

Dear Restaurant Tax Grant Committee,

First, we wanted to say thank you for your awarding NSRSSD a grant this year. In order to start the project, we are required to build the basketball court, so this funding has assisted us to move forward on the key parts of the project. North Summit community members are going to be ecstatic when the new facilities are built, which was made possible with this grant funding.

Enclosed are the estimated costs for the Food Truck Facilities and Basketball Courts. The estimated costs exceed the grant award, however, the remaining funds needed will be used from the County and RAP tax grants we already have.

NS Recreation Board recently voted to start building the multipurpose field, the basketball courts, and the food truck pad. We need to start the earthwork and excavation immediately before winter so our contractor can install the facilities early next year. At this time, we are not able to build the pickleball courts. However, we submitted another RAP Tax Grant application hoping we will receive more funds to build them.

We are only awaiting the Committee's approval for the change from concessions to food truck facilities so we can get the County Manager's approval to start now. We wanted to reiterate that we feel adding food track facilities is the best decision because it will provide better economic opportunities in our area due to the growing number of food trucks and our community loves and supports their local food trucks. Our youth and community get excited when they see the other local food trucks!

Thank you for your time and support!

Sincerely,

Amanda Pace

The costs for the Food Truck area and Basketball Courts exceed the grant amount so we will use some funds from the RAP tax to make up the difference (those costs are mostly the concrete and sidewalk to the court and the GC fees).

We are grateful we received this grant otherwise we cannot add the Food Truck area or build the basketball courts and the entire project would likely come to a halt. We have to replace both the field and the basketball court from the fairgrounds in order for the project to move forward and this added funding has allowed us to do that! This is the last piece so we can start as soon as this is approved. Please tell them THANK YOU THANK YOU THANK YOU they made this possible and we cannot wait until this is finished so we can host tournaments and events with yummy local Food 😊 which will be a great benefit to the community and local food truck businesses.
