 - A. Family Haven Update
 - McKenzie spoke with Family Haven about updating the questions and they were willing to make some changes. No true or False questions. Spanking questions will be revised. We haven't seen the changes yet but we should see them soon.
 - These are being approved for secondary students. We can make the decision on which specific classes this information will be approved for.
 - B. Look over website www.babycenter.com
 - Great information about development per trimester.
 - Alternate ways to have a family.
 - This website covers almost anything baby related.

- Links will be given to students, not the full website.
- We will be checking the filters and access to the students.
- If used as a teacher resource you could copy and paste the link. Fragment shot may also be an option.
- Dr. John Taylor, committee member, felt medical advice was very legit.

[Live Birth Induction](#) from babycenter

- Health 2 is showing animated videos rather than live birth.
- Child development may be more ready for the video.
- Students have to opt in for everything.
- When making decisions parents and students should be aware of what is going to be discussed.
- Parents have to sign the form to participate in the class. Full description needs to be on the form.
- Send disclosure 2 two weeks before it is shown. There is a problem with getting the forms back in time.
- Suzanne proposed maybe another reminder when it is getting closer as well as the beginning of the term.
- Health and family development teachers are very proactive in being careful to let kids and parents know what is going on.
- Committee members felt pleased that the videos did not have an agenda.
