AGREEMENT

NOW, THEREFORE, based upon the mutual promises and conditions contained herein, the Parties agree as follows:

- 2. **Request for Assistance.** The commanding officer of the fire department/district or the officer in charge of a fire unit or an EMS crew (the "*Requesting Party*") is authorized to request assistance from another Party (the "*Responding Party*") if confronted with an emergency at which the Requesting Party has need for equipment or personnel in excess of that available to the Requesting Party.
- 3. **Response to Request.** Upon receipt of such a request, the commanding officer of the Responding Party shall immediately take the following action:
 - a. Determine if the Responding Party has equipment and personnel available to respond to the Requesting Party and determine the nature of the equipment and number of personnel available.
 - b. Determine what available equipment and what available personnel can and should be dispatched in accordance with the operating plans and procedures established by the Parties.
 - i. In the event the needed equipment and personnel are available, to dispatch such equipment and personnel to the scene of the emergency with proper operating instructions. Responses by the Responding Party under this Agreement shall be made only when the absence of fire and/or emergency medical personnel and/or equipment will not jeopardize the fire services and/or emergency medical services in the geographical boundaries of the Responding Party furnishing assistance to the Requesting Party.
 - ii. In the event the needed equipment and personnel are not available, to immediately advise the Requesting Party of such fact.

4. Emergency Scene; Services Rendered.

a. In the event that a Party is incorrectly dispatched to an emergency incident outside of its own jurisdictional boundaries, the dispatched Party will proceed to handle the emergency situation until the Party with proper jurisdiction has arrived upon the scene and completed deployment of manpower and equipment to effectively address the incident. At the discretion of the Incident Commander (*defined below*) having jurisdictional responsibility over the incident, the Party initially responding to the fire or emergency may be asked to continue assistance at the fire or emergency or may be relieved from providing further assistance.

- b. If the Party with proper jurisdiction over an incident does not arrive at the scene of the incident before the initial Responding Party has completed the operation and leaves, it shall be the responsibility of the Responding Party to notify the Party with proper jurisdiction of the fact that the incident was responded to and handled in its entirety by the initial Responding Party. A written report must be completed and can be accomplished through the normal monthly incident report process. A written report must be completed and submitted by the end of the month in which the incident response occurred.
- c. The Responding Party will stay on scene until it is released by the Incident Commander or the incident is terminated, subject to the unlimited right of the Responding Party to withdraw its services and personnel to protect and serve its own jurisdiction as it determines necessary in its sole discretion.
- 5. Unified Command Process. The first arriving unit shall take command with the Incident Command System, which is the command component of the *National Incident Management System* ("*NIMS*"). When a more experienced and/or senior officer arrives on scene he or she may be in command of the operation(s), under which the responding personnel and equipment shall serve. This initial command shall be passed either in-person or by radio communications, from the current *Incident Commander* ("*IC*") to the arriving more senior officer. Where a Unified Command is established, the *Area Having Jurisdiction* ("*AHJ*") shall assume command. In the event that multiple parties respond to the scene of an incident (e.g., structural fires, wildland fires, emergency medical incidents, search and rescue calls, and haz-mat incidents), command of the incident. In the case of a wildfire, the *County Fire Warden* shall be the Incident Commander of an Extended Attack.
- 6. **Deployment of Personnel and Equipment by Responding Party.** In the event that a Party is requested to respond to or is dispatched to an emergency incident outside of its own jurisdictional boundaries, the amount of personnel and equipment to be utilized by the Responding Party and the manner in which the incident is handled will be determined by the Responding Party's administrators or such person as is authorized by the Responding Party, subject to the unified command process as set forth in Section 5 of this Agreement. Each Party is obligated to preserve evidence and initiate an appropriate fire investigation. All evidence and findings resulting from its fire investigation shall be timely provided by the Responding Party to the Party with proper jurisdiction.
- 7. **Priority to Own Jurisdiction.** This Agreement shall not relieve any Party of its obligations or responsibilities imposed upon it by law. All Parties hereby agree that if response to emergency incidents within their own jurisdiction preclude them from providing firefighting or emergency medical services as provided under the terms of this Agreement, there shall be no obligation of any Party to provide the services described herein. To determine the presence of an imbalance, the fire chiefs of each district and the County, with respect to SCWFSA, shall maintain an account of services and supplies provided to the other during each calendar year or such other portion of any year should this Agreement be terminated before the end of a calendar year. The Parties agree that their respective fire chiefs shall, within thirty (30) days following the last day of any calendar year in which this Agreement is effective, review said records and meet to determine whether an imbalance exists. Should an imbalance occur, the Parties agree to compensate each other in a manner to be agreed upon by their fire chiefs. Included in the costs hereby indemnified against by the Indemnifying Party are attorney fees required to defend any of the Indemnified Parties hereto or enforce the provisions of this section against the Indemnifying Party. Park City Fire Service District Monthly Operations Report August 2023

August 19, 2023 – Elks Barbecue to award Firefighter of the Year Reed Wycoff (left) and EMT of the Year Abby Walton (right)

Peter Emery, Deputy Fire Chief Park City Fire Service District August 2023 <u>Pemery@pcfd.org</u>

Training Summary

This month, PCFD's training division focused on several fire, medical and tech rescue topics. Several topics were covered at the crew level as well as several topics being covered by districtwide training exercises.

Fire: Fire topics this month included search and rescue, vehicle stabilization and extrication, and forcible entry into a structure.

Medical: Medical topics included anaphylactic shock, treating the shock patient, burns, burn management, and treatment. Our crews participated in an EMS exercise on the Target Solutions platform complete with individual and/or crew-based tests.

HazMat: PCFD HazMat team took delivery of our new Ramen Spectrometer which replaces a several-years-used IR Spectrometer. Crews focused this month on familiarizing themselves with the Ramen and incorporating it into our HazMat response. We also continued our involvement with the Wasatch Back HazMat Taskforce.

Training Highlights for August

August 1: As mentioned in last month's report, all platoons participated in and completed a detailed test to evaluate our new SCBAs. Following our TPT run throughs in both Drager and MSA packs, all data was sent to Health Metrics and Dr. DiVico for analysis. Dr DiVico's statistic-based analysis determined that our new PPE does not impact our validated TPT test, and no changes will be made.

August 7: Cardiac arrest review for a male in his 50's found down near his motorcycle on the east side of our county.

August 9: (A Platoon exercise) PCFD has been continually expanding our backcountry response program as more and more residents and visitors to our area are venturing onto our trails. Our backcountry training program headed by Captains Provost and Staples held side-by-side vehicle ops training familiarization for all three platoons to ensure these rigs are operated safely day to day. In addition to operational training, Captain Staples reviewed vehicle maintenance and care for these vehicles. These vehicles are used regularly in backcountry operations and proper attention to routine maintenance will greatly extend the life expectancy of these units.

Crews also participated in a cardiac arrest review for an elderly choking fatality. This arrest provided a great training review of DNRs and the legal requirements and ramifications of these documents on cardiac arrests.

August 10: B Platoon participated in the district-wide UTV training put on by Captains Provost and Staples.

Cardiac arrest review of an elderly male found down (unknown timeframe) by his wife in the kitchen.

August 12: C Platoon participated in the district-wide UTV training put on by Captains Provost and Staples.

August 14: PCFD/Summit County held our monthly medical control meeting. Last month we said goodbye to the fellows who have been working with PCFD and Dr. McIntosh for the last year and tonight we welcomed 2 new fellows who will be assisting and teaching us over the next year or so.

August 15: (A Platoon Tempus Pro demo) PCFD is moving forward with the purchase of new cardiac monitors and defibrillators over the next calendar year. We have operated Zoll monitors for the last 2-3 decades and have always been pleased with the user interface and function of the unit. We have no pressing need to leave Zoll; however, are interested and willing to investigate other market options. Each platoon will receive a demo for the Phillips Tempus Pro over the next 2 weeks, with all providers having the opportunity to get his/her hands on the units. Following these demos, a determination will be made to continue utilizing the Zoll cardiac monitor, or if an organizational need is identified to change units.

August 16: B Platoon demo for Tempus Pro cardiac monitor and defibrillator.

August 20: (A Platoon Aerial Ops) Engineer Wycoff put together a training and familiarization course for FFs who will begin to drive T36 during vacancies. Aerial operations are specialized and warrant some specific topics to be covered above and beyond regular ADO topics.

August 21: (A Platoon Fire training/Search and Rescue) Captain Provost and FF Esquivel put together fire training for August. All Platoons and crews participated in classroom discussions followed by a multi-company fire evolution in our training tower. The topics covered were search and rescue, fire ground priorities, tactics, strategies, and command roles. A large emphasis during this exercise was on the utilization of our new MSA Thermal Imaging Cameras (TIC). While each FF is now equipped with this technology, it is paramount that crew level discipline is practiced ensuring the quickest search of structures is completed by the crew. This is typically accomplished by a single crew member, often the officer, functioning as the "oriented FF" and the only individual using their TIC while directing the crew through the space.

August 22: PM Wagstaff PKMC Operating Room rotation.

PCFD HazMat team took delivery of and received full manufacture in-service training for the Ramen Ragaku Spectrometer. This takes the place of our existing IR Spectrometer which has been a part of our monitor arsenal for several years.

August 23: B Platoon fire training/Search and Rescue with multi-company fire evolution.

Three new PCFD PMs completed school as well as our in-house PM mentorship this month. PMs Zwhalen (A), Shaefer (B), and Croft (C) completed mentorships with PMs Craigle (A), Dean (B), and Carroll (C), respectively. Following each PM graduation, the new PM meets with Dr. McIntosh to discuss their experience in school, strengths/weaknesses, and gain direction in their new role with the district. Each of these new PMs brings an enthusiasm for paramedicine and will excel in their new capacity.

August 24: PM Logan Rodriguez OR rotation, PKMC.

Cardiac arrest review of a tragic 3yr old fatality (boating accident). PCFD strives to be progressive in caring for the mental health of our providers. This case was debriefed a few hours after completion of the call and included the involved members of PCFD, NSFD, State Parks, Summit Co. Dispatch, and Summit County Sheriff.

August 25: C platoon aerial training (Engineer Wycoff).

August 28: PCFD began our two-week orientation for the largest EMT group so far. We are happy to be bringing 12 new non-fire EMTs to the field. Following their new hire process, they will begin working shifts September 9th.

Wasatch Back HazMat Taskforce meeting. HazMat Captain Chad Kramer leads the Wasatch Back HazMat Taskforce which meets several times a year to discuss HazMat topics, training opportunities, and strategies for the FDs on the Wasatch back. This month the group spent the morning putting together a multi-department training exercise for September. We will be participating in a full HazMat drill in the Wasatch Fire District area.

August 29: PM Calvert OR rotation, PKMC.

August 31: PM/Captain Meinhold OR rotation, PKMC.

C platoon Fire Training (Capt. Provost/FF Esquivel).

Hi Chief Mike:

I want to thank you and your clean-up crew for removing the tree debris from my (and many other) yards in our neighborhood.

I worked on a tree crew in college and know that it can be a long "scratchy" day moving branches and running them through the chipper. I'd like all of you to know that your consistent hard work is appreciated and never taken for granted.

I'd also like to thank the Fire District for funding this additional service. I know it is not cheap, but the benefit to the community is significant. These are tax dollars well spent!

Wishing all of you continued cool weather and a mild fire season!

Chief Zanetti, This evening, 8/18, I happened to observe one of your crews at work on an apparent medical call, (E31) not sure of the ambulance/rescue number. They responded to a call on Captain Molly in the townhomes.
I am only staying here for the week, and don't know anyone involved, but the call was in the unit directly beneath my 2nd story unit.
I observed your firefighters and medics interaction with the patient and saw that they were very calm, kind and reassuring to her. They explained what they were doing and what was happening to her. I am sure this was an average, routine, call for them, and the way they handle all of their calls. But it was just the way that I would want any of my family members treated.
For a little background I am a retired Assistant Police Chief from Glendale, AZ and with 37 years of law enforcement experience I have been on a great many fire and medical calls. I only observed your crews for a few minutes, but they demonstrated the caring and professional attitude that you would expect of them. There is no need to contact me, I just wanted to thank them for their service and professionalism.
Thanks, and stay safe
