Support	Val Greensides	Y
Guest	Lincoln Paxman	Y

Agenda Item	Discussion	Action
Welcome	Brent Adamson welcomed the group opening and roll call at 8:55	
Public Comment	None	
III. Business		

A. Software Discussion	Discussion on feedback from Tara, who, on behalf of the LEPC, presented to the SERCA the idea of funding statewide information-gathering software for Tier II. Not having heard anything back from the SERCA or SERC, the group discussed moving forward with using grant dollars to fund the software. There was a discussion on the software PEAC, and it was asked that we bring the representative back from PEAC for more information gathering and training on how the industry would input their Tier II reports. Val Will contact PEAC and have them attend the next meeting.	
B. Tier II Reporting Process	In the larger LEPC meeting, there has been some discussion on Lithium batteries and radiation. The group investigated the reporting requirements and discussed Lithium batteries federal guidelines for reporting is at 10,000 lbs. This may be something the group looks at in the future, as some states have lowered this requirement. Information was provided on facilities that have reported Lithium in Tier II over the last four years. This report indicates that there is minimal reporting on this. The group discussed that this may be a gap in education and understanding.	
D. Round Table		
IV. Schedule		
A. Next Meeting	The next Meeting is Wednesday, November 8th @ 8:45 a.m.	
B. Adjourn	The meeting was adjourned at 9:48	Motion to adjourn Dan Mortensen
