appointment of Casey Warren as

Riverdale City Police Chief. Councilor Merrill seconded the motion.

Councilor Arnold stated everything Mr. Warren does is stellar. He thanked him

and agreed with all the previous comments. The motion passed unanimously in favor.

Casey Warren was given the Oath of Office and sworn in by Michelle Marigoni, City Recorder.

Chief Warren thanked his family individually and said he wouldn't be here without their support. Police officers couldn't do it without their families, and they deserve the credit. He thanked Chief Brenkman and Chief Workman for mentoring him. Riverdale is the best place in the state to work because they have the best residents, staff, and council members in the state. He thanked everyone for their support so good people can be recruited and kept. He appreciates the culture, which he said began with Chief Workman, Chief Brenkman, and James Ebert. He is grateful for everyone in the room – friends, family, politicians, staff, and everyone else.

G. Action Items

1. Consideration of Ordinance #969 approving changes to Riverdale Municipal Code Title 8, Chapter 6: Transfer of Water Right.

Mr. Douglas reported research was done to make sure the city was not asking for too much or too little water for development. He explained the amount required was being lowered due to the conservation and landscaping ordinances.

MOTION: Councilor Arnold moved to approve Ordinance #969 approving changes to

Riverdale Municipal Code Title 8, Chapter 6: Transfer of Water Right.

SECOND: Councilor Merrill

ROLL CALL VOTE: Councilor Arnold: Yes

Councilor Hansen: Absent
Councilor Hilton: Yes
Councilor Merrill: Yes
Councilor Stevens: Yes

Motion passes unanimously.

2. Consideration of Ordinance #970 approving proposed Riverdale City Comprehensive General Plan update.

Mr. Eggett gave a brief history of the process and public input for the process of creating the new Comprehensive General Plan update, noting that Chris Hupp with Psomas was present and that it was recommended for approval by the Planning Commission.

Chris Hupp presented the new General Plan document and went over the details and process. Over 2500 responses were received from Riverdale residents, amounting to about 25% of residents. This was higher participation than any other cities they have worked with.

Mayor Mitchell thanked Mr. Hupp for all of the work over the past year. The comments from residents were very insightful and interesting. Mr. Arnold said he would prefer to table the item to take more time to read over the document. Councilor Merrill agreed and said she would prefer to have Councilor Hansen present before deciding. Mr. Eggett appreciated the concern of Mr. Arnold, as the general plan has potential to become legally binding in the future. Councilor Stevens said he may have questions regarding specific scenarios which he would forward to Mr. Eggett. He noted that some of the past rezones from commercial to higher density housing were not his preference. Mr. Hupp explained the land use does not really change with the new update.

MOTION: Councilor Arnold moved to table proposed Riverdale City Comprehensive

General Plan update.

SECOND: Councilor Merrill

ROLL CALL VOTE: Councilor Merrill: Yes

Councilor Arnold: Yes
Councilor Stevens: Yes
Councilor Hansen: Absent
Councilor Hilton: Yes

Motion passes unanimously and this item will be tabled and reexamined at a later date.

3. Consideration of Ordinance #971 approving proposed modifications to Titles 3, 4, 5 and 7 of the Riverdale Municipal Ordinance Code concerning firearm possession and use.

Mr. Brooks reminded Council there was a gentleman who attended a meeting and brought up some portions of code which were outdated compared to the state law regarding firearm restrictions. The proposed updates would bring Riverdale's code up to the state's requirements.

MOTION: Councilor Arnold moved to approve proposed modifications to Titles 3, 4, 5 and 7

of the Riverdale Municipal Ordinance Code concerning firearm possession and

use.

SECOND: Councilor Merrill

ROLL CALL VOTE: Councilor Stevens: Yes

Councilor Hansen: Absent
Councilor Hilton: Yes
Councilor Arnold: Yes
Councilor Merrill: Yes

Motion passes unanimously.

The meeting was adjourned temporarily to go into the RDA meeting. Motion: Merrill, Second, Arnold. Adjourned at 7:16

The meeting was opened at 7:40 p.m.

 Consideration to adjourn into a closed session pursuant to UCA 52-4-205(c) to discuss pending or reasonably imminent litigation.

MOTION: Councilor Arnold moved to adjourn into a closed session.

SECOND: Councilor Merrill

ROLL CALL VOTE: Councilor Hilton: Yes

Councilor Merrill: Yes
Councilor Arnold: Yes
Councilor Stevens: Yes
Councilor Hansen: Absent

Motion passes. Closed session began at 7:42 pm. Present: Mayor Mitchell, Alan Arnold, Steve Hilton, Bart Stevens, Karina Merrill, Mike Eggett, Shawn Douglas, Casey Warren, Steve Brooks, Michelle Marigoni.

MOTION: Councilor Arnold moved to adjourn the closed session and open the main

meeting.

SECOND: Councilor Merrill

ROLL CALL VOTE: Councilor Stevens: Yes

Councilor Hansen: Absent
Councilor Hilton: Yes
Councilor Merrill: Yes
Councilor Arnold: Yes

Motion passes. Closed session ended at 7:58 pm

H. Comments

RESOLUTION NO. 2023-27

A RESOLUTION OF RIVERDALE CITY AUTHORIZING A RENEWAL OF AN AGREEMENT WITH ROBINSON WASTE SERVICES FOR GARBAGE AND RECYCLING SERVICES WITHIN RIVERDALE CITY.

WHEREAS, the City Council of Riverdale has previously entered into an agreement with Robinson Waste Services, providing for refuse collection within the City of Riverdale; and

WHEREAS, in the previous agreement Riverdale opted to allow for annual renewals upon the agreement of both parties; and

WHEREAS, the City of Riverdale has received few, if any, complaints concerning the service over the past year and are generally very pleased with the work performed by Robinson Waste Services and Robinson Waste has agreed to continue providing such service; and

WHEREAS, the Council finds that it is in the best interest of the City and will promote the health, safety and general welfare of the community and now desires to renew the Solid Waste Agreement for an additional term with Robinson Waste Services.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the City Council of the City of Riverdale that the Mayor, with the attestation of the City Recorder, is hereby empowered to execute an Agreement between Riverdale City and Robinson Waste in the form and containing the terms as annexed hereto as Exhibit "A", with the term of the contract to expire one year from date of renewal.

RESOLVED AND ADOPTED by the City	Council of Riverdale City, Utah,	on the d	ay of Octob	er, 2023.

Exhibit A

RIVERDALE CITY GARBAGE SERVICES CONTRACT

IT IS HEREBY AGREED by and between RIVERDALE CITY CORPORATION, a municipal corporation of the State of Utah, hereinafter referred to as "City," and ROBINSON WASTE SERVICES, HEREINAFTER REFERRED TO AS "The Contractor," as follows:

- 1. The Contractor hereby agrees to furnish, during the term of this contract, sufficient automated trucks, equipment, and employees to empty automated refuse collection containers and dispose of all normal household garbage and similar refuse, including yard clippings, grass, leaves, tree branches and Christmas trees on residential premises, but not including trailer courts and apartment houses with six or more units, within the City of Riverdale.
- 2. The Contractor shall collect and dispose of refuse for each residence once each week on a day or days approved by the City. The day of collection may be changed by the Contractor only upon approval by the Mayor or his designee and after written notice to the citizens by the Contractor. All trucks used by the Contractor shall be capable of emptying automated refuse-collection containers, and shall be modern, leak-proof, sanitary, and suitable for the purpose for which used.
- 3. The Contractor shall pay the wages of all its employees, and shall bear all expenses of maintenance of equipment, and shall maintain \$1,000,000 liability insurance, worker's compensation insurance, and any other proper or necessary insurance. The Contractor shall provide proof of such insurance to the City listing the City as a named insured.
- 4. The City shall not have supervision nor control over the actual operation of Contractor's business other than to require that Contractor faithfully comply with the provisions of this contract and all applicable ordinances of the City.
- 5. The Contractor shall comply with all laws of the State of Utah and Ordinances of the City and regulations of the Board of Health which pertain to this activity and their obligation here under, including license ordinances of this City.
- 6. During the term of this Agreement, the City will not contract with any other party to provide the services contracted for herein.
- 7. a. The City will pay the contractor the sum of \$11.87 per month for each of approximately 2150 residential units (excluding trailer courts and apartment houses with six units or more) plus \$3.29 per month for each of approximately 925 residential units that have two or more automated refuse collection containers within the corporate limits of the City, which amount shall include the fee for appropriate disposal.
 - b. In addition to providing solid waste services, Contractor will also provide for collection of curbside garbage used for recycling purposes. The City will pay to the Contractor the sum of \$2.70 per month for each of the residential units that have recycling collection containers within the corporate limits of the City. The City shall pay the actual tipping fee for the tonnage delivered to the agreed upon disposal site.
- 8. The Contractor agrees to perform the duties set forth in this contract in a neat and quiet manner so as not to unduly annoy or disturb the residents of the City. Additionally, the Contractor agrees to reimburse the City the current rate for replacement per container

- if, through the Contractor's collection activity, damage is caused to the container's wheels or lid which renders it unusable.
- 9. Contractor will pick up refuse at the front of each residential unit between 6:00 a.m. and 5:00 p.m. on the day agreed upon between the Contractor and the City for refuse collection.
- 10. The city will request that all residents place their automated refuse collection container(s) at a point off the traveled portion of the road in the gutter or, if there is no gutter, within two feet (2') of the blacktop. The container shall be placed so that the container handle faces the resident's house and shall be place on the street at least four feet (4') from other automated containers and obstructions such as trees, mailboxes, or parked vehicles.
- 11. For residents certified by the City Administrator as being too ill or infirm to move the 90-gallon, automated refuse collection container from its storage place to the street and back to its storage space, the Contractor agrees to perform such service for the resident at no extra charge to the City.
- 12. The Contractor shall advertise and have a listed telephone number and shall have a responsible person at the number from 7:00 a.m. to 5:00 p.m. during every collection day with the authority to make decision relevant to operations under this contract. In addition, an employee of the firm shall answer the telephone to receive complaints and inquiries from the public related to this contract. All Complaints shall be resolved in an expeditious manner within the twenty-four (24) hour period following receipt of the complaint.
- 13. The City agrees to make its best efforts to enforce its refuse collection ordinance, to-wit: that residents shall place all refuse in a city-owned, automated refuse-collection container; that residents shall be responsible for keeping the refuse in said containers until it is picked up; and that residents shall not put out for collection such items as hot ashes, cart parts, mattresses, floor covering, animal carcasses, chunks of cement, dirt, sand, rocks, sod, flammable liquid, hazardous waste, or anything that will not fit in an automated refuse collection container. Contractor shall have the right to refuse to collect refuse in violation of the above regulations.
- 14. Contractor shall empty all containers located on City property and shall provide and empty dumpsters of an adequate size to service the City buildings at locations designated by the City Administrator. Contractor shall collect refuse deposited in these containers and dumpsters at least once per week or more often if needed at no additional cost to the City.
- 15. Contactor shall provide and empty one 12 cubic yard dumpster at the Public Works Building for parks trash, including extra garbage generated for the Fourth of July celebration-at no additional cost to the City.
- 16. The Contractor shall dispose of all refuse collected by transporting the same to the Weber County waste disposal facility, aka Weber County Transfer facility. The Contractor will unload the same in accordance with the regulations of said facility. The Contractor will pay all disposal fees at the facility and the Contractor will make all necessary arrangements therefore.
- 17. The Contractor agrees to perform a spring clean-up collection, a fall clean-up collection and perform a Christmas tree pick-up collection. The dates, collection methods, and cost

- for these services shall be mutually agreed upon annually between the Contractor and the City. Said agreement shall be by addendum hereto.
- 18. The Contractor shall indemnify and hold harmless the City of Riverdale, its officers agents and employees hereinafter referred to as the City, from all suits, actions, loss, damage, expense, cost of claims of any character or any nature including reasonable attorneys' fees and costs of litigation arising out of the work done in fulfillment of the contract or on account of any act, claim or amount arising or recovered under worker's compensation law, or arising out of the failure of the Contractor or those acting under Contractor to conforms to any statutes, ordinances, regulations, law or court decree. It is the intent of the parties to this contract that the City shall, in all instances, except for loss or damage resulting from the sole negligence of the City, be indemnified against all liability, loss or damage of any nature whatever for, or on account of, any injuries or death of person or damages to or destruction of property belonging to any person arising out of, or in any way connected with, the performance of this contract, regardless of whether or not the liability, loss or damage is caused by, or alleged to be caused in part by the negligence, gross negligence or fault of the City.
- 19. Fuel Cost Adjustment. The rates set forth by other sections of this Agreement are calculated to pay certain expenses and costs that are of a set and certain nature. Because of the volatility of the current oil market, other costs are constantly changes and are uncertain. Therefore, beginning on July 1, 2023, the rates paid for service shall be further adjusted for changes in fuel costs associated with performance of the services hereunder in the manner provided below:

The fuel surcharge will be calculated on the following criteria:

- a. The Department of Energy, Rocky Mountain Region Diesel Prices will be used as the price index for the agreement.
- b. The following are the yearly base prices per gallon for diesel fuel that will be used to calculate the surcharge:

2023 \$3.00/gal 2024 \$3.00/gal

- c. The surcharge will be calculated on the difference between the average monthly price per gallon of diesel fuel (as reported on the Dept. of Energy Diesel Prices) and the base price per gallon for the year (as detailed in point 2)
- d. The calculated difference in price will be multiplied by 33% per household (1st can) to calculate the actual surcharge amount per month.
- e. The surcharge will be calculated by Robinson Waste on a monthly basis and invoiced to Riverdale City.
- f. Should the monthly average price of diesel fuel fall below the yearly base price, the surcharge will no longer apply.
- g. The fuel surcharge will be invoice separately from the current invoicing for waste collection.
- h. Example: Fuel =\$4.10, \$4.10 \$3.00 =\$1.10, x .33 = .363 x 2150 =\$780.45 additional surcharge per month.

- 20. This contract shall be effective July 1, 2023 and the monthly fee shall be paid by the City to the Contractor for services rendered from the effective date of this agreement through June 30th of each successive year.
- 21. The Agreement is renewable annually, for additional successive one-year terms, at the rate of payment established or amended in paragraph 7 above, upon the mutual consent of both parties.
- 22. The City and the Contractor agree that this Agreement shall be deemed to contain all of the terms and conditions agreed upon, it being understood that there are no outside conditions, representations, warranties or other agreements, written, oral or implied.
- 23. This contract may, at the option of either party, be terminated by the other party for non-performance or for improper performance, after such party has given the defaulting party 30 (thirty) days written notice to properly perform the same, or to make payments, as the case may be.

Dear Mayor Mitchell and Council Members,

The "Bid Opening" for the above referenced project was conducted Wednesday, 13 September 2023. The lowest responsible bidder is Paragon Construction of Marriot-Slaterville, Utah.

Enclosed are the "Bid Results" and "Bid Proposal Tabulation". Paragon Construction's bid was reviewed and found to meet the bidding conditions required in the Contract Documents.

Since Paragon Construction's bid is the low bid for the advertised project, and their bid meets the conditions of the Contract Documents, I herewith recommend award of the above referenced project in the amount of \$584,439.00 to Paragon Construction Company.

Should you have any questions or desire additional information concerning the contractor or his bid, please feel free to contact our office at your earliest convenience.

Sincerely,

CEC, Civil Engineering Consultants, PLLC.

R. Todd Freeman, S.E., P.E.

City Engineer

Cc: Shawn Douglas, Public Works Director

October 3, 2023	Petitioner: Jared Sholly, Fire Chief				
	Jareu Shony, Fire Chief				
	oposed Action				
Consideration of Resolution 2023-29 Adopting the Intercount	y Automatic Aid Fire Agreement.				
Summary of Suppor	ting Facts & Options				
The Interlocal Automatic Aid Fire Agreement for all Weber County Fire Department agencies. This agreement lays out the responsibilities and limitations for "Automatic Aid" between Fire Departments within Weber County. Having this agreement gives a clear direction of response from each agency to support all fire departments in the county. Washington Terrace, who was not on the previous agreement, has been added to this Automatic Aid Agreement. See the attached agreement for all further details.

RESOLUTION NO. 2023-29

A RESOLUTION OF RIVERDALE CITY COUNCIL APPROVING AN INTERLOCAL AGREEMENT BETWEEN RIVERDALE CITY AND VARIOUS OTHER LOCAL CITIES AND AGENCIES CONCERNING AUTOMATIC MUTUAL AID IN FIRE AND PROTECTION SERVICES.

WHEREAS, Utah Code Ann. §11-13-101 et. sec., permits governmental entities to enter into cooperation or Interlocal agreements with each other; and

WHEREAS, Riverdale City (herein "City") recognizes the importance of, and wishes to participate in, any joint expertise, manpower and equipment that the combined services from the local jurisdictions offer to each other in fighting fires and assisting each other in times of need and emergency services; and

WHEREAS, the Riverdale City Council has fully reviewed the attached Interlocal Agreement between Riverdale City and the various participating local cities and agencies concerning the joint, mutual and automatic aid of each other in times of need or emergency and finds it to be in the best interest of Riverdale City to participate in such efforts and agrees to all the terms and conditions contained therein;

NOW THEREFORE, the Riverdale City Council written and authorizes the Mayor of Riverdal			_	
RESOLVED this day of October 2023.

INTERLOCAL AUTOMATIC AID FIRE AGREEMENT

THIS AGREEMENT made and entered into this ______ day of _______,
2023 ("effective date"), pursuant to the provisions of the Interlocal Cooperation Act, by and
between OGDEN CITY CORPORATION, a municipal corporation of the State of Utah, ROY
CITY CORPORATION, a municipal corporation of the State of Utah, SOUTH OGDEN
CITY CORPORATION, a municipal corporation of the State of Utah, RIVERDALE CITY
CORPORATION, a municipal corporation of the State of Utah, WASHINGTON TERRACE
CITY, a municipal corporation of the State of Utah, NORTH VIEW FIRE DISTRICT, a
political subdivision of the State of Utah, and the WEBER FIRE DISTRICT, a political
subdivision of the State of Utah.

WITNESSETH:

WHEREAS, the parties are desirous of entering an agreement for providing automatic mutual aid for fire protection among the parties; and

WHEREAS, such agreement is in furtherance of the purposes of Section 11-7-1, Utah Code Annotated, 1953, as amended; and

WHEREAS, each party desires to cooperate with and assist the other for structural fire protection at the receipt of such an alarm; and

WHEREAS, this Agreement is intended to "enhance" but not replace the existing "Mutual Aid Agreements."

NOW, THEREFORE, it is hereby agreed:

- 1. That upon receipt of a report of a structure fire or other fire threatening a structure, the dispatch center responsible for dispatching the incident will dispatch the standard complement of firefighting equipment and personnel from that jurisdiction. In addition, the dispatcher will also immediately see that the next due "Automatic Aid" fire company, as provided under this Agreement, is dispatched to the same incident. Selection of the "Automatic Aid" fire company will be made by computer aided dispatch according to mutually satisfactory boundaries as approved by the respective Fire Chiefs of each party.
- 2. Any dispatch of equipment and personnel pursuant to this Agreement is subject to the following conditions:
 - a. The "Automatic Aid" fire company being requested must be currently in an "available" status.
 - b. The responding company must be a "pumping" apparatus of Class A engine type or "quint" style aerial device with Class A engine specifications. Such responding company must respond with no fewer than two firefighters on board.

- c. The "Automatic Aid" fire company must respond immediately from the fire station to which they are assigned immediately upon receipt of the alarm. All such responders must ride the fire engine to the incident. None shall respond by private vehicle.
- d. Dispatch will issue the following information to the responding "Automatic Aid" fire company:
 - i. Address of incident;
 - ii. Type of fire;
 - iii. Special considerations of life safety;
 - iv. Incident command designation; and
 - v. Commander's name or unit when available.
- e. All parties under this agreement will function under the Incident Command System as taught by the National Fire Academy and as practiced under Weber area local guidelines and standard operating procedures (SOP's). The responding "Automatic Aid" fire company shall report to the Incident Commander at the location to which the equipment is dispatched, and shall be subject to the orders of that commander.
- f. The responding "Automatic Aid" fire company shall be released by the requesting organization when the services of the "Automatic Aid" fire company are determined to not be required or when the "Automatic Aid" fire company is needed to provide fire protection to its own jurisdiction, such need to be the sole determination of the responding organization.
- g. Assistance under this Agreement may be refused by the supervising shift officer or any of the parties if, in the supervisor's best judgment, it is determined that the party is unable to reasonably respond.
- 3. Each party waives all claims against the other for compensation for any loss, damage, personal injury, or death occurring as a consequence of performing this Agreement.
- 4. Neither party shall be reimbursed by the other party for any costs incurred pursuant to this Agreement.
- 5. All privileges and immunities from liability which surround the activities of any firefighting force or fire department, when performing its functions within the other party's territorial limits, shall apply to the activities of that other party's firefighting department while furnishing fire protection outside its territorial limits under this Agreement.
- 6. The effect of the death or injury of any firefighter, who is killed or injured while responding to an incident outside the territorial limits of the firefighter department of which the firefighter is a member and while that department is functioning pursuant to this Agreement, shall be the same as if the firefighter were killed or injured while that department was

functioning within its own territorial limits, and such death or injury shall be considered to be in the line of duty.

- 7. There is no separate legal entity created by this Agreement to carry out its provisions; and to the extent that this Agreement requires administration other than as is set forth herein, it shall be administered by the governing bodies of the parties acting as a joint board. There shall be no real or personal property acquired jointly by the parties as a result of this Agreement.
- 8. This Agreement shall not relieve any party of any obligation or responsibility imposed upon any of the parties by law, except that the performance of a responding party may be offered in satisfaction of any such obligation or responsibility to the extent of actual and timely performance thereof by the responding party.
- 9. This Agreement shall be effective for a period of five (5) years from the effective date. Any party may terminate its obligations under this Agreement after giving thirty (30) days advance written notice of termination to the other parties. Such termination shall not modify the Agreement as between any of the remaining parties, except only to exclude the terminating part from the obligations created herein.
- 10. This Agreement shall become affective as set out above provided it has been approved as appropriate by the above mentioned parties, and in accordance with the provisions of Section 11-13-101 et seq., Utah Code Annotated, 1953, as amended. In accordance with the provisions of Section 11-13-202.5(3), this Agreement shall be submitted to the attorney authorized to represent each party for review as to proper form and compliance with applicable law before this agreement may take effect.
- 11. The Interlocal Automatic Aid Fire Agreement dated November 1, 2019 is hereby terminated and superseded in its entirety by the terms of this Agreement.

RESOLUTION NO. 2023-30

A RESOLUTION OF RIVERDALE CITY COUNCIL APPROVING A DEVELOPMENT AGREEMENT BETWEEN RIVERDALE CITY AND 6S T RIVERDALE UT LLC, CONCERNING THE DEVELOPMENT OF PROJECT LOCATED AT APPROXIMATELY 4851 SOUTH 1500 WEST, RIVERDALE, UTAH

WHEREAS, Riverdale City, acting pursuant to their authority under Utah Code Annotated §§ 10-9a-101, et seq., as amended, §§ 17C-1-101, et seq., and the Municipal Code for the City of Riverdale (the "City Code"), and in furtherance of their land use policies, goals, objectives, ordinances, resolutions, and regulations, have made certain determinations with respect to the proposed development of the Property located at approximately 4851 South 1500 West, in exercise of its legislative discretion, and has elected to enter into this Agreement.

WHEREAS, OWNER, 6S T RIVERDALE UT LLC, is the owner of certain real property, located on the west side of 1500 West at approximately 4851 South 1500 West, Riverdale, Utah, legally described in the attached Exhibits (the "Property") and desires to develop said property to allow for its development consistent with the terms of this Agreement.

WHEREAS, the Owner contemplates, and the City understands that the development of the Property shall be consistent with the Concept Plan, when submitted, of the development, all laws and ordinances and including the list of essential elements identified therein or any future Development Agreements.

WHEREAS, the Riverdale City Council has fully reviewed the attached Agreement between the City and 6S T RIVERDALE UT LLC, and agrees to all the terms and conditions contained therein; and

NOW THEREFORE, the Riverdale City Council hereby approves the attached Development Agreement (Attached hereto as Exhibit 1 and incorporated hereby) as written and authorizes the Mayor of Riverdale City to execute this Agreement on behalf of the City.

	RESOLVED this	_ day of October,	2023.	
			Mayor Braden Mitchell Riverdale City

FIRST DEVELOPMENT AGREEMENT FOR A COMMERCIAL DEVELOPMENT LOCATED AT

4851 S 1500 W Riverdale, UT 84405

TH	S AGREEMENT	is made and entered	l into this	day of	, 2	2023 by
and betwee	n Riverdale City,	a municipal corpora	tion organize	d and existing unde	er the law	s of the
State of Ut	ah (hereinafter th	e "City"), and 6S T	Riverdale U	Γ LLC, (hereinafte	r the "Ov	vner;").
This agree	ment could also	refer to a separate	party Develo	oper ("Developer"	herein in	ncludes
successors	and/or assigns of	Owner), as follows:				

RECITALS

WHEREAS, Owner is desirous of developing a commercial site (5.442-acres) on certain real property located at approximately 4851 S 1500 W Riverdale, UT 84405, in the City of Riverdale, County of Weber, State of Utah and more particularly described on the Property Location Map attached hereto as Exhibit A.

WHEREAS, the purpose of this First Development Agreement is to define certain development standards, conditions, improvements and other terms and conditions pursuant to which the proposal by the Owner is to be developed within the City; and

WHEREAS, the City is willing to authorize this commercial site development by Owner in conformance with this Agreement, City Ordinances, approval of the commercial site plan, and applicable Utah law;

NOW, THEREFORE, in consideration of the mutual covenants and conditions set forth herein, and other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. GENERAL DESCRIPTION.

- A. Area Description. The property upon which the project shall be developed (the "Property") is approximately 5.442 acres located as shown on the Property Location Map, a copy of which is attached as Exhibit A hereto and incorporated by reference herein. The property is further described as parcel #081030075.
- B. <u>Project Description</u>. The project proposed by Owner/Developer at this time is a consisting of approximately 237,049 square feet.

2. DEVELOPMENT STANDARDS AND GUIDELINES.

- A. <u>Adoption of Development Standards</u>. The City hereby adopts, as the development standards and guidelines for the Project (the "Development Standards"), the following in addition to all other applicable City Ordinances, standards, and guidelines:
 - (1) Approved Site Plan. Plan shown in Exhibit B

The following requirements shall apply:

a. Final approved plan shall resemble the dimensions and setbacks of the site plan shown in Exhibit B

<u>Findings of Compatibility</u>. In adopting the Development Standards identified in Section 2.A, the City hereby expressly finds that the development of the project, in conformance with the Development Standards and this Agreement, promotes the creation of a desirable commercial development in an appropriate location for this particular site. The City further finds that the development of the site, in conformance with the Development Standards of Riverdale City, in conjunction with the agreed upon terms of this Development Agreement, will not violate the general purpose, goals and objectives of the City Ordinances and any plans adopted by the Planning Commission and City Council.

Subject to the Owner/Developer's performance and compliance with the terms of this Agreement and all City Ordinances and requirements in effect on the date of this Agreement, Owners' rights to develop the Facility in accordance with an approved site

plan, approved construction drawings, and approved building plans, would be determined to be vested.

3. ON-SITE PROJECT IMPROVEMENTS

Owner/Developer shall construct and install all site improvements, including utilities, required for the development, at Owner's/Developer's sole cost and expense, in compliance with approvals, and all applicable ordinances, regulations, standards and status of the City, The Central Weber Sewer District, other providers, and the State of Utah.

4. WATER DEDICATION

The Developer has calculated the total water usage for the development of this property to be 3 acre feet of water per year (hereinafter "Water Required"). Owner/Developer shall convey to the City water shares or water rights equaling 3 acre feet of water, as required by City code. If no water shares are available or acceptable to the City, and the City determines that the Owner/Developer cannot provide the water shares needed (based upon reasonable efforts and availability), the City may accept that the Owner/Developer purchase the equivalent amount of water (hereinafter "Purchased Water') indirectly from the Weber Basin Water Conservancy District, through the City at City's designated rate, as determined and established by the Weber Basin Water Conservancy District. Upon purchase of the water from Weber Basin Water Conservancy District, the City shall: (i) verify and guarantee that the Weber Basin water program allocation of Purchased Water equaling 3 acre feet, will be made available to this development in perpetuity; (ii) monitor usage and ensure that the calculated Water Required is sufficient in providing full watering services to the lot within this approved development and plan; (iii) provide the Owner, in writing, a letter that certifies that the total amount of Purchased Water totaling 3 acre feet, shall be fixed to the property (described in Section 1) in perpetuity, and that water cannot be forfeited by non-use, reduction in use, or for any other reason, without written consent of the Owner or its assigns.

If a future development changes water usage on this property, usage requirements and/or credits for that new development will be revaluated at that time.

5. REPRESENTATIONS OF DEVELOPER

- A. <u>Authority</u>. Owner hereby represents that it has the legal authority to acknowledge, sign for and to proceed with the project.
- B. <u>Ability</u>. Owner represents that it has the ability, either individually or through a Developer, to timely proceed with the development and construction of the project.

6. ASSIGNMENT

Owner may assign the rights contained in this Agreement to any other third party provided that the City consents to such assignment, which consent shall not be unreasonably withheld, upon a showing to the satisfaction of the City that such third party has the financial ability to perform Owner's obligations hereunder. The City may withhold approval of assignment, without consequence, if the city reasonably believes that the anticipated assignee will be unable to meet the requirements of this agreement or any City ordinances.

7. BINDING EFFECT

This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

8. ATTORNEY'S FEES

In the event that this Agreement or any provision hereof shall be enforced by an attorney retained by a party hereto, whether by suit or otherwise, the fees and costs of such attorney shall be paid by the party who breaches or defaults hereunder, including fees and costs incurred upon appeal or in bankruptcy court.

9. SEVERABILITY

If any term or provision of this Agreement shall, to any extent, be determined by a court of competent jurisdiction to be void, voidable, or unenforceable, such void, voidable or unenforceable term or provision shall not affect the enforceability of any other term or provision of this Agreement.

10. CAPTIONS

The section and paragraph headings contained in this Agreement are for the purposes of reference only and shall not limit, expand, or otherwise affect the construction of any provisions hereof.

11. GOVERNING LAW

This Agreement and all matters relating hereto, shall be governed by, construed, and interpreted in accordance with the laws of the State of Utah.

12. ENTIRE AGREEMENT

This Agreement, together with the exhibits attached hereto, constitutes the entire understanding and agreement by and among the parties hereto, and supersedes all prior agreements, representations, or understandings by and among them, whether written or oral, pertaining to the subject matter hereof. This Agreement may only be amended, supplemented, modified, or canceled by a written instrument duly executed by both parties.

13. CONSTRUCTION

As used herein, all words in any gender shall be deemed to include the masculine, feminine, or neuter gender, all singular words shall include the plural, and all plural words shall include the singular, as the context may require.

14. AUTHORIZATION OF EXECUTION

- A. <u>City.</u> The execution of this Agreement by the City has been authorized by the City Council of Riverdale City at a regularly scheduled meeting of that body, pursuant to the notice.
- B. Owner. The execution of this Agreement has been duly authorized by the Owner.

year first above written.

BACK TO AGENDA

City Council Executive Summary

For the Council meeting on: 10-3-2023

Petitioner: Wright Development Group and Garff
Properties
Represented by Logan Johnson

Summary of Proposed Action

Wright Development Group, the petitioner in this matter, is requesting a rezone of property located at approximately 633 West 4400 South from Mobile Home Park-Recreational Vehicle Park (Rmh-1) zoning and Multiple-Family Residential (R-4) zoning to Regional Commercial (C-3) zoning to allow for the possibility of future development for a commercial parking lot facility on this property (as tied to the Garff Automotive Group operations; see the application documents for further explanation). Neighboring properties to the north are currently zoned with RMH-1 and R-5 zoning; property to the east is the Weber River and then zoned with M-1 zoning; properties to the south are zoned with C-3 zoning and Riverdale Road is also here; and properties to the west are zoned with R-4 zoning and this property is along 700 West. This request is for approximately 1.31 acres of land located on this property along 700 West and near Riverdale Road that would potentially be affected by the proposed rezone request (see the attached zoning map document for more information).

On September 12, 2023, the Planning Commission held a public hearing regarding the rezone request, in accordance with State Code and to allow for public commentary. Required public hearing notice and scheduling was provided for this public hearing to receive and consider public comments on the proposed amendment to the zoning map. No comments were provided during the public hearing, and none were received prior by City Staff regarding this request. At the conclusion of the public hearing and discussion in the matter, the Planning Commission provided a favorable recommendation to the City Council for approval of the Wright Development Group rezone request.

Following discussion regarding the request, the City Council may make a motion to approve the rezone request, table the matter to a later date, or not approve the rezone request, as supported by the appropriate findings of fact in alignment with the Council's final decision.

Title 10 Ordinance Guidelines (Code Reference)

This rezone request is regulated under City Code 10-5 "Rezone Requests" and is affected by City Codes 10-10A "Commercial (C-1, C-2, C-3) zones" and 10-9E "Multiple-Family Residential (R-4) zone".

The petitioner's property is currently listed in the County Records under the ownership of Garff Properties Riverdale LLC and H&H 39th Street LLC. This property is currently vacant and once operated as a parking lot area during its previous use.

The appropriate application and supporting documentation have been submitted and provided to the Planning Commission for review (please see attached applicant response documentation and maps for more).

For more information relative to the zoning codes affecting this request and permitted and conditional uses for these zones, please reference the respective sections of City Code, as noted above.

Public hearing notifications required by State and City Codes have been completed in conformance with the standards established by these Codes and as reflected in the attached documentation.

Staff would encourage the City Council to review this matter and discuss with the petitioners any concerns that may arise in this matter. Staff would then recommend that the City Council act accordingly to approve the rezone request, table the matter to a later date, or not approve the rezone request, as supported by the appropriate findings of fact in alignment with the Council's final decision.

General Plan Guidance (Section Reference)

Please note that the General Plan and Land Use Master Plan element are advisory documents established for guidance regarding citywide land use decisions.

The General Plan use for this area is currently set as "Residential – Medium Density". The proposed rezone request and project concept requested will likely support surrounding properties with this C-3 land use designation, and this requested rezone is supported by the land use designation description for Area 7 of the Riverdale General Plan.

Documentation regarding General Plan Area 7 and recommended land uses has been provided in the packet.

ORDINANCE NO. 972

AN ORDINANCE AMENDING THE ZONING OF PROPERTY AND THE CITY'S LAND USE MAP, TO CHANGE THE LAND USE DESIGNATION OF LAND LOCATED AT APPROXIMATELY 633 WEST 4400 SOUTH FROM MOBILE HOME PARK-RECREATIONAL VEHICLE PARK (RMH-1) AND MULTIPLE-FAMILY RESIDENTIAL (R-4) TO REGIONAL COMMERCIAL (C-3) ZONING; PROVIDING FOR REPEAL OF CONFLICTING ORDINANCES; SEVERABILITY; AND AN EFFECTIVE DATE.

WHEREAS, The petitioner, Wright Development, has requested that approximately 1.31 acres, located at approximately 633 West 4400 South be rezoned from Mobile Home Park-Recreational Vehicle Park (RMH-1) and Multiple-Family Residential (R-4) zoning to Regional Commercial (C-3) zoning, all located in Riverdale City, Weber County; and

WHEREAS, the Riverdale City Planning Commission held a duly advertised public hearing on September 12, 2023 to receive comments on the proposed amendment and has considered all comments received, as required by state law and local ordinance; and

WHEREAS, the Planning Commission voted to grant the requested rezone and amendment to the land use map and forwarded that approval and recommendation to the City Council. The original petition has now been passed on to the City Council to either follow or modify the recommendation of the Planning Commission and either allow or deny the rezone and plan amendment; and

WHEREAS, the Riverdale City Council has conducted a duly advertised public meeting on the proposed amendment and reviewed the minutes of the Planning Commission and all other relevant information and finds that the proposed rezone is in the best interest of the City or of the citizens of Riverdale City; and

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF RIVERDALE, UTAH, AS FOLLOWS:

Section 1.

After reviewing the material presented to the Planning Commission in the public hearing, and all subsequent information and evidence presented in addition thereto, the Riverdale City Council finds that it IS in the best interest of Riverdale City and DOES meet the goals or policies of the City's land use development plan and does not raise significant issues or concerns about safety, planning and/or the impact on the City's resources and services. The Council hereby APPROVES the rezone request made by the land owner to amend approximately 1.31 acres, located at or near 633 West 4400 South from Mobile Home Park-Recreational Vehicle Park (RMH-1) and Multiple-Family Residential (R-4) zoning to Regional Commercial (C-3) zoning and directs staff to implement any and all action(s) to help facilitate the lawful and conforming re-zone approval.

Section 2. Severability.

If any section, part of a section, paragraph, sentence, clause, phrase or word of this Ordinance is for any reason held or declared to be unconstitutional or void, such holdings of invalidity shall not

affect the remaining portion of this Ordinance and it shall be construed to have been the intent to pass the Ordinance without such unconstitutional or invalid part therein, and the remainder of this Ordinance shall be deemed to be held valid as if such part or parts had not been included therein, or if this Ordinance or any of the provisions thereof shall be held inapplicable to any person, group of persons, property, kind of property, circumstances, or set of circumstances, such holdings shall not affect the applicability thereof to any other person, property or circumstances.

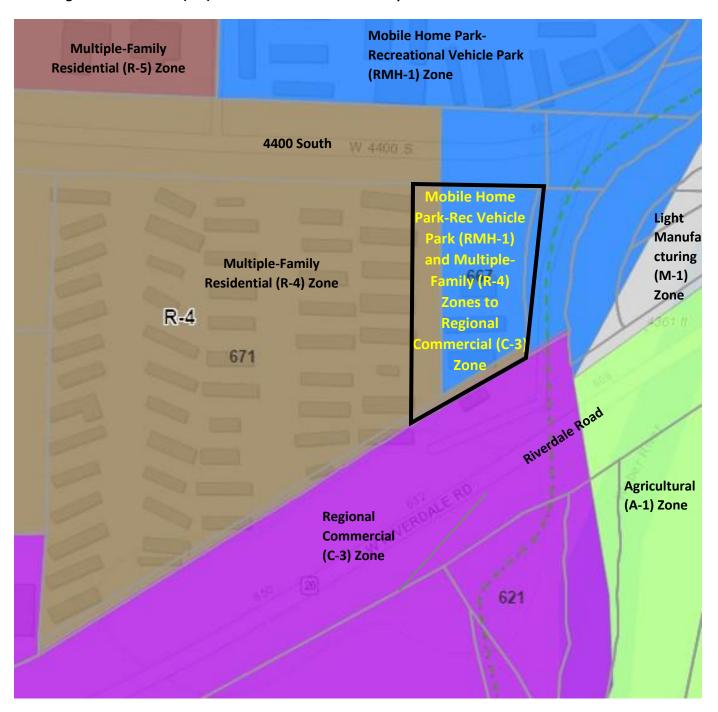

Section 3.

The effective date of this ordinance shall be effective immediately or as otherwise allowed by law.

PASSED, ADOPTED AND ORD	ERED POSTED this	day of (October, 20	023.

August 8th, 2023

Wright Development Group – rezone request for property at approximately 633 West 4400 South from Mobile Home Park-Recreational Vehicle Park (RMH-1) Zone and Multiple-Family (R-4) Zone to Regional Commercial (C-3) Zone. Area bound in black requested to be rezoned as noted.

AREA SEVEN

See Figure 13 for more regarding this area. This area is bounded by I-84 on the west, transitional areas of low density residential uses and senior living apartments to the north in Area Six, the Weber River and its trail system to the east, and a mobile home park site to the south adjacent to I-84 and the Schneiter's Riverside Golf Course.

There is a transitional section of this area to the north and planning efforts should be in this northern location should be sensitive to the needs and impacts on residential areas located in the south of Area Six. The property on the south side of 4400 South, between 1025 West and 700 West is an extremely strategic land use area for Riverdale City. It is very important in terms of stabilizing and enhancing the neighborhood development to the north since it represents the transitional area between traditional residential neighborhoods and intense development along Riverdale Road. The area between 700 West and 900 West, property fronting 4400 South (the north portion of the parcels), should remain Residential. Properties fronting 4450 South (the south portion of the parcels) are designated as Mixed Use, with the line of demarcation between residential and commercial extending to the west side of 900 West, where residential would front 4400 South, and commercial to the south fronting 900 West. The demarcation line runs between 4400 South and 4450 South, from 700 West approximately 442.50' West at 130' from 4400 South to that point continuing to 900 West at 227' from 4400 South. The area north of this line would remain residential. The area south of this demarcation line running to 4450 South may be a mixed use. The H & P properties are currently zoned commercial on the south side of the demarcation line and two lots on the north side of the line are zoned mixed use residential where two (2) separate four (4) unit owner occupied townhouses currently sit. The land use map reflects current planned uses for this location. Additionally, a single-family residential patio home development project has been developed in this area at 785 West 4450 South. This residential development is located in a Planned Unit Residential Development overlay district and the residences are subject to a homeowner's association. The Mixed Use zone is designed to permit only those businesses which would not have a noise impact on surrounding residential areas, would not accept deliveries at late hours; would not incur heavy vehicle traffic (such as fast food restaurants, low impact retail, etc.), and would have limited hours of operation. The mixed use zone protects existing residential while allowing property owners on 4450 South choices on developing their property as residential. residential/commercial mix or commercial.

There is an existing gas station/convenience store on the east side of 700 West and Riverdale Road and a small retail/office shopping plaza on the west side of 700 West that is in the Planned Commercial High land use category. There is also a section of residential medium density in the northeast of this area, along 4400 South and near 700 West, which has potential to be converted to a planned commercial use in the future. A future transition in housing options on the modular home park in this area (at approximately 650 West 4400 South) may also make sense in order to accommodate potential alternative multi-housing options at the modular home park location. There is also a parcel along 4600 South, owned by Crabtree Auto, which is reflected as Planned Manufacturing and, for the time being, should remain as such. Additionally, there is an abundance of Planned Commercial High land use category properties in this area that should continue to be planned for this

Riverdale City 64 General Plan

use in the future. These properties are crucial to the continued financial operations of the City and its resources. Fostering and maintaining positive relationships with businesses are property owners in this area is key to the City's continued success.

On the south side of this area there is a section of property located along Weber River Drive that is designated as Recreational/Open Space and is now planned to be developed as a regional park by the City. Multiple other land use proposals have been considered for this property, but have had difficulties in changing the use of the property due to the City's historical desire to see the land developed for an Office Park use or similar retail/commercial use. Initial concepts for this land included a mixture of commercial development, office park development and open-space development, which could be developed pursuant to a City approved overlay zone and development agreement. However, in the summer of 2014 the City leadership had the opportunity to acquire this property from the landholder. This purchase of the property, if completed, will allow the City to have the option of establishing a major regional city park at this location and this would likely be of great benefit to the residents of the community. The City is in need of a new site for a large park as the current Riverdale Park is running out of capacity for any additional development and may be encroached upon in the future by the Weber School District in order to meet the expansion needs of the Riverdale Elementary School.

Riverdale Road, 1050 West, 700 West, 900 West, and Weber River Drive are all major roadways in this area. UDOT has completed a major reconstruction of Riverdale Road in recent years and also has oversight over 1050 West construction and use. Weber River Drive, 700 West, and 900 West are all City roads and should be maintained and enhanced to the benefit of this area for continued operational functionality.

Planning Commission Regular Session, September 12, 2023

Minutes of the **Regular Session** of the Riverdale City **Planning Commission** held Tuesday, September 12, 2023, at 6:30 p.m., at the Civic Center, 4600 S Weber River Drive., Riverdale City, Weber County, Utah.

Present: Commissioners: Kathy Eskelsen, Chair

Kent Anderson, Vice Chair Rikard Hermann, Commissioner Amy Ann Spiers, Commissioner

Celeste Noland, Commissioner (via telephone)

Randy Poulsen, Commissioner

City Employees: Mike Eggett, Community Development

Michelle Marigoni, City Recorder

Excused: Wanda Ney, Commissioner

Visitors: Jeremy Draper

Logan Johnson Chris Bick Russell Haight

A. Welcome & Roll Call

The Planning Commission Meeting began at 6:31 p.m. Chair Eskelsen welcomed everyone to the meeting and stated for the record that all members of the Planning Commission were present, except for Commissioner Ney who was excused.

B. Public Comment

Commissioner Eskelsen asked if any members of the public were present with comments. There were none.

C. Presentations and Reports

Mr. Eggett gave updates on the following:

- The Floodplain ordinance update is in progress and will be brought to the next meeting.

D. Consent Items

1. Consideration of Meeting Minutes from August 22, 2023 Work Session, and August 22, 2023 Regular Meeting.

Motion: Commissioner Spiers moved to approve the minutes from August 22, 2023.

Second: Commissioner Anderson.

Unanimous in favor, minutes approved.

E. Action Items

1. a. Public Hearing to receive and consider comments regarding proposed rezone request for property located at approximately 633 West 4400 South, Riverdale, Utah, as requested by Wright Development Group.

Mr. Eggett briefly explained the property in question and went over the executive summary, noting all required notifications were made and no public comment had been received regarding the rezone.

Motion: Commissioner Anderson moved to open the public hearing.

Second: Commissioner Spiers

Commissioners Polled:

Commissioner Poulsen: Yes
Commissioner Noland: Yes
Commissioner Hermann: Yes
Commissioner Spiers: Yes
Commissioner Ney: Absent
Commissioner Eskelsen: Yes
Commissioner Anderson: Yes

Motion passes unanimously, public hearing open.

Public comment:

Motion: Commissioner Hermann moved to close the public hearing.

Second: Commissioner Anderson

Commissioners Polled:

Commissioner Poulsen: Yes
Commissioner Noland: Yes
Commissioner Hermann: Yes
Commissioner Spiers: Yes
Commissioner Ney: Absent
Commissioner Eskelsen: Yes
Commissioner Anderson: Yes

Motion passes unanimously, public hearing closed.

b. Consideration to forward a recommendation to City Council regarding proposed Rezone Request from Mobile Home Park-Recreational Vehicle Park (Rmh-1) Zoning and Multiple-Family Residential (R-4) Zoning to Regional Commercial (C-3) Zoning for property located at approximately 633 West 4400 South, Riverdale, Utah 84405, as requested by Wright Development Group.

Discussion: Mr. Eggett noted there was a letter included in the packet from Logan Johnson, which describes the request. Mr. Johnson explained this is part of the land swap for the new apartments. There will be a site plan presented at a later date.

Mr. Hermann asked what was taking so long with cleaning up the trailer park. Mr. Logan reported there has been progress, but there is some delay with the utility companies. There are also some protections for the rentals and low-income families that also cause some delays.

Motion: Commissioner Spiers moved to forward a favorable recommendation to City Council regarding proposed Rezone Request from Mobile Home Park-Recreational Vehicle Park (Rmh-1) Zoning and Multiple-Family Residential (R-4) Zoning to Regional Commercial (C-3) Zoning for property located at approximately 633 West 4400 South, Riverdale, Utah 84405, as requested by Wright Development Group.

Second: Commissioner Poulsen

Commissioners Polled:

Motion passes unanimously.

2. Consideration to un-table proposed approval for and recommendation to City Council for Take 5 Small Subdivision request, located at approximately 4023 South Riverdale Road, Riverdale, Utah 84405, as requested by Reeve and Associates and Blue Lube, LLC.

Motion: Commissioner Anderson moved to un-table this item.

Second: Commissioner Spiers

Commissioners Polled:

Commissioner Ney: Absent
Commissioner Eskelsen: Yes
Commissioner Anderson: Yes
Commissioner Poulsen: Yes
Commissioner Spiers: Yes
Commissioner Noland: Yes
Commissioner Hermann: Yes

Motion passes unanimously, item is open for discussion.

Mr. Eggett noted that all his concerns had been resolved. The applicant group has taken action to address the concerns of the public works director, however there is an issue with the landscaping irrigation that needs to be resolved. All engineering comments are regarding the reciprocal easement agreement and would be easy to resolve.

Jeremy Draper spoke about the damaged landscaping from an irrigation line that was cut during construction, and how they have been working to address the issue. He has been working with a landscape architect and the landscaper who worked on the project.

Commissioner Anderson clarified the addressing had been fixed.

Motion: Commissioner Hermann moved to forward a positive recommendation to City Council for Take 5 Small Subdivision request, located at approximately 4023 South Riverdale Road, Riverdale, Utah 84405, as requested by Reeve and Associates and Blue Lube, LLC, provided Mr. Douglas is satisfied with the landscaping issues and that staff comments are addressed.

Second: Commissioner Anderson

Commissioners Polled:

Commissioner Ney: Absent
Commissioner Anderson: Yes
Commissioner Eskelsen: Yes
Commissioner Hermann: Yes
Commissioner Noland: Yes
Commissioner Poulsen: Yes
Commissioner Spiers: Yes

3. Consideration of recommendation to City Council for Ken Garff Honda Final Site Plan request, located at approximately 950 West Riverdale Road, Riverdale, Utah 84405, as requested by Kimley Horn and the Ken Garff Automotive Group.

Mr. Eggett said this request was before the PC on Aug 8 for a preliminary site plan, when the subdivision amendment was recommended to move forward to City Council. Mr. Eggett went over the site plan checklist, noting some areas had been addressed. The fire access has been resolved and there has been considerable improvement. There are still concerns from the public works director and quite a few from engineering, which he went over as included in the packet.

Chris Bick with Kimley Horn addressed commissioners and said they have been working with staff on the fire access issues. The irrigation canal owners have been identified and clean-up of the water rights is being coordinated with them. UDOT criteria have been met, so no changes or improvements to the right-of-way should be needed. He reported most of the items Mr. Eggett listed have been addressed.

Commissioner Poulsen asked if the water rights owners would be compensated and have some say in the final product. Mr. Bick said the water shares would be purchased from the owners if they agree to sell them. Mr. Hermann felt the water rights should be purchased before the final site plan was approved, as there is a chance the water lines would need to be moved. Mr. Anderson was under the impression the water lines had not been used for many years.

Commissioner Spiers said the parking issue and fire access seemed to be well addressed. Mr. Bick reported there would also be red striping and no parking signs, as well as a policy that customers would not drive in there.

Mr. Anderson asked Mr. Eggett why approval from UDOT for stormwater had to be given again. Mr. Eggett explained it would need to be brought to the current higher standard of requirements. Mr. Bick added UDOT requires this on redevelopment.

Motion: Commissioner Spiers moved to approve Ken Garff Honda Final Site Plan request, located at approximately 950 West Riverdale Road, Riverdale, Utah 84405, as requested by Kimley Horn and the Ken Garff Automotive Group, provided staff and engineer approvals are given.

Second: Commissioner Poulsen

Commissioners Polled:

Commissioner Spiers: Yes
Commissioner Poulsen: Yes
Commissioner Ney: Absent
Commissioner Hermann: Yes

Commissioner Anderson: Yes Commissioner Eskelsen: Yes Commissioner Noland: Yes

Unanimous vote, motion passes.

4. Consideration of approval for Panera Bread Preliminary Site Plan request, located at approximately 4130 South Riverdale Road, Riverdale, Utah 84405, as requested by Perigee Consulting and the Panera Bread Group.

Mr. Eggett went over the executive summary, noting the preliminary review would take some time to go over. He then went over the documents in the packet and staff comments, of which there were many.

Russell Haight with Perigee Consulting addressed the commissioners. Mr. Hermann said for a preliminary, though there were many comments, none seemed to be too concerning or difficult to resolve.

Mr. Anderson asked about the traffic flow, as it seemed like there were dumpsters in the traffic lane. Mr. Haight said there was an updated plan which had the trash enclosures removed.

Mr. Haight asked if the thru road had been confirmed or if they would need to dead-end their access. Mr. Eggett asked him to keep in touch, as the RDA is currently dealing with some legal issues regarding the site, and to plan on that unless something changes.

Motion: Commissioner Anderson moved to approve the Panera Bread Preliminary Site Plan request, located at approximately 4130 South Riverdale Road, Riverdale, Utah 84405, as requested by Perigee Consulting and the Panera Bread Group, upon the condition that noted items are met.

Second: Commissioner Hermann

Commissioners Polled:

Commissioner Ney: Absent
Commissioner Spiers: Yes
Commissioner Poulsen: Yes
Commissioner Noland: Yes
Commissioner Hermann: Yes
Commissioner Eskelsen: Yes
Commissioner Anderson: Yes

Motion passes unanimously.

F. Comments

Mr. Poulsen asked if there were any delays on the demolition of the building on the Panera site. Mr. Eggett said the RDA is heavily involved and would do everything possible to get it demolished.

Commissioner Spiers thanked the city for allowing commissioners to attend the ULCT convention, as she felt there was good information given.

Mr. Eggett gave a summary of the Utah League of Cities and Towns (ULCT) convention.

G. Adjournment

As there was no	further business to	discuss, C	ommissioner	Anderson r	moved to adjo	ourn. This	was seconded by
Commissioner Spiers	All were in favor a	and the Plar	nning Commis	sion meeti	ng adjourned	at 7:35 p.	m.

APPLICATION REQUIREMENTS AND PROCEDURE FOR REZONE REQUEST

- 1. The applicant shall submit to the City Recorder the following:
 - a. Completed REZONE REQUEST APPLICATION formally requesting a rezone and stating the reasons for the request.
 - b. PROPERTY PLAT MAP of the area of the requested rezone. Plats are available at the Weber County Recorder's Office.
 - c. LEGAL DESCRIPTION of the subject property.
 - d. REZONE REQUEST FEE of \$350 as established by resolution of the Riverdale City Council.
- 2. The Planning Commission, following the public hearing, will consider action to approve or deny the rezone request. The Planning Commission may take up to thirty (30) days following the public hearing to act on the rezone request. The decision of the Planning Commission will be forwarded to the City Council with the Planning Commission recommendation. The City Council will then make the final decision. If the request is approved, an ordinance will be signed and filed. The application / property owner may obtain a copy of the ordinance if desired.
- 3. If approved, the rezone will become effective upon posting of the ordinance.

Rezone Application for a C-3 Property at 633 W 4400 S.

Dear Riverdale City Officials,

We appreciate your consideration of this rezone application for approximately 1.31 acres from its current designation of RMH-1 and R-4 to C-3. The primary purpose for this rezone is to facilitate the successful development of a residential project that encompasses the SW corner of 4400 S and 700 W. It is also consistent with the horizontal mix of uses envisioned in the general plan.

The current property owner of the hard corner would like to retain ownership of land in the area. The hard corner plays a pivotal role in the ability of the residential project to be successful, due to its prominent and the shared property lines with the envisioned project. By utilizing a land swap, the current landowner will be able to increase the size of their other parcel up against the river, and use it in conjunction with nearby commercial operations. That same land swap will facilitate the remaining land in its development within the R-4 zoning designation.

The general plan designates the area between 700 W and the river as both commercial and residential. The requested C-3 zoning request is in line with this designation. This rezone would maintain the mix of land uses envisioned in the general plan. Furthermore, the city's recent zoning actions on nearby parcels support this same relationship between the general plan and the location of uses in the area.

We look forward to discussing this application before the Planning Commission and City Council and hope we can improve the built environment of the Riverdale.

Legal Description will be: All of Lot 2 RIVERSIDE FLATS SUBDIVISION

Sincerely,

Logan Johnson

Garff Properties Riverdale LLC

111 E. Broadway, Ste 900 Salt Lake City, UT 84111-5235

Dear Garff Properties Riverdale LLC Group:

There was an error stated in the previous letter sent to you in this matter. Please note the change in location below.

You have been identified as a property owner who may be affected by a current rezone request. Below is a notice of public hearing for the proposed rezone request for property located at approximately 633 West 4400 South in Riverdale City.

Notice of Public Hearing

Riverdale Planning Commission Tuesday, September 12th, 2023 Which begins at 6:30 p.m.

Riverdale Civic Center 4600 South Weber River Drive Riverdale, Utah

The Riverdale Planning Commission will hold a public hearing to receive and consider public comment on the following proposed rezone request:

The rezone request is for property located at approximately 633 West 4400 South in Riverdale City from Multiple-Family (R-4) zoning and Mobile Home Park-Recreational Vehicle Park (RMH-1) zoning to Regional Commercial (C-3) zoning.

Further information regarding this proposal can be viewed at www.riverdalecity.com. Public comment is invited and interested parties are encouraged to attend. The public may also participate by emailing the City Recorder at mmarigoni@riverdalecity.com.

You may review the current and proposed zoning on our city website (www.riverdalecity.com) by highlighting the "Government" tab and then clicking the header "Municipal Code". The C-3 zoning language is found under Title 10, Chapter 10A; the RMH-1 zoning language is found under Title 10, Chapter 9E.

As a potentially affected owner of property at the proposed rezone location, you may, no later than 10 days after the day of the first public hearing, file a written objection to your inclusion of property to this rezone request. Any formal protests should be submitted by mail to Riverdale Civic Center, 4600 So. Weber River Drive, Riverdale, UT 84405, or by email to meggett@riverdalecity.com. Any formal protests submitted to the City will be shared with the Planning Commission and City Council respectively throughout the process.

Please feel free to contact me with any follow-up questions, comments, or concerns that you may have regarding this matter via telephone at 801-394-5541 ext. 1215 or email at meggett@riverdalecity.com.

Thank you,

Michael Eggett

CERTIFICATION OF SIGN PLACEMENT

This is to certify that on the 31st day of August, 2023, I supervised the placement of a sign on property located at approximately 633 West 4400 South, Riverdale, Utah as a notice of a rezone request. I further certify that said sign was posted in compliance with all requirements of Riverdale Municipal Ordinance Code 10-5-3(A).

Dated this 31st day of August, 2023.

Jeff Woody, Community Development Department

RIVERDALE CITY PLANNING COMMISSION PUBLIC HEARING NOTICE

Riverdale City gives notice that on Tuesday, September 12, 2023, at 6:30 p.m., at the Riverdale City Civic Center, 4600 South Weber River Drive, Riverdale, Utah, the Planning Commission will hold a public hearing to receive and consider public comments regarding the following:

Proposed Rezone Request for properties located at approximately 633 West 4400 South in Riverdale City from Multiple-Family (R-4) zoning and Mobile Home Park-Recreational Vehicle Park (RMH-1) zoning to Regional Commercial (C-3) zoning.

The public is invited to review and inspect all information available concerning such proposal(s) at the Riverdale City Offices during the regular office hours, 8:00 a.m. to 5:00 p.m. Monday through Friday. The public or any interested parties may present written or oral testimony to the Riverdale City Planning Commission concerning the proposed action at the aforementioned time and place.

Certificate of Posting

The undersigned, duly appointed City Recorder, does hereby certify that the above notice and agenda was posted within the Riverdale City limits on this 31st day of August, 2023 at the following locations: 1) Riverdale City Hall Noticing Board 2) Riverdale City website at http://www.riverdalecity.com/ 3) the Public Notice Website: http://www.utah.gov/pmn/index.html.

e. Notice of Public Hearing 7-25-2023 GP Update

BACK TO AGENDA

City Council Executive Summary

For the Council meeting on: 10-3-2023

Presenter: Community Development Department

Summary of Proposed Action

Back in July of last year, Riverdale City staff engaged in a service contact with Psomas Group and their partners to commence the process on a Riverdale City Comprehensive General Plan update. Since that time, city staff, leadership, and Psomas have been working on this project to update the General Plan. There were open house opportunities and online opportunities for the public to provide input and feedback regarding the plan and this project effort. Many of those comments and ideas provided have been compiled and included in the final draft of this document. Further, community stakeholders (i.e. America First, Hill Air Force Base, etc) have been invited to participate and provide feedback from their unique perspectives as well. This has helped the Psomas team and city staff to work together to establish a Comprehensive General Plan update that reflects the current status of Riverdale City and creates long-range planning guidance for the City into future years.

Since this is an update to the General Plan, there is a requirement to hold a public hearing on this matter. During the June 13th, 2023, Planning Commission meeting, Chris Hupp with Psomas presented a report of the final Comprehensive General Plan update to the Commission and a public hearing was thereafter set for July 25, 2023. A public hearing was advertised for this Comprehensive General Plan update review and, thereafter, held on July 25, 2023, in accordance with all state and city noticing requirements. No additional public comments were provided to City Staff prior to the date of the meeting or during the public hearing.

Following the public hearing, the Planning Commission briefly reviewed and discussed the General Plan. At the conclusion of the discussion, the Planning Commission approved a recommendation to City Council to approve the proposed General Plan update with guidance for the Psomas Group to fulfill the expectations for the water conservation section per guidance from the State Water team. This has since been completed and fulfilled to the satisfaction of the State Water team.

This matter was previously presented and discussed by the City Council on September 5th, 2023. At the conclusion of the presentation and discussion, the City Council approved a motion to table the matter to allow the Council more time to review the Final General Plan documentation proposal. This matter is now being brought back to the Council for consideration purposes, in light of the tabling at the previous Council meeting.

Following the presentation of the General Plan update and potential discussion thereafter, the City Council may make a motion to approve the proposed Comprehensive General Plan update, approve with suggested modifications and/or changes, table the matter to a later date, or not approve the proposed Comprehensive General Plan update with the appropriate findings of fact provided for any decision submitted. Following the Council decision, city staff will act accordingly to carry out next steps based on the Council's decision.

Title 10 Ordinance Guidelines (Code Reference)

This amendment/update to the Riverdale City General Plan is subject to the guidance and direction of City Code 10-1-3 "General Plan Compliance" and State Codes found in UCA 10-9a-4 "General Plan".

Following the presentation of the General Plan update, the City Council is encouraged to review and discuss the

final draft of the Riverdale City Comprehensive General Plan update proposal and thereafter take appropriate action to approve the proposed Comprehensive General Plan update, approve with suggested modifications and/or changes, table the matter to a later date, or not approve the proposed Comprehensive General Plan update with the appropriate findings of fact provided for any decision submitted.			
General Plan Guidance (Section Reference)			
There is no General Plan Guidance specifically for this action item since the action item is the full proposed update to the existing Riverdale City General Plan documentation.

Administrative Comments – City Administrator			
	Steve Brooks, City Administrator		

ORDINANCE NO. 970

AN ORDINANCE OF THE RIVERDALE CITY COUNCIL TO ADOPT THE RIVERDALE CITY GENERAL PLAN, PROVIDE FOR CODIFICATION, SEVERABILTY AND AN EFFECTIVE DATE FOR SAID ORDINANCE

WHEREAS, Utah Code § 10-9a-401 requires each municipality to "prepare and adopt a comprehensive, long-range general plan for:

- (a) present and future needs of the municipality; and
- (b) growth and development of all or any part of the land within the municipality;" and

WHEREAS, Riverdale City (the "City") last updated their General Plan in 2019; and

WHEREAS, the City contracted with Psomas Group consultants to prepare and draft a new comprehensive General Plan for the city to guide development decisions within the City with a planning horizon date of 2043; and

WHEREAS, Psomas Group and City Staff created a steering committee and other working groups to engage members of the public in the General Plan Process, and the resulting efforts brought a large number of citizens and stakeholders from diverse backgrounds, socio-economic classes, and ethnicities to provide input and comment on the future of Riverdale City; and

WHEREAS, The team from Psomas Group and City Staff were able to engage members of the public meetings, open houses and online surveys and information submittal portals to ensure that the voices of community members were heard and included in the development of the proposed General Plan; and

WHEREAS, the resulting General Plan includes chapters (elements) discussing Community Values; Land Use & Neighborhoods; Housing; Economic Development; Transportation & Connectivity; Parks, Recreation, Open Space; Natural Hazards & Resiliency; Community Facilities; and Environmental, Social, and Economic Sustainability projections; and

WHEREAS, the proposed General Plan contains a Future Land Use Map that the City will use to guide land use and development decisions for up to the next 20 years.

WHEREAS, the Riverdale City Planning Commission held public hearings on the General Plan on July 25, 2023 in accordance with all state and city noticing requirements; and

WHEREAS, The Riverdale City Planning Commission voted unanimously to forward the proposed General Plan, attached as Exhibit A, and recommend that the Riverdale City Council vote to adopt it as the general foreseeable future development plan for the City.

NOW THEREFORE, BE IT ORDAINED, by the Riverdale City Council as follows:

SECTION I. Adopted General Plan. The Council hereby adopts the proposed General Plan as presented in Exhibit A, including all maps and attachments, as the Riverdale City General Plan.

SECTION II. It is the intent of the City Council that the provisions of this ordinance be made part of the Riverdale City Code as adopted, that sections of this ordinance may be re-numbered or re-lettered, and that the word ordinance may be changed to whatever section, chapter, or other such appropriate word or phrase in order to accomplish such intent regardless of whether such inclusion of a code is accomplished. Typographical errors which do not affect the intent of this ordinance may be authorized by the City without need of a public hearing by its filing a corrected or re-codified copy of the same with the City Recorder.

SECTION III. Severability. If any part of this ordinance or the application thereof to any person or circumstances shall, for any reason, be adjudged by a court of competent jurisdiction to be unconstitutional or invalid, such judgment shall not affect, impair of invalidate the remainder of this ordinance or the application thereof to other persons and circumstances, but shall be confined to its operation to the section, subdivision, sentence or part of the section and the persons and circumstances directly involved in the controversy in which such judgment shall have been rendered. It is hereby declared to be the intent of the City Council that this section would have been adopted if such invalid section, provisions, subdivision, sentence or part of a section or application had not been included.

SECTION IV. Effective Date. This ordinance shall become effective upon Mayor's signature and publication, or otherwise provided by law thereafter.

DATED this day of Octo	ber 2023.

Executive Summary

The purpose of the Riverdale City General Plan Update is to establish a resident-driven vision for the City and its future. This vision is set forth in seven elements which are used as guiding principles and implementation practices for the land use, transportation, housing, open space and recreation, public facilities, conservation and preservation, and economic development practices in Riverdale. The intent of the seven designated elements is to encourage preservation of historic culture, open space, and natural resources while creating a plan that will make the City an attractive place to live and serve as the pattern to guide future development.

Riverdale City incorporates approximately 4.6 square miles of Utah with the majority of development opportunities around Riverdale Road and along the Weber River. The emphasis of this General Plan Update was to focus on these areas further preserving the remainder of the City's neighborhoods and open space amenities.

This General Plan Update reviews existing conditions and analyzes that information with collected data from public engagement and other sources to establish community-centric sustainable growth practices. Best practices and emerging trends are also outlined in the elements. Land use and transportation patterns were created by focusing on the public feedback received, sustainable best practices, and UDOT, UTA, and WFRC plans.

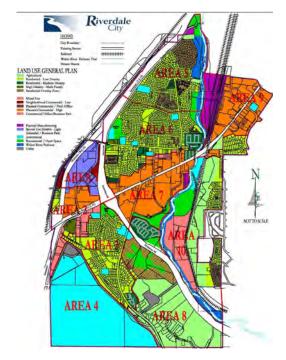

Existing Plans & Codes

Several City studies have been completed that impact the General Plan Update. The project team reviewed a variety of these studies and other data to further understand the vision, needs, and desires of residents. Those existing studies and plans for the focus areas were reviewed and synthesized as follows:

Riverdale General Plan (2019)

The previous Riverdale General Plan update was completed in 2019. The city's mission, as stated in the General Plan, is to "provide the highest level of municipal services to the Riverdale Community and to be fiscally responsible". The Plan outlines key goals, such as exploring economic opportunities, manage residential growth to maintain a neighborhood atmosphere, provide a transportation network that can safely and efficiently allow access to development, develop a community identity, protect and preserve the natural environment, and develop parks, utilities, infrastructure, and public buildings to meet current and future needs.

Several objectives are also established, including:

- · Achieve better, balanced development
- · Promote safe, efficient corridors
- Create a healthy, serene natural environment
- · Promote responsible financial security
- Ensure a safe and peaceful community
- Encourage a united, involved community
- integrating water in land use planning

Redevelopment Agency of Riverdale Annual Report (2019)

The 2019 Redevelopment Agency of Riverdale Annual Report is a legally-required document that meets reporting requirements from Riverdale City's multiple RDAs. The report covers all five of the City's project areas, including:

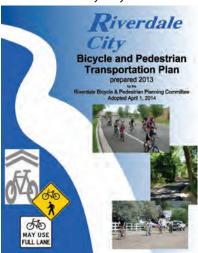

- Riverdale Road
- 1050 West
- 550 West
- West Bench
- 700 West

The goals for the multiple redevelopment areas are summarized as the following:

- Incentivize commercial development along Riverdale Road
- Strengthen the economic base of the community
- Promote development of job growth and goods and services to the community
- Provide a means for the City to meet the goals outlined in the General Plan

Riverdale City Bicycle & Pedestrian Transportation Plan

The Riverdale City Bicycle and Pedestrian Plan, completed

in 2013, was established to improve the safety for all transportation users and to promote a better quality of life in the community. The City created the Bicycle and Pedestrian Planning Committee, which comprised of residents, staff, and City Council members, to bring the Plan together.

The Committee established goals and objectives, updated the city's bikeways plan, took inventory of existing city infrastructure and policy, and prepared recommendations for changes, including infrastructure improvements, policy and ordinance considerations, and education awareness efforts. The key implementation steps that resulted from the study include the following:

- Continue an ongoing Bicycle and Pedestrian Advisory Committee
- 2. Advise City Council on the Funding and Implementation of Projects
- 3. Work with Weber County
- 4. Work with WFRC
- 5. Work with UDOT
- 6. Evaluate city ordinances for updates to promote bicycle-friendly businesses
- 7. Apply for Bicycle-Friendly Community status if not awarded, evaluate, make changes, and re-apply annually

Moderate-income Housing Report (2021)

Utah State Code requires that every municipality adopt a plan for moderate-income housing within the community. The plan must address the following five issues:

- An estimate of the existing supply of moderateincome housing located within the municipality;
- An estimate of the need for moderate-income housing in the municipality for the next five years as revised biennially;
- A survey of total residential land use;
- An evaluation of how existing land uses and zones affect opportunities for moderate-income housing; and
- A description of the municipality's program to encourage an adequate supply of moderate-income housing.

In response to these State requirements, Riverdale evaluated the current supply of housing in the City (including rental units), then established goals accordingly. The goals are as follows:

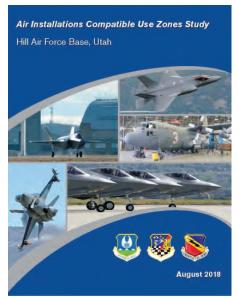

- Continue to revitalize neighborhoods and enhance the vitality of the region by improving the quality of the housing stock through rehabilitation of existing dwellings through Riverdale's RDA program.
- Sustain affordable housing (rental and owner occupied) for people at very low, low, and moderate-income levels that meet the needs of a population which varies in household size and age.

- Increase the level of rental assistance for very low and low income and special need populations.
- Promote additional funding sources from the public, non-profit and private sectors in order to create necessary housing for the region.
- Ensure an adequate supply of safe, accessible, sanitary, and aesthetically pleasing moderateincome housing integrated throughout the City in various locations, and consistent with the needs of all segments of the population.
- Sustain a mix of lot sizes and housing types in existing developments so that moderateincome housing is properly integrated and not concentrated in one development or area.
- Encourage requirements to keep moderateincome housing consistent with other residential development within the City, such as landscaping, quality building materials, and varied architectural styles.
- Consider the adoption of a rehabilitation code to address improvement of older residential buildings/ units to encourage stability and revitalization of older residential areas.
- Update the Moderate-income Housing Element and Affordable Housing Model to determine the housing needs for all groups, to quantify specific housing needs, and to identify solutions to housing problems every two years as required by state statute.

Air Installations Compatible Use Zones (AICUZ) Study, Hill AFB (2018)

The AICUZ Study for Hill Air Force Base outlines the location

of runway Clear Zones, aircraft Accident Potential Zones (APZ), noise contours, and provides recommendations for development compatible with military flight operations. The study is meant to provide local governments with information and recommendations to be incorporated into community plans, zoning

ordinances, subdivision regulations, building codes, and other related documents and helps satisfy requirements in House Bill 265. [le.utah.gov/~2023/bills/static/HB0265.html].

Pertinent to the General Plan, the AICUZ provides land use recommendations for areas surrounding Hill AFB. Most areas that fall within noise contours and Accident Potential Zones are zoned agriculture or low density residential.

There is an incompatible residential land use within the AICUZ noise contour lies between the base boundary and Weber Drive. This area is also in APZ I. There is also a small residential area in the northwest corner of APZ II west of Schneiter's Riverside Golf Course which is allowed based on the structures being designed to comply with the sound attenuation standards.

The WFRC 2019-2050 Regional Transportation Plan

This map shows planned roadway, transit, and bicycling projects included in the WFRC 2019-2050 Regional Transportation Plan (RTP) in Riverdale. Projects are broken up into phases, Phase #1 (2019-2030), Phase #2 (2031-2040) and Phase #3 (2041-2050). Notable projects include:

 Transit: Pleasant View to Clearfield (Weber County) Transit improvement along Riverdale Road, Phase #1.

- Transit: Roy Station to Weber State University
 Transit improvement along 4400 South and
 Riverdale Road, Phase #3.
- Roadway: 4400 South; 1900 West to 700 West Roadway widening project from 2 lanes to 3 lanes, Phase #2.
- Roadway: South Weber Drive; SR-168 to 2100
 East Roadway widening project from 2 lanes to 3 lanes, Phase #3.
- Bike/Ped: Parker Drive; 4400 South to Weber River Parkway Bike lanes, Phase #2.
- Bike/Ped: 1500 West to Ritter Drive Bike lanes, Phase #2.
- Bike/Ped: 1050 West; Ritter Drive to River Park Drive Bike lanes. Phase #2.
- Bike/Ped: Ritter Drive / South Weber Drive
 Bike lanes, Phase #3.

Funding Sources

The City researched additional funding mechanisms in order to further bridge the mobility gap, provide housing options, and improve the health and safety of the community. Among those funding sources are:

 Federal Transit Administration (FTA) offering the Enhanced Mobility of Seniors & Individuals with Disabilities – Section 5310, and Section 3006(b)

- **State of Utah Funds** are also available through the following capital projects:
 - Rolling stock and related activities for section 5310-funded vehicles
 - Passenger facilities related to Section 5310-funded vehicles
 - Support facilities and equipment for Section 5310-funded vehicles
 - Lease of equipment when lease is more cost effective than purchase.
 - Acquisition of transportation services under a contract, lease, or other arrangement
 - Support for mobility management and coordination programs among public transportation providers and other human service agencies providing transportation.
 - Capital activities to support ADA-complementary paratransit services

General Funding – Up to 45% of a rural, small urbanized area, or large urbanized area's annual apportionment may be utilized for public transportation projects that: are planned, designed, and carried out to meet the special needs of seniors and individuals with disabilities; improve access to fixed-route service and decrease reliance by individuals with disabilities on ADA-complementary paratransit services; or alternatives to public transportation that assist seniors and individuals with disabilities with transportation.

- (FTA) Buses and Bus Grants Program Section 5339.
 Established funds to states to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities including technological changes or innovations to modify low or no emission vehicles or facilities.
- Federal Highway Administration (FHWA) Funds are administered through the Congestion Mitigation and Air Quality (CMAQ) program. The CMAQ program supports surface transportation projects and other related efforts that reduce congestion and that contribute to air quality improvements.
- US Department of Housing and Urban
 Development (HUD) Grants are available to fund community development activities.
- Community Development Block Grants (CDBG)
 assists projects that benefit low- and middle-income
 persons, projects that prevent or eliminate slums or
 blight, and activities that address an urgent threat to
 health and safety.

O2 LAND USE

"Our family loves the trail, since we have so much retail it is nice to have a piece of nature that helps us feel disconnected from the crazy. I hope we continue to preserve and maintain the trails and surrounding areas."

Introduction & Background

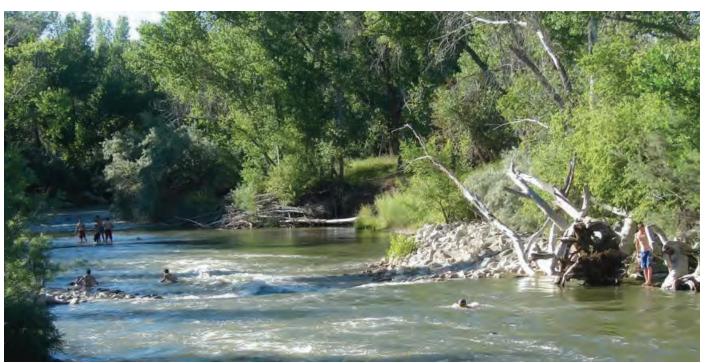

Riverdale City had its beginnings as a string of housing along the Weber River. As development continued, the river remained a prominent feature of the city, and served as the influence for the city's name when it was incorporated in 1946. Since then, development has centered around Riverdale Road leaving the area around the river mostly preserved. Today the city is mostly developed with residential, commercial, and Air Force Base uses, with a few vacant parcels and some agricultural ground within the Accident Potential Zones (APZ) on the south. (For a more detailed history of Riverdale visit: [www.riverdalecity.com/history.html & www.familysearch.org/en/wiki/Riverdale,_Utah])

The city's growth rate has remained around 7% over the past two decades and has increased to approximately 7.8% in the past few years. This rate may continue as a few residential development projects are in process within the city. These newer residential developments may be more compact then historical residential development within the city due to a number of factors. The cost of living and the State's response, and land availability are among those factors. As the cost of living continues to rise in the area, feasibly priced options for a range of residents is becoming more limited.

To help alleviate this issue, the State mandated requirements for moderate-income housing (which will be outlined in greater detail in the Housing Element [le.utah.gov/~2022/bills/static/HB0462.html]).

To maintain the character of the city, development and redevelopment is occurring along the city's perceived core (Riverdale Road) and within the undeveloped areas. This land use element needs to be focused on maintaining the city's current character while preserving the city's namesake for generations to come. Plans that do not guide development in a manner that maintains the city's vision while satisfying the state housing mandates should be revisited.

When asked, residents said the current heart of the city was Riverdale Road, (becoming the "new river" of the city), however, many residents stated that the city should be centered along the Weber River in keeping with its historic roots. This element will be focused on that ideal and the City's vision, as the purpose of a land use element is to reflect a community's vision. This element will also promote thoughtful, equitable, and accessible distribution of different land uses, including residential, commercial, manufacturing, agricultural, and open space. The land use element is a tool that can address issues and concerns specific to its location and resolve those while preventing future issues. Land use planning envisions the future of an area and interacts with all other elements in this chapter.

Best Practices

The following are best practices for smart and sustainable development:

- Focus intensities around key intersections, major traffic corridors, and where infrastructure is readily accessible.
- Maximize efficiency of existing and planned infrastructure by placing most intense development at major nodes.
- Preserve and enhance cultural and natural amenities.
- Buffer less-compatible land uses and facilitate compatible land uses.
- Optimize land use designations based on opportunities and constraints.
- Step intensities down progressively away from major development nodes and intersections.
- Provide safe and efficient multi-modal access to businesses, employment, and residents and consider proximity to other land uses, neighboring jurisdictions, and transportation networks.
- Ensure land uses and intensities are contextappropriate.
- Provide active and passive recreation opportunities within close proximity to residents.
- Balance land uses based on current and projected demographic information, existing and planned infrastructure and resources, and market trends.
- Jurisdictional boundaries should follow barriers either natural or man made.

Principles

Several public sentiments were shared during the public engagement process for this project. This section illustrates what would be required from various land use scenarios in order to achieve these public sentiments:

Public Sentiment: Maintain balance between Commercial and Residential

Balance between commercial and residential development is important for the residential quality of life and vitality of commercial development. This balance is typically calculated by looking at the average square feet (sf) of commercial space per existing resident within a given area of the commercial development. This commercial space per resident is established based on commercial performance and regional and demographic context. This context extends beyond municipal boundaries.

 For example, if you have 5,000 residents and your optimal space per resident is 20 sf, then you would need 100,000 sf of commercial space to be balanced in terms of land uses. (100,000 sf / 5,000 residents = 20 sf / resident).

This is an oversimplified version to find balance between the land uses, but can help evaluate the near-future opportunity of additional commercial development or vitality of existing commercial development. This development type also looks at the demographics of specified areas in comparison to its existing commercial and transportation conditions. Some of the key metrics commercial developers evaluate are the current population size, age breakdown, household size, and median income within a x-mile trade radius. Examples:

- Costco requires within a 5-mile trade area radius, 200,000 people and a median income of \$75,000. Their target demographic also includes college educated, 2-person+ households.
- Whole Foods requires an even higher population, 250,000 within a 3-mile trade area radius with a median income of \$75,000.
- A typical medium-sized grocery store requires about 7,000 - 10,000 residents within a 1-mile radius, and 40,000 - 50,000 residents within a 3-mile radius.

If a commercial area is failing, a targeted financial analysis could be completed to better plan for its future vitality. For more information see the Economic Development Element of this General Plan.

You will note from the land use plan and transportation plan, that consideration has been placed on providing supportive intensities in areas where public transit can help reduce congestion on existing streets.

Public Sentiment: Townhomes instead of Apartments

The major purpose for developing a wide range of housing types is to allow housing options that meet the needs of individuals in different stages of life. Adding a variety of residential property types can lower the cost of living and reduce barriers of property ownership.

The exact make up of these different product types may vary by need, but each product type should be represented. In addition, the state requires moderate-income housing to be provided by a number of strategies including zoning or rezoning properties for "higher density or moderate-income residential development in commercial or mixed-use zones near major transit investment corridors, commercial centers, or employment centers;" [le.utah.gov/~2023/bills/static/HB0364.html].

This requirement does not dictate the necessity of any one housing product type over another. It does dictate the need for increased density in given areas which typically reduces resource use (ex. water) and increases efficiency in utilities and infrastructure. Increased density can potentially be developed as townhomes, apartments, or other product types. The requirements may be more easily met by higher intensity development as density per acre is increased thus requiring less space to be consumed by that requirement.

(Ex. the typical townhome product is approximately 10 - 14 units / acre whereas the typical apartment product is approximately 20 - 30 units / acre. If you are seeking 120 units of moderate-income housing, that could be met with 10 acres of townhomes at 12 units to the acre or 5 acres of apartments at 24 units to the acre.)

Public Sentiment: Riverwalk along Weber River

There are several factors to consider when establishing a riverwalk. Among these are property ownership, cost of development, floodplain and wetlands, access and safety, aesthetic, and community vision.

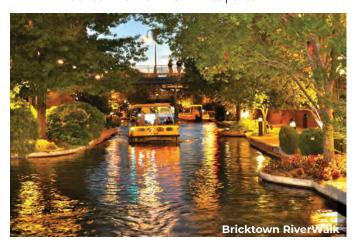

Riverdale City has 3.5 miles of frontage along the Weber River, with approximately 1.25 miles of frontage between I-84 and Riverdale Road. This segment accounts for approximately 200 acres of surrounding land, and is owned by 10 different groups. Three property owners including Riverdale City own the majority of this land, and the land for the most part is undeveloped. Because there are few property owners, this increases the possibility of a cohesive, functional, and aesthetically pleasing riverwalk.

The cost of this type of development depends highly on floodplain, wetlands, and the general aesthetic desired by the community. In this case, the majority of residents wanted to keep significant portions of the riverwalk in its natural state with a more urbanized pocket to help establish a more representative "Riverdale Downtown". The segment between Riverdale Road and I-84 could become that urbanized Riverdale Downtown riverwalk.

This portion of the river currently has a paved multi-use trail which could be improved and integrated into existing and future plans for this area. Other portions of the river have outdoor recreation opportunities, but access points are limited. Less access to the river can increase safety concerns, so increasing access points, lighting, and general visibility would help with existing and perceived safety concerns.

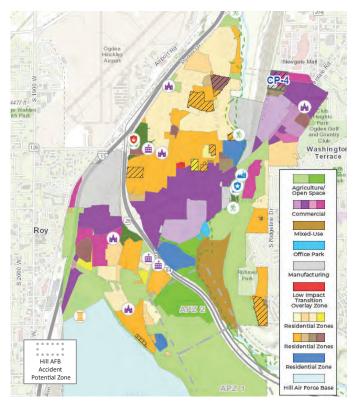

Some examples of Riverwalks are:

- San Antonio RiverWalk 15 miles | Urban
- Indianapolis Canal Walk 3 miles | Urban & Open Park
- Charles River Esplanade 3 miles | Native & Open Park
- Detroit International RiverWalk 5.5 miles | Urban
- Louisville Waterfront Park 2.2 miles | Open Park
- Bricktown RiverWalk 2 miles | Urban
- Schuylkill RiverWalk 71 miles | Native, Open Park & Urban
- Milwaukee RiverWalk 3.1 miles | Urban

Element

Riverdale City is predominantly built out with existing zoning well established (see the Riverdale City zoning map below). Opportunities for redevelopment exist within the City and would primarily be classified as urban infill or redevelopment which typically intensifies land uses.

Future Land Use Map

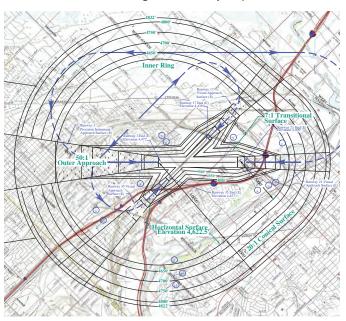

The general land use vision from residents was to keep Riverdale relatively the same with potential increases in preserved open space and amenities. The changes shown in the future land use map, on the following page, are based on public engagement, existing and proposed plans, and state requirements for "higher density or moderate-income residential development in commercial or mixed-use zones near major transit investment corridors, commercial centers, or employment centers."

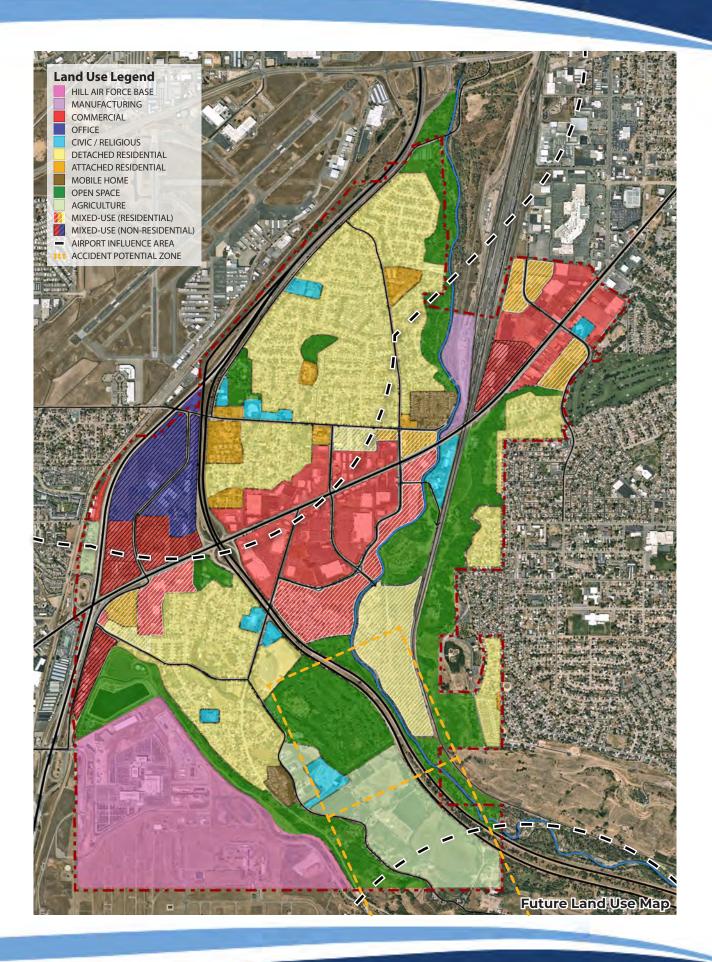

Other adjustments to the future land use map have been made to accommodate house bill (HB) 206 Airport Land Use Amendments [le.utah.gov/~2023/bills/static/HB0206.html]. This bill requires a "political subdivision located within an airport influence area" (land within 5,000 feet of an airport runway) to notify a person building on or development land in an airport influence area, in writing, of aircraft overflights and associated noise and to establish an Airport Overlay Zone which:

- Is compliant with Title 14 Part 77 of the Code of Federal Regulations (CFR) [www.ecfr.gov/current/ title-14/chapter-l/subchapter-E/part-77]
- "Applies land use regulation in addition to the primary zoning district land use regulation of property used as an airport and within an airport influence area
- May extend beyond the airport influence area
- Ensures airport utility as a public asset
- Protects property owner land values near an airport through compatible land use regulations as recommended by the Federal Aviation Administration; and
- Protects aircraft occupant safety through protection of navigable airspace."

The main requirement to understand from CFR 14.77 is that development type and height within an airport influence area must follow the Federal Aviation Administration (FAA) regulations. Below is a map showing how the height restrictions can be understood within the Transitional Surface, Horizontal Surface, Outer Approach, Inner Ring, and Conical Surfaces of the Ogden-Hinckley Airport.

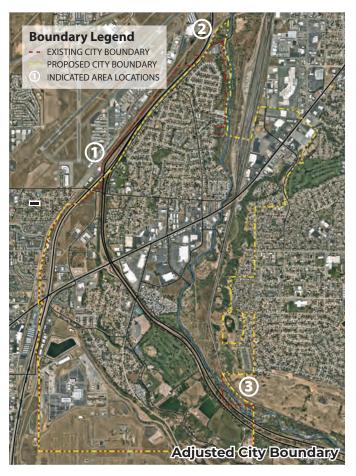

The land uses delineated on the future use map are meant to indicate the general development type for each area within the City, and correspond to the existing zoning designations. These land use designations are listed for information purposes, and do not give a property owner the right to rezone their property to any of the associated zones that fit within the land use as notated below, without prior approval from the Planning Commission and City Council:

- **Hill Air Force Base** This zone federally governed and its equivalent Riverdale zone is HAFB
- Manufacturing The manufacturing land use consist of light and heavy manufacturing, research, and distribution uses. Corresponding Zoning designations are M-1, M-2, MP-1, MP-2
- **Commercial** This use provides for ar range of commercial uses and includes the following Riverdale Zones: C-1, C-2, C-3, CP-1, CP-2, CP-3
- Office There currently is only one location within Riverdale City under this land use. This is the area between I-85, I-15, and Riverdale Road. The equivalent Riverdale zone is: OP and this use is also variably allowed (permitted or conditional) in the C-1, C-2, C-3, CP-1, CP-2, CP-3, M-1, M-2, MP-1, MP-2, and LIT zones
- Civic / Religious This land use is established to show locations of schools, churches, municipal land, and other civic uses, and is generally allowed in residential zones as a permitted use.
- **Detached Residential** The detached residential land use is specifically set for a wide range of detached residential product types, and may follow Riverdale Zones: RE-15, RE-20, R-1-10, R-1-8, R-1-6, R-1.4.5, R-2
- Attached Residential Similar to the detached residential land use, this use is specifically set for a wide range of attached residential product types (housing types that share at least one wall) and may fit within Riverdale Zones: R-2, R-3, R-4, R-5
- **Mobile Home** This land use designation is specific to the RMH-1 zone.
- Open Space Many cities do not include open space zoning within their code, but this land use allows cities to better control what can and can't be developed within this space preserving a greater amount of open space for community use. The Riverdale Zone is: O-1
- Agriculture Agriculture land uses within the City typically fall within the Accident Potential Overlay Zones and correspond with Riverdale Zones: A-1, A-2
- Mixed-Use (Residential) This overlay is intended to allow residential, commercial, or office development as a secondary use with the primary use being the underlying land use shown on the Future Land Use Map. Related zones are: MU, MFROZ, LM

- Mixed-Use (Non-Residential) This overlay is intended to allow residential, commercial, or office development as a secondary uses with the primary use being the underlying land use shown on the Future Land Use Map. Related zones are: RCP
- Airport Influence Area The Airport Influence Area is a proposed new overlay zone as required by HB206.

In addition to the future land use map adjustments, some City boundary adjustment could be made to help the City become more cohesive and efficient in key locations. The map below points out three such locations:

- **Area 1:** Remove land areas between the Ogden-Hinckley Airport and I-15 and north of 4400 South.
- Area 2: Add land areas between the existing City boundary and the Weber River, and the area north of Parker Drive up to I-15 and the rail line.
- Area 3: Add the land on the south east side of the City which falls between I-84 and the rail line.

Other locations should be considered for boundary adjustment review based on public sentiment, access to services, safety, feasibility, and planning best practices.

Implementation

The following steps should be taken upon approval of the Riverdale City General Plan Update:

Establish an Airport Influence Area Overlay Zone (AIAOZ) & Create a standard written response to those developing within this AIAOZ

As part of House Bill 206, Riverdale City has land within the 5,000 ft Airport Influence Area of both the Ogden-Hinckley Airport and the Hill Airforce Base runways. As such Riverdale is required to enact land use regulation of property within these airport influence areas and establish an overlay zone which encompasses this land. This regulation should make reference to the master plans of both developments and can be based on the existing Ogden City Code, Chapter 24 Airport Zone Districts and Uses [codelibrary.amlegal.com/codes/ogdencityut/latest/ogdencity_ut/0-0-0-22160 - Ogden City Code Chapter 24 Airport Zone Districts & Uses].

In addition, this bill requires a "political subdivision located within an airport influence area" to notify a person building on or developing land in an airport influence area, in writing, of aircraft overflights and associated noise. The City should develop a standard letter, or email that can be sent to individuals seeking to develop within the AIAOZ.

2. Adjust Zoning as Indicated on the Future Land Use Map

Several locations on the map have been identified that would modify the existing zoning of the land. These areas of adjusted zoning may be done in the nearterm or as development or redevelopment occurs. Those locations that increase intensity may help to meet specific State requirements for moderate-income housing.

3. Adjust Zoning to Match the Proposed Mixed Use Overlay Areas on the Future Land Use Map

Several mixed use residential (MUR) and non-residential (MUNR) overlay areas were created on the future land use map. These overlay areas should be added to the City Zoning Map following approval of the General Plan Update. The MUNR areas should have an overlay zone of RCP whereas the MUR areas could become MU, MFROZ, or LM (see item 4 for the LM zone).

4. Create an Overlay Zone for the Riverwalk Area or Designate Area as a Landmark Development Zone

Residents wanted to preserve the River and river trail area in both a natural and urban state. Sections that are not detailed for an urban Riverwalk Overlay (RO) section should be maintained in a more natural state and zoned as O-1. The section that should be demarcated as the RO or the Landmark Development (LM) Zone is the area along the Weber River between Riverdale Road and I-84 and River Park Drive and the rail line. This rezone should take place shortly after or concurrent with the General Plan's adoption.

5. Revise the Riverdale City Boundary

Adjust the city boundary to reflect the maintenance and efficiency changes notated on the "Adjusted City Boundary Map".

03 TRANSPORTATION

"Riverdale Road itself is both a huge barrier and huge opportunity. On one side you have nearly the entire population of the city...and on the other side grocery stores, and restaurants. Most residents live within a 30 min walk (or 10 min bike ride) for groceries, but its dangerous and difficult to cross that enormous road! Think how amazing Riverdale could be if it was designed for the PEOPLE WHO LIVE HERE. Think: protected bike lanes, pedestrian bridges, or on street parking with little shops."

- SURVEY PARTICIPANT

Introduction & Background

The City of Riverdale is located at the interchange of two major freeways, I-15 and I-84, which makes it unique in that the City is greatly impacted by the regional and interstate roadway networks. Along with I-15 and I-84, SR-26 or Riverdale Road also bisects the City. It is rare for a city of Riverdale's size to have such a wide range of roadway systems and it creates unique challenges and opportunities for Riverdale City when it comes to creating a safe and efficient transportation network that helps keep Riverdale a wonderful place to live. The goals of the transportation section of the general plan are for Riverdale City to plan for an efficient transportation system by:

- Enhancing mobility by offering a variety of interconnected transportation choices
- Increasing roadway safety by performing a crash analysis and offering mitigation measures
- Developing a connected, convenient, and safe active transportation network
- Identifying major transit investment corridors
- Preserving corridors for future infrastructure needs
- Making land-use and transportation decisions based on a comprehensive understanding of the impact on each other

Best Practices

Riverdale City is continuously striving to improve the safety and efficiency of their transportation network for all modes of transportation (pedestrian, bicyclist, vehicle etc.). The following best practices should be put in place by the City to continue improving the transportation network.

Roundabouts

Roundabouts are low maintenance, create efficient traffic flow, reduce crashes significantly, and help calm traffic. According to the UDOT's Safety Countermeasure Fact Sheets (dated February 2021) "Roundabouts reduce the number of conflict points at a typical intersection from 32 to just 8. The 8 remaining are merge or diverge type conflicts that very rarely result in severe crashes. In addition, roundabouts require users to slow down, reducing the severity of crashes that may occur". Roundabouts are an effective way to reduce fatal and serious injury crashes, and can be designed with approach speeds ranging from 25-65 mph. One downside to roundabouts, however, is that they can be expensive to construct ranging from \$1-3 million.

Shared Use Paths

Shared use paths are facilities on exclusive right-of-way and with minimal cross flow by motor vehicles. Off-road facilities can provide low-stress environments for bicycling, walking and other non-motorized transportation modes that are separate from motor vehicle traffic. According to the Rural Design Guide, benefits of Shared Use Paths include:

- Provides a dedicated facility for users of all ages and abilities
- Provides, in some cases, access to areas that are otherwise served only by limited-access roadways
- Provides non-motorized transportation access to natural and recreational areas, which can especially help low-income people obtain access to recreation
- Provides, in some cases, a short-cut between cities or neighborhoods
- Supports tourism through convenient access to natural areas or as an enjoyable recreational opportunity itself

Bike Lanes

According to the National Association of City Transportation Officials (NACTO), bike lanes designate an exclusive space for bicyclists through the use of pavement markings and signage. The bike lane is located adjacent to motor vehicle travel lanes and flows in the same direction as motor vehicle traffic. On streets with high traffic volume, regular truck traffic, high parking turnover, or speed limit greater than 35 mph, consider treatments that provide greater separation between bicycles and motor traffic such as buffered bike lanes or cycle tracks.

Street Connectivity

Connectivity refers to a dense, interconnected, and redundant roadway, walkway, and bikeway network allowing multiple routes of travel. Connectivity improves mobility, creates transportation choice, improves emergency response times, creates jobs, increases home values, and improves network efficiency and safety for travelers.

Traffic Calming

Traffic calming is the use of physical design and other measures to improve safety for motorists, pedestrians and cyclists by reducing vehicle traffic and/or vehicle speeds. Secondary benefits of traffic calming may include increased comfort and mobility for non-motorized traffic, reduced vehicle emissions, and increased property values. Traffic calming may be important in areas of the City where a high pedestrian presence is desired such as local roads in residential neighborhoods, in city centers, or school vicinities. For more information regarding traffic calming measures view the UDOT Speed Management Information Sheets [maps.udot.utah.gov/wadocuments/ Data/Region4/SR 258 and SR 118 Corridor Study/ Speed%20Management%20Info%20Sheets_2021_06_24.pdf] and the Salt Lake City Livable Streets Program [www.slc.gov/ transportation/plans-studies/livable-streets/] which explain traffic calming treatments, advantages and disadvantages, typical costs, example locations, and other potentially useful information.

Median Barriers

According to the Federal Highway Administration (FHWA) raised medians:

- Have been found to reduce motor vehicle crashes by 15%.
- Decrease delays (>30%) for motorists.
- Have resulted in an increase in capacity (>30%) of roadways.
- Have been shown to reduce vehicle speeds on the roadway.
- Provide space for landscaping within the right-of-way.
- Provide space to install additional roadway lighting, further improving the safety of the roadway.
- Provide space to provide supplemental signage on multi-lane roadways.
- Can be less expensive to build and maintain than paved medians.

particularly at high-speed or high-traffic intersections. Access management can also improve safety by reducing the number of conflict points between vehicles. Additionally, by carefully designing access points and intersections, access management can improve visibility and reduce the potential for drivers to make errors or misjudge the speed and distance of oncoming vehicles. Overall, access management is an effective way to improve roadway safety by reducing the potential for collisions and improving traffic flow.

Principles

Several key Riverdale stakeholders were individually interviewed from late August through September 2022. Individuals with a variety of backgrounds were selected, ranging from residents and property owners to community leaders and City officials. In addition, two public open houses were held where everyone was asked to share their ideas, goals, concerns, opportunities, constraints, and vision for the future of the city. The following is a summary of the transportation related concerns from the stakeholders followed by a brief response.

Public Sentiment: The City needs more transit options

Riverdale City should be actively involved in working with UTA, UDOT, and WFRC to support transit as a viable and efficient transportation mode in the city. Additional transit service should be considered where major development is taking place, such as near the America First Credit Union campus or along Riverdale Road. Future transit service should seek to maintain and improve the connections between housing, employment, education, recreation, and commerce.

A five-mile Bus Rapid Transit (BRT) system is currently being constructed in Ogden known as OGX to connect the Ogden FrontRunner Station at Ogden Union Station near 2500 Wall Avenue to key regional locations ending at Weber State University east of Harrison Boulevard. The BRT project will benefit the community by reducing vehicle trips, supporting the economy, and providing transportation choices. A similar BRT project may be considered to connect Weber State University and other key regional destinations to the commercial developments along Riverdale Road.

Riverdale City continues to work closely with UTA in moving ahead to improve bus stop locations with shelters. Most bus stops in Riverdale City do have equipped shelters at each UTA bus stop. Currently, Riverdale hopes to see three additional and final key bus stops equipped with shelters in the near future as continued efforts are made to work with property owners and UTA representatives to accomplish this goal.

Public Sentiment: Safety improvements needed on Riverdale Road

Riverdale Road (SR-26) is a 7-lane UDOT roadway and is considered the City's major arterial. Major arterials are streets that bring traffic to and from the freeway system as well as serve major traffic movements within the metropolitan area. Riverdale Road has an Annual Average Daily Traffic (AADT) volume of more than 55,000 east of the I-84 interchange which is approaching freeway level volumes. It has also been noted by the police department that speeding can be an issue here.

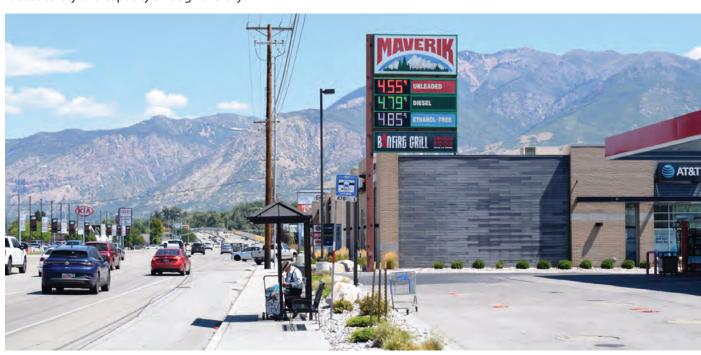

One safety and capacity improvement option to consider is adding raised medians along Riverdale Road. Benefits of raised medians are outlined above in the 'Best Practices' section. Another median barrier option for the City to consider on Riverdale Road is rolled medians, which would allow emergency vehicles greater access than raised medians. The City can work with UDOT to improve this state route's safety and capacity through the city.

Public Sentiment: Improve the trail system

Requirements should be considered for future development to provide active transportation network improvements. As development occurs at the America First Credit Union campus, for example, a full trail system is to be constructed at the site. When constructing active transportation facilities, it is essential to provide connections to existing and future trail systems throughout the city to improve active transportation network connectivity.

Public Sentiment: New Development may strain the existing transportation network

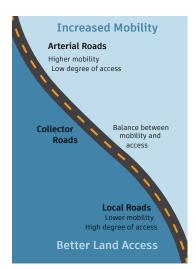

A multimodal (vehicles, pedestrians, bicyclists, transit etc.) network improvement approach is necessary to negate the impact of new development on existing transportation infrastructure. Special attention should be given to provide transit and active transportation connections at new developments.

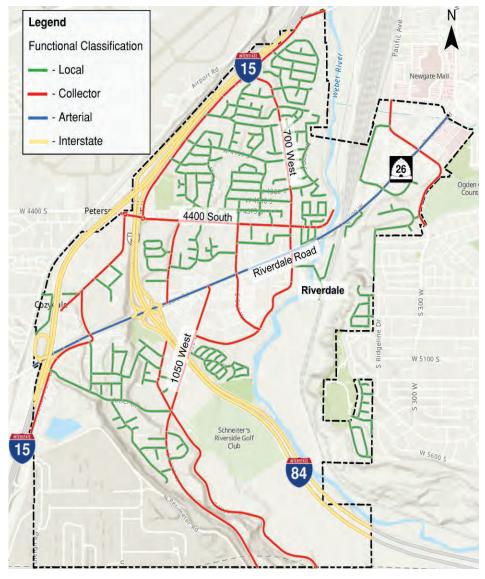

Element

Roadway Functional Classification

The roadway system has a hierarchy to it based on roadway attributes such as speed and access. The higher a street classification, the more mobility it provides with limited access. Lower street classifications have less mobility, but more access. The functional classification of a roadway indicates the road's role within the transportation system, which in turn helps determine when increased travel demand or change in the road's use could lead to negative impacts on its intended function in terms of speed, capacity, and relationship to land uses (FHWA, 2013).

The four major classifications of Riverdale roadways used in this General Plan are interstate, arterial, collector and local roads. The functional classification map is shown below.

Existing Functional Classification

Intersection Control

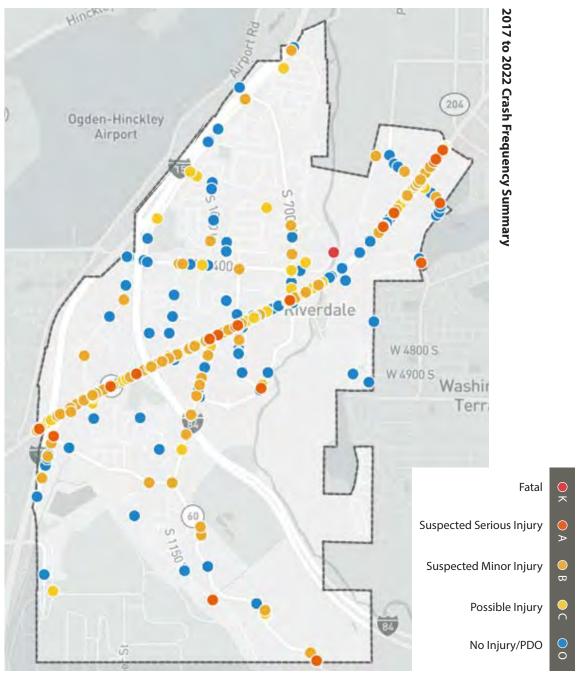

The existing intersection control map is shown in the figure below.

As shown, the only signalized intersections in Riverdale are along Riverdale Road.

Safety

A safety analysis was performed for all roadways within Riverdale City. The most recent 5 full years of available crash data (January 1, 2017, to January 29, 2023) from UDOT Traffic & Safety were used to perform the analysis. Crashes on I-15 and I-84 have been removed from the analysis. In total there were 809 crashes, 484 of which were property damage only, 160 possible injury, 144 suspected minor injury, 20 suspected serious injury and 1 fatal crash.

Crash severity is reported according to a five-category scale ranging from no injury to fatality. UDOT has taken on the goal of Zero Fatalities. This zero fatalities approach is guided by the Safe System framework.

The Safe System approach consists of the following five elements . [zerofatalities.com, & safety.fhwa.dot. gov/zerodeaths/docs/FHWA_SafeSystem_Brochure_V9_508_200717.pdf]

Safe Road Users

The Safe System approach addresses the safety of all road users, including those who walk, bike, drive, ride transit, and travel by other modes.

Safe Vehicles

Vehicles are designed and regulated to minimize the occurrence and severity of collisions using safety measures that incorporate the latest technology.

Safe Speeds

Humans are unlikely to survive high-speed crashes. Reducing speeds can accommodate human injury tolerances in three ways: reducing impact forces, providing additional time for drivers to stop, and improving visibility.

Safe Roads

Designing to accommodate human mistakes and injury tolerances can greatly reduce the severity of crashes that do occur. Examples include physically separating people traveling at different speeds, providing dedicated times for different users to move through a space, and alerting users to hazards and other road users.

Post-Crash Care

When a person is injured in a collision, they rely on emergency first responders to quickly locate them, stabilize their injury, and transport them to medical facilities. Post-crash care also includes forensic analysis at the crash site, traffic incident management, and other activities.

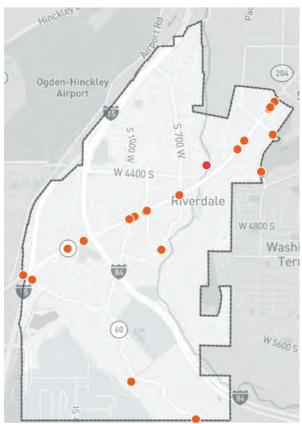

The figure to the right shows the suspected serious injuries and fatal crashes in Riverdale. For the analysis period, there were 20 suspected serious injury crashes, and 1 fatal crash. Of the 21 total suspected serious injury and fatal crashes, 10 are intersection related. As shown in the figure, Riverdale Road accounts for the majority of suspected serious injury and fatal crashes in Riverdale.

Speed often plays a role in fatal and serious injury crashes, and it has been mentioned by city police that speeding is often an issue on Riverdale Road. Traffic calming principles listed in the 'Best Practices' section may be put in place to help mitigate safety issues. Median barriers specifically would decrease crashes along Riverdale Road as it limits the number of conflicting turning vehicles and helps slow traffic.

Access management is also key to reducing crashes along Riverdale Road, as explained in the 'Best Practices' section of the report. There are multiple accesses along Riverdale Road that could be combined, realigned, or removed altogether to improve roadway safety by reducing the number of potential collisions.

Due to the high volume of intersection-related crashes (10 of 21 suspected serious injury or fatal crashes) left turns to and from Riverdale Road may need to be made protected left turns rather than permitted left turns. Protected left turns, characterized by an arrow at the signal, are safer than permitted left turns at intersections because they allow vehicles to make the turn without conflicting with oncoming traffic. This is because protected left turns are typically made using a dedicated left turn lane and traffic signal, which stops oncoming traffic and allows the turning vehicle to safely complete the turn. In contrast, permitted left turns require vehicles to yield to oncoming traffic, which can be dangerous if the oncoming vehicle is traveling at high speed

or fails to yield. Protected left turns are also safer because they reduce the potential for drivers to misjudge the speed and distance of oncoming vehicles, which can lead to collisions. Overall, protected left turns are a safer way for left-turning vehicles to navigate an intersection.

2017 to 2022 Crash Frequency Summary

Transit

The Utah Transit Authority provides bus service along Riverdale Road and 4400 South as well as a Park and Ride.

Route number 470 serves the area in both directions along Riverdale Road on approximately one-half hour headways. The northbound route continues to the downtown Ogden Transit Center at Ogden Union Station. Southbound vehicles wind their way through several cities to the downtown Salt Lake area. Route 470 is planned to have improved route frequency,

every 15 minutes, in the near term (the next 5 years).

Route 640 runs from west Davis County to and from Weber State University via 4400 South on approximately one-half hour headways. Route 472 is a Park and Ride Express route from Riverdale to Salt Lake Express.

Route 656 is a UTA bus route planned in the near term (the next 5 years). The proposed route is shown in the figure below.

WEST 612 HAVEN F618 Ogden-Hinckley 4000 S Fron Newgate ■ **PR** Airport Mall WASHINGTON 470 RIVERDALE F620 604 640 4400 S 640 604 RIVERDALE RD BLVD 4700 5 1900 4800 S 470 612 5000 S ROY WASHINGTON TERRACE Riverdale P+R 5600 S 604 472 84 **Ogden Regional Medical Center** 470 **Transit Routes in Riverdale**

Riverdale City should be actively involved in working with UTA, UDOT, and WFRC to support transit as a viable and efficient transportation mode in the city. Planning and lobbying efforts will help procure funds to support the development and maintenance of a sustainable transit system. Additional transit service should be considered as development occurs, such as near the America First Credit Union or the open space near the river east of 700 West. Future transit service should seek to maintain and improve the connections between housing, employment, education, recreation, and commerce.

Key Stops 656

UTA Future Transit Route 656

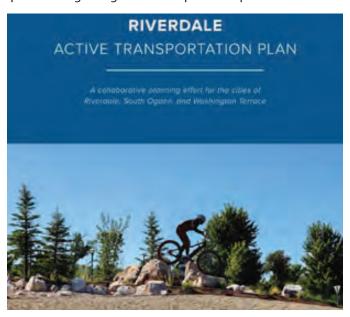

As mentioned previously OGX a Bus Rapid Transit (BRT) system is currently being constructed in Ogden to connect the commuter rail station at the Ogden Union Station to key locations such as Weber State University and the McKay Dee Hospital. When operational, riders will be able to catch the bus for no fare - or free every 10-15 minutes on weekdays and 15-30 minutes on weekends.

The BRT project will benefit the community by reducing vehicle trips, supporting the economy, and providing transportation choices. A similar BRT project may be considered to connect Weber State University and other key regional destinations to the commercial developments along Riverdale Road.

Ogden BRT Route Map

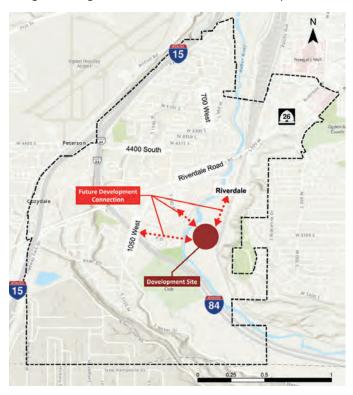

separated crossings, signalized crossings, flashing beacons, and enhanced crosswalks. Refer to this document for any questions regarding active transportation plans in Riverdale.

River Area Development

The river area, shown in the figure below, is city property being considered for development. The City would like to capitalize on the uniqueness of the river near the site to create a development for the community to enjoy. A bridge over the river has been proposed to connect the Riverwalk Drive / 900 West intersection to this future development. The proximity to the existing riverwalk trail makes this a great opportunity to improve pedestrian and bicyclist connectivity in the area, as well as create a defining 'city center' type development. There is an existing trail that runs parallel to the river which can be expanded when development occurs. A connection to Washington Terrace may also be considered near the development site.

As shown in the figure below, it is recommended that multiple accesses to any river area development be provided to create redundant travel routes, thus improving network connectivity. The Riverdale Manufactured Home Community is likely to redevelop in the future and it is advised that an additional access road be provided at the location, with a bridge crossing the river to the River Area Development.

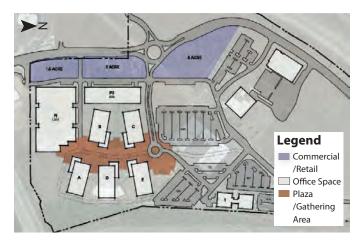

America First Credit Union Headquarters

The proposed America First Credit Union Corporate Campus will be located between I-15 and I-84 and between Riverdale Road and 4400 South, as shown in the figures on this page. The project is currently in the preliminary planning phase. Plans for the project may include office space with potential for mixed use commercial space on-site. It is anticipated the project will have an access to 1500 W and will connect with Riverdale Road to the South, and with 4400 West to the North. Additional access is very limited due to the location of the development between I-15 to the west and I-84 to the east. Ideas for potential future access are discussed in the following section regarding a future UDOT study.

UDOT Riverdale Road / I-15 Interchange

UDOT recently finished a study for the 5600 South / I-15 interchange in Roy, which includes improvements to the interchange, 5600 South, and the adjacent connections. UDOT is planning to conduct a similar study for the Riverdale Road interchange in the near future. The Riverdale Road interchange is a "1/2 interchange" because it only has ramp to/from the south. In order to go north, or exit I-15 from the north, drivers would need to use the I-84 interchange, which is located approximately 3,000 feet east and intersects with I-15 about a mile north of the Riverdale Road / I-15 interchange.

The UDOT study will likely evaluate the possibility of turning the Riverdale Road / I-15 into a full interchange, which would allow direct access to/from I-15 in both directions.

It is recommended that Riverdale City work closely with UDOT on this study to evaluate different interchange configurations. One possibility that could be explored is a northbound frontage road adjacent to I-15 that would then become a northbound on-ramp. This creates a second point of access and could potentially provide direct access from I-15 to the American First site without having to use Riverdale Road. This could greatly improve traffic operations and reduce congestion on this vital corridor.

Implementation

The purpose of the following recommendations is to help Riverdale create a plan that seeks to maintain and improve connections between housing, employment, education, recreation, and commerce.

- **1. Connectivity Strategies** Strategies that can improve street or active transportation connectivity include the following:
 - Require Active Transportation Connections with New Developments – New developments should include sidewalks or trails that lead to existing networks or nearby destinations, and at the end of culde-sacs where allowed.
 - Institute a Complete Streets Policy A Complete Streets policy specifies how a community will plan, design, and maintain streets so they are safe for all users of all ages and abilities. A strong policy begins transforming a community's practices, processes, and plans.
 - Plan for redundant grid street network Create a street plan that offers multiple routes of travel to major destinations.

2. Active Transportation Improvements -

Recommended improvements to the active transportation network can be found in the recently completed 2020 Active Transportation Plan, and include:

• Priority Linear Projects

- Bike lanes on Riverdale Road
- Bicycle boulevard on 900 West
- Bicycle boulevard on 1000 West
- Bicycle boulevard on 1150 West
- · Separated bike lanes on Riverdale Road

Priority Spot Improvements

- Flashing beacon at 1150 West and 4400 South
- Enhanced crosswalk at 700 West and Riverdale Road
- Signalized crossing at Riverpark Dr and 1050 West
- Enhanced crosswalk at 4600 South and 700 West
- Grade separated crossing at the railroad tracks, connecting Rohmer Park and the Weber River Parkway to Riverdale

The map below shows the priority linear and spot improvement projects from the 2020 Riverdale Active Transportation Plan.

- **3. Transit Improvements** Improvements to the transit service in Riverdale may include:
 - Joining efforts with state and local entities –
 Riverdale is to be actively involved in working with
 UTA, UDOT, and WFRC to support transit as a viable
 and efficient transportation mode in the city.
 - Continue planning and lobbying efforts Planning and lobbying efforts will help procure funds to support the development and maintenance of a sustainable transit system.
 - Plan transit service at future development sites

 Additional transit service should be considered at future development sights. Future transit service should seek to maintain and improve the connections between housing, employment, education, recreation, and commerce. These development sites should encourage walkability, bike routes and connections, and other non-vehicular paths
 - Possibility of extending BRT down Riverdale
 Road A BRT project like what is being constructed
 in Ogden that would connect Weber State University
 and other key regional destinations to the commercial
 developments along Riverdale Road. Weber State
 students come down from the University to access
 commercial and restaurant facilities, an extension to
 Riverdale Road would be a natural extension of the
 Ogden BRT route and link 24,000 Weber State students
 to Riverdale's commercial core.
 - Analyze Feasibility of a Riverdale Trolley Several residents desired a trolley between residents and commercial centers to reduce traffic and increase public and multi-modal transportation options.

- **3. Safety Improvements** The following solutions are worth exploring to increase the safety and efficiency in Riverdale:
- Implement traffic calming principles Speed oftentimes plays a role in fatal and serious injury crashes, and it has been mentioned by city police that speeding is often an issue on Riverdale Road.
- Improve access management along Riverdale Road

 There are multiple accesses along Riverdale Road that
 could be combined, realigned, or removed altogether
 to improve roadway safety by reducing the number of
 potential collisions.
- Work with UDOT to improve intersection safety along Riverdale Road – Work with UDOT to investigate whether permitted left-turns should be made protected left-turns at certain intersections with a history of severe and fatal crashes.

04 HOUSING

"Let's plan for (or maintain) transitions between residential zones, commercial zones, and the river trail and open space."

- SURVEY PARTICIPANT

Introduction, Background & Best Practices

The attractiveness and desirability of neighborhoods as well as the design, location and the quality of the construction of residential units greatly influences the quality of life for a community's residents. Riverdale encourages residential communities and those living in them to take pride in caring for their homes.

The population of Riverdale City has grown in the past 45 years.

POPULATION GROWTH				
RIVERDALE CITY			WEBER COUNTY	
Year	Population	Growth	Population	Growth
1980	6,031		144,616	
1990	6,419	6.4%	158,333	9.4%
2000	7,656	19.3%	196,533	24.1%
2010	8,189	7.0%	222,849	13.4%
2020	8,826	7.8%	255,284	14.6%
2025	9,496 est.	7.6% est.	283,415 est.	11.0% est.

- Housing is constructed to meet the minimum requirements of the adopted codes which include safeguards against natural and man-made environmental hazards.
- 2. Residential developments within the Hill AFB/APZ areas are regulated or restricted by an easement agreement with property owners within this area.
- Future residential development will be designed so as to be compatible with existing neighborhoods and to preserve the peaceful character of Riverdale.
- 4. Commercial, industrial, and high-density housing shall be located in areas offering the least impact on existing residential areas and infrastructure.

Part of Riverdale's General Plan (adopted April 25, 2001 and updated on November 15, 2011, September 2, 2014, and most recently parts of the plan on November 19, 2019 and again on January 17, 2023) included a Housing Development Plan for the city with a Housing Goals and Objectives section as a foundation for all affordable housing or supportive activities, goals, policies and potential programs.

The availability of moderate-income housing has become a statewide concern. In 1996, the Utah State Legislature adopted 10-9-307 of the Utah Code dealing with "Plans for Moderate-income Housing". This section of the State Code requires that every municipality adopt a plan for moderate-income housing within the community. The plan must address the following five issues:

- An estimate of the existing supply of moderateincome housing located within the municipality;
- An estimate of the need for moderate-income housing in the municipality for the next five years as revised biennially;
- A survey of total residential land use;
- An evaluation of how existing land uses and zones affect opportunities for moderate-income housing;
 and
- A description of the municipality's program to encourage an adequate supply of moderate-income housing.

The purpose of the Moderate-income Housing Element of the Riverdale City General Plan is to address these five issues and to establish the City's goals and policies for moderateincome housing.

Moderate-income housing, as defined by the Utah State Code 10-9a-103 (34), is: "...housing occupied or reserved for occupancy by households with a gross household income equal to or less than 80% of the median gross income for households of the same size in the county in which the city is located". The 2020 median income level for Weber County for a household of four is approximately \$90,397 and in Riverdale it is approximately \$65,234 according to US Census Bureau data [censusreporter.org/data/table/?table=B19019&geo_ids=16000US4964010&primary_geo_id=16000US4964010]. The Weber County median income level is recommended by the State to be used by Riverdale in determining whether or not housing is affordable.

Further, in 2022, the Utah State Legislature adopted House Bill 462 which significantly revised the Moderate-income Housing Element of the Utah Code. This revision now requires that designated cities and counties of a large enough population grouping are to include additional reporting content which is specifically:

- A description of each moderate-income housing strategy selected by the municipality, from a menu listing of multiple options outlined in House Bill 462; and
- An implementation plan for those selected strategies with specific measures and benchmarks to explain the progress of each of the selected strategies.

Affordable Housing Policies

Housing is one of the most basic needs of all people. All residents of Riverdale should have access to adequate housing regardless of income.

- Riverdale should encourage the development of residential areas of various densities and price ranges.
- The city encourages a diversity of housing types and cost ranges, including those that will permit persons of low and moderate-incomes to locate in Riverdale City.

Riverdale has various alternative housing types. These existing units represent owner occupied mobile homes and trailers, as well as rental units including apartments, duplexes and fourplexes. These housing units total 1,307 dwellings, which represents 39% of the 3,369 total number of dwellings in the City. Additionally, there are currently (as of August 2022) 991 rental unit dwellings within Riverdale City.

The cost of housing continues to rise due to the increasing cost of building materials, real estate and necessary public infrastructure such as roads, water, sewer and power.

According to the U.S. Census Bureau, in 2020 the average sales price for a home was approximately \$249,100 in Weber County. In 2020 the home prices in Riverdale City averaged \$230,100 [censusreporter.org/data/table/?table=B25097&geo_ids=16000US4964010&primary_geo_id=16000US4964010].

Further, according to the Wasatch Front Multiple Region Listing Service (MLS) in 2022 the median sales price for a home in the Riverdale/Ogden area was \$507,500. Another interesting feature of Riverdale City is that the City as a whole is located in only one established Census block.

Estimate of Existing Supply

In order to assist municipalities in estimating the existing supply of affordable housing units within each city, the State has provided analysis tools for estimating affordable housing units available in Riverdale City. Riverdale City used this data to estimate their existing supply, which involved an evaluation of the current census data, as well as, residential building permits issued between 2018 (the date of the last moderate-income housing analysis) and June of 2022, including the number of single family and multifamily permits issued and their valuation [www.sltrib.com/homeprices/]. An analysis of residential building permits issued between 2018-June 2022 showed that the City issued the following number of residential permits for new housing:

2018 – JUNE 2022 RESIDENTIAL PERMITS			
TYPE	PERMITS		
Single Family	99		
Condominium	0		
Twin Home	0		
Duplex	0		
Internal Accessory Dwelling Unit	0		
Mobile Homes	56		
Apartment Units	42		
TOTAL	197		

Using the State's criteria for median income housing and affordability, an analysis of the valuation of each permit was done. That analysis showed that of the 197 residential permits issued between 2018 and June 2022, approximately 28% would be considered affordable housing and up to 50% could potentially be considered affordable housing. Most of the noted mobile home units are due to the location of new mobile homes onto available lots within currently existing mobile home residential areas.

According to the Utah State Five-Year Housing Projection, Riverdale has a smaller number of rental units for households making 80 to 50% (approximately 230 units) and a small shortage of available rental units (approximate deficit of 45 plus units) for households making 30% of Metropolitan Statistical Area Median Income (MSAMI) [riverdalecity.com/uploads/1/3/3/6/133630718/2020 riverdale mod income housing report.pdf].

Estimate of the Need for Moderate-income Housing in the Municipality for the Next Five Years

The majority of the need for moderate-income housing within Riverdale is to serve the city's own growth as well as provide housing for migrants/commuters working in Weber County and the neighboring cities of the Metropolitan Statistical Area (MSA). Riverdale's goal is to provide adequate housing for existing and incoming residents and more particularly their children as they grow up and move out of their parents' homes.

According to the 2020 U.S. American Community Survey data, Riverdale's population increased from 8,189 in 2010 to 8,826 in 2020 with an increase of 637 residents. If the city's current growth trend continues, the Utah State Five-Year Housing Projection estimates that new residents should be able to find moderate-income housing options for the

foreseeable future. It is estimated that population growth in Riverdale between the present time and 2040 will likely create moderate-income housing demand for individuals and families earning 80%, 50%, and 30% of the MSAMI.

Currently, Riverdale has affordable housing availability for moderate-income families making 80% of the MSAMI with

39% of the city's housing potentially available to provide moderate-income housing to create an adequate supply of units. Additional moderate-income housing units may be required during the next five years as previously undeveloped areas of the city are developed and/or redeveloped. The net need for moderate-income housing in the 80 to 50% categories is currently slightly less than available housing units. There has been a significant decrease in net housing need for families in the 30% category although there still exists a deficit of housing units needed in this demographic category.

T. /	

Riverdale has various alternative housing types. These existing units represent owner occupied mobile homes and trailers, as well as rental units including apartments, duplexes and fourplexes. There have been several studies presented to Riverdale City during previous years, by multifamily dwelling developers, indicating there is a market for apartment, condominium, and townhome type multifamily dwellings in the Weber County area. Currently in the city, single family dwelling rentals, mobile homes, apartment units, duplexes and fourplexes total 1,307 dwellings and represent 39% of the 3,369 total dwellings in the City as of 2020. In 2020, based on a breakdown of housing types and U.S. Census data, the statistics reflect that Riverdale City has a 6.2% rental vacancy rate and this would indicate that the City currently has a somewhat limited number of current multifamily dwelling units available [data.census.gov/table?q=Housing+Units&tid=ACSDT5Y2020. B25001].

HOUSING TYPES					
Year	Owner Occupied Homes	Rental Homes	Occupied Units Paying Rent	Homeowner Vacancy	Rental Vacancy
2010	2,286	748	741	1.7%	5.8%
2014	2,153	899	844	1.8%	12.9%
2016	2,430	799	721	3.1%	15.7%
2020	2,463	883	828	0.7%	6.2%

[Sources: U.S. Census Bureau. Selected Housing Characteristics American Community Survey 5-Year Estimates, U.S. Census Bureau. Table B25001: Total Housing units. and Table B25032: Tenure by units in structure. American Community Survey]

The cost of housing in Utah continues to rise due to the increasing cost of building materials, real estate, and necessary public infrastructure such as roads, water, sewer and power. According to the Utah Census, in 2020 the average sales price for a home was approximately \$249,100 in Weber County. In 2020 the home prices in Riverdale City averaged \$230,100 and in 2022 were at \$507,500. The need for affordable housing throughout Weber County continues to grow but Riverdale City is nearly built out and has a limited amount of land still available for development. Larger single-family subdivisions should be developed in neighboring cities because Riverdale does not have much land available for this type of development. There are areas of the city that could be redeveloped into housing, but this requires the removal of existing homes on lots that could potentially accommodate multiple dwellings.

There are also a very limited number of building lots in the city that may qualify as infill lots without removing existing dwellings.

HOUSING COSTS				
Year	Riverdale City House Payment	Rent	Weber County House Payment	Rent
1980	\$395	\$237	\$344	\$224
1990	\$661	\$326	\$650	\$286
2010	\$914	\$759	\$1,284	\$628
2016	\$968	\$765	\$1,046	\$795
2020	\$1,309	\$965	\$1,437	\$958

[Sources: www.city-data.com Riverdale Utah Houses and Residents 2009 and the Utah Affordable Housing Model www. huduser.org/datasets/50per.html 2001-2012, U.S. Census Bureau. Table B25088: Median selected monthly owner costs (dollars) by mortgage status. and Table B25064: Median gross rent (dollars). American Community Survey]

According to the 2020 American Community Survey numbers, Riverdale's average owner- occupied home ownership was 73.1%, and the renter-occupied housing units was at 24.6% with a small percentage of vacant housing units at 2.3%. Riverdale City's housing objectives include providing adequate moderate-income housing for individuals who wish to work and live in the city so that families renting or seeking less expensive housing have an alternative to locating in outlying areas and commuting if employed in Riverdale City. This goal will help the city prevent: increased traffic congestion, the need for more roads, greater energy consumption and an increase in air pollution, all while encouraging businesses to locate closer to their employee base. Development of the West Bench RDA Project Area has the potential to create an estimated 500 plus new retail/service type jobs based on the 60 acres of land available for new development. The number and types of jobs created could necessitate additional affordable housing in Riverdale, some of which could conveniently be constructed within the boundaries of Riverdale City. Projected needed affordable housing units to support the West Bench Project Area are based on the 2019 census information which indicates approximately 6.5% of those who live in Riverdale work in Riverdale [onthemap.ces.census. gov/].

Riverdale City leadership would like to see this percentage increase so that more residents have closer access to job opportunities within their local community. Using these figures, Riverdale estimates this project area could create a need for the potential addition of 100 moderate-income housing units, which our present and projected vacancy rates would absorb. Over the next five years, the city is confident this vacancy rate and absorption is accurate and does not create a great need for the development of large amounts of additional moderate-income affordable housing units.

HOUSING INCOME			
	RIVERDALE CITY	WEBER COUNTY	
Year	Household Income	Household Income	
1980	\$18,323	\$17,287	
1990	\$31,075	\$30,125	
2010	\$52,125	\$54,086	
2016	\$53,665	\$59,660	
2020	\$54,723	\$71,275	

[U.S. Census Bureau Table B25119: Median household income past 12 months. American Community Survey]

The percentage of households renting in Riverdale had decreased from 32.5% in 1990 to 23.2% in 2010. However, in 2020, the percentage of households renting in Riverdale has increased slightly to 24.6% as compared to 23.1% for Weber County.

Riverdale City has more than the state required rental housing for our population with the inclusion of mobile and modular home rental spaces. Riverdale City is also supportive of the new growth in owner occupied, slab-ongrade, patio type single-family dwellings that have recently been built in Riverdale as these types of dwellings are easy to market and popular with Riverdale's growing senior population. Further, we anticipate more of this style of development in the future within Riverdale City.

PERCENT RENTING				
	RIVERDALE CITY	WEBER COUNTY		
Year	Percent Renting	Percent Renting		
1980	21.8%	29.6%		
1990	32.5%	27.0%		
2010	23.2%	25.0%		
2016	23.1%	25.5%		
2020	24.6%	23.1%		

[U.S. Census Bureau. Table B25001: Total Housing units. and Table B25032: Tenure by units in structure. American Community Survey]

There were 766 persons living below the poverty level in Riverdale City in 2020, which represents 8.7% of the population with 29.5% children under 18 years old [U.S. Census Bureau. Table B17020: Poverty status in the past 12 months by age. American Community Survey]. The average Riverdale per capita income in 2020 was \$26,471, just under Weber County at \$29,186 [U.S. Census Bureau. Quick Facts: Per capita income in past 12 months (in 2020 dollars), 2016-2020, Riverdale City, Utah]. As people begin their careers in entrylevel positions with modest incomes they typically reside in apartments or starter homes. These types of housing in Riverdale City attract youth and bring vitality to the community. Therefore, one of Riverdale's goals is to promote an adequate supply of housing to meet the needs of all economic segments of the community. To encourage more affordable housing opportunities, Riverdale must continue to support the following programs:

 Private or public sector U.S. Department of Housing and Urban Development (HUD) housing development grants and Section 8 program rental subsidy certification for families, the elderly, and handicapped households. All of Riverdale's large meter residential complexes and Senior Housing Facility and all new residential construction are Americans with Disabilities Act (ADA) compliant.

- The Land Use Master Plan map provides for development densities that allow a variety of housing types, including townhouses, condominiums, manufactured homes, and detached single-family homes. This range in housing types and densities is designated in order to help meet the need for affordable housing. The Riverdale core neighborhoods are an ideal location for infill development (where available) compatible with existing homes. They would be close to developed infrastructure and existing goods and services.
- In addition to these residential zones, the City also allows clustered residential developments under Planned Residential Unit Development and Cluster Subdivisions ordinances. The PRUD provisions function as overlay zones and allow design flexibility in the development of lands within the City. These clustering ordinances encourage the realization of many potential public benefits, one of them being to encourage the construction of affordable housing units under conditions and requirements that will insure development of residential environments of sustained desirability and stability.
- Riverdale City currently has several PRUD developments currently with 185 single story ongrade patio homes. These developments typically have small lots and with this type of dwelling are geared more toward the senior population.
- Riverdale City encourages the availability of affordable housing alternatives for the disabled, elderly, single mothers, persons with AIDS, victims of domestic abuse, and the homeless. Riverdale City has never adopted ordinances that would prevent the development of moderate-income housing for the above mentioned groups. Considered a regional retail hub, Riverdale is a small suburb with a population of approximately 9,400 residents adjacent to Ogden City and therefore subsidizes alternative housing in larger cities in Weber County because 80% of Riverdale's population sales tax is redistributed to neighboring cities with larger populations. This redistribution of tax dollars helps to fund affordable housing for the disabled, elderly, single mothers, persons with AIDS, victims of domestic abuse and the homeless. Large facilities designed to house the homeless and those with AIDS are located approximately two miles from Riverdale in Ogden at The Ogden Rescue Mission and one mile from Riverdale at St. Anne's Shelter/Lantern House.

Housing for victims of domestic abuse is available three and a half miles from Riverdale at the Ogden YCC and the WSU Women's Center provides housing resource assistance for single mothers with a dedicated resource center three miles east of Riverdale. Developmental and physically disable housing is available at Graham Court and OWCAP Disabilities Housing in Ogden both just two short miles from Riverdale and at Tri-County Independent Living which is three miles and Trinity Mission Wide Horizons located five miles from Riverdale.

Survey of Residential Zoning

The City has fifteen zones that allow for residential uses. They are: Agricultural A-1 (40,000 sq. ft.) and A-2 (2 acres); Residential Estate RE-15 (15,000 sq. ft.) and RE-20 (20,000 sq. ft.); Single Family Residential R-1-10 (10,000 sq. ft.), R-1-8 (8,000 sq. ft.), R-1-6 (6,000 sq. ft.), and R-1-4.5 (4,500 sq. ft.); Residential Single-Family R-2 (8,000 sq. ft.) and Single Family and Rental Unit R-2 (10,000 sq. ft.); Multiple Family R-3, R-4 and R-5; Mobile Home Park RMH-1; Low Impact Transition Overlay LIT (specialized housing/apartments/assisted care); Mixed Use MU (housing/apartments in a commercial setting). Riverdale City also has an ordinance regulating Planned Residential Unit Developments PRUD with areas of the city that are designated for such type of development specified in the General Plan, and this Plan supports cluster development options and multiple family residential overlay (MFROZ) desires.

The Residential Zones of Riverdale City are formulated to provide a range of housing choices to meet the needs of Riverdale City residents, to offer a balance of housing types and densities, and to preserve and maintain the City's residential areas as safe and convenient places to live. These zones are intended for well-designed residential areas free from any activity that may weaken the residential strength and integrity of these areas. Typical uses include single family dwellings, two-family dwellings, multifamily dwellings, condominiums, and townhouses. Also allowed are parks, open space and conservation areas, pedestrian pathways, trails and walkways, utility facilities and public service uses required to meet the needs of the citizens of the City and residents of each of the City's neighborhoods.

The larger land zones including the A-1 and A-2 zones are primarily for agricultural use; however residential uses are also allowed in these zones. The A-1 and A-2 zones may be designed to preserve lands suited for farming and ranching operations and may be in areas that are intended to protect land suited for farming and ranching operations

and may be in areas that are intended to protect the land from adverse development; this protective measure is in place on properties along South Weber Drive as part of the Air Installation Compatible Use Zone (AICUZ) implemented by Hill Air Force Base and the State of Utah. Additionally, these zones are intended to allow viable agricultural uses to remain on lands potentially suited for the eventual development for other uses, pending proper timing and the provision of the required services including all public utilities, streets, parks, schools, and other facilities so that an orderly development pattern is encouraged.

The purpose of the Detached Residential Zones (RE-15, RE-20, R-1-10, R-1-8, R-1-6, R-1.4.5, and R-2) is to provide for single family residential areas and single-family dwelling units on larger individual lots.

The purpose of the Attached Residential Zones (R-2 with rental unit, R-3, R-4, and R-5) is to identify and encourage the development of a variety of medium and higher density housing types and styles, including single-family dwellings, two-family dwellings, four-family dwellings, and apartments. The City also has passed a Multiple Family Residential Overlay Zone (MFROZ) ordinance to facilitate the development of condominiums and townhouses. The purpose of the Mixed Use (MU) Zone is to foster and provide an area of mixed, compatible residential, commercial and office uses in certain areas of the City. The purpose of the Low Impact Transition Overlay Zone (LIT) is to allow the presentation of uses that will not adversely impact adjacent properties; specialized apartments such as senior housing may be considered in this zone.

In addition to these residential zones, the City also allows clustered residential developments under Planned Residential Unit Development (PRUD) and Cluster Subdivisions ordinances. The PRUD provisions function as overlay zones and allow design flexibility in the development of lands within the City. These clustering ordinances encourage the realization of several potential public benefits, one of them being to encourage the construction of affordable housing units within the City under conditions and requirements that will insure development of residential environments of sustained desirability and stability.

Zoning for multifamily housing: Multifamily housing in Riverdale City is considered housing that is comprised of attached units such as apartments, condominiums, and townhouses. Riverdale City currently has six, R-5 zoned, residential complex developments (RCC 10-9F), five of which are rental apartment developments and two are owner-occupied condominium developments. Additionally, there is a senior apartment complex located in a Low Impact Transition Zone.

There are three areas of the city that are zoned R-4 (RCC10-9E). One area is occupied by apartments, another area has a number of mobile home single-family dwellings currently existing on the property, and the last area has one existing business with additional undeveloped vacant property making up the area. A planned townhome apartment project is also planned for this property within the R-4 zone.

There are currently four areas of the city that are zoned R-3 (RCC 10-9C), three of these areas contain fourplex dwelling units and one of these areas would accommodate a fourplex structure.

The R-2 (RCC 10-9C) areas of the city allows and has mixed existing attached Two- Family dwellings, which consist of side-by-side duplex type dwellings or over/under apartment type dwellings, mixed in with a large number of single-family dwellings. A large amount of Riverdale City's low density residential unit areas are zoned R-2.

Additionally, there are two, four-unit townhouses existing in a Mixed Use (MU) Zone and a large parcel of Mixed Use (MU) Zoned property that is planned for future development into variable housing uses (e.g. apartments, townhomes, and single-family dwellings).

Provision of density bonuses: Riverdale City has adopted ordinances, RCC 10-13H: Multiple Family Residential Overlay Zone (MFROZ), RCC 10-22: Planned Residential Unit Development (PRUD) and RCC 10-23: Cluster Subdivisions. These zones allow the implementation for increasing densities through clustering, lot area reduction, reduction of yard setbacks and by the flexibility of entering into a Development Agreement between the city and developer.

Allowance of inclusionary zoning: Riverdale City has implemented the concept of inclusionary zoning, which refers the requirement for new construction to earmark a portion of units to be affordable; it is something that naturally exists within our city. Approximately 30% of the city's residential areas are rental properties. This includes single family dwellings, apartments, and manufactured (mobile) homes all of which are affordable to lower-income households. In addition, in multiple residential zones Riverdale City allows for the potential to convert a portion of existing dwelling units to accommodate Internal Accessory Dwelling Units (ADU's) use therein.

Special infill and adaptive reuse ordinance: Riverdale City ordinance, RCC 10-12: INFILL LOTS allows for residential development on lots that would not otherwise qualify for development under existing ordinances. The provision for a residential development agreement allows the city the flexibility when dealing with infill properties that can safely be developed.

Flexible development standards and design allowances: Riverdale City has adopted a MULTIPLE FAMILY RESIDENTIAL OVERLAY ZONE that allows individually owned townhomes or condominiums to be developed with flexible guidelines and future control regulations by means of a Development Agreement with the city. Also, as part of the RCC 10-22: PLANNED RESIDENTIAL UNIT DEVELOPMENT ordinance the city has the ability to negotiate and modify development aspects to allow flexibility and initiative in site and building design and location.

Other: Riverdale City's MIXED USE ZONE allows the development of residential uses, whether rental apartments or owner occupied to exist within commercially developed areas. We currently have a 70-acre parcel of land that is zoned Mixed Use and as stated above we have a townhome development in an existing Mixed Use zoned area.

Evaluation of Zoning's Affect on Housing Opportunities

The Riverdale City Planning Commission and City Council holds one of the most important keys to providing housing opportunities for persons of moderate-income with the power to determine zoning designations throughout Riverdale. According to U.S. Census Data, Riverdale City's numbers of rentals including apartments, mobile homes, and other dwelling units that are at a rental rate for our population is at approximately 24.6%. It appears from the data received that Riverdale's zoning has established housing for moderate-income families. According to HUD, families making 50% of the median income will typically be renters and may be affected by zoning, but may also be impacted by market conditions beyond the control of the city [hud.gov]. HUD also asserts that families making 30% of the median income often need federal or state government housing assistance and are beyond the scope of zoning influence.

Riverdale's Program to Encourage Moderate-Income Housing

The Moderate-income Housing Element was originally adopted as part of the Riverdale City General Plan in April of 2001. From 1995 to 2020 the City has seen the population go from 7207 to just over 8800. Estimates of the City and WFRC have determined that the population forecast of Riverdale in the year 2042 will be up to between 13,000 and 17,000 residents.

Riverdale City has implemented a Redevelopment Agency (RDA) Loan Program that provides no-interest or low-interest loans of up to \$30,000 to homeowners that qualify. Riverdale will continue to support the supply of affordable housing

in both rental and owner occupied for people at low- and moderate-income levels that meet the needs of a population which varies in household size and age. The City anticipates that current zone and land use regulations will continue to provide a more than adequate supply of moderate-income housing in the future. At this time the City is seeing potential for a substantial increase in moderate-income housing units as there are new proposals for apartments, townhomes, and/ or condominium units being planned to be reviewed and considered by the Planning Commission and City Council. Currently, the City appears to be over the State moderateincome housing recommendation based on our population and median income levels. If a previously undeveloped area of the city were to be developed in the future and at that time it was determined there is a greater need for moderateincome housing, city officials could update the General Plan and pursue the adoption of appropriate ordinances to encourage additional moderate-income housing growth and development.

Allowances for impact fee waivers and "fast tracking" of the approval process: Most developers and contractors are pleasantly surprised to discover that Riverdale City has no impact fees and our permit and development fees are some of the lowest in the State. As far as "fast tracking" the approval process, our Planning Commission and Council each meet twice a month and are noted for moving that process along quickly. Riverdale City also allows for "fast tracking" in the building process which allows contractors to submit and proceed with the construction of design segments of a plan while continuing preparation of the entire building plan.

Element & Implementation

As noted earlier in this moderate-income housing plan element, in 2022 the Utah State Legislature passed and approved House Bill 462 with the requirement that designated cities and counties of a large enough population grouping are to include additional reporting content. Based on Riverdale City being located within the Weber County population grouping, House Bill 462 requires that Riverdale City participate in this moderate-income affordable housing strategy analysis and implementation planning activity.

In following the guidance and requirements of House Bill 462, Riverdale City is expected to select a minimum of at least three strategies from a large menu of options proffered by House Bill 462. Riverdale City is currently utilizing eight of these proffered menu options, which is well beyond the minimum requirement established by House Bill 462.

Riverdale City's selected strategies are discussed briefly in more detail hereafter with a bit of additional information regarding current and future implementation plans associated with the selected strategies.

1. Rezone for densities necessary to facilitate the production of moderate-income housing.

Over the last few years, Riverdale City has approved multiple rezone requests that allow for the development of smaller lot single-family homes and also multi-family homes development. Further in conversations with developers, Riverdale City leadership has been strongly encouraging the consideration of developing a percentage of home units within these rezoned project areas as moderate-income affordable housing units to provide more affordable housing options to financially impacted groups within the City.

As it relates to the implementation policies and planning for rezoning to accommodate moderate-income affordable housing growth, Riverdale City has most recently approved rezoning to the smallest sized zones that accommodate small lot single family homes (R-1-4.5 and R-1-6) and also rezoning to multifamily (R-4 and R-5) zoned areas to accommodate new multi-family housing opportunities within Riverdale. These efforts to rezone have been implemented as a first step to work with developers on establishing more moderate-income affordable housing units in the near and long term future of Riverdale City.

Development associated with rezoning of these areas will be tracked to better identify how many new housing units are established in these rezoned areas and further to identify and attempt to quantify how many are set aside as moderate-income affordable housing units to assist financially impacted demographic groups within the City.

Benchmarks for this strategy are linked to the following timeline:

- Rezoning of properties to higher density zoning has been completed in years 2020 and 2022 to accommodate new higher density and moderate-income development opportunities in the rezoned areas;
- Anticipated City review of higher density and moderate-income housing to go through subdivision review process in 2022-2023 years within the above noted rezone areas;

- Anticipated development of new higher density and moderate-income housing expected to occur in 2023-2025 years within the above noted rezoned areas;
- Additional rezone requests of property that may accommodate and support opportunities for more moderate-income housing may also be reviewed and considered by the City by or before the year 2027.

2. Demonstrate investment in the rehabilitation or expansion of infrastructure that facilitates the construction of moderate-income housing.

As noted earlier in this moderate-income housing analysis, the Redevelopment Agency of Riverdale City has invested RDA funding into a Riverdale Senior Center that provides approximately 20 senior apartments with moderate-income rental rates. This investment in real estate, infrastructure, and facility development was deemed to be a benefit to the community and those financially impacted seniors seeking low-impact housing at moderate-income rental rates. More recently, the Redevelopment Agency of Riverdale has funded remodeling and additional improvements to benefit the senior residents as well as to provide other services to the senior community of Riverdale and Weber County. Further, Riverdale City has approved multiple Planned Residential Unit Developments (PRUDs) that often are developed as patio home style developments and tend to be more attractive to senior lifestyles with limited income opportunities.

Additionally, the Redevelopment Agency of Riverdale City (under direction of City leadership) has subsidized the installation of public infrastructure improvements and utilities upgrades within RDA areas that are intended to not only benefit commercial development but also residential development in the near future. City leadership anticipates and is requiring the development of some form of low to moderate-income housing to be a component of multi-family housing unit development within one of these particular RDA areas and is further seeking more opportunities to assist in the rehabilitation of utilities and other activities to benefit existing multi-family housing development areas with the encouragement to have these developments consider more moderateincome and affordable housing unit availability.

As it relates to the implementation planning and policies, Riverdale City will continue to track the establishment of new housing units within these RDA areas and further encourage/require the development of moderate-income and affordable housing units within these RDA areas. Further, Riverdale City and the RDA will continue to work with existing multi-family rental unit facilities to seek opportunities to establish more moderate-income housing units in potential exchange for investment in adjacent rehabilitation or expansion of City utilities and facilities.

Benchmarks for this strategy are linked to the following timeline:

- The Riverdale Senior Center has been established for many prior years to now and continues to function with financial assistance from the Redevelopment Agency of Riverdale to benefit moderate-income rental rate housing needs for the City's senior demographic—this is anticipated to continue into the year 2027 and the years thereafter;
- Anticipated discussion, City review, and development of property for moderate-income housing units within the 550 West RDA area is expected to occur by or before the year 2027;
- Anticipated Redevelopment Agency infrastructure investment to benefit newly developed moderate-income housing units and multi-family development within the 550 West RDA area expected to occur by or before the year 2027.
- Zone or rezone for higher density or moderateincome residential development in commercial or mixed-use zones near major transit investment corridors, commercial centers, or employment centers.

Riverdale City is benefited by multiple major transit investment corridors, commercial centers, and employment centers that are scattered in multiple locations throughout the City. As a result, Riverdale City leadership is well aware of the fact that variations in housing options should be explored and made available to the local community and even more that there needs to be an improvement of more moderate-income and affordable housing options in closer proximity to these locations. That being the case, in the more recent years and even currently this year, Riverdale City has approved rezoning of

properties to multi-family (R-4 and R-5) zoning areas that are adjacent or near to major transit investment corridors, commercial centers, and employment centers. Examples of such rezoning include rezoning of parcels at the corner of 4400 South and 700 West, rezoning of parcels along Riverdale Road and 700 West, and rezoning of parcels along 300 West and Pacific Avenue that will now accommodate new multifamily housing units. Further, future development areas that have previously been rezoned to and planned to accommodate multi-family housing units and moderate-income housing units therein include: properties across the Weber River to the east of 900 West and River Park Drive (Mixed Use Zoning), along River Park Drive (to consider a future potential Mixed Use Zoning), and along 550 West within the 550 RDA area (to consider a future multi-family density rezoning).

The hope of strong encouragement by City leadership is for these developments to accommodate a percentage of moderate-income affordable housing options to those with limited income opportunities. Riverdale City leadership is aware that more multifamily residential development adjacent and approximate to commercial and employment centers will likely boost and benefit the economic opportunities of those areas and benefit the residents of the community as a whole.

The implementation planning and policies will include, like other selected strategies, the tracking of new housing unit development and further efforts to work to identify and quantify new moderate-income and affordable housing units developed within the future planned multi-family housing development areas.

Additionally, as previously noted, Riverdale City will also consider and support rezoning requests that bolster new multi-family and affordable housing opportunities more specifically along major transit investment corridors, commercial centers, and local employment centers.

Benchmarks for this strategy are linked to the following timeline:

 Rezoning of properties to higher density zoning has been completed in prior years for a mixed-use zoned area adjacent to a large commercial center. More recently during the years 2020 and 2022 rezoning of properties has been approved to accommodate new higher density and moderate-income development opportunities in other areas of the City that are adjacent to Riverdale Road and other employment/commerce centers of the City;

- Anticipated City review and consideration of higher density and moderate-income housing development project adjacent to Riverdale Road to go through subdivision review process in 2022-2023 years;
- Anticipated City review and consideration
 of higher density and potential moderateincome housing development project adjacent
 to employment and commerce center to go
 through subdivision review process in 2022-2023
 years;
- Anticipated City review and consideration
 of a large acreage (70 acres) mixed- use style
 higher density and moderate-income housing
 development project adjacent to large
 commercial center to go through subdivision
 review process in phases during the 2022-2027
 years. This development is anticipated to have
 nearly 900 new residential units of varying sizes
 and use needs;
- Anticipated development of multiple new higher density and moderate-income housing expected to occur in 2023-2027 years within these rezoned areas that are adjacent to Riverdale Road, large commercial centers, and employment hubs;
- Additional rezone requests of property located along Riverdale Road and/or near employment/commerce centers may also be reviewed and considered by the City by or before the year 2027.
- 4. Preserve existing and new moderate-income housing and subsidized units by utilizing a landlord incentive program, providing for deed restricted units through a grant program, or, notwithstanding Section 10-9a-535, establishing a housing loss mitigation fund.

Riverdale City has directed and authorized the Redevelopment Agency of Riverdale City to support and fund various housing rehabilitation and maintenance activities of existing housing units in older neighborhoods identified throughout the City. This RDA program is called the "RDA Residential Loan Program" and was established to maintain and improve existing residential areas of the City through a property Purchase Assistance Program—to benefit new home buyers of older homes in the City that may need a bit of repair or improvement; and a Housing Rehabilitation Loan Program to provide no-interest or low-interest loans to homeowners who meet certain income guidelines and are qualifying at or below 80% HAMFI standards in order to qualify for the funding assistance.

The RDA of Riverdale provides this service to the residents of the community in order to maintain moderate-income and affordable housing opportunities within the community to young, lower income, and/or elderly residents looking to purchase a home in Riverdale or currently living within the City. The City supports this program because it provides the additional benefit of maintaining property occupancy and stability in the neighborhoods that currently have a higher amount of moderate-income housing units.

As it relates to the implementation planning and policies for this strategy, Riverdale City is able to monitor annual progress towards this goal through the review and evaluation of efforts of the Redevelopment Agency staff in administering these programs to applicants. Further, these programs require educational components to be provided to existing and future residents and Riverdale City makes effort to frequently provide information to the residents and the public about the availability of these programs. This information regarding the housing program subsidies is provided to Riverdale homeowners and other individuals who may be seeking to live in Riverdale City and qualify as needing moderate-income and affordable housing assistance.

Benchmarks for this strategy are linked to the following timeline:

• This RDA Residential Loan Program has been established for many prior years to now and continues to function with financial assistance from the Redevelopment Agency of Riverdale to assist homeowners and future home buyers to rehabilitate moderate-income housing units—this program is anticipated to continue functioning to the year 2027 and thereafter as a benefit to the Riverdale community;

 Anticipated review and reporting of qualifying loans issued to existing homeowners and future home buyers to occur at the end of years 2022 to 2027 to verify how the program is functioning in assisting with rehabilitation of moderate-income housing units throughout the City.

5. Reduce, waive, or eliminate impact fees related to moderate-income housing.

As noted earlier in this document, Riverdale City does not impose impact fees on any residential development projects (as well as commercial development projects). Having no impacts fees is a consistent administrative tradition that City leadership has been proud of over the many years and continues to support. This is viewed as a great benefit of developing residential projects in Riverdale City. That being said, it should be noted that there is a pass along Central Weber Sewer District fee that the City collects on behalf of the Sewer District during the building permit process.

This strategy of no impact fees provides cost savings to project developers who are desiring to build or redevelop more residential units within Riverdale City and encourages money to be set aside to fund the addition of moderate-income and affordable housing units as part of residential development projects. Further, this benefit may allow for the development of a higher quality multi-family housing development project that is more attractive to a larger targeted demographic who is seeking housing within the Riverdale community. Having no impact fees has been and will continue to be a key component to the success of development within Riverdale City, as the City has no interest in assessing impact fees in the near and distant future.

The implementation planning and tracking for this strategy is accomplished by identifying how many new housing units, specifically multi-family housing units, are being newly developed or redeveloped in the City based on a understanding that no impact fees contributed to this new housing growth and/or redevelopment. Further, the City can then identify and work to quantify how many of these new residential housing units are being set aside by the project developers and owners as moderate-income and affordable housing units.

Benchmarks for this strategy are linked to the following timeline:

- established for many prior years to now and is anticipated to continue functioning as such well beyond the year 2027 to the benefit of the overall Riverdale community;
- Anticipated review and reporting of new moderate-income housing units that have benefited from no impact fee assessment in the City and have been developed throughout the year, to be summarized at the end of each year starting with the year 2023 and moving forward thereafter to the year 2027 and beyond.
- Demonstrate utilization of a moderate-income housing set aside from a community reinvestment agency, redevelopment agency, or community development and renewal agency to create or subsidize moderate-income housing.

As previously noted in Strategy #4, Riverdale City has directed and authorized the Redevelopment Agency of Riverdale City to support and fund housing rehabilitation and maintenance activities of existing housing units in older neighborhoods throughout the City. This RDA program is identified and known as the "RDA Residential Loan Program" and is discussed in more detail in the Strategy #4 review commentary above. This program has two specific program options and expectations to qualify for program compensation assistance. The two program options are entitled the Purchase Assistance Program and the Housing Rehabilitation Loan Program, with an explanation of each program in more detail under Strategy #4 and also on the City RDA website [www.riverdalecity.com/ rda-housing-loan-program.html]. These funds are provided to this RDA loan program through specified housing funding set asides that are dedicated to housing development and retention of moderateincome housing within the entirety of City limits.

Additionally, as noted previously in Strategy #2 the Redevelopment Agency of Riverdale City has other newer RDA areas that have been established and are required to develop infrastructure, utilities, and identify other ways to dedicate RDA funding to benefit the development of new moderate-income affordable housing stock within these specific RDA areas.

The set aside funding for these RDA areas should support and strengthen development interest in adding new multi-family and moderate-income housing facilities within the RDA areas that is anticipated to thereafter contribute to the success of the surrounding commercial development within these RDA areas.

As previously outlined in Strategy #2 and Strategy #4, the implementation planning and policies Riverdale City should utilize for this strategy are to monitor annual progress towards the goal of developing new moderate-income affordable housing by making sure that RDA funding is dedicated to infrastructure and utility development that benefit the development of new moderate-income housing units within the City and through the review and evaluation of efforts of the RDA staff in administering the RDA housing programs to applicants. Redevelopment Agency staff will continue to verify that these activities are occurring as previously established and will work to quantify and qualify the amount of newly generated moderate-income housing units, as well as, the retention of existing and improved moderate-income housing units that benefit from the RDA Residential Loan Program options.

Benchmarks for this strategy are linked to the following timeline:

- This RDA Residential Loan Program has been established for many prior years now and continues to function with financial assistance from the Redevelopment Agency of Riverdale to assist homeowners and future home buyers to rehabilitate moderate-income housing units—this program is anticipated to continue functioning to the year 2027 and thereafter as a benefit to the Riverdale community;
- Anticipated review and reporting of qualifying loans issued to existing homeowners and future home buyers to occur at the end of years 2022 to 2027 to verify how the program is functioning in assisting with rehabilitation of moderate-income housing units throughout the City.
- The Riverdale Senior Center has been established for many prior years to now and continues to function with financial assistance from the Redevelopment Agency of Riverdale to benefit moderate-income rental rate housing needs for the City's senior demographic—

- this is anticipated to continue into the year 2027 and the years thereafter;
- Anticipated discussion, City review, and development of property for moderate-income housing units within the 550 West RDA area is expected to occur by or before the year 2027;
- Anticipated Redevelopment Agency infrastructure investment to benefit newly developed moderate-income housing units and multi-family development within the 550 West RDA area expected to occur by or before the year 2027.
- 7. Develop a moderate-income housing project for residents who are disabled or 55 years old or older.

Earlier in this document Strategy #2 briefly explained that the Redevelopment Agency of Riverdale City has invested RDA funding into a Riverdale Senior Center that provides 20 senior (55 years old or older) apartments to residents at moderateincome rental rates. This facility is composed of 12 single-bedroom units and 8 two-bedroom units that are always occupied with senior aged renters. This senior apartment facility additional provides access to activities, weekday lunches, occasional clinics and other RDA and City funded activities and administration to the benefit of the apartment residents, as well as, the overall senior community within Riverdale City and Weber County. Riverdale City takes pride in this facility and the housing and services provided to the elderly demographic within the local community.

This RDA investment in real estate, infrastructure, and facility development was deemed to be a benefit to the community and those financially impacted seniors seeking low-impact housing at moderate-income rental rates. More recently, the Redevelopment Agency of Riverdale has funded remodeling and additional improvements to benefit the senior residents as well as to provide other services to the senior community of Riverdale and Weber County.

Additionally, as noted multiple times in this document, Riverdale City has approved multiple Planned Residential Unit Developments (PRUDs) that often are developed as patio home style developments and tend to be more attractive to senior lifestyles with limited income opportunities. At the current time, Riverdale City has 8 PRUD approved and developed residential areas throughout the community and one that has been approved but not developed presently.

A large number of these PRUD residential housing units are currently occupied by senior aged (55 years old and older) residents living in Riverdale.

As it relates to the implementation planning and policies for this strategy, Riverdale City will continue to maintain and utilize the Riverdale Senior Center and internal apartments in order to provide continued housing, activities, and support services to the elderly demographic of the community who are often on fixed incomes and limited new income opportunities. Further the City will continue to track the establishment of new PRUD housing units throughout the City and will continue to work with new housing developers to seek inroads for new moderate-income housing growth within these PRUD areas.

Benchmarks for this strategy are linked to the following timeline:

- The Riverdale Senior Center has been established for many prior years to now and continues to function with financial assistance from the Redevelopment Agency of Riverdale to benefit moderate-income rental rate housing needs for the City's senior demographic—this is anticipated to continue into the year 2027 and the years thereafter;
- Improvements continue to be made with the Riverdale Senior Center. The Redevelopment Agency will continue to monitor expenses utilized to maintain senior apartment units that are at moderate-income rates and track annually the progress made in maintaining these units at moderate-income rental rates, as previously tracked, and will continue said reporting into years 2022 to 2025.
- Anticipated review and reporting of any
 potential new moderate-income housing
 units that may have been established by
 future Planned Residential Unit Development
 (PRUD) that are developed to financially assist
 the needs of senior aged (55 years old and older)
 homeowners in these projects, to be summarized
 with the year 2023 and moving forward thereafter
 to the year 2027 and beyond.
- 8. Create or allow for, and reduce regulations related to, multifamily residential dwellings compatible in scale and form with detached single-family residential dwellings and located in walkable communities within residential or mixed-use zones.

As noted throughout this document, Riverdale City zoning code currently has an established Mixed Use (MU) zoning standards and criteria ordinance. The Mixed Use (MU) zoning has been applied in two distinct areas at the current time to allow for a variety of mixed uses (single family and multi-family residential, commercial, office, etc.) to be developed together in a specified geographical district within the City. Additionally, the City is open to considering the application of the Mixed Use (MU) Zone into other districts of the City that may benefit from this zoning application as it may enhance and connect to existing similar uses and districts in an area of the City (e.g. surrounding commercial and/or job centers). The Mixed Use (MU) Zone uses and standards are outlined in more detail in the Riverdale City Code.

At current time, there is a 70-acre area of land that is zoned Mixed Use (MU) and the City anticipates in the near future development of a high-level multifamily, townhomes, and single-family mixed use residential development that may bring in up to 900 new residential housing units to Riverdale City. This development alone will have huge implications on the housing stock within the City and will surely impact and we expect to provide new moderate-income affordable housing unit availability to the Riverdale community. There have also been discussions with another property owner of developing a newer concept of work-live units on property near one of City's established commercial districts that would require rezoning to the Mixed Use (MU) Zone to accommodate these new residential-commercial combination units within the City. The City leadership seems to be supportive of this idea due to its proximity to an existing commercial district and relative location within the City.

The implementation planning and policies to support this strategy include: a willingness by the City leadership to consider amendments to the Mixed Use (MU) Zone to better attract more moderate-income housing units development within the MU Zone, as well as, attract high-quality development with these potential amendments; City leadership willingness to consider development agreement strategies that allow for variations of the Mixed Use (MU) zoning codes so that unique visions within a Mixed Use (MU) Zone framework can be considered within a specified district of the City; and monitoring development of future projects within the Mixed Use (MU) Zones to

better understand development trends, quantify new housing growth within these areas, qualify the benefits and impacts to integrated commercial and job opportunities in these MU Zoned areas, and more specifically work to achieve significant new moderate-income affordable dwelling development within these MU Zoned districts.

Benchmarks for this strategy are linked to the following timeline:

- Rezoning of properties to higher density zoning has been completed in prior years for a mixed-use zoned area adjacent to a large commercial center. More recently during the years 2020 and 2022 rezoning of properties has been approved to accommodate new higher density and moderate-income development opportunities in other areas of the City that are adjacent to Riverdale Road and other employment/commerce centers of the City;
- Anticipated City review and consideration
 of a large acreage (70 acres) mixed-use style
 mixed density and moderate-income housing
 development project adjacent to large
 commercial center to go through subdivision
 review process in phases during the 2022-2027
 years. This development is anticipated to have
 nearly 900 new residential units of varying sizes
 and use needs that will function in a walkable
 micro-community within the City;
- Development Agreement between the City and developer of the large acreage (70 acres) mixed-use style housing development has recently been amended in the year 2022 and is anticipated to be further amended in the year 2023 with the expectation the developer will provide moderate-income housing unit inclusion in the development project;
- Anticipated construction and development
 of multiple new single family residential
 units, moderate density residential units, and
 new higher density units with an amount of
 moderate-income housing inclusion in the
 development project expected to occur in 20232027 years within the large acreage mixed-use
 zoned area that is adjacent to a large commercial
 center and employment hubs and in close
 proximity to Riverdale Road;

- Anticipated City review and consideration
 of rezone request for new Mixed Use (MU)
 Zone application on approximately 5-7 acres in
 close proximity to Riverdale Road and adjacent
 to a commerce center to allow for potential
 production of moderate-income work-live
 housing consideration through rezone review
 process in 2023-2024 years.
- Anticipated City review and consideration of higher density and potential moderate-income housing work-live development project in close proximity to Riverdale Road and adjacent commerce center to go through subdivision review process in 2023-2027 years.
- Anticipated future construction and development of the potential moderateincome housing work-live dwelling units in walkable proximity to Riverdale Road and adjacent to commercial center expected to begin development during the years 2024-2027 years.
- Additional potential requests for Mixed
 Use (MU) rezone of property located along
 Riverdale Road and/or near employment/
 commerce centers may also be reviewed and
 considered by the City by or before the year 2027.

House Bill 462 requires that each jurisdiction work to bring these strategies to life over the next five years and report annually on progress made. Riverdale City will annually (or even more frequently) monitor and review how progress is being made in implementing each of these strategies and, thereafter, report on this information to the State of Utah as directed by House Bill 462. The City will continue to apply these strategies in identifying and creating additional moderate-income housing opportunities within the City; further specific measures and benchmarks, as available and identifiable, will be reported accordingly to State of Utah in order to verify progress made and achieved by Riverdale City as a result of these selected moderate-income and affordable housing strategies.

Riverdale Housing Goals & Objectives

The Housing Development Plan with the moderate/ affordable income housing element provides a vision statement as a foundation for all affordable housing and those supportive activities, goals, policies and programs. The vision statement includes the following:

- Continue to revitalize neighborhoods and enhance the vitality of the region by improving the quality of the housing stock through rehabilitation of existing dwellings through Riverdale's RDA program.
- Sustain affordable housing (rental and owner occupied) for people at very low-, low-, and moderateincome levels that meet the needs of a population which varies in household size and age.
- 3. Increase the level of rental assistance for very low and low income and special need populations.
- 4. Promote additional funding sources from the public, non-profit, and private sectors in order to create necessary housing for the region.
- Ensure an adequate supply of safe, accessible, sanitary, and aesthetically pleasing moderate-income housing integrated throughout the City in various locations, and consistent with the needs of all segments of the population.
- 6. Sustain a mix of lot sizes and housing types in existing developments so that moderate-income housing is properly integrated and not concentrated in one development or area.

- Encourage requirements to keep moderateincome housing consistent with other residential development within the City, such as landscaping, quality building materials, and varied architectural styles.
- 8. Consider the adoption of a rehabilitation code to address improvement of older residential buildings/ units to encourage stability and revitalization of older residential areas.
- Annually review and update the Moderate-income Housing Element and Affordable Housing Model to determine the housing needs for all groups, to quantify specific housing needs, and to identify solutions to housing problems as directed by state statute.
- 10. Regularly review the HB 462 selected moderate-income housing growth element strategies and verify that the selected strategies are working to establish new moderate-income housing opportunities within the City. If a selected moderate-income housing growth strategy is not working, then identify alternative strategy options that may be more beneficial to the City in creating new moderate-income housing opportunities within the City.

O5 OPEN SPACE & RECREATION

"Our family loves the trail, since we have so much retail it is nice to have a piece of nature that helps us feel disconnected from the crazy. I hope we continue to preserve and maintain the trails and surrounding areas."

Introduction & Background

During this General Plan update, a range of definitions were shared on what open space meant to residents. **Open space** is undeveloped land, a naturally landscaped area, or a formal or human-made landscaped area that provides an aesthetic, recreational, environmental, historical use; or a connective link or buffer between other resources. Open space can further be broken into two classifications, specifically public and private. These classifications denote the nature of who has access to use the space.

Given this definition and the classifications, the majority of land considered as open space in Riverdale is public. As the open space is mostly public, this provides greater potential access for residents. The active and passive outdoor spaces are maintained and owned by the city/county which preserves them perpetually, unless the property is sold or deeded to private entities. Some locations in the City have privately maintained open space. Private land is only legally accessible by the property owner(s), land trust designees, or Home Owners Association (HOA) members. Temporary access may be granted to other individuals, but can be revoked by the owner, trust, or HOA at their discretion. The best way to preserve open space is to make or keep it public.

Best Practices

The following are best practices for open space and recreation placement, programming, and design:

- Encourage open space to be developed as part of a neighborhood or community during the planning and development phases.
- Catalogue existing public open spaces by type (aesthetic, recreational, environmental, connective link, or buffer), programmed amenities, and size.

- Provide open space close to residents. Open spaces within 1/4 mile of a resident receive significantly more use than those outside of that range.*
- Place open space adjacent to roadways and maintain pedestrian-scale lighting. Doing so increases the user safety and access as well as ease of maintenance.
- Preserve and enhance cultural and natural amenities.
- Design the open space in tandem with local residents and the surrounding context including land features, views, nearby open space types and programming.
- Diversify active and passive recreation opportunities for all user abilities.
- Preserve open space areas based on current and projected land uses and demographics.
- Plan, design, and preserve tail networks and incorporate required connections to these networks to be made or stubbed within a mile of regional trails or connective network trails.
- Connect all open spaces, where feasible by multi-use pathways preferably detached of public street rightof-ways.

*The National Recreation and Park Association (NRPA) states that "the typical park and recreation agency has 10.4 acres of parkland for every 1,000 residents." [www.nrpa.org/].

Principles

The following principles help illustrate what would be required given various desired outcomes that were expressed during the public engagement process of this study:

Public Sentiment: City Recreation Center

Recreation centers are typically paid for using a variety of sources. Bonds, capital improvement programs, memberships, donations, fundraising events, federal and state grants, recreation impact fees, community classes, event space reservations, and taxes are the usual pathways that help pay for these facilities.

Generally bonds, capital improvement programs, grants, and impact fees supply the design and construction costs; while classes, reservations, memberships, and donations address maintenance and operating costs of the center. Taxes and impact fees can also help offset the costs of ongoing maintenance and operational costs.

Public Sentiment: Open space amenities & more trails

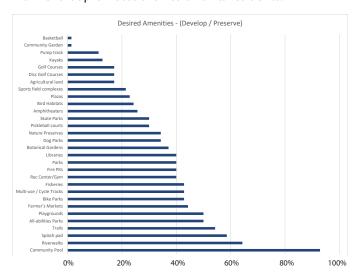

Open spaces are typically paid for in a few different ways. Public open space is generally paid for with property and sales tax and impact fees, or is privately developed then dedicated to the public for use. Typically these spaces are maintained by taxes. Private open space amenities are budgeted into the total cost of a development and are typically maintained by a private Home Owners Association (HOA). These types of open spaces can be naturally landscaped or man-made landscaped areas.

Private open space amenities are normally developed in later phases of a project to ensure enough members in the HOA can reasonably pay for their maintenance. The same applies to public open spaces. The more residents and developments there are paying taxes to maintain open space, the more money there is to develop and maintain increasing amounts of public open space including trails.

Private land or HOA maintained open spaces are for the private exclusive use of the owner or HOA members respectively. Much of the land considered as open space in Riverdale is City-owned land. Several trails in the valley currently used by ATV or horse users are technically on private undeveloped land, which could be shut down at any moment by the land owner. Many residents view these as "public open space" when in reality they are not. To ensure open space amenities are publicly-accessible and preserved, they need to be incorporated into the governing agencies planning efforts and the land needs to be purchased and improved upon by that City, County, State, or Federal entity.

As a rule of thumb larger trail systems are usually constructed by private developers as planned, incorporated, and enforced by government agencies, or as part of a major public facility enhancement or funding source. (Ex. the Active Transportation Statewide Trails Network [maps. udot.utah.gov/wadocuments/Data/strategic_direction/UtahTrailNetwork Factsheet.pdf]).

Provisions should also be added to regulating codes to guide community development to incorporate varying categories of open space. Varying categories of open space are denoted in the element section below. Individuals seeking to develop an area tend to provide the minimum requirements. If these regulations aren't included, open space will either not be provided or not be provided in a manner that promotes the health of its residents.

Element

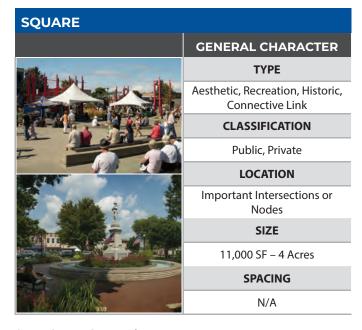

A diverse network of integrated open space is critical to create vibrant healthy and inviting neighborhoods and communities. As such, part of the public engagement process was dedicated to understanding the specific amenities and open space categories residents desired. Existing open space types and classifications were analyzed to see what gaps may exist within the City. Missing, insufficient, or fringe public amenities were added to the Open Space / Recreation Preference Survey. The graph above shows the percentage of resident survey respondents that desired each listed public amenity. This graph shows the cumulative results of the open houses, and website feedback in response to desired amenities.

Open Space Types

Delineating open space types helps distinguish the general use of each open space and increases usable open space as the types differentiate end goals of each amenity. Amenities may fit into multiple open space types. Descriptions of each open space type are as follows:

- Aesthetic this open space type is meant to preserve views, maintain historic or rural character, increase community interest, or signify entrance of a location.
- Recreational this open space type is for active and passive recreation uses.
- Historical historical open space types are meant to protect or promote historic locations, buildings, and features.
- Connective Link this type is specific to connectivity of various modes and is intended to join source locations to destination locations.
- Buffer this open space type's primary use is to separate non-compatible land uses or establish boundaries for development.
- Environmental the environmental open space type is established to conserve wetlands, agricultural land, critical habitats, wildlife preserves, and other sensitive lands.

Open Space Categories

The open space categories below illustrate how the Open Space/ Recreation Preference Survey amenities are categorized and give an overview of their general character, type, classification, location, size, and spacing.

- Plaza A plaza is a more urbanized public community space that offers opportunities for civic gathering. Plazas add to the vibrancy of streets within the more urban, higher intensity areas. They create formal community spaces available for civic purposes and commercial activity. These spaces are typically defined by building frontages and contain a mix of hardscape and planting areas with various types of seating and trees provided for shade.
- Square A square is a public community space available for civic purposes, commercial activity, unstructured recreation and other passive uses. The square should have an urban, formal character and be defined by the surrounding building frontages or adjacent tree-lined streets. All buildings adjacent to the square should front onto the square, with adjacent streets lined with appropriately scaled trees. Shaded areas for seating should be provided, with the potential addition of a civic element or small structure such as an open shelter, pergola, monument or fountain.

COURTYARD

GENERAL CHARACTER

TYPE

Aesthetic, Recreation

CLASSIFICATION

Public, Semi-Public, Private

LOCATION

Locations Supported by Adjacent Use Pattern

SIZE

600 - 6,000 SF

SPACING

75+ Attached Unit Communities, or Medium+ Retail / Office Properties

• Courtyard – A courtyard is a developed space that offers a variety of opportunities for public, semi-public and private gatherings. Courtyards provide a more intimate spatial experience apart from the streets within the more urban, higher intensity areas. They can be formal, paved spaces framed by buildings or restful, garden spaces that can be experienced visually from within building spaces such as offices, retail shops or residences. Building frontages, walls or fences typically define these spaces with a mix of hardscape and planting surfaces dependent upon location and expected use patterns. Shade and heating units should be provided to extend the seasonal use for gatherings or dining, with various forms of seating.

GREEN GENERAL CHARACTER TYPE Aesthetic, Recreation, Connective Link CLASSIFICATION Public, Private LOCATION Vista Protection, Central Community Gathering Space SIZE 11,000 SF – 2 Acre SPACING 75+ Unit Communities, or Large

 Green – A Green is a public community space available for civic purposes, commercial activity, unstructured recreation and other passive uses. Greens are primarily naturally landscaped with many shaded places to sit. The space may include thoughtful open lawn areas, paths, civic elements, fountains or open shelters. Greens are typically adjacent to a public right of way and are spatially defined by buildings which front onto this space.

GENERAL CHARACTER

Retail / Office Properties

TYPE

Aesthetic, Recreation

CLASSIFICATION

Public, Private

LOCATION

In Neighborhoods Along Minor Collectors or Local Roads

SIZE

20,000 SF - 1 Acre

SPACING

Within 1/4 Mile of Each Residential Unit*

^{*} Each residential unit should be within 1/4 mile of a pocket park, neighborhood park, or regional park.

• Pocket Park – Small and frequently dispersed throughout the community, these infill spaces support passive recreation that ensures walkable green space access for everyone within the immediate neighborhood. They may contain specialized facilities that serve a specific demographic or limited population or group such as tots, pets or senior citizens. Thematic elements and uses may be determined by the needs of the target demographic or the nature of the location within the community. Pocket Parks must be adjacent to a public right of way and be fully developed and maintained as finished recreational open spaces. Native landscapes and natural areas do not constitute a Pocket Park.

NEIGHBORHOOD PARK

GENERAL CHARACTER

TYPE

Aesthetic, Recreation, Environmental, Buffer

CLASSIFICATION

Public, Private

LOCATION

Typically within Residential Communities

SIZE

2 - 10 Acre

SPACING

Within 1/4 Mile - 1 Mile of Each Residential Unit*

* Each residential unit should be within 1/4 mile of a pocket park, neighborhood park, or regional park.

remains the basic unit of the local open space system and serves as the recreational and social focus of the neighborhood. The focus is on informal active and passive recreation. The park should be centrally located within the neighborhood and may function as the recreational hub of adjacent neighborhoods. These parks are frequently developed adjacent to civic uses such as an elementary school.

Parks should be connected to the greater community through multi-use pathways or trails. Parks should also be adjacent to a public right of way on at least one side, with a minimum of 25% of the total park perimeter on a street.

REGIONAL PARK

GENERAL CHARACTER

TYPE

Aesthetic, Recreation, Environmental, Buffer

CLASSIFICATION

Public

LOCATION

Near Important Intersections, or Community / Civic Buildings

SIZE

11 - 100+ Acre

SPACING

Within 3 Miles - 5 Miles of Each Residential Unit*

Regional Park – Regional parks are diverse in nature, serving a broader purpose than the neighborhood or pocket park. While there may be overlap in amenities within these park categories, the focus of a regional park is meeting regionally-based recreation, athletic, and open space needs. These parks should be centrally located within the greater region and should function as the recreational hub for the region. Regional parks should be connected to the region through multi-use pathways, trails, and streets with a minimum of 50% of the total park perimeter on a street.

COMMUNITY GARDEN

GENERAL CHARACTER

TYPE

Aesthetic, Historic, Environment

CLASSIFICATION

Semi-Public, Private

LOCATION

Typically within Residential Communities

SIZE

Neighborhood Context Appropriate

SPACING

300+ Unit Communities, or Rural Communities Community Garden – Space programmed specifically for edible or ornamental gardening. Located in the center of a neighborhood to provide convenient and safe access. Oftentimes, community gardens may be included in pocket parks and parks. They are a valued asset in urban or higher intensity areas where residential yards are rare.

Community orchards and vineyards may also be included in this category of open space as long as they are operated as a non-profit organization that provides produce to the local community and they are not a commercial or agricultural use. Appropriate irrigation sources must be provided, and the garden must be locally managed and maintained. Seasonal farmer's markets may occur in these spaces.

SPECIAL USE GENERAL CHARACTER TYPE Aesthetic, Recreation, Environment, Historic CLASSIFICATION Public, Private LOCATION Varies SIZE Varies SPACING N/A

Special Use – This category covers a broad range of parks and recreation facilities oriented toward single purpose uses. Special uses generally fall into three categories: Historic/Cultural/Social Sites (ex. Historic areas, performing arts parks, arboretums, ornamental gardens, indoor theaters, churches, public buildings and amphitheaters). Recreation facilities (i.e., either specialized or single-purpose facilities) fall into this category, for example, community centers, senior centers, hockey arenas, golf courses, campgrounds, skate and water parks. Frequently, community buildings and recreational facilities are located within parks.

PASEO

GENERAL CHARACTER

TYPE

Aesthetic, Connective Link

CLASSIFICATION

Public

LOCATION

Key Through-Blocks Connecting Adjacent Non-Homogeneous uses

SIZE

Minimum Width 15 FT

SPACING

N/A

 Paseo – Pedestrian passages or paseos are linear public community spaces that connect one street to another at through-block locations. Pedestrian passages create linkages through buildings or lots at designated locations. These pathways may provide direct pedestrian access to residential, commercial, office, or educational addresses. Pedestrian passages allow for social and commercial activity to spill into the public realm and should consist of a hardscape pathway with landscaped edges and must be connected to public paths or thoroughfares at both ends of the corridor.

MULTI-USE PATH GENERAL CHARACTER TYPE Aesthetic, Recreation, Connective Link CLASSIFICATION Public, Private LOCATION Drainage, Canal, and Road Corridors**; and Between Open Spaces and Communities SIZE Minimum Paved Width 10 FT SPACING N/A

 $[\]hbox{**All Drainage, Canal, and Major Road Corridors should contain a multi-use path or trail.}$

• **Multi-Use Path** – A multi-use path is an improved linear public transportation and recreation corridor that accommodates two or more users on the same, undivided pathway. Path users could include pedestrians, bicyclists, skaters, etc. A multi-use path frequently provides an important place for active recreation and creates a connection to regional paths and biking trails. Multi-use paths should be clearly defined with refined paving materials that provide for safe use and low maintenance.

Pedestrian amenities add to recreational opportunities, and may include drinking fountains, scenic viewpoints, fitness stations, bike repair stations, and directional signs. These elements may be spread along the pathway or grouped in high use areas.

TRAIL GENERAL CHARACTER TYPE Aesthetic, Recreation, Historic, Connective Link CLASSIFICATION Public LOCATION Drainage and Canal Corridors**; and Natural Open Space Areas SIZE Minimum Clear Surface Width 6 FT SPACING N/A

*All Drainage, Canal, and Major Road Corridors should contain a multi-use path or trail.

 Trail – A trail is an unimproved, or semi-improved, linear public transportation and recreation corridor that traverses more natural areas or connecting corridors. Trails could include pedestrians, bicyclists, and equestrian users. A trail provides an important place for active recreation and serves as the backbone for regional non-vehicular connectivity.

Pedestrian amenities add to recreational opportunities, and may include drinking fountains, scenic viewpoints, fitness stations, bike repair stations, parks, and directional signs. These elements may be spread along the pathway or grouped in high use areas.

STREAM/RIVER CHANNEL OR CANAL GENERAL CHARACTER TYPE Aesthetic, Recreation, Environmental CLASSIFICATION Public, Private LOCATION Stream/River Channel or Canal SIZE N/A SPACING N/A

• Stream/River Channel or Canal - Linear space defined by a waterway. The space should serve as a pedestrian connection or recreational opportunity, enhancing adjacent property values (waterfront property). It can serve as a secondary connection to a natural open space or a greenway. Paths and trails that parallel a water course may also serve as maintenance easements. Riverwalks fall under this category.

NATURAL OPEN SPACE & GREENWAYS GENERAL CHARACTER TYPE Aesthetic, Recreation, Environmental, Historic, Buffer CLASSIFICATION Public, Private LOCATION N/A SIZE N/A SPACING N/A

 Natural Open Space & Greenway – Natural open space or greenway areas may occur at the edges of the rural neighborhoods or serve as boundaries to development. These may be areas of hillsides, forests, rangelands, or agricultural land that lies outside of the development limits.

Selection of an area for preservation may not be required by legislation or ordinance but may be preserved through formal open space or preservation easements or by definition within a development agreement. Trails or raised trails may occur in these areas with low impact paving materials so there is minimal disturbance to the existing landform and vegetated patterns. Developed trail heads at key locations may contain parking and other facilities to support recreational opportunities.

S. Williams	N/A		

• Sensitive Lands – Sensitive Lands contain elements that can influence or limit development through physical or regulatory restrictions. The types of lands represented in this typology may include steep slopes, wetlands, critical habitats, stream corridors, ridgelines, and unique vegetation patterns. Non-physical, locational characteristics, such as critical viewsheds and highway corridor buffers, may also be factors that determine the extent of sensitive land designations. Additional elements may relate to historic or culturally significant landforms or existing development patterns or structures. Preservation of these areas in a natural state may be based on regulatory controls, cost controls or amenity-based strategies.

Existing Open Space Facilities

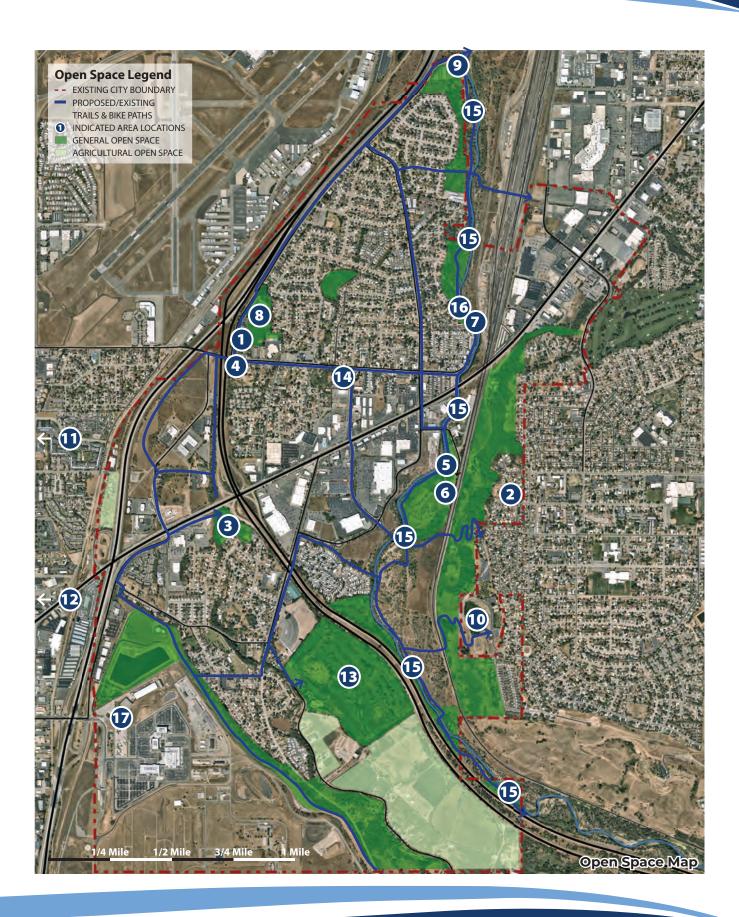

The following table and map show existing open space facilities in and around Riverdale.

RIVERDALE OPEN SPACE FACILITIES			
FACILITY	TYPE	LOCATION	
Community Center	Special Use	1	
East Park	Pocket Park	2	
Golden Spike Park	Neighborhood Park	3	
Lions Centennial Park	Neighborhood Park	4	
Riverdale Bike Park	Future Regional Park	5

Weber River Parkway Trail	Trail	15	
Weber River Parkway Trailhead	Neighborhood Park	16	
Hill Air Force Base Museum	Special Use	17	

(*These facilities are not within the Riverdale City Boundary but offer residents recreation opportunities that do not exist within city boundaries.)

Several residential dwellings fall outside of the desired 1/4 mile radius creating open space gaps throughout Riverdale. Due to the significantly built out nature of the city, filling these gaps may be difficult. Designating and striping bike lanes, maintaining high quality sidewalks, and establishing trails where possible, increase access and recreational opportunities in areas currently outside of the 1/4 mile radius of an open space. These trails and paths can help encourage a healthy lifestyle and increase resident's well being.

General sentiment for the existing Riverdale City property on the east side of the Weber River, was to develop this area as a permanent regional park facility. This would help resolve some of the existing open space gaps within the city and provide solutions for existing amenity gaps.

Amenity Gaps

In addition, to the locational open space gaps, residents stated they felt some gaps in desired amenities also exist. The top 10 items requested by residents were:

- Pool / Recreation Center Currently Riverdale City
 utilizes the Roy Recreation Complex approximately
 1.3 miles from the western boundary of Riverdale. This
 facility contains a an indoor lap pool, aerobics room,
 basketball court, racquetball courts, saunas, weight
 room, and an indoor track. Given the population
 size of Riverdale, the cost to develop and maintain a
 community pool and rec center may not be feasible.
- Riverwalk Riverdale has a trail along the Weber River offering the city a "riverwalk", but many residents stated the desire to further improve this amenity to help regain the city's namesake. At the least, residents desired safety improvements including lighting, increased access points, and potentially police call boxes along the trail. A greater desire was to use a portion of this trail for an urban mixed-use riverwalk town center.
- All-Abilities Park This type of park is increasing in popularity with only a few in the state. An all-abilities park offers amenities and play equipment geared towards those with disabilities while still allowing others areas of recreation. If an all-abilities park was incorporated into the potential future regional park on the east side of the Weber River, it would be the first all-abilities park in the County.

e Farmer's Market – Farmers Markets typically get established by a range of farmers with produce to sell. They are generally located in regional areas or in conjunction with civic spaces. The closest existing farmers market occurs just east of the Southwest Branch Weber County Library in Roy. Bike Park / Cycle Track / Pump Track – The bike park currently located where the potential future park is sustains significant support and should be incorporated into plans for the future park. As this park is designed, these amenities should be maintained and enhanced.

- Fishery Information on how to establish a new fishery can be found at: www.fisheries.noaa.gov/. If the establishment of a fishery is cost prohibitive, certain areas along the Weber River can be designated as fishing locations. There are currently several existing fisheries or fish ponds in surrounding cities that are open to the public.
- Fire Pit Fire pits are a low cost amenity to install, but come with potential risk. When developing a fire pit, it should be in a location that is well trafficked and close to existing supportive facilities.
- Library The population size typically required to support a library is 15,000+. Smaller libraries can be supported with as little as 12,000 residents, but feasibility of these libraries may prove difficult. The Southwest Branch Weber County Library is approximately 1.5 miles west of the City on 4000 South in Roy.
- **Botanical Garden** Once established botanical gardens can be the easiest amenity on this list to maintain. This amenity offers a quality passive recreational opportunity that many of the other items do not. This amenity also helps target a significantly different demographic then many of the other items.
- Dog Park Several residents stated that the unofficial dog park of the city was Riverdale park due to its large fields and open areas. If this is a desired location, more permanent facilities for dogs should be considered.

Implementation

The following steps should be taken upon approval of the Riverdale General Plan Update:

1. Set aside funding for the design and development of a new regional park

The land owned by the city just south of City hall, should be set aside for a new regional park. A visioning and design study should be conducted to further detail desired amenities, layout, timing, and funding sources.

2. Preserve planned trail multi-use path, and bike corridors and natural open space and greenways as established by the open space maps

The area between Hill Air Force Base and the residential development on the south side of the city should be preserved as an additional trial corridor with potential connections to existing and proposed public open space. Funding sources should be evaluated which could help create connections across the rail line and river in key locations. As development occurs along these trail corridors, developments should be required to install these improvements.

Study the feasibility of adding the amenities from the amenity gap list to the city's open space offerings

Offering a wide range of open space types helps equitably reach all residents within the city. This study could be paired with implementation item 1 from this element to help the city more efficiently use its funds. Many of these amenity gaps may be less critical as some exist in close proximity outside of the city boundary or within a reasonable distance to residents.

4. Seek to provide or secure additional park space for residents in areas outside the 1/4 mile radius of an existing facility

Although the city is predominantly built out there are some opportunities to establish additional open space within the city for underserved, in terms of proximity, residents. Seeking for partnerships in strategic locations may help facilitate this implementation item.

Funding Sources

Several local, state, and federal funding sources exist for the preservation and development of public open space. These sources include, but are not limited to:

- Active Transportation Statewide Trails Network

 This is part of the statewide trails initiative with
 the Utah Department of Transportation and The
 Governor, and has been allocated a total of \$45 million
 [unifiedplan.org/utah-trail-network/].
- Active Transportation Investment Fund (ATIF) This
 is part of the statewide trails initiative with the Utah
 Department of Transportation and The Governor, and
 has been allocated \$45 million annually [unifiedplan.
 org/utah-trail-network/].
- **Utah Open Lands** The Utah Open Lands group seeks to safeguard agricultural open space in Utah and has ongoing grant money available [www.utahopenlands.org/].
- Wasatch Front Regional Council Transportation Land Use Connection Program (WFRC) – The WFRC funds planning and transportation projects on a yearly basis. This general plan project went through this funding source and could be utilized again for larger regionally significant planning and transportation projects [wfrc.org/programs/transportation-land-useconnection/how-to-apply-for-funding/].
- Utah Division of Outdoor Recreation (Utah DNR)
 Grants Utah DNR has several grant programs
 available each year. These programs include the
 Utah Outdoor Recreation Grant (UORG), Recreation
 Restoration Infrastructure Grant (RRI), Outdoor
 Recreation Planning Assistance (ORPA), Recreational
 Trails Program (RTP) and several others. For more
 information visit recreation.utah.gov/grants/.
- National Recreation and Park Association Grant (NRPA) – NRPA periodically posts information about grant and fundraising opportunities that are available for park and recreation agencies and affiliated friends groups and 501(c)(3) nonprofits. [www.nrpa.org/ourwork/grant-fundraising-resources/].
- City Parks Alliance As part of the Great American Outdoors Act, the federal government provides \$900 million in permanent and dedicated annual funding for the Land & Water Conservation Fund (LWCF) and invests up to \$9.5 billion to address priority repairs in our parks and other public lands. [cityparksalliance. org/federal-funding-city-parks/].

06

PUBLIC FACILITIES

"It would be nice to have a new school, is there an area that could be exchanged with the school district to make this happen sooner? It would be good for the school to have it's own dedicated playground that can be secured so visitors to the park don't have access to the children at recess."

Introduction & Background

The Public Facilities section is designed to catalog existing facilities and show future plans for the addition of other major facilities that affect Riverdale City.

Existing Facilities

 Roadways – Riverdale has four major functional road classifications: Freeway, Arterial, Minor Collector, and Local Road. This hierarchy of roads determines the number of lanes and speeds, at which drivers travel within the city. The table below shows the major roadways and their corresponding functional class currently in the city.

RIVERDALE ROADWAY CLASSIFICATION			
ROADWAY	FUNCTIONAL CLASS	LANES	
I-15	Freeway	6	
I-84	Freeway	4	
Riverdale Road	Arterial	7	
4400 South Street	Minor Collector	3	
700 West Street	Minor Collector	3	
1050 West Street	Minor Collector	3	

- **Transit** Transit in Riverdale is provided by the Utah Transit Authority (UTA). UTA currently offers bus service within the city. Current and proposed routes include:
 - Route 470 Ogden-Salt Lake City, rush-hour or limited hourly service
 - Links Ogden to downtown Salt Lake City via Riverdale Rd
 - Route 472 Riverdale-Salt Lake City Express rush-hour only
 - Links Riverdale to Salt Lake City Downtown
 - Route 640 Layton Hills Mall-WSU Ogden hourly all day
 - Service within the Ogden Metro Area
 - Future Route 656 Roy FrontRunner-Kent's Market – Future route
 - Links the Roy FrontRunner Station to the America First Credit Union Campus, Riverdale Park n Ride, Hill Air Force Base, and 5600 South in Roy

- Education Contributors to educational facilities within Riverdale are:
 - Weber School District (See wsd.net/)
 - 1 Elementary School Riverdale Elementary School
 - Charter/Specialty Schools
 - Good Foundations Academy
 - Utah Military Academy

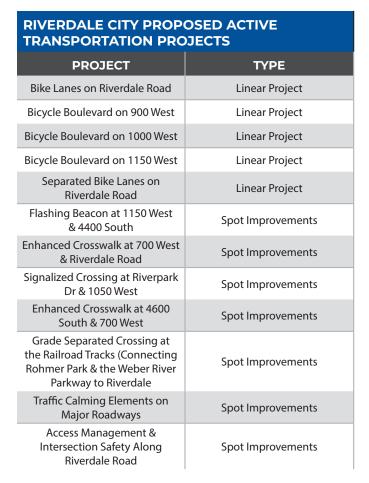

• **Open Space & Recreation** – See the Open Space and Recreation Element for existing facilities.

Element

Proposed/Planned Facilities

- Roadway Projects The safety improvements needed along Riverdale Road will continue to be a planning priority as the city and region experience continued growth. Adequate mobility within the city is essential to maintaining quality of life and employment opportunity within Riverdale.
- Transit Future plans for improvements center along Riverdale Road and reducing congestion. These improvements include Route 656, and the extension of the Ogden Bus Rapid Transit Line through Riverdale.
- Active Transportation Facilities for cyclists and pedestrians are evolving within the city. The following table shows proposed projects to improve active transportation in the city. Some of the projects listed are smaller pieces of the larger plan to create a viable network of multi-use paths throughout the city.

 City Facilities – Potential need for new more centralized fire station location closer to Riverdale Road.

Implementation

Implementation for this section should follow the proposed facility projects outlined in this section and evaluate implementation based on existing and projected growth, service levels, and needs at the time of review.

07

CONSERVATION & PRESERVATION

"Please preserve the natural beauty of the city and the river area"

- SURVEY PARTICIPANT

Introduction, Background, Best Practices, & Element

This element is intended to address agricultural land, hillside protection, wetlands, floodways, low impact development (LID), and waterwise development. Many cities within our state deal with a few of these, but Riverdale has the need to plan for all of them.

Agricultural Land

Agricultural land in growing areas tends to be the least expensive land to develop due to its "development ready" potential. This is because developers look at a potential property to purchase based on how much work it will take to develop the site versus how much the land costs. In the case of Riverdale the majority of existing agriculture ground falls within the Hill Air Force Base Accident Potential Zone (APZ). This overlay dictates what can and can't be developed in this area. Essentially, the APZ serves as a variation of a conservation easement for this agricultural ground. Programs exist to help offset the desire for the sale of agricultural ground. Those programs include:

- Conservation & Farmland Preservation Easements

 Are voluntary legal (easement) agreements that permanently limit the use of land for agricultural and open space purposes. These must be entered into by the land owner and the legal governing body.
- Agriculture Conservation Easement Purchase Program (ACEP) – This federal program provides funding to help protect sensitive lands, working farms, and ranches through conservation easements.

- Private Land Trusts and Easements A land trust
 is a legal entity formed by an individual or group
 to purchase and manage property for the intent of
 preserving the land for a particular use. That use may
 be recreation, agricultural, or to buffer from other
 development.
 - Utah Open Lands Program The Utah Open Lands program is a land trust designed to permanently protect land in Utah, by acquiring the title or trust of a conservation easement. They maintain stewardship of these properties for public use.
 - **Bureau of Land Management** "The Bureau of Land Management's [BLM] mission is to sustain the health, diversity, and productivity of public lands for the use and enjoyment of present and future generations." BLM owns thousands of acres within the State.
 - United States Forest Service (USFS) Is a federal agency that owns and maintains national forests, grasslands, and mountain range land.

Other programs that exist but may not be suitable for this area are:

Transfer of Development Rights (TDR) Program

 TDR programs limit development in key locations transferring that potential development to other targeted locations where development is more appropriate. Once the development rights have been transferred that land is placed under a conservation easement. Development potential is not reduced only transferred.

- TDR Bank Allows for a municipality to control the transfer of development by purchasing the development rights and reallocating them when and where they desire. The TDR bank typically is created in tandem with a TDR program.
- Conservation Subdivision / Cluster Development

 Conservation subdivisions encourage clustered housing and commercial development while preserving the majority of the remainder of the "developed" land as open space under a conservation easements. (Ex. On a five-acre parcel you could develop five one-acre lots and have no public open space remaining, or you could shift to five half-acre lots and preserve 2.5 acres of conserved land. You could also develop eight third-acre lots and have 2.6 acres of conserved land, or 10 quarter-acre lots and have 2.5 acres of conserved land. The increased amount of smaller units allow the preservation of land to be more affordable.)

- Greenbelts, Greenways & Green Wedges Are sections of undeveloped land which encircles cities, townships, or major areas of development. They are typically used as growth boundaries and also serve the residents by providing large natural open spaces within close proximity. (Several Greenbelts exist within the state, but tend to be temporary solutions.)
- Historic Preservation / National Historic Registrar

 Land that has been deemed on the historic preservation or National Historic Registrar is another method of preserving land as open space or non-developed land. This case does not apply to many properties, but is a tool that can be used if significant historic value can be found on a property. Typically the historic value is in the preservation of an historic building or land feature on the property.

Hillside & Slope Protection

In 2017, Riverdale experienced the Spring Creek Road landslide. The area on the east side of the rail line became unstable and slid down the approximately 200-foot-high thickly wooded west-facing bluff. The landslide was "a water-rich, quickly-moving debris and earth flow involving the lower half of the slope that dislocated the upper 10 to 15 feet of organic-rich soil and unconsolidated silty sand." [https://geology.utah.gov/hazards/landslides/spring-creek-road-landslide/]. The nature of the hillside has not changed drastically, and repeat incidents may occur. This type of slope failure was a rotational slide with a mix of cohesive and granular soils. To help prevent future incidents three major techniques could be implemented:

- Geometric Techniques This technique works with the geometry of the slope. Within this technique efforts can be made to:
 - Reduce the percent of the slope or recontour the slope increasing the distance between the top and bottom of the slope
 - Eliminate load or weight from the top of the slope reducing the stress of critical areas
 - Eliminate portions of the soil that have a greater likelihood of incident
 - Construct berms along the slope to offer relief and extra safety against toppling failure
 - Introduce free draining materials reducing the build-up of pore water pressure
 - Re-compact slip debris to provide more resistance against the load

- Hydrological Techniques This technique works with the hydrology within the slope. Efforts can be made to:
 - Install surface and subsurface drain pipes reducing pore water pressure
 - Introduce inverted filters which catch and pipe water through the foundation of the slope
 - Use thermal techniques (Ex. ground freezing and heating)
- Mechanical Techniques This technique works with the construction of structures or use of construction materials to strengthen potential loads of the slope. This is the most common technique type and efforts can be made to:
 - Use grouting (soil nails) to increase resistance of slope
 - Construct restraining structures (Ex. concrete gravity or cantilever retaining walls)
 - Construct gabion structures, baby crib walls, and embankments
 - Construct cement columns
 - Install anchors, rock bolts, or root piles with rock blocks
 - Plant vegetation, more specifically shrubs and grasses to reduce soil erosion and overall stress on the slope

Floodways & Wetlands

Floodways are highly regulated throughout the United States due to the sensitive nature of the area and potential damage that may occur if not designed adequately. If development must occur around a floodway there are three main things to consider:

• **Optimal Dimensions of the Floodway** – Floodways are developed in the lowest part of the floodplain.

- The width and height of the floodway should be designed by estimating stage and tailwater levels for various flows, backwater caused by the floodway, flood event closure time, and velocities at the floodway. Once this is established models for major storm events should be developed to ensure 500 year flood events are incorporated into the design.
- Channel Crossing Path/Road Surfaces and
 Design Decisions must be made to determine
 the floodway crossing length, width, and pavement
 characteristics. Once these are developed the surface
 can be determined on they type of inundation that
 exists. For areas with relatively short periods of
 inundation stabilized base course is typically used. For
 more urban riverwalk sections or higher traffic areas
 concrete pavement is typically used, or when periods
 of inundation are longer and more sustained.
- Armoring and Scour Protection of a Floodway –
 Armoring a floodway means using physical structures to protect shorelines from erosion. Armoring typically occurs in urban riverwalk locations to help protect development on both sides of the urbanized section. Scouring protection in a floodway is extremely important and incorporates the analysis of various areas within the floodway for the severity of flows, velocity, drag and resistance. Options for protecting the floodway from scouring concerns are:
 - Concrete protection
 - Cutoff walls
 - Rock fills below the embankment
 - Cement-stabilized batter slope/embankment fill
 - Cement-stabilized sub-grade base course
 - · Two-coat bituminous seal

Water Conservation, Preservation, & Low Impact Development (LID) (Water Conservancy Plan as required by Utah State Code Section 73-10-32)

Utah is a semi-arid to desert climate. Whether rainfall is plentiful or not, measures should be taken to help minimize wasteful or unnecessary water use practices. These wasteful practices include leaky waterlines and systems, irrigating landscape when raining or over watering landscape, non-functional lawn areas, non-waterwise appliances, and running faucets when not in use. Utah State Code 10-9a-403 [le.utah.gov/xcode/Title10/Chapter9A/10-9a-S403. html?v=C10-9a-S403_2019051420190514] requires the following items to be addressed as part of a city's general plan:

- The effect of permitted development or patterns of development on water demand and water infrastructure.
- Methods of reducing water demand and per capita water use for existing development.
- Methods of reducing water demand and per capita water use for future development.
- Modifications that can be made to a local government's operations to reduce and eliminate wasteful water practices.

Some best practices or methods to reduce water use for existing and future development are:

- Water System Management This management process evaluates and assesses the existing water system and replaces or improves under performing sections and facilities. It also adds meters in critical areas to watch for water leakage. Leakage represents the largest real losses for most water systems [epa. gov/sites/default/files/2016-12/documents/wc_best_practices_to_avoid_supply_expansion_2016_508.pdf].
- Metering Ensure meters are located at each user location to track water consumption and distribute the cost of the system on those consuming the most water using a conservation rate structure. A conservation rate structure incentives users to reduce water use to be under certain thresholds of cost/gallon of water use. [See also HB 251 le.utah.gov/~2023/bills/static/SB0251.html]
- Rain Water Harvesting Allows users to capture and store water on site for future outdoor irrigation needs. This is regulated by Utah State Code, but each residential unit can store up to 2,500 gallons per year [waterrights.utah.gov/forms/rainwater.asp].

- Sustainable Water Use Practices Changing user habits to utilize smart water sensing irrigation systems, waterwise appliances and toilets, turning off water when not in use, watering landscape the right amount and at the right times. Riverdale City's website contains the measure the City is taking and residents can take in their operations and maintenance practices to reduce and eliminate wasteful water practices. [riverdalecity.com/water.html See also HB 349 le.utah.gov/~2023/bills/static/HB0349.html]
- Waterwise Landscape Design When individuals hear the term waterwise landscape design they typically think no lawn and only use rock or bark mulch. A waterwise landscape design is a design that is thoughtful in its placement or use of lawn and utilizes more drought tolerant native plants. It may also mean replacing typical lawns with other more waterwise plant substitutions. The use of rock or bark mulch, drip irrigation systems, and less water intensive plants is encouraged in waterwise landscape design. The state also offers incentives for implementing water efficient landscaping [See also HB 277 & SB 118]. Riverdale City Codes 10-14-12 and 10-28 require waterwise landscape design for residential, commercial, and industrial developments.

- Greywater Systems & Water Reuse Greywater systems or water reuse takes water that has already been used (from places like your laundry, shower, and sink) and uses it for a secondary purpose (like watering gardens or landscaping) before allowing it to enter the sewer system. [www.epa.gov/waterreuse].
- Low Impact Development (LID) "LID refers to engineered systems, either structural or natural, that use or mimic natural processes to promote infiltration, evapotranspirtation, and or reuse of storm water as close to its source as possible to protect water quality and aquatic habitat" [documents.deq.utah.gov/water-quality/stormwater/updes/DWQ-2019-000161.pdf]. Green infrastructure includes LID practices but is a broader practice that also includes ecological services.

Examples of green infrastructure are:

- Bioswales
- Bioremediation
- Downspout Disconnection
- Green Parking
- · Green & Blue Roofs
- Green Streets & Alleys
- · Infiltration Basins
- Permeable Pavements
- Rain Gardens
- Rainwater Harvesting
- Subsurface Detention
- Urban Tree Canopy

For more information visit: epa.gov/green-infrastructure/what-green-infrastructure, & sustainableinfrastructure.org/

Principles & Effects of Permitted Development on Water Demand

The following principles help illustrate what would be required given various desired outcomes that were expressed during the public engagement process of this study:

Public Sentiment: Water Efficiency

The indoor water use of single family homes, townhomes, and apartment homes is approximately the same, but their outdoor use is drastically different. Given that the majority of residential water use comes from landscape irrigation, regulating existing and future landscapes to utilize waterwise landscape designs, becomes one of easiest and best solutions for reducing water consumption especially for single family homes. (See the Water Conservation, Preservation, & Low Impact Development section above).

IRRIGATED L	AWN WAT	ER USE BY L	OT TYPE
TYPICAL LOT INFO	.23-ACRE LOT	тоwnноме	APARTMENT
Lot Size*	10,000 SF	4,300 SF	1,250 SF
Public Right-of- Way Width	80′	26′	5′
Impervious Coverage	30%	75%	84%
Irrigated Landscaping	8,000	1,075	200
Water Use (600 gal / 1,000 sf irrigated landscape / week)	4,200 gal / week	645 gal / week	120 gal / week

Implementation

The following steps should be taken upon approval of the Riverdale General Plan Update:

- Study & Implement Hillside & Slope Protection
 Measures for the Area East of the Rail Line A
 study to evaluate potential solutions for the hillside
 area should be conducted to find the best solution for
 improving the area's stability while minimizing the risk
 of a future possible incident.
- Implement Low Impact (LID) Development
 Standards on All New Construction The State's standards on LID are becoming increasingly more common. LID development standards create significant environmental, health, financial, and social benefits.
- 3. Promote Waterwise Landscape Incentives to
 Encourage Landscapes to Be Redeveloped –
 Currently the Riverdale City Code requires the "use of smart watering irrigation systems".
 This is a great step to increase the efficiency of water use within the city. In addition, several items have been added to the code encouraging and requiring more waterwise landscapes to be installed. The Weber Basin Water District incentives "Flip your Strip" allow for residents to convert to waterwise park strips.
 Efforts to promote this redevelopment should be encouraged in monthly utility billing notices.
- 4. Study Potential Incentives Programs for Water Reuse, and Greywater Systems A study should be conducted to review strategies on how to encourage remodel, redevelopment, and new development projects to utilize greywater and water reuse systems. Currently the Jordan Valley Water Conservancy District offers an incentive program for similar projects in Salt Lake County [jvwcd.org/public/conservation]
- 5. Adopt applicable regional water conservation goals recommended by the Division of Water Resources [conservewater.utah.gov]

Existing City Measures

The following steps have been and are being taken in Riverdale to reduce or eliminate wasteful water practices [Detailed information can be found on Riverdale's Water Conservation Plan Update – conservewater.utah.gov/wp-content/uploads/SubmittedWaterPlans/Riverdale-City-2020. pdf]:

1. Public Education – Promote water conservation measures to City customers through public education.

- 2. Replacement Program for Old Pipelines City has \$250K-300K annual budget to replace water lines to decrease water leakage in system efficiency which reduces gallons per capita per day usage.
- 3. Adopt Weber Basin Water Conservancy District (WBWCD) Conservation Goals weberbasin.gov/Conservation/About
- **4. Time-of-Day Watering Ordinance** Promote water conservation by restricting watering to times with less evaporation and wind loss.
- **5. Replacement Program of Old Water Meters** All meters have been replaced with radio read meters.
- **6. Smart Timers Rebate** An incentive is given to City customers to have smart irrigation timers on their water system.
- **7. High Water Usage Reports** Notify customers of abnormally high or continuous usage.
- **8. City Parks Sprinkler Clocks** Monitor water use in City Park by using sprinkler clocks.
- **9. Evaluate Water Rate Structure** The water rate structure promotes water conservation through increasing rates and higher overage costs.
- **10.Drought Resistant Landscaping** City landscaped areas could be converted into more drought resistant landscaping.
- **11.City Commercial Landscaping Improvements –**Commercial xeriscape ordinance is already established
- 12. Continue to Identify and Reduce Unmetered Water Use
- **13. Continue to Use Water Rates for Drought Declaration** See 1-12-6: Public Works Fees Table
 E.9 [codelibrary.amlegal.com/codes/riverdaleut/latest/riverdale_ut/0-0-0-686#JD_1-12-6]

The WBWCD also has made the following efforts that are available to City residents:

- Free Water Audits At the request of residential water users, WBWCD will perform a check of the sprinkling system and landscaping to increase irrigation efficiency and promote conservation.
- **2.** Water Conservation Learning Garden Classes WBWCD offers landscaping classes that focus on water conservation principles for residential and commercial water users.
- Smart Irrigation Controllers and Toilets Rebates WBWCD offers rebates to residential, commercial, and institutional water users within its jurisdiction who replace old systems with smart irrigation controllers and/or toilets.
- 4. Secondary Water Meters In 2010, Weber Basin began installing water meters on secondary connections. This effort continues now and is done to eliminate waste and educate homeowners how much water they use and how much is actually needed for landscaping.
- **5. Gardening Classes** WBWCD provides gardening classes to educate the public of how to conserve water while growing a thriving garden.

By continuing to implement these strong conservation measures, less water will be pulled out of the natural systems, allowing for a healthier river ecosystem and more water to return to the Great Salt Lake.

City Resident Rebate Usage

 76 Individual Residential Successful Applicants – Smart Controller Rebate

(utahwatersavers.com/Program/6/smart-controller)

- 30 Individual Residential Successful Applicants – Flip Your Strip Rebate (utahwatersavers.com/Program/2/flip-your-strip)
- 9 Individual Residential Successful Applicants – Toilet Replacement Rebate

(utahwatersavers.com/Program/4/toilet)

The indoor water use of single family homes, townhomes,

08 ECONOMIC DEVELOPMENT

"Riverdale is a well know area, and the main retail hub of Northern Utah. There are a lot of amazing things that Riverdale provides to all neighboring cities and I would love to see it grow and be used to its full potential, while still highlighting all of the natural elements that we have been blessed to have so close to our homes and shopping centers."

- SURVEY PARTICIPANT

Introduction, Background & Best Practices

The following section will address existing market conditions within the City including taxation, land use and zoning, and an illustration of competitive market sites.

Property Tax Comparison

Utah's municipal tax rate setting process is designed to achieve budget neutrality. An entity's prior year budgeted revenue serves as the baseline for current year certified tax rate calculations. According to the Utah State Tax Commission:

The county assessor and State Tax Commission provide valuation information to the county auditor, including changes in value resulting from reappraisal, new growth, factoring and legislative adjustments. The State Tax Commission and the county auditor calculate certified tax rates and the county auditor provides taxing entities with valuation and certified tax rate information.

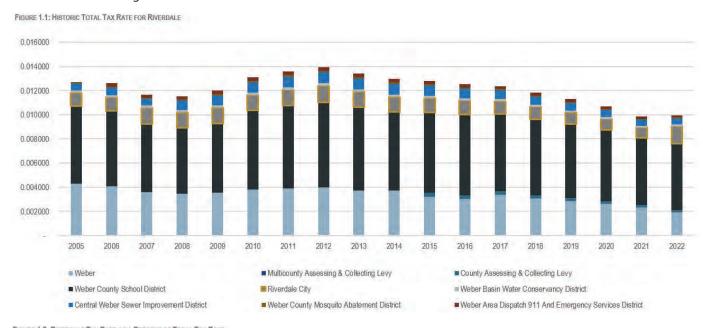

The certified tax rate provides a taxing entity with the same amount of property tax revenue it received in the previous tax year plus any revenue generated by additional growth in its taxable value. When this information is received, taxing entities compute and adopt proposed tax rates. If an entity is proposing a property tax revenue increase, it may only adopt a tentative or proposed tax rate. The exact requirements to increase property tax revenue vary depending on whether the entity is a calendar year or a fiscal year entity. These procedures are discussed in more detail in Standard 10.9 "Truth in Taxation" [propertytax.utah. gov/standards/standard10.pdf].

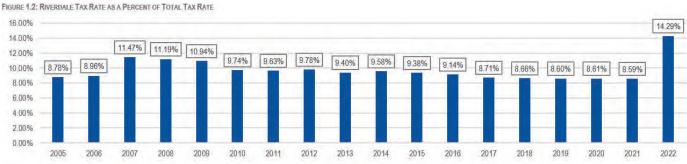

In order to adopt a tax rate that exceeds the Certified Tax Rate, an entity must go through what is known as the "Truth-in-Taxation" process. Truth-in-Taxation statutes require that entities proposing a tax increase must advertise the increase and hold a public hearing. The Certified Tax Rate or the proposed rate, if adopted, is applied to all taxable value within the boundaries of the taxing entity. For a historic overview of Utah's property tax system see: [propertytax. utah.gov/media/historic-overview.pdf].

	2021 POPULATION ²	RANK	2022 TAX RATE	RANK	2021	2020	2019	2018	2017	2016	2015	2014	2013	2012	2011

The Riverdale tax rate is made up of levies by Weber County, Multi-county Assessing and Collecting Levy, County Assessing and Collecting Levy, Weber County School District, Riverdale City, Weber Basin Water Conservancy District, and Central Weber Sewer Improvement District [propertytax.utah.gov/rates/area-rates/], Weber County Mosquito Abatement District, and Weber Area Dispatch 911 and Emergency Services District. As shown in Figure 1.1, the Weber County School District has historically, on average, accounted for approximately 51.49% of the total tax rate. The Riverdale City municipal tax rate as a percent of the total tax rate has fluctuated historically between 8.59% and 14.29% as shown in Figure 1.2.

Land Use Analysis

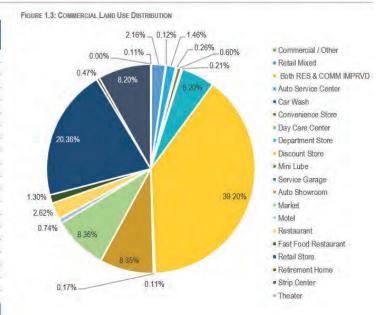

Utilizing Weber County GIS data, the distribution of existing land uses in the City is determined in Table 1.2 and the City Zoning Map, with 50% of the building square footage attributed to single family residential property types and 33% attributed to commercial. According to Weber County GIS data, 143.07 acres are vacant. Table 1.3 further illustrates the distribution of building square footage for commercial properties.

TABLE 1.2: LAND USE SUMMARY

Competitive Market Sites

Figure 1.5 illustrates competitive market sites within and surrounding Riverdale to visualize concentration of development that has contributed to the sales leakage the community is experiencing. These locations include neighborhood scale retail, entertainment centers, and regional retail concentrated along I-15 in adjacent communities.

FIGURE 1.5: COMPETITIVE MARKET SITES

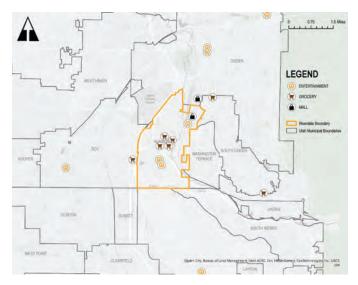

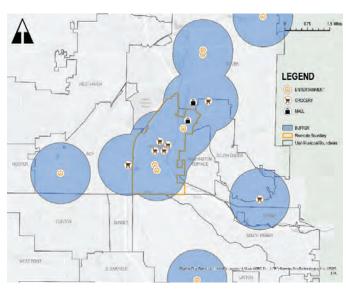

Figure 1.6 includes a one-mile buffer of the competitive market sites and illustrates limited growth potential within and surrounding the City.

FIGURE 1.6: BUFFER OF COMPETITIVE MARKET SITES

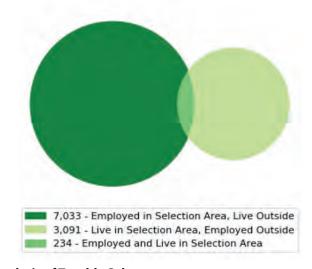

Existing Employment

Table 1.4 illustrates the distribution of employees within and outside of the City. US Census On the Map data for 2019 illustrates 234 residents both live and are employed within the City, while 7,033 of those who work in Riverdale live elsewhere and 3,091 residents of the City are employed outside of the City. As discussed in subsequent sections, the City is expecting increased trip generation and traffic impacts due to the City expecting roughly 5,000 new employees at the planned American First Credit Union ("AFCU") campus upon completion of construction.

Analysis of Taxable Sales

Taxable sales within Riverdale provide an important metric to assess the general economic health of the City. A sales gap (or "leakage") analysis is used to identify economic development opportunities for a community by evaluating the total purchases made by residents inside and outside the community (hence, the term "leakage" for sales lost outside the community).

This type of analysis first identifies sales within the State of Utah for each major NAICS code category and then calculates the average sales per capita in each NAICS category. Per capita sales in the City are compared to average per capita sales statewide in order to estimate what portion of resident purchases are being made within City boundaries, and what amount is leaving the City. The resident purchases being made outside of the City represent an opportunity to recapture some of these lost sales. The analysis divides taxable sales into three major categories: retail sales, industry sales and sales related to services.

Historic Taxable Sales

Total taxable sales for the City increased by an average of 5.9% from 2010 through 2021. A comparison of tax data for similarly sized cities (relative to population) shows a positive trend in taxable sales growth for all communities (see Table 1.6). Five communities have experienced double digit increases.

Riverdale's taxable sales per capita ranks first out of the 8 communities as well as first out of 10 when including Weber County and the State of Utah.

Retail Taxable Sales

Riverdale's greatest retail strength is the General Merchandise category, accounting for 23.5% of total retail and service taxable sales in 2021, followed by Motor Vehicle and Parts Dealers, Building Material and Garden Equipment, and Sporting Goods.

Services Taxable Sales

Real Estate, Rental, and Leasing represent the largest spending category in Services at 8.1% of total retail and service taxable sales and closely followed by Food Services and Drinking Places at 7.7%.

Industry Taxable Sales

Information sales represent the largest spending category in 2021.

Sales Leakage Analysis

The table below provides a general overview of leakage and retention by major category. Negative numbers estimate the approximate leakage of taxable sales from Riverdale to other communities. When leakage is occurring, the capture rate is below 100%, indicating the City is not collecting the average sales expected based on a per capita basis relative to the State average. Positive numbers indicate that Riverdale City is attracting more than the State average relative to that category, suggesting shoppers from outside the City are attracted to the area for certain types of purchases or that there is a high concentration of this type of spending. This is reflected in the capture rate as a number above 100%.

The City's capture rate exceeds 100% in all major categories, indicating Riverdale City is attracting more than the State average relative to each category. The per capita spending in Riverdale is approximately \$121,292, compared to the State per capita spending of \$22,709. The total taxable sales leaking to other communities is estimated at \$914,754,199.

A comparison of communities of similar size and those larger than Riverdale shows capture rates in a similar range. Of the comparable cities, South Salt Lake has the next highest capture rate following Riverdale, due to the concentration of commercial relative to population.

Factors that will influence a community's capture rate include total population, proximity to major freeways or roadways, population within a 360-degree trade area, geographic isolation, and competitive market sites. These factors will be explored further in the market analysis.

Sales Tax Revenue Sustainability

The City currently assesses a 0.20% local option sales tax as a hold-harmless allocation relative to historic sales tax policy changes. This hold-harmless is set to expire in 2030. In 2020, the City evaluated the sustainability of revenues and expenditures within the general fund relative to the loss of tax revenues. The analysis illustrated that the general fund would not be able to sustain the potential revenue losses in 2030. In addition, increases in general fund expenditures and needed capital projects will deplete revenues and fund balances, resulting in a deficit. Based on these trends, the City should continually evaluate the City's general fund and enterprise funds to assess revenue sustainability. In addition, the City should evaluate available funding resources to achieve economic goals.

Element

General Growth within the City and Region

The City's population is projected to continue to increase through 2050, reaching approximately 18,569 persons according to WFRC TAZ data. Table 1.13 displays regional population projections.

Employment is also expected to increase in Riverdale. For instance, American First Credit Union ("AFCU") is developing its Corporate Campus for 5,000 new employees in Riverdale, Utah shown in Figure 1.10. As a result, the City is expecting increased trip generation and traffic impacts and is exploring including mixed use residential and commercial development on-site.

Supportable Commercial Zoning

To determine the supportable commercial zoning within Riverdale, this analysis evaluates future taxable sales growth, per capita spending by sector, and general commercial zoning ratios. Using two different methodologies, this analysis provides an estimate of supportable acreage by the following categories: general retail, industry, services, and total commercial acreage.

The first methodology employed in this analysis utilizes estimated per capita spending of \$121,292 in Riverdale. Assuming a new population of 7,725 residents within the City as indicated by WFRC's TAZ projections, the total supportable commercial zoning is estimated at approximately 711.08 acres. This assumes a median sales volume of \$275 per square foot of gross leasable area (GLA) and a floor area ratio (FAR) of 0.11. The sales volume per square foot was estimated using the 2021 taxable sales divided by the 2021 commercial building square footage.

Employing an alternative methodology produces higher supportable acreage. Within similarly sized communities, an average of 0.025 acres per capita can be found. However, this average includes a low of 0.010 in Highland and a high of 4.0 in North Ogden. Some communities have a much higher sales capture rate, resulting in higher commercial acreages. Using the average of 0.025 acres per capita, the total supportable acreage is estimated at 84.3 acres, based on new population growth (0.025 multiplied by 3,373 persons), which is higher than the supportable acreage based on per capita spending.

It is likely that commercial growth will develop around existing neighborhood scale retail, which provides personal services, food services, gas and lodging and general retail purchases. It is expected that the area will continue to see development in small scale office development as well, as shown in the comparison of average retail development requirements in Table 1.17. With a population estimated to grow to just under 20,000 residents by 2050 and competition from neighboring communities, expansion will be limited to neighborhood scale developments.

ABLE 1.15: SUPPORTABLE COMMERCIAL ZONING BASED ON PER CAPITA SPENDING

Super Regional	Three or more full-line department stores	1,000.000	600,000 - 2,000,000	15 - 100 or more	300,000 or more

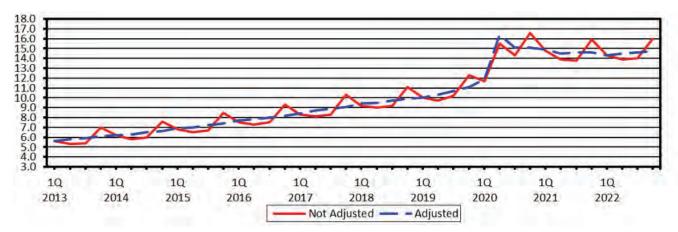

There are limited competitive market sites within and surrounding Riverdale, which has contributed to higher sales capture rates the City is experiencing. Retail sales are shifting from brick-and-mortar stores to more online sales. The US Census Bureau's estimate of retail e-commerce sales as percent of total quarterly retail sales continues to rise, increasing from nearly four percent in 2009 to over 14% in 2022 [www.census.gov/retail/mrts/www/data/pdf/ec_current.pdf]. The aftermath of the 2020 global pandemic has also resulted in a pattern of increased online sales. The City should continue to evaluate sales leakage data and develop proactive polices to maintain the concentration of taxable sales within the City.

It is important to note that with increased population and development there will be an increase in public safety and other government service expenses.

Developer's Agreement

Cities may enter into a development agreement to promote policies and objectives regarding supportable commercial zoning. Riverdale City adopted Resolution No. 2007-6 in 2007, which entered the City into a Developer's Agreement with Unity Enterprises, LLC for the development of 69 acres of land at 5100 South Weber River Drive.

FIGURE 1.12: ESTIMATED QUARTERLY U.S. RETAIL E-COMMERCE SALES AS A % OF TOTAL QUARTERLY RETAIL SALES: 1ST QUARTER 2013 – 4TH QUARTER 2022

Official retail sales numbers by the Census Bureau show a steady growth in sales from non-store retailers like Amazon, eBay, QVC and Alibaba. This will likely result in a continued shift from location-based retail to online purchases. Lower population growth and/or continued sales leakage within Riverdale will limit the ability to expand commercial acreage within the community. However, if the City allows for greater densities, resulting in an increase in buying power and capture rates, the area could see higher levels of commercial development. Methods to promote increased commercial development include:

- Allow for more residential development and population growth;
- Provide development incentives;
- Promote niche markets that will capture sales from surrounding communities;
- Remove barriers to entry; and,
- Promote other types of commercial development (industrial, tech, office, etc.).

In 2022, Bach Land and Development, LLC, purchased the property, resulting in amending the original resolution to update the parties of the Developer's Agreement accordingly and to extend the term of the Agreement for an additional fifteen years. The intent of Agreement is to develop a mixed use project on the property that consists of residential, neighborhood retail, commercial, office, and open space that advances the long-term objectives and goals of the City's General Plan and zoning regulations. The City will continue to support development of the site and continue to pursue opportunities to enter development agreements.

Commercial Zones

Figure 1.13 includes the commercial zones that have been identified in the City's overall land use map. The primary location for economic growth is within the City's existing commercial zones (C-2 and C-3). Of the City's 143.07 vacant acres, vacant commercial represents roughly 40% of all vacant acreage.

While these areas provide opportunities for the consideration of commercial expansion, the City should evaluate the costs and benefits of any proposed commercial developments related to their specific project elements. Concentrating commercial development in the designated areas will help maintain the City's small-town identity while offering areas with mixed use vibrancy.

FIGURE 1.13: RIVERDALE GENERAL PLAN LAND USE MAP

For the City's land use map see page 11.

Barriers to Entry

Some commercial development may be impacted by factors that serve as barriers toward unconstrained commercial growth within the community. These barriers may include City ordinances, development costs, or geographic challenges. Future commercial development in Riverdale may be hindered by these types of barriers. The following paragraphs discuss some of the barriers to entry that may exist within the City.

Land Availability

The City is primarily built-out. As discussed in this report, there are development and redevelopment opportunities related to the AFCU expansion and developer agreements. However, additional expansion beyond these areas will be limited. The City will continue to focus on redevelopment opportunities, infrastructure reinvestment, and business retention.

Land Cost

A barrier to entry may be the cost of land. A comparison of the total market value of land utilizing Weber County GIS data illustrates the land value disparity among comparison cities. Within Riverdale, the land market value is approximately \$207,241 per acre, which is ranks fourth among comparison cities. The data may be impacted by higher ratios of undevelopable, exempt, government, forest or other lower valued lands that are not as prevalent within a City.

Additional Economic Development Financing Tools

There are a wide variety of tools and incentives available to help achieve economic development goals. Below is a brief description of several resources available to the City.

- Redevelopment Areas Tax Increment Financing Tax increment financing ("TIF") is the most widely used tool for economic development in the State of Utah. The creation of CRAs, or historically URA, EDA or CDAs, provides a source of financing redevelopment through the creation of tax increment. Redevelopment agencies negotiate with taxing entities to share a portion of the property tax that is generated by new development in a certain area for a specific length of time. The City has one project area that offers TIF. The 550 West Redevelopment Project Area in 2021 built three retail buildings and has plans to develop 30 multi-family units in the area. The collection period end date is January 1, 2023, and this RDA Area has received \$4,242,119 in funds since its collection period start on January 1, 2009.
- Tax Increment Revenue Bonds Tax Increment
 Revenue Bonds allow redevelopment agencies to
 pledge tax increment funds to repay the debt service.
 The projected tax increment is often discounted by
 the bond market, as the tax increment is the only
 source to repay the bonds, and project areas have little
 to no tax increment at the beginning of a new project.
 These bonds are generally more difficult to sell, due to
 the risk of repayment.

Спу	TOTAL LAND MARKET VALUE	LAND VALUE PER ACRE	VALUE PER ACRE RANK
South Ogden	\$812,274,763	\$405,092	
	\$1,409,832,949	\$331,691	2
Ogden	\$3,540,357,882	\$246,140	3
Riverdale	\$1,237,185,257	\$207,241	4
	\$468,988,163	\$209,558	5
Pleasant View	\$689,363,406	\$174,688	6

Location

The City is located along the densely developed I-15 corridor, surrounded by communities with economic interests of their own. While proximity to a regional transportation network allows communities to attract larger developments like distribution centers or industrial centers, which in turn stimulate job growth and spending, the proximity to communities with larger areas of developable properties and continued growth in rooftops increases the potential for sales leakage.

Revolving Loan Funds and Grants – A revolving loan fund is a source of money from which loans are made for small business development projects.
 A loan is made to a business and as repayments are made, funds become available for future loans to other businesses. This tool is mainly used to finance local, expanding, or small businesses within the community. The funds used to create a revolving loan fund may have rules governing the program design. For example, the Department of Housing and Urban Development has specified rules for Community Development Block Grants.

Matching grants or revolving loan funds have been very successful in various communities throughout Utah. Dilapidated areas within the City may benefit from creating a revolving loan fund that would encourage the upgrade of facades and other building renovations. Most businesses see increased traffic from improvements to their properties.

Community Development Block Grants –
 Community Development Block Grants can be used
 for development in parts of the community that
 qualify as low- and moderate-income areas. These
 funds may also be used for projects that remove
 impediments of access for elderly and the disabled.

- **Business Improvement Districts –** A business improvement district (BID) is a public-private partnership that allows for additional taxes to be collected from businesses within a designated area. The taxes generated by a BID are used for public improvements based on the concept that wellmaintained public spaces will increase commerce. BIDs are managed by nonprofit corporations created by the district. BIDs allow businesses to share the costs to increase business activity within the community through joint ventures including 1) joint marketing, 2) ad campaigns, 3) events in the district area, and 4) planning for parking and facility improvements. The City may contribute through facilitation of meetings at municipal buildings, advertising on municipal websites, etc.
- Sales Tax Incentives For strong destination retail anchors, the City may offer a sales tax incentive for a period of time. The City should consider sales tax incentives on a case-by-case basis. This should only be considered for a major tax-generating retailer or to retain a current major tax-generating business.

Special Assessment Bonds – Special Assessment
Bonds allow a governmental entity to designate
a specific area which will be benefited by public
improvements and levy a special assessment, like
a tax lien, to finance the public improvements. This
assessment is then used to repay the debt service.
Usually, only the property owners receiving the
benefit from the improvements are assessed the costs.

Special Assessment Bonds may not be created if 50% or more of those liable for the assessment payment protest its creation. These bonds usually have a higher interest rate than the other bonds discussed in this section. All improvements must be owned by the issuer and repayment cannot exceed twenty years. The main advantage to these bonds is: 1) no bond election required, 2) only benefited owners pay for the improvements, and 3) limited risk to the City.

- Municipal Building Authority Lease Revenue Bonds ("MBA") – Cities, counties, and school districts are allowed to create a non-profit organization solely for the purpose of accomplishing the purpose of acquiring, constructing, improving, and financing the cost of a project on behalf of a public body that created it. Normally, MBA bonds are used to construct municipal buildings, however MBA bonds have been used to finance parks and recreation facilities as well. The legal limitation on MBA bonds issued is 40 years.
- Sales Tax Revenue Bonds Sales tax revenues can be utilized as a sole pledge for the repayment of debt. These bonds do not require a bond election and are often used for the acquisition and construction of any capital facility owned by the issuing entity. The bond market usually requires a higher debt service ratio of at least two or three times the revenue to debt.

Implementation

- Provide for the Long-Term Economic Health of the City Through Continued Support of the City's Commercial and Employment Base
 - Maintain a proactive business retention program that addresses issues affecting all business sectors by:
 - Maintaining close links with corporate leaders to monitor business conditions and identify issues in which the City may be of assistance.
 - Conduct regular meetings with major employers to discuss current operations and to provide information on City services.
 - Work with existing businesses to identify challenges to changing retail trends including vacancy rates, assistance with online retailing, etc. that can be addressed through the City's planning and zoning process.
 - Focus available incentives and business assistance services on retaining firms in industries that provide high-quality employment, living wages and strong career advancement opportunities, as well as strong tax revenues.
 - Promote the establishment and expansion of workplace alternatives, including home occupations and telecommuting.
 - Evaluate opportunities for City involvement in public/private partnerships, redevelopment initiatives, and public improvement investment initiatives as a means of revitalizing selected areas.
 - Regularly evaluate land use regulations and other development controls to remove barriers related to economic development and sustainability, and address enhancements that will accommodate shortened timelines for business operations.
 - Maximize the use of developable and redevelopment land for employment-generating and revenue-generating uses.
 - Regularly evaluate and update economic development strategic plans to ensure strategies and policies remain relevant and the City adapts to changing environments.

2. Promote Infrastructure Reinvestment

- Continue to seek opportunities to support upgrades to the City's utility and infrastructure systems to support new business opportunities.
- Study areas that are underserved or impacted by aging infrastructure and prioritize future capital investments as appropriate to assist in attracting and/or maintaining businesses activity.
- Establish financing mechanisms to help fund infrastructure enhancements, pedestrian amenities, landscaping, and to leverage future redevelopment.
- 3. Evaluate the Long-Term Impacts of Revenue Sustainability Relative to Sales Taxes, Property Taxes and Other Municipal Revenues
 - Continually evaluate the City's general fund and enterprise funds to assess revenue sustainability.
 - Continually evaluate available funding resources to achieve economic goals.

09 PUBLIC ENGAGEMENT

"More community areas. Such as community gardens, pickleball courts, or things that aid in building a sense of community!"

- SURVEY PARTICIPANT

Introduction

Several key Riverdale stakeholders were individually interviewed from late August through September 2022. Individuals with a variety of backgrounds were selected, ranging from residents and property owners, to community leaders and City officials. Three public open houses were held at the following locations:

- 4334 South Parker Drive, on September 26, 2022
- 4360 South Parker Drive, on October 29, 2022
- 4360 South Parker Drive, on May 17, 2023

Social media and an interactive website were utilized to advertise events, offer outlets to give feedback, and allow residents the opportunity to share their vision for the City. These outlets gave individuals the opportunity to voice their opinions in person and digitally.

Everyone was asked to share their ideas, goals, concerns, opportunities, constraints, and vision for the future of the city. The following is a summary of the main ideas expressed during the outreach process:

Opportunities

- The River running through the city
- Trail network along river
- 40 acres of city-owned vacant land to be a regional park and/or recreation center? Safe space for watching fireworks, a community gathering space for City Days
- Another 70 acres private land nearby in process of being developed as housing
- Pieces all along the river. Another 17 acres (Cityowned) by Walmart along river, 4th spoke of roundabout to access it
- 2nd bridge to other side of Riverdale
- Aging trailer parks ready to turn over
- Turnover of business usage, trailer park re-zoned to higher density
- Design standards
- Infill development what do we do with stuff that's already there?
- What opportunities do we have on the agricultural land?
- Open space around the Ross
- Pink Door Storage Maybe opportunity for park at Parker Drive. \$ ac available north of storage sheds. Maybe a boundary adjustment with Ogden would work?
- Hillside by City Center (damaged from landslide), needs to be protected
- City owns 6 acres beside the base, its landlocked but maybe would be good buffer/ mountain biking area?

September Public Open House

- America First Credit Union campus with 5,000~ employees coming, full trail system to go in. They have 4 acres they don't know what to do with.
- · Motel 6 in the way of interchange
- Trails along canals are often viable, not too dangerous despite public perception.
- Full interchange discussion with UDOT
- Frontrunner shuttle, freeway accesses, commercial retail around the motel 6 area, distribution center to the east of that.
- Transitional housing near commercial
- Rohmer Park (by Terrace, behind Sam's Club) to left of it 70 acres 900 units. Can we tie Riverdale to the Terrace? Span the RR tracks. We should at least put it on the plan
- Property along river to create a riverwalk type development
- Protect Golf Course
- Motor Vu to develop to housing
- River water feature, fish pond in 70 acre development and irrigation water for residents
- Aerospace Museum to be redeveloped within 5 years, it is part of Riverdale

Constraints:

- River, rail + topography
- Existing development and lack of open space
- Area around south Weber need understating of covenants in place
- Utilities storm drainage, tends to surcharge. Might be collapsed somewhere under rail line, and hard to work with railroad. Water usage an issue!
- Peacock Ridge landlocks the city property (thin piece by Hill Air force Base) – Needs to be conserved.
- Hill side isn't stable what can we do to fix that area

- multiple hill slides (what can we do to stop it) swamps and springs track vibrating revegetation (slide is by the disc golf course) No new development should go on the hillside. The train tracks, springs, tornado devegetation, all contribute to unstable soils there
- Previous general plan had mistake of keeping area planned as residential that should have been commercial. We need to not shy away from making sure land use plans / zoning reflect the future vision of the City.
- Moderate-income housing requirements by the State

Vision

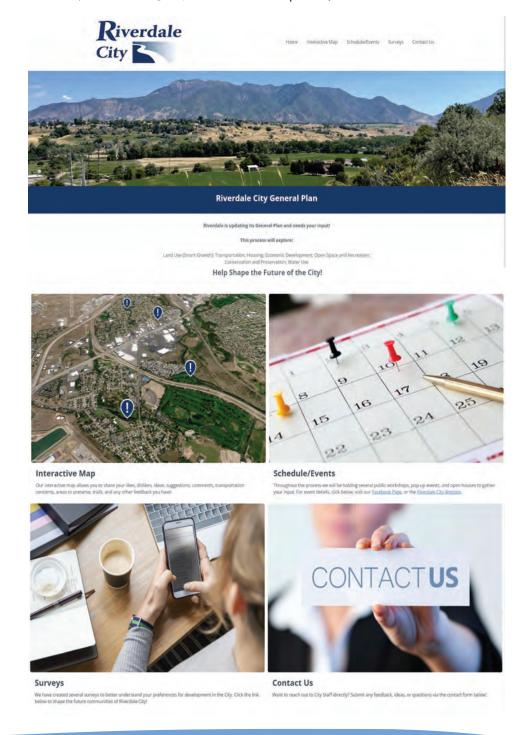

- · Protect residents from retail
- · Keep Riverdale a wonderful place to live
- Safe, development that will last
- · Maintain views / hillside is secure and safe and open
- Things fit, keep commercial in commercial area + keep residential in place, don't encroach
- · Buffer land uses
- High-quality infill to protect moderate-income housing
- Provide places to live for big employers
- · River maintenance and enhancement
- Regional Park Development General Open Space (preservation) + Pickleball courts
- Transportation: Riverdale Road unsafe (crash analysis needed). Approach UDOT for traffic signal studies
- Open to Roundabouts!

Sites of Interest (Transportation)

 1050 west, 1500 west, Riverdale Rd, 4400 south, 700 west, 300 west, 900 west

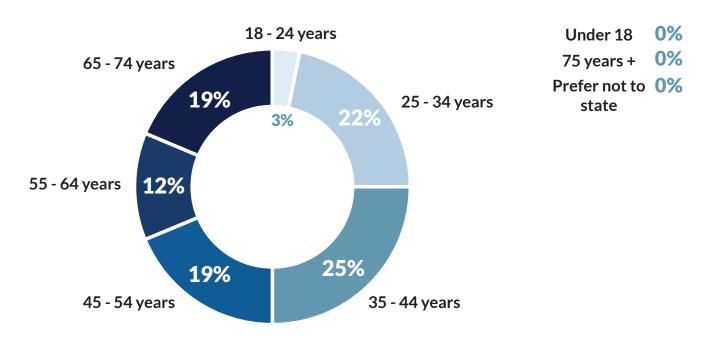

Interactive Website

During the process, the interactive website was able to keep residents and stakeholders engaged through educational segments, an interactive map, surveys, discussion groups, and other methods. The surveys, discussion groups, and interactive map allowed residents to leave feedback on development design, open space and amenities, general vision, downtown location, preservation areas, transportation, land use, and other ideas, suggestions, and comments. Between September 1 and March 1 the website received nearly 2,500 visits, with over 500 comments, survey responses, and discussion actions.

Overview Survey

What is your age group?

Are you a resident or property owner of Riverdale City?

97% Yes

3% No

What do you LOVE most about Riverdale City? Looking 20 years into the future, what should NOT change?

Everything is here. No more apartments.

How close it is to shopping

I like that it's a small community, yet you have access to almost every store you could possibly need

I like that we have most types of stores, decent parks, and it isn't insanely crowded... yet.

I like the proximity to commercial properties while still having relatively quiet communities.

I love how accessible riverdale is to everything.

I love the river and the mountain views and the trail. I'm worried that future development will ruin the experience around the trail. I don't want another bridge (for cars) across the river.

I love the river parkway trail. I love that it is paved and clear in the winter so that it can be used all year round.

It still has a small town feel. I know my neighbors and my street is fairly quiet. I am not a fan of all the apartment complexes that are beginning to infiltrate our surrounding communities.!

Love being close to all the shopping. Love sidewalks for walking the dog, the riverside path, and all the parks. Utilities are really cheap, police seem very quick with response time.

Lower taxes

Neighborhoods being safe and the river parkway

No apartment buildings. No houses closer to each other and less yard No more bus routs.

No more residences No more homes No more apartments No more condos

Open/green spaces. Preserve natural beauty of city and river walk.

Parkway/trail system

Population

Quiet, close to everything but still homey.

Riverdale is a well know area, and the main retail hub of Northern Utah. There are a lot of amazing things that Riverdale provides to all neighboring cities and I would love to see it grow and be used to its full potential, while still highlighting all of the natural elements that we have been blessed to have so close to our homes and shopping centers.

Small town feel. Community. Our community center is amazing.

The amount of businesses, we have enough.

The community feel and crime rate

The community feel of Riverdale-keep the July 4th parade & park activities

The family atmosphere of Riverdale is what makes it great.

The river parkway

The river path of course, the separation of the residents and the storefronts

THE RIVER WALKWAY, please preserve and prioritize maintaining the trails. It's a great way to connect with nature without driving up to the mountains. I like the accessibility to the freeway and stores while still feeling like a safe suburb where I can let me kids play in the neighborhood.

The "small town" feel. Keeping zoning the way it is, and NOT building those massive apartment buildings that are going up everywhere else.

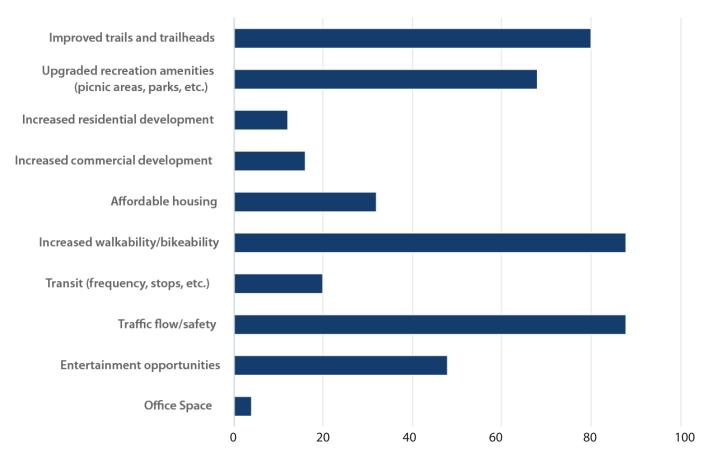

The view of the mountains.

Walking path at Riverdale Park.

Wide streets, no buses in other streets, parks, parks, wonderful police offices, Mayor willing to listen to all, civility, kindness, no apartment buildings.

What improvements or enhancements would you like for Riverdale City? (Select all that apply)

Other Improvements:

A website that has info about things other than this plan. I just wanted to know when soccer sign up would be.

Congested business areas. Traffic in certain areas is getting dangerous. Dance studio on 5175 S needs to be relocated.

Traffic is dangerous due to not enough parking to accommodate. I've almost been hit several times.

Decrease the population.

Hire more police officers

I'd like to see more affordable residential development than commercial development.

Updated playground (toddler area and elementary age area) at the Golden spike park would be fantastic and greatly appreciated. I would use this park more, but the playground isn't well suited for my kids ages.

I would like to see the trail by the river be more family friendly. Better officer patrolled and maintained.

Just continue to monitor homes, and be friendly with neighbors. We need to support each other and make sure our children are safe at home, with a neighbor and when they out playing. We shouldn't let them be out past certain time.

More community areas. Such as community gardens, pickle ball courts, or things that aid in building a sense of community!

More family friendly city events

More traffic improvements on Riverdale Road. Make it so people can only turn right onto RR from businesses, replace flashing yellow arrows with protected green arrow turns at intersections, lengthen turn lanes, add a stop light on the road between Target and JoAnn so it's easier to turn left or go across from the businesses. I hate driving RR and almost every time I do someone almost gets an accident by doing something dumb. Make it so drivers don't have the option to be dumb.

No more residential growth, some commercial entertainment would be nice, but no more car dealerships

No more things. We have enough neighbor cities.

Pickleball courts would be nice

Protected left turns.

Riverdale has no homeless services although we do have a homeless population. What can be done to provide assistance and dignity to this vulnerable population?

Some sort of night life/entertainment. Less chains/more local food spots. Stop raising property taxes. Traffic flow and traffic safety can mean two really different things. We could do some small & simple things to make it safer to walk and bike through the city, even if we can't do anything about Riverdale Road. Also we should think about encouraging redevelopment of blighted areas if we need more development or housing.

Try to keep up with road repairs when will more police officers be hired?

Upgrade mobile home lots to better long-term high density housing, such as townhomes (with adequate parking)

Overall, what is the most important issue or opportunity you would like to see Riverdale City address during this General Plan update?

Crime and the way affordable housing and apartments effect it.

Ensure new developments always have adequate parking

Farmer's market ideas

Get the vacant business buildings occupied

Housing affordability, development of easier access to weber river trail for the neighborhoods over by the old drive in theater, maybe a round-a-bout put in at that 5 point intersection as well if more housing developments are put on this side of Riverdale.

I enjoy the shopping environment by Target and Sam's Club area, but once I enter Walmart's parking lot, I don't feel safe at all. I don't enjoy being stalked for money as I go to my car. It's really a totally different world from one side of the street to the other.

Improve traffic flow and safety on Riverdale Road.

I'm worried that the state legislature is going to take away zoning & land use from cities. Growth is going to happen. Let's accept it and plan for it on our terms instead of theirs.

Increase walkability, increase green recreational space. Incentavise remodeling and redevelopment of old and blighted commercial properties over New developments.

The riverdale road area is a full and busy commercial area with many low income, service jobs, but no low income housing in the area. If Leslie's trailer park is closed, redevelo the area into convenient, well maintained low income housing for the service workers of the commercial area.

Infrastructure for an increasing population. Clean up some areas by the river not necessarily for use but to enhance the appearance.

It would be nice to have some closer pool area for exercise rather than having to go to Roy or Ogden.

I would love to see all of the vacant strip malls or shopping centers filled before building or adding more to the area. A lot of money and valuable material has gone into these building and to see them sit vacant is heart breaking.

Keeping Riverdale City a family friendly community - not adding more businesses which cause a drain on the city in the way of traffic control, crime, etc.

Keeping the friendly, livable appeal of the city and keeping it safe.

Lack of entertainment options both free (ie parks) and paid (ie waterparks/fun centers)

Limit feeds from side roads onto main roads except at traffic signals. No giant soccer complexes or fields please.

More trees in the park. The ones that fell were a big loss.

Neighborhood noise and dogs

Preserving natural spaces.

"Progress" isn't always good. Maintain slow, methodical changes as needed.

Riverdale should not change specially the care from the police department. They seem that they don't want/can't prevent, line they use to. Fixing it's a lot harder than preventing.

As safety, prevention, not just act until something happens. No growth or it will be difficult to stay manageable We like just the way it is. Please no building apartments.

Single housing only. No to apartments and townhomes that overcrowd our small communities. I am guessing affordable housing means apartment complexes. Single family dwellings would be desirable however.

Skate park and pickleball courts and, preserving the parkway and river trails.

Try to spend less money on superficial items

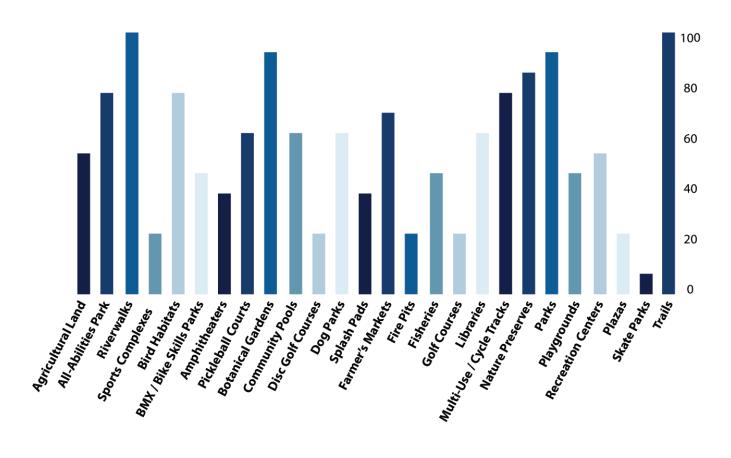

Water conservation and landscaping plans

Water usage and conservation

Amenities Survey

Select ALL the OPEN SPACE / RECREATION amenities you would like to see or preserve in your community:

Other amenity ideas:

Maintain what we have and not spend money on something new

More nature and access to the trails please!!

Outdoor exercise. No more buildings.

We don't need a downtown or farmers markets or things that are already close by. And we don't need a downtown. Let Ogden be downtown.

Open House #1

The following feedback was gathered from direct engagement with Riverdale City residents at a public open house, held September 26th, 2022:

LAND USE

- · Trader Joe's / Food Options
- Affordable Housing
- More Houses
- Make Lions Park a Dog Park
- Buy house property for parking. Park is by roundabout on 4400 S & Parker Drive
- We need a Pottery Barn kids:)
- Event / Music Venue
- Walkable / mixed use
- City land separated from School grounds. Keep our kids safe:)
- Keep commercial land commercial
- Emergency room / Clinic
- Trader Joe's!
- Less fast food. More activity:)
- I love Riverdale. I live on 4400 S. I love our tree-lined streets, even though those trees cause bumps in the sidewalk
- Restaurant
- Give this section to Washington Terrace, its really confusing!
- Bridge connecting Riverdale Road to Washington Terrace to alleviate WT Traffic
- I like private property rights. Less central planning from the City. Lower taxes, no new amenities.

DOWNTOWN

- Existing: Most Dots along Riverdale Road between 1050 W and 700 W
- Proposed: Split between the River and Riverdale Road between 1050 W and 700 W

TRANSPORTATION

- Fiber to home (+ 4 votes)
- Right hand turn lanes Beans & Brews, jack in the Box
- 4400 S + 700 W, dangerous roundabout
- Residential and shopping trolley loop
- More street lights on 4400 & safer crosswalks
- I hate rush hour
- I hate rush hour in Riverdale
- Left turn lane at gas station
- · Open, green trails
- Bike trails connecting Weber River Trail and Rio Grande Trail
- Community Garden in front of Crabtree Auto
- Bottom of River Drive roundabout, Trim thins (plants) back so people can see
- Trail connection to Washington Terrace
- More security around the Elementary School
- New Elementary School! (+ 3 votes)

Open House #1 (Continued)

OPEN SPACE

- More streetlights, streets are pitch black
- Keep disc golf
- New fence, preserve rec center
- Preserve green space
- Clean up riverwalk trail. Wife felt it was unsafe to be alone. Add mild lighting?
- Keep natural feel here Yes!
- Crosswalk on 1050 W & Ritter
- Youth football field, not with Washington terrace
- Dirt bike trail by city offices

AMENITIES

- Agricultural land: 1
- All-abilities Parks: 13
- Riverwalks: 17
- Kayaks: 2
- Bird Habitats: 3
- Amphitheaters: 6
- Botanical Gardens: 5
- Disc Golf Courses: 4
- Community Garden: 1
- Splash pad: 16
- Sports field complexes: 4 + 1 no
- Bike Parks: 11
- Pump track: 2
- Pickleball courts: 8
- Community Pool: 29
- Rec Center/Gym: 12
- Dog Parks: 4
- Farmer's Markets: 10
- Fire Pits: 8
- Golf Courses: 4 + 4 no
- Multi-use / Cycle Tracks: 10
- Parks: 6
- Skate Parks: 12
- Fisheries: 12
- Libraries: 9
- Nature Preserves: 6
- Playgrounds: 12
- Plazas: 5
- Trails: 11

Open House #2

The following feedback was gathered from direct engagement with Riverdale City residents at a public open house, held October 29th, 2022:

OVERVIEW

- I like the people in Riverdale
- I like Riverdale how it is. Keep it the same
- · Stay same

LAND USE

- · Keep & Maintain the Dirt mounds
- Preserve walking/biking trails
- Incentivize xeriscape for yards + 2 votes
- · Keep stores open, don't have another mass shutdown
- Mixed use
- Townhomes over apartments + 2 votes
- Secondary bridge to alleviate traffic on Riverdale rd.
- Keep agriculture zoning by storage sheds

DOWNTOWN

- Most Dots for existing Downtown: Along Riverdale Road between 1050 W and UPRR.
- Most dots for new Downtown: Around Sam's Club, Walmart, Home Depot

TRANSPORTATION

- No more roundabouts
- · Riverdale Road way too busy Traffic Control
- · Trails Parks Community Center
- · Street Lights on Highland Dr.
- · Faster Traffic make more lights and timing
- Secondary Route that can handle Riverdale Road Traffic
- Paint Curb for no parking on Highland Dr.
- · Main Rd. Shops, Better roads

OPEN SPACE

- · Trail along old rail line
- · Repave trail around Riverdale Park
- Safe Trails Lights? Cameras?

Open House #2 (Continued)

Planning Commission Regular Session, July 25, 2023

Minutes of the **Regular Session** of the Riverdale City **Planning Commission** held Tuesday, July 25, 2023, at 6:30 p.m., at the Civic Center, 4600 S Weber River Drive., Riverdale City, Weber County, Utah.

Present: Commissioners: Kathy Eskelsen, Chair

Kent Anderson, Vice Chair Amy Ann Spiers, Commissioner Rikard Hermann, Commissioner Wanda Ney, Commissioner Celeste Noland, Commissioner Randy Poulsen, Commissioner

City Employees: Michelle Marigoni, City Recorder

Excused: Mike Eggett, Community Development

Visitors: Chris Hupp

Tim Snideman Jim Owens Stage Andersen Sterling Bennian

A. Welcome & Roll Call

The Planning Commission Meeting began at 6:30 p.m. Chair Eskelsen welcomed everyone to the meeting and stated for the record that all members of the Planning Commission were present.

B. Public Comment

Chair Eskelsen asked if any members of the public were present with comments. There were none.

C. Presentations and Reports

D. Consent Items

1. Consideration of Meeting Minutes from June 13, 2023 Work Session, and June 13, 2023 Regular Meeting

Motion: Commissioner Noland moved to approve the minutes from June 13, 2023

Second: Commissioner Poulsen

All in favor, minutes approved.

E. Action Items

1.

 Public hearing to receive and consider comments regarding proposed Riverdale City Comprehensive General Plan update documentation.

Motion: Commissioner Hermann moved to open the public hearing.

Second: Commissioner Spiers

Commissioners Polled:

Commissioner Poulsen: Yes
Commissioner Noland: Yes
Commissioner Hermann: Yes
Commissioner Spiers: Yes
Commissioner Ney: Yes
Commissioner Eskelsen: Yes
Commissioner Anderson: Yes

Unanimous, public hearing opened at 6:36

Public Comment: None

Motion: Commissioner Hermann moved to close the public hearing.

Second: Commissioner Ney

All in favor, public hearing closed at 6:37

b. Consideration to forward a recommendation to the City Council regarding proposed Riverdale City Comprehensive General Plan update documentation.

Chris Hupp with Psomas presented the General Plan document with updates.

Motion: Commissioner Anderson moved to forward a favorable recommendation to City Council regarding proposed Riverdale City Comprehensive General Plan updated document with the addition that the water resources group approves the water conservation portion.

Second: Commissioner Ney

Commissioners Polled:

Commissioner Spiers: Yes
Commissioner Ney: Yes
Commissioner Eskelsen: Yes
Commissioner Anderson: Yes
Commissioner Poulsen: Yes
Commissioner Noland: Yes
Commissioner Hermann: Yes

Motion passes unanimously.

F. Comments

Commissioner Spiers commended Mr. Hupp for the excellent presentation and all the work put into it. Commissioner Poulsen thanked Mr. Hupp for considering Riverdale's unique situation.

Commissioner Ney suggested that, if the City Council tables or denies something for a decision the Planning Commission made, that the information could be relayed back to the Planning Commission so they have some feedback regarding their decisions.

G. Adjournment

As there was no further business to discuss, Commissioner Noland moved to adjourn. This was seconded by Commissioner Spiers. All were in favor and the Planning Commission meeting adjourned at 6:57 p.m.

Date Approved:8/8/2023

RIVERDALE CITY PLANNING COMMISSION PUBLIC HEARING NOTICE

Riverdale City gives notice that on Tuesday, July 25, 2023, at 6:30 p.m., at the Riverdale City Civic Center, 4600 South Weber River Drive, Riverdale, Utah, the Planning Commission will hold a public hearing to receive and consider public comments regarding the following:

Proposed Riverdale City Comprehensive General Plan Update.

The public is invited to review and inspect all information available concerning such proposal(s) at the Riverdale City Offices during the regular office hours, 8:00 a.m. to 5:00 p.m. Monday through Friday. The public or any interested parties may present written or oral testimony to the Riverdale City Planning Commission concerning the proposed action at the aforementioned time and place.

Certificate of Posting

The undersigned, duly appointed City Recorder, does hereby certify that the above notice and agenda was posted within the Riverdale City limits on this 6th day of July, 2023 at the following locations: 1) Riverdale City Hall Noticing Board 2) Riverdale City website at http://www.riverdalecity.com/ 3) the Public Notice Website: http://www.utah.gov/pmn/index.html.

Michelle Marigoni Riverdale City Recorder

RIVERDALE CITY CITY COUNCIL AGENDA October 3, 2023

AGENDA ITEM: G7

SUBJECT: Discussion and action regarding potential noise issue at Shake Shack as it

pertains to Riverdale City Code Title 4, Chapter 8: Noise Abatement.

PRESENTER: Steve Brooks, City Administrator/Attorney

INFORMATION: a. RCC Title 4, Chapter 8: Noise Abatement

BACK TO AGENDA

CHAPTER 8

NOISE ABATEMENT

SECTION:

4-8-1: Purpose And Scope

4-8-2: Definitions

4-8-3: Prohibited Acts

4-8-4: Exemptions

4-8-5: Responsibility Of Owners Of Premises

4-8-6: Violations And Penalties

4-8-1: PURPOSE AND SCOPE:

A. The purpose and scope of this chapter is to prohibit noise and/or sounds which disrupt the peace and harmony of Riverdale City and to protect the physical, mental and social well being of the residents of Riverdale by prohibiting such noise and/or sound.

- B. This chapter aims to ensure that public health, safety and welfare shall not be abridged by the making and creating of public nuisances from disturbing, excessive or offensive noises in Riverdale City. The residents of Riverdale recognize that the community is entitled to live in an environment in which the level of noise is minimized for the community good.
- C. This chapter applies to all persons, property, animals, equipment, appliances, instruments and other sound emitting devices, as regulated herein.
- D. The provisions of this chapter are not intended to interfere with, abrogate or annul other rules, regulations or ordinances, including this code or Utah code. If more stringent requirements concerning noise abatement are contained in the other rules, regulations or ordinances, the more stringent regulation shall apply. (Ord. 740, 8-4-2009)

4-8-2: DEFINITIONS:

For the purpose of this chapter, the following words, terms and phrases shall have the meanings indicated herein:

CITY: The city of Riverdale.

NOISE: Any sound emitted by a person, an appliance, equipment, an instrument, other device or animal.

NOISE DISTURBANCE: Any noise, which endangers or injures the safety or health of humans or animals; annoys or disturbs a reasonable person of ordinary sensibilities; that endangers or injures any personal or real property; or that disturbs the peace or creates a nuisance.

PERSON: Any individual, association, trust, partnership or corporation, including any members, directors, officers, employees, partners or principals thereof. Whenever used in any clause prescribing and imposing a penalty, "person" includes the members, trustees, partners, directors, officers, managers and supervisors, or any of them, of partnerships, associations, corporations or other forms of entity. (Ord. 740, 8-4-2009)

4-8-3: PROHIBITED ACTS:

- A. General Prohibition: It shall be unlawful for any person to make or cause to be made a noise disturbance within the limits of Riverdale City, except as otherwise permitted in this chapter.
 - B. Specific Prohibitions: The following are specifically prohibited, except as otherwise permitted in or exempted from this chapter:
- 1. No person shall operate, play or permit the operation or playing of any radio, television, drum, musical instrument, player, sound amplifier or similar device which produces, reproduces or amplifies sound:
 - a. In such manner as to cause a noise disturbance.
- b. In such manner, which is plainly audible at a distance of fifty feet (50') from such source, when the source is operated from a residence, a motor vehicle or hand carried on a public right of way or public space.
- 2. No person(s) shall yell, shout, hoot, sing, make other loud or disruptive noises on the public streets between the hours of eleven o'clock (11:00) P.M. and seven o'clock (7:00) A.M., or at any time or place so as to annoy or disturb the quiet, comfort or repose of any person in the vicinity.
- 3. No person shall operate or permit the operation of any tools or equipment used on construction operations, drilling or demolition or other work or in the sweeping of parking lots in areas directly adjacent to residential districts between the hours of eleven o'clock (11:00) P.M. of one day and six o'clock (6:00) A.M. of the following day on weekdays and Saturdays or at any time on Sundays or legal holidays such that the sound therefrom causes an unusually loud and/or annoying noise disturbance.
- 4. No person shall operate or permit the operation of any electrically powered saw, drill, sander, grinder, lawn or garden tool, snowblower or similar device used outdoors between the hours of ten o'clock (10:00) P.M. of one day and six o'clock (6:00) A.M. of the following day so as to cause a noise disturbance.
- 5. No person shall load, open, close or otherwise handle boxes, crates, containers, building materials, garbage cans or other objects between the hours of ten o'clock (10:00) P.M. of one day and six o'clock (6:00) A.M. of the following day in such a manner as

to cause a noise disturbance across a residential lot line. This subsection shall not apply to municipal or utility services in or about the public right of way.

- 6. No person shall offer for sale, or sell, by shouting or outcry or by any other amplified or unamplified sound, except between the hours of seven o'clock (7:00) A.M. of one day and seven o'clock (7:00) P.M. of the same day.
- 7. No person shall sound any horn or signal device on any automobile, motorcycle, bus, or other vehicle for any purpose other than to avoid an accident or collision or other lawful reason.
- 8. No person shall use a product which has had a muffler or sound dissipative device or element of design or noise label removed or rendered inoperative with knowledge or reason to know that such action has occurred.
- 9. No person shall repair, rebuild, test or otherwise work on any motorcycle or other motor vehicle, motorboat or aircraft in such a manner as to cause a noise disturbance across a lot line of the receiving land use.
- 10. No person shall create such other noise as might pose a danger to the public health, safety or welfare of the city or otherwise constitute a nuisance in fact.
- 11. No person, including, without limitation, a pedestrian, shall make, continue or cause to be made or continued any noise, which creates or causes a noise disturbance.
- 12. No person shall operate a motorcycle, truck, automobile or other motor vehicle in such a manner as to cause it to create a noise disturbance.
- 13. No person shall keep any animal, bird or fowl which emanates frequent or extended noise which shall disturb the quiet, comfort and repose of any person in the vicinity. (Ord. 740, 8-4-2009)

4-8-4: EXEMPTIONS:

The following noises are exempted from the provisions above:

- A. Band concerts, carnivals or other performances or similar activities publicly or privately sponsored and presented in any public or private space outdoors, provided that such activities do not occur between eleven o'clock (11:00) P.M. on one day and seven o'clock (7:00) A.M. on the following day and that said activities or performances have obtained a city permit and, if occurring within a city park or trail, do not violate provisions of section 7-7-5 of this code.
- B. Noises caused by the performance of emergency work or by the ordinary and accepted use of emergency apparatus and equipment.
 - C. Noises resulting from the provision, repair and maintenance of municipal/governmental facilities, services or public utilities.
- D. Noises created by organized school related programs, activities, athletic and entertainment events or other public programs, activities or events.
- E. Noises made by warning devices operating continuously for three (3) minutes or less, except that, in the event of an actual emergency, the limitation shall not apply. (Ord. 816, 8-21-2012)

4-8-5: RESPONSIBILITY OF OWNERS OF PREMISES:

It shall be unlawful for any person to knowingly permit the making, creation or maintenance of unreasonably loud noises upon any premises owned or possessed by him or under his control. (Ord. 740, 8-4-2009)

4-8-6: VIOLATIONS AND PENALTIES:

Any person who violates or permits the violation of any provision of this chapter shall be guilty of a class B misdemeanor, and upon conviction, such person shall be subject to fine and/or imprisonment or punished as provided in section 1-4-1 of this code. In addition to the remedies set forth herein, the city attorney may institute civil actions to abate a public nuisance under this chapter. Nothing in this subsection precludes prosecution under any other provision of law. (Ord. 740, 8-4-2009)
