Dear Washington County School Board,

After our Trust Land account was balanced out for the 22-23 school year, we were left with a surplus. We would like to take \$7000 of this surplus and use it towards technology. This will help us in our goal:

75% of our students will show typical growth or above typical growth with a 3% plus increase in proficiency on the EOY Acadiance Math and Reading assessments.

We have met as a council and have agreed upon this change to our current plan. Please let us know if we can answer any questions.

Thank you for our consideration in helping us to meet our instructional needs.

Sincerely,

Arrowhead Elementary Community Council
