

Mayor Scott O'Hare
Council Member, Jim Beagley
Council Member, Rod McGay
Council Member, LuAnn Johnson
Council Member, Heather O'Hare
Clerk, Tammie Morgan
Deputy Clerk, Stacey Hill

Jesus Rois

Mayor O'Hare started the meeting. Good evening everybody would like to welcome everybody to the Wednesday, September 13, 2023, Town Council meeting of Snowville Town we'd like to recognize Councilmember Jim Beagley, Councilmember Rod McGay, Councilmember LuAnn Johnson, and Councilmember Heather O'Hare. I am Mayor O'Hare we'd also like to recognize our Clerk and Deputy Clerk, Stacey Hill and Tammie Morgan. We are going to start with the pledge led by Stacey Hill and then following that Rod McGay will give us the opening prayer.

Mayor O'Hare asked if everybody received the agenda for this month and the minutes from the previous month. Does anybody have anything to add to either one?

Jim Beagley said, on the agenda, I would like to at least talk about the trees over there in the corner, the ones that have fallen over.

Mayor O'Hare said, Yeah we have that here on my paper.

Jim said the trees are actually on our property. The tree trimmer is supposed, to send us a bid, and he never did something we should take care of here in the future.

Mayor O'Hare said, Yep. Put that up. Put that right underneath the power pole bill. And that's the first street, right? First second?

Jim said, I'm not sure.

Mayor O'Hare said, First and Stone Road. Okay.

Stacey said, then this has Brigham City. It should be Box Elder County on the elections. You guys, you need to sign it. It's under my spot on the agenda.

Mayor O'Hare said We're gonna see right here. It should be Box Elder County Okay. Anything else? Ladies? Anything for you? Okay, so with the exception of speaking about the trees on town property over on First and Stone and also underneath Snowville Treasure, they'll treasure the contract which should be Box Elder County instead of Brigham City. We'll add that change. Do I have a motion to accept the agenda?

Rod McGary said that he would accept the agenda changes.

Mayor O'Hare asked for a second. All in favor? Any opposed? Did everybody receive the minutes from last month? It was 59 pages. Does anybody have anything to add? I think there's plenty there. Yeah, I agree with you. And that's my fault. So I apologize. So if there are no additions or subtractions Do I have a motion to accept the minutes from the August 2023 meeting?

Rod McGary said I would like to make a motion to accept the minutes from the prior Town Meeting Council

Mayor O'Hare asked for a second. Heather O'Hare seconded the motion

Mayor O'Hare said I have a second. All in favor? Aye. Any opposed?

Okay, we have it passed.

Mayor O'Hare, okay on the next one. We have reassigned animal control. So this is my thought guys, and I'm just gonna throw this out to you. And you let me know what you guys think. So we do have the contract with you Brigham City now to take the animals Correct? You did sign that? Yes.

Okay. Stacey, did we get that backside from them or so we all good to go? So it is a binding contract. Stacey said Yes.

So we have tried several ways of trying to house animals here. And we really just don't have the authority or not the authority, but we just don't have the place to house animals for long, distinct periods of time. So I was thinking, why don't we? And that's my two cents, and then nobody else can either agree or think of something else. That's fine. But normally we pay an animal control person \$25 a month to watch animal control. I've done this in the past. We've had other people do this in the past. So we have this contract with Brigham City. My thought was let's do away with the animal

control person that we paid \$25 a month. And that if we have a dog, dogs only no wildlife, I mean, no. Cats. Yeah, goats, livestock, no livestock. So the town council member that oversees animal control would be the one that was going to be called if there's a dog and that council person would go and pick up that dog. And then if that dog has a Snowville Town license on it, then they would notify that person and then go about it like we normally do. The first one's a warning, and the Second one is \$25 to get your dog back. And if they don't want to pay for those \$25 dollars right then and there. Or if the dog doesn't have a license from Snowville. Or if there's no way for us to notify the owner automatically, then that council member would then drive that dog to Brigham City and drop it off. We don't house it here, period? And then we could, I don't know, do we get the fees already done for that? Because then the council member would get paid for 50 cents a mile. That's what we do to drive there and back home. So I think it comes out to \$55. And I think that's what we put on the fees as a fee for anybody that would have to pay. And then that way we don't have to worry about whether we're still doing our due diligence when it comes to dogs. So if it's livestock, again, the person would contact that council member who's over the animal control. Well, we should say dog catcher, because it's not gonna be all animals. And then that the Council member would then call the person whose livestock it is and let them know they need to pick up their livestock, or that whoever's in charge of wildlife livestock would be called to take care of that situation. So that's my thoughts. That way we would do away with that animal we would do away with one job for the town of \$25 a month. We don't have a lot of dog calls. So but the ones we do have, we'll just have whoever's in charge of that take it, take over it.

Heather asked if would we still keep the kennel.

Mayor O'Hare said yes we've paid for it, that's ours, we would still keep that there unless the fire department says, Hey, we need that space back.

Heather says that someone might not be able to take the dog to town right away. And it might have to be a setting place to hold the dog.

Mayor O'Hare said, yeah, I mean, we can still utilize that. But what we need to do is if it's not here, then we need to go ahead and get it over to Brigham City as soon as possible. And whoever if the council member that's over

can't take it, then they're more than welcome to reach out to other council members or myself, if I'm home or whoever to get. That's part of the town though. Not somebody that doesn't work for the town to get the dog over to Brigham City. So that was my thought. Does anybody have any thoughts on it?

Rod said, so I take it out to be someone that's fairly right. Available in town. Mayor O'Hare said, So my other thought was, we have to assign Heather job duties. Because we have right now we don't have job duties for the park, somebody overseeing the park and the Cemetery, and somebody overseeing animal control. So if everybody agrees, or unless everybody wants to throw their jobs back in a hat and we did, we back up the jobs again. She works with dogs all the time. She's home all the time, except when she is in town to go to the store. And I talked to her and she said she'd be willing to do that. But if everybody agrees the council agrees to that. We still have to assign Council personnel to oversee the Park and the Cemetery as well. And that's, down here on the agenda. I think I got here, right?

LuAnn said, Yeah, it's on there.

Mayor O'Hare said, So that was just my thought.

Rod said That does seem to alleviate an issue that we have.

Mayor O'Hare said, It alleviates a job and it alleviates having this person going to pick up the dog and then having to contact this person. And it just takes one person out of the equation and at least one person to oversee it. Heather asked if there were certain hours that they were open.

Mayor O'Hare said Yeah, we'll get them. Yeah. That's the other thing. If it's late at night, did they say? Did they say anything on the contract about late at night or anything like that? Okay, well, then, probably it is. Yeah. whoever, we decide it's the council member that's going to take over doing the animal dog catching will then, contact Brigham City, introduce themselves, and then get the information they need. Like, what are your hours of operation? If we get a dog, we have a contract with you, if we get a dog after hours? How do we go about bringing them to you to get to your home or to get housed? And if it's a case of, well, we'll only do it during

these hours. I know Brigham City has a cage out in front of their facility. Yeah, for people who are dropping dogs off in the middle of the night, they dropped them off in that cage. And it's a cage that goes one way in and they can't get back out. And that's where they go and they stay in that cage. At least that's what I think that is. That's what it looks like. Because when I worked in Brigham City when I went there, I always would see dogs early in the morning inside those little kennels. And it's got like eight feet tall. Just have a chain link fence.

Jim said Good idea.

Mayor O'Hare said yeah, So anyway, if you guys want to. I don't know if you guys liked that idea.

LuAnn said, that sounds like a good idea, and you're willing to do it.

Rod said, I think we gave it a trial period. And we'll see how it pans out.

Maybe modify as we go. Yeah. Sounds like a good starting

Mayor O'Hare said, She won't be once she gets assigned, who? Well, whoever gets assigned to that will then get the code for that which is I mean, I don't see why anybody I don't see why any council member shouldn't have the code to the fire department. So I mean, we all have the right to go in there and inspect and look at it and stuff like that. So everybody should have the code for the fire departments and stuff. We just don't need the codes to the medicine box.

Heather said They would have to clean the kennel there too.

Mayor O'Hare said, Yeah, whoever's over it needs to keep Yep, they have to keep that kennel cleaned. And, you know, taking care of.

Jim said This can be your first case right here?

Mayor O'Hare asked, What's that?

Jim said He has dogs and his property.

Mayor O'Hare said He lives outside of town limits; he will have to call the county unless the dog comes back across Cemetery Road. If you see it come back across Cemetery Road. I think then whoever takes over here, call them and let them know. A dog just killed my chickens. It was like we had the same problem with Abbie with the dogs over here at the Vit's

house. We couldn't take him from over there. But Abbie followed him back to the house and told us that we were there and we were able to go over there and then take control of it, they went towards the county

Heather said, that reminds me that Vit's dog was out again because I followed it back to their house.

Mayor O'Hare asked, "Is there the little one?"

Heather said yes, so she's back.

Mayor O'Hare said yeah, she's never left so unfortunately. Rios Yeah, we were not, we can't do anything outside the county.

Rios said I need to find the owner and talk to the owner about it.

Mayor O'Hare said, well yeah, the next time follow the dog and see where they go. They'll probably go back to their house. Is it two dogs?

Rios said Yeah.

Mayor O'Hare said they are probably running together.

Rios said that there were new ones today. Mayor O'Hare said, there are different dogs today.

Rios said yeah, Last a couple of months two dogs, one German Shepherd. I don't know what kind the other one of them was a pretty good size for the white.

LuAnn asked if it was white.

Mayor O'Hare asked, Is the dog white?

Rios said, kind of gray.

The mayor said I would follow the dogs. I know that I'm not gonna say their names but I know that there's a family that lives down on the flats. They have two dogs that tend to wander into town sometimes. And we've actually called them a couple. This was when I was working at Flying J. People had picked them up on the sideroad here in town and brought them to Flying J and then I had to call them. I would contact the county or follow the dogs next time you see them follow them and see if they go to a house and find out. But unfortunately, there's nothing we can do because it's not in the city limits or the town limits. Unless the dogs come this way, if the dogs come in, if they cross the east side of Cemetery Road, you can call whoever we decide to appoint here, and then they can go and if they are on town property, then we can pick them up and get them taken out. Because if they're from out there then they won't have tags from Snowville.

Okay, so any other questions? Okay. So, Heather, you'll take over if everybody's okay with that, LuAnn are you fine with that? I'm good, Jim. Okay, Heather, you'll be taken over the animal control. Rod said, Let us know if you need help.

Mayor O'Hare said, If you want to get up with Jim and go over I mean, he might have some information for you. So I know you kept a lot of information on stuff. So and then, if you need licensing information for licenses and stuff, Stacey.

Heather asked if the dog catcher pole was in the Fire Station.

Mayor O'Hare said, Yeah, that's all over there. And we'll go there. We'll go check all that stuff out. And then for the Park and Cemetery, we need a Council Member to oversee that. Heather doesn't have anything except the dog catcher. We could assign her the Park and the Cemetery.

Jim said I have heard great comments about how that Cemetery looks.

LuAnn said it looks really good.

Jim said that he has heard comments from people in Stone that go up there.

Mayor O'Hare said I got a phone call, and I tried calling Brent. But a lady called me and they were out here for something in the rodeo. Yeah. And she said the park looked disgusting. Stacey said, the Cemetery

Mayor O'Hare said, I'm sorry, the cemetery, and that's what I told her. I told her I go listen, we we've had and I explained we spent an hour and a half on the phone together. She's from out of town

LuAnn asked if her name was Kathy.

Mayor O'Hare said, No, she's from out of town. She's got family buried up there. But I just explained to her that yes, we do have graves that are sinking. We do have headstones that are and I explained it to her 100% Why don't you guys take care of what we do? But the headstones have to get approval from the owners and they have to sign a waiver stating that if anything happens while we're moving the headstone to the headstone we're not liable. I go that's that's that's considered personal private property that headstone the grave, we can fill that in and we have and we found out what was going on with the graves and we're trying to fix it and the water system went down we got a new water system in so I explained it all to her

just give us until next year and it should be back up, that's the only comment that I have heard was negative.

LuAnn said, we have only had good comments, people have actually called Brent or come to the house and told him thank you for doing a great job.

Mayor O'Hare said, Yeah, so let's do this. Is everybody okay with Heather taking over overseeing the Park in the Cemetery or do you guys want to put your stuff back into hats and reassign?

Jim said I'm okay with it.

Mayor O'Hare asked LuAnn, are you okay? LuAnn and she said yes.

Mayor O'Hare said, so is Brent the new Sexton is in effect now.

Stacey said, it's not in effect, but Shanna is still there. If we need her, Brent will go with her. And I've been going up with her until she says that she's totally done, but I haven't really talked to her about that.

Mayor O'Hare said, okay, so first thing you would do then if you need to talk to the Sexton about something at the cemetery you need to contact Shanna first. If you cannot get a hold of Shanna she doesn't return your call within a reasonable amount of time, then get a hold of Brent. But then, after you've talked to Brent and get back a hold of Shanna let her know because she is the first contact until she leaves.

Mayor O'Hare said, all right. So Heather will oversee the Park, you're going to make sure that things are taken care of at the Park, you're going to oversee the person, whoever it is, that's going to be taking care of mowing in the Park and all of that. The other thing, I was talking to Heather about as well. So we were thinking that instead of having the person who's mowing the Park, go and open the Park for people who rent the Park, the Council person that's over the Park should be the person who goes and opens, cleans, and makes sure that it's proper for those patrons that are coming in that rent the park. So since she's now over the Park and the Cemetery, it would be her responsibility to go when the Parks are rented Stacey would then contact her and not the person because I'm thinking and I was talking to her and I don't know how you guys just thoughts aren't. But the Council member that is over the Park should be responsible for

opening that Park making sure that the patrons that rented the Park are happy and all that instead of the maintenance person that's maintaining the Park mowing and stuff like that.

LuAnn said, when I was on town council before I took care of the Park and the Cemetery, I mowed and trimmed the park and when people rented the park, I cleaned up before and after, we did all the celebrations. That's what I did when I was on the town council before we just combined.

Heather said We do need to clean the bathroom floors.

Mayor O'Hare said, Yeah, we're gonna go down and grab a mop and get some type of a mop bucket, mop, and stuff because we need to really get in there and clean the bathrooms really good, and but that's going to be coming up here at the end of September we close everything down anyway. So at the end of the month, we can do a winter winterization of the Park. We gotta go in and do the sprinkler system anyway. And all the water and everything

Heather said, we went in there and cleaned it pretty well, it was pretty dirty with spiderwebs it really needs to be sterilized.

Mayor O'Hare said, and then we can clean it for wintertime to close it all up and lock it up. And then when we reopen, it will reclean it again. Are you guys okay with having the council take care of opening and closing the Park?

Heather said, So inside the room with all the supplies, that needs to be cleaned out and organized as well.

Mayor O'Hare said you're in charge of it if you feel like you need to.

Heather said, There's like a ton of stuff that seems like it's been there for years.

Mayor O'Hare said, We go through it and pull through, pull things aside. And if it looks like it just needs to be thrown away, throw it away.

Rod said I think it'd be, you know, you could ask us to come and assist on that. I'm gonna come and do that. Because I don't think that you'd have to do all of that.

Mayor O'Hare asked if that is something you want to do before winterizing or after probably, or it doesn't really matter so it's gonna get closed up.

Heather said, Probably sooner than later.

Mayor O'Hare said, well then you can get a hold of the rest of the council members and then if I'm home maybe we can clean it when I'm home for the week. Yeah, we were talking about doing the same thing with this room back here to try to get this organized back here too. That was something that was on our agenda.

Heather asked if we had file cabinets for the office.

Mayor O'Hare said not yet they're still deciding how they're going to do that.

Mayor O'Hare said okay, violations so, do you have any more questions

Heather about the Park and Cemetery? Heather said no.

LuAnn said, so on the big garbage cans or at the park. We just leave them there for whoever wants to throw garbage in. When people are passing through, are they available?

Mayor O'Hare said there are garbage cans available at the very top right by the shed. There are four total. I don't think we need four out there. I think we should just have it now this is just my thought at the top, because people that run up and down that road, they'll just bring their trash and dump it in there. And that's what I was thinking. And then we've got to pull those two down at the gates.

LuAnn said, yeah, So the ones that you have to pull away across the park to get him down. For the guys. I don't think that should be available to people.

Jim said People are going to use those up by the Bowery too.

Mayor O'Hare said, Yeah, I was gonna talk to you about that too. I was thinking that maybe we should bring those across and get them locked up and only put two at the top and two at the bottom.

LuAnn said, Yeah, Brent has to load those on the back of the trailer. Then take them to the dump. Trying to do that myself, especially in the winter, that's gonna be tough to do.

Jim said we need to get rid of these garbage cans and put them behind the building over here.

Mayor O'Hare said, okay, I've got one over here at the park that's damaged. Jim said that people are starting to put in these garbage cans. And I gotta admit the truckers here and people come in with campers and stuff. They're using the garbage.

Mayor O'Hare said that is great news. It keeps trash off the road.

Mayor O'Hare said, okay, Violation so I talked to Blair this week. He sent me an email if you guys have your books if you go over to number SOV 002 now this one this one has to do with down here across next to the freeway, the one on the west side of town. He did not specify. And then I tried to call Blair back. He was really hard to get a hold of, he didn't call me back or anything. He didn't specify which one it was. Because if you go over to SOV 004, that one has to do with the one on the east side of town. At the main house. So anyway, Mr. The person almost said I almost said his name, a person in this violation, went to court and brought in some pictures and told him he still needed some more time. I understand these ones here. Both of these have been almost year #02 and have been a year and a month. And #04 is coming up on the year on the 22nd. So he gave him one more continuance to get things cleaned up.

LuAnn asked if it was down here.

Mayor O'Hare said Well, that's what I'm trying to call him to find out which one it is. I went up here to take pictures because he wanted me to take pictures and send them to him and then let me know. And talk with the council if he thinks, if we think that he's okay. His continuance is in November, he has a court date in November. So, but I don't know, up here on the east side of town looks terrible. I've noticed down here it looks a little bit better. He's kind of I don't know if he's cleaned some stuff out or if he just pushed up aside.

Jim said I heard that he's starting to build a fence over here on this one.

Mayor O'Hare said, Okay

Jim said, you can't see it from the street.

Mayor O'Hare said, this is the thing we have, he can, he has every right to build a fence and we can't tell him he can't build a fence. What he can't do is build a privacy fence on the roadway. That's the problem because we do have an ordinance that states you cannot have a privacy fence in front of your home. But the thing is, there's not a home on that property, the fence in front of your home can only be I think five feet or four feet, and it has to be able to see through you have to be able to see through it.

Mayor O'Hare said when I started doing the fence in front of our house, that's what the stipulation said. So anyway, I'm going to try to get a hold of Blair again, as soon as I do, I'll find out which property it is. And I'll text everybody and let you know.

Jim asked if he was up to date on his business licenses.

Mayor O'Hare said Nope. So the business license that was given to him by the former Mayor, for the east side of the property, right? So for this property over here, the business license that was given there, that's expired. Good. So that means you have to come in and redo a new license, which I don't think he'll be granted a new license to do business that he wants to do on a residential property.

Stacey said That's probably why he hasn't come into the Town Hall.

Mayor O'Hare said probably.

Jim said the same person over here he's got I think five cars on that property. I don't know what the road is, by William Thomas House Road.

Mayor O'Hare said yeah. Oh, that one little acre. That's right there. You know, that's owned by Sam. Well, Sam came in and wanted a business license for it. So he was denied the business license for it. I told him that he was not going to get one because he wanted to bring vehicles over there, tear them apart, and then take them away. And I told him that he wouldn't because it's not zoned for that type of business. That's residential zoning. So it sounds like maybe he's doing it anyway.

Jim said, I just noticed this a couple of days ago.

Mayor O'Hare said, okay, if you see him out there working on trucks and vehicles which I don't think he does during the day I think it's all done at nighttime, as soon as I get a hold of Blair to find out exactly which property he's referring to, then I will text everybody and let you guys know and then you guys can go by and look at it and let me know if you feel like it's up to date or better if you feel okay with it. Okay so everybody has a copy of a bill

here from a citizen of \$909 even. So what happened is that Jim is brought up at the beginning of the trees that are on town property. The tree during the storm got blown over and knocked down the power line. And now, these folks here that got their property damaged or their powerline, Are asking for us to pay this bill. They feel it's our responsibility. Since the trees were on town property. My two cents is not to pay this to decline. I am in this bill because that was an act of God. It was a storm that came through. And we're not responsible for trees that go, even if it is on town property just like the trees that are on somebody else's property that gets broken over and blows over somebody else's property and knocks something. I mean, this was a storm, and nobody knew that this storm was coming in. So it's not just because a tree gets knocked over and damages somebody's property doesn't mean it's our responsibility. The other thing is they went ahead and got the work done. If they really wanted the town to pay for it, they should have come to us beforehand and said, Listen, your tree damaged my property, I want you to pay for it. And then we would have gone if we decided that, yes, we need to pay for it, then we would have gone about us the way we're supposed to. And that's three bids. And then the lowest bid wins. That's my two cents.

Jim said I don't know what the law is.

LuAnn said I don't think it's the town's responsibility, two, three years ago, when we had the major disaster, we had a granary. A great big humongous water trough. They tore down the hole, one side of our fence, and we just fixed it. That's why we're not going to charge the guy who owned the roadway or the water trough. It was just something that happened. Plus it sheared off our tree. We just pay for it. It's not the town's fault.

Tammie said, I know what in the past we've had, like, for example, one of our employees mowing the sides of the road or rock, chip, or rock broke someone's window. That's something I think we would pay for.

Mayor O'Hare said Because that's negligence. That's negligence on the part of an employee. But this isn't negligence. This is this tree that was there.

Stacey said Well, she's when she came in and gave me this. She told me that Colleen said it was our tree and we should take care of it.

Jim said and she is our tree.

Mayor O'Hare said, but we can't not be in control of Mother Nature. That wasn't the town's negligence that caused this tree to get blown over and do that. Now that I'm not a lawyer. But if you want me to, I'll take this. I can call Molgard to make an appointment to talk to him. Let him know. And let's see what he says. But I honestly don't think it's our responsibility.

Rod said think that's a good plan of action.

Jim said, It's either that or they'll take us to court, you know because I don't think they're gonna want to pay.

Mayor O'Hare said well, they've already paid it should have been done. Oh, they haven't done it. They have done the work.

Stacey said So the work is finished. I don't think Gwen Johnson has been paid.

Tammie said, Well, it's not the Snowville Towns. This was not who it was billed to. We shouldn't be responsible for that.

Mayor O'Hare said, okay, so you guys are okay with me calling Molgard and getting his two cents on this.

Jim said I think we should get some advice to make sure.

Mayor O'Hare said, Stacey when you get a chance, could you send this bill to Molgard? Just email it to him. And then I'll give him a call tomorrow and make an appointment to call him on the phone. And then that way he'll have this in his inbox, he can look at it and then he will have it when I call him.

Okay, so at this point, Jim wanted to add the trees on First and Stone, which is what we were talking about.

Jim said We'd have to get a bid to have them cut down and find some way to do it.

Rod asked, "Are those trees?" Those aren't the ones we're talking about for the church.

AJ said, No, The big ones on the other side?

Mayor O'Hare said, That's church property, right.?

AJ said the ones he's talking about, are on the other side. Yeah, that's above my pay grade. You guys got to do whatever you want with those things.

LuAnn said, Oh, in between the church and the park?

Jim said, you go down here, that church just right down the left.

Tammie said Where those two trailers are, the trailer where the tree fell down.

AJ said, you're on the north side of your asphalt road between that canal, the ditch, just those two, there's two or three there.

Jim said, I think there's three.

Mayor O'Hare asked. there are three, what's wrong with those they need to be taken. They need to be taken down and that's what you're talking about.

Jim said I think it'd be smart to take them down because they're right there on the edge of the ditch. So that's a weak spot right there. You have water run in there and stuff like that. You're gonna have more fall. We could try to get someone to cut it down. I don't know who.

LuAnn said it's massively expensive. Really expensive.

Mayor O'Hare asked are they big, big trees? You said 40 feet. We would have to have somebody come in and do it then.

Jim said that the trees have been topped before, and the trucks are massive

Mayor O'Hare asked Are they? Are they interfering with power lines?

Jim said, Not right now? No.

Mayor O'Hare said because I know Rocky Mountain Power will come out and trim trees at their cost. If they're interfering with power lines, they've gone over to the Vits property before and there's just this year.

Tammie said they go around annually.

Mayor O'Hare said I guess we need to get three bids.

Jim said, talked to one guy who said that he would send a bid, and then he didn't send a bid in.

Mayor O'Hare asked what was the tree company that came out and cut the trees at the park. Is that the same one?

Jim said, Yes, we probably shouldn't wait until winter.

Mayor O'Hare said, we need to do it properly, do you want to try to contact some other people to see when he gets some bids? So Jim will get some bids for getting those down.

LuAnn said, So there's in Brigham City.

Mayor O'Hare asked Do you know what they're doing with those three trees on the corner? On the northeast corner or northwest?

AJ said They're all coming down.

Mayor O'Hare asked, Who is going to do that?

AJ said, me, myself and I.

Mayor O'Hare said, So they didn't hire somebody to come in? I was thinking if they hired somebody, maybe we could talk to them.

Rod asked are they going to cut them into sections and haul them to the dump.

Jim said, are our dumps closed?

AJ said, my two thoughts on that. So what if your dumps close? Why can you haul your trees to your dump and put them on your property? It's just like me cutting my trees down on my property. It's not a waste. This is just my two cents

Jim said, I read the letter the guy sent.

Mayor O'Hare said, yeah, they told us to shut it down.

AJ said You guys are too nice. I would keep putting trees.

Mayor O'Hare said I don't see why we couldn't put trees in there.

AJ said, Rod said we could take him to his place. They're going to Rod's anyway.

Jim said If we take anything out there, just in case we have to clean it up.

Then we want it to go down into the ditch and yeah, I put an eye on the flat ground.

AJ said, Whatever. You guys want to have you if you don't care, they go down there. We'll take them there. If not, Rod said we can take them to his place. They'll just push them in the wash, and let them dry out.

Jim asked, do you want to talk about the landfill for a second right now?

Mayor O'Hare said, No, that's gonna be coming up on yours, coming up on your I believe you put it in your agenda, right?

Jim said Yes.

Mayor O'Hare said, Okay, so you're gonna call for the bids on the trees. If you can't get three bids, you know, give it a day. If you can't get three bids, that's fine. Just talk as long as you do due diligence.

if you only get two bids or one bid.

acceptance of curb and gutter on the town's side over here. Do we have to vote on going ahead and do we have the money to do that?

Stacey said we have the money left over for the stoplight.

LuAnn asked, is it the part of it right here?

Mayor O'Hare said, Yeah, so Eric will not be here tonight. He texted me

Jim asked, if was it included in the grant money.

Tammie said they said that it was part of it Tim said it was part of it was part of the light.

Mayor O'Hare said Yeah, it was part of the light. I sent him back and asked him anything. He wants me to let the council know he never texted me back but his meeting ran long so he won't be here tonight. So we have the money to do it. Right? I mean, it's there a little bit if I remember right. \$4,000.

Stacey said, from that and they were short, like \$2,000 I think it was \$6,000 he was actually going to bring papers to show you guys so I don't know if you want to accept.

Mayor O'Hare said, let's table till next month. I'm like, Yeah, how did he say they're gonna start on it this year? This would be something after winter.

Tammie said it depends on how soon winter hits.

Mayor O'Hare said, yeah, right now we have three we have to curb and gutters and we were going to do four. But that's your guys' decision whether we're going to do one at Mollie's. But that's again, that'll be on a different agenda because it's not on the agenda tonight. But so we'll just push this till next month. And then when Eric gets here we'll talk. Is that okay with you guys? Okay, ladies. Yeah. Okay. So acceptance of that will be pushed to October 2023. Okay, Molgard information from Molgard. So I called Molgard to talk to him about what we talked about last month about violations enforcing our ordinances. He did say that we need to go through our ordinances. And we need to pick the sections that we want to have set as a violation. Right now, we only have a few things in there that are violations that are nuisance, or like we did the criminal violation for living in a motorhome. That one they can cite people for but in the rest of the ordinance, he says that we can't cite them, because there's nothing in there that states that it's a sizable offense unless it's a nuisance. So he said his recommendation is that we go through our ordinances and find sets he said sections that we want to make where we can actually cite them and then come up with a payment with a citation amount for certain things. And then once we do that we can send it to him, then we'll come in and make a resolution for all of these sections or whatever, so that we can go and cite, of course, then the council would have to go and get certified to cite people, which I don't think we need they were talking before we talked before. And this is another thing I thought about their time before sending to people, you know, the to go through the citation and be the citation. I think it should just be the town council should be the ones that do it. And that's my two cents. That way. We don't have to pay somebody else to do it. And the town council would, if they see if they see a violation, they can bring it before the town council and say there's a or at least as long as two people I think is what we said if two people agree that that's a violation that they can go ahead and do the violation. But when we do the violation, that we have two council members and a Sheriff deputy, the sheriff's will come out. They can't enforce it, but they will come out and back us. That's what they told us.

Mayor O'Hare said, so what we could do is go through the ordinance and divide it up into sections for everybody. I think there are 460 pages of the

ordinance book. So we can do 100 pages per person council members go through and see if that section that you think there should be a violation for it. I mean, a lot of it, we don't need. I mean, there are certain things we need violations for, or if you guys want to this month, until next month, come up with what you know, go through the ordinances if you want to, and then bring it next month and say I think these should be violations that we give citations for. You know, like there's a lot of stuff in the ordinances that we don't need to get citations for. But certain things we need to give citations for. So I would say write down what you think, and what ones you think we should have citations for. And what do you think would be a fair amount to cite them for for the first offense? Second Offense?

Jim said we need to check into it.

Mayor O'Hare said Does that sound okay?

Rod said, yeah. I think that'd be good.

Mayor O'Hare said Is that okay with you, ladies? So next month, just bring it to the town council. What do you think violations should be cited? What should be citations?

LuAnn said I don't have an ordinance book.

Mayor OHare asked, So you have an email, right? LuAnn said yes. Mayor O'Hare said, can you up?

LuAnn said yeah, don't have the internet. Sometimes it won't download all those pages.

Stacey said, Oh, yeah. In the past Mayor Gwen went in and we had them made, I can get more books.

LuAnn said I would like one.

Mayor O'Hare asked You guys have a book?

Mayor O'Hare said, Can you make four of them?

Stacey said Yes.

Mayor O'Hare said, Are you guys okay with the town paying to have four books made? We need another one of these made.

Mayor O'Hare said, then Blair Wardel I also spoke with him. And we've already gone over that on the violations.

LuAnn said I'm curious about the next one on the agenda.

Mayor O'Hare said voting on changing the landscape. So we had discussed this before, but we never voted on it. I'm aware of 60 hours there. 60 hours here.

LuAnn said, oh, landscaping?

Mayor O'Hare said yeah Landscaping the Park and the Cemetery. We talked about it a few months ago.

Jim said But that has nothing to do with landscaping.

Mayor O'Hare said, well I called it landscaping because we're mowing.

That's landscaping. I just said landscaping instead of mowing maintenance, when you go and mow and weeding and stuff, you're doing landscaping. So that's why I said that. So we just need to vote on changing those hours. And oh, wait a minute, hours amount for parks, yeah. So 60 hours for the Cemetery, and 60 hours for the Park.

LuAnn said, he actually can't get done in that amount of time. But he just does it for free. A lot of hours, guess what happened yesterday? No Monday. So he mowed the grass. And all of a sudden everything just stopped. So the whole bottom fell out of the lawn mower. No, the whole bottom with the blades, the whole whatever that is called

Mayor O'Hare asked the guard.

LuAnn said he had to have Garrett come and welded it all back together but it is fixed now.

Mayor O'Hare asked so should we change the hours? We don't want people to do it for free but should we change it? Should we add hours? Or what do you guys think? Where are we at right now ladies? On the budget for Park and Cemetery for hours for mowing and taking care of the labor? It's a lot. So we've got 120 hours right now for both kids. Can we add hours? Do we have it in the budget to be able to add hours? Do we have the money to be able to do that?

Tammie said could look at it. Let's see, we were pretty close on Park. It all depends on what expenses. If you are going to have a major repair there.

Mayor O'Hare said I know we get money from the church. And that's what we get from our church? That's for park 40

Jim said, I think we need to renew and negotiate that with the church, the prices have gone up.

LuAnn asked how much does the Church give us?

Mayor O'Hare said \$4500 for the season. What was that contract up? I don't know.

Tammie said it has been years and years. I know that they have somebody come out and mow the church side. I got this bid four times, \$1,150 a month, to mow the park and just mow where the church Park was, but that included the little spot next to that that was additional. So was \$359 to mow everything. Mayor O'Hare said each week.

AJ said, I assume. So. It can't be a month. No.

LuAnn said how often does it have to move on every week or every week?

Mayor O'Hare Every week.

Jim said It's not hard to ask them if they will give us more money, all They can say is no.

Mayor O'Hare said yeah, How do we go about that? Do I need to call them?

AJ said, cuz if you decide you didn't want to do it, the church would be paying these guys to mow for that.

Mayor O'Hare said they trimmed the church because when I was doing the mowing we did it on the same pretty much on the same day Thursdays, they got four guys out there they got two guys trimming two guys on mowers and I go around and edge and trim and the other two are mowing.

Jim said It doesn't take them very long.

Mayor O'Hare said No because they have stand-up mowers.

AJ said If you did it for five months. That's \$5,700 is what it would cost just to mow the park. If they were to do it at

Jim said, So we're losing money.

LuAnn asked are they out of Tremonton AJ?

AJ said you can use those numbers to try to negotiate with the church.

Tammie said we would just like to present them with the new contract for this amount.

Mayor O'Hare said we have 60 hours for the park, and I mean the park and the church's side.

Tammie said, Yeah, that's just something that the other council members put together because they were having problems.

Mayor O'Hare said, well, no, no, no.

Tammie said you can't pay an hour. You just can't.

Mayor O'Hare said right, at 60 hours a week that comes to \$900 to do both parcels a month. So we do five months, right? That'd be \$4500 hours. We do May, June, July, August, September. So \$4500 is what we get from the church, and that's what it's going to cost us next season.

LuAnn said if everything goes well.

Mayor O'Hare said I think we should probably up or at least make a proposal to charge \$5000 since the price of fuel has gone up. Tammie said we can have it written out for the next council meeting.

Mayor O'Hare, we have till next May. We don't have to do it right away.

What do you guys think? \$5,000 is a good starting point. Ladies,

LuAnn said, I think you start a little bit higher. I plan on negotiating up to \$4,500 Now, so tell him you want \$5,700. Then you can negotiate down a little bit.

AJ said the thing that they don't really understand, is that's what they're gonna pay, they're gonna pay somebody \$5,7000 not to do it if you don't want to do it. Tammie said I was just going to add the water that you take, like irrigation, that's on the church's side, too.

LuAnn said it takes hours and somebody that takes time to do that.

LuAnn said, obviously I am with AJ, let's start at \$6,000.

Mayor O'Hare said well, actually we're not out of anything if you think about it, because then they'll just get somebody else to do it. And then it's off our hands. And we just have our part to do.

Jim said I think we should negotiate with them.

LuAnn said I bet they go for it.

Mayor O'Hare said, just do it for \$6,000 then Stacey.

LuAnn said I think that's good.

Tammie said, yeah, you also have to take into consideration the wear and tear on the equipment.

Mayor O'Hare said we gotta vote on this. On the 60 and 60 hours.

LuAnn said I make a motion to divide the hours 60 hours with Cemetery 60 hours for the Park for maintenance. Jim Beagley Seconded it.

Mayor O'Hare said I have a motion to change the hours to 60 and 60 for the Park and Cemetery. Do I have a second?

Jim said what was in before?

Mayor O'Hare said it was 80 for the Park and 40 for the Cemetery.

LuAnn said, You really can't do it in 60 hours, but it will have to work.

Mayor O'Hare said, yeah, we have 120 hours between the two. If the church decides they don't want to do that with us, then we will be able to take some hours from the Park, we can see next year, take some hours, maybe another 20 hours for the Park, and swap it 80 for the Cemetery, 40 for the park because isn't going to take that long because it's so small. You will not have that big two-acre field or whatever it is.

LuAnn asked how many graves there are 600 or 602. That they have to trim around.

Mayor O'Hare said, So we've got Luann made a motion for 60-60. Do I have a second?" Heather second it all in favor? Any opposed?

Mayor O'Hare said okay, so 6060 for right now.

Mayor O'Hare said, the budget for the Christmas party for this year.

\$500 did that cover everything? Heather said, No, no.

So we want to up the budget for the Christmas party for the council.

Heather said, another thing was we kind of fit everybody in this room.

Mayor O'Hare said, so you want to go ahead and tell them your discussion with the Fire Chief.

Heather said, Jed actually mentioned that we could probably use the Fire Department and he would push the trucks out. So that would give us more room. I still haven't gone over and looked at it. We had zero room, with a big turnout. It seems to continue to keep growing.

Rod asked what we were doing. Will you be doing the cookie decorating again?

Mayor O'Hare said, so the last couple of years we've done cookie decorating and a Santa Claus, and hot chocolate.

Heather said we did cupcakes. We did a bunch of stuff. What else do we do? Some people are asking if we can do it like a pizza Santa Claus thing or something like that, but I don't know.

LuAnn asked if they wanted to pay now. We'll be happy to do that.

Jim asked so last year, were there enough cookies or was there a lot of extra?

Mayor O'Hare said we had half a box left of cookies.

Heather said, we actually brought our cookies from the cookie store, the Crumble. Yeah, we bought a bunch of our own stuff.

LuAnn said you shouldn't have to do that.

Mayor O'Hare said so those ones are all decorated up there. And then we had decorated cooking decorations that we got from the kids. I think that was \$100. But right around \$100 from Kent's decorations. Yeah, that's the next one on the agenda of Santa Claus we had last year. We went ahead and booked him for this year. We told him it was on hold right now until we had our town council meeting.

Tammie said, That's really sad. And somebody your age is playing Santa Claus.

Mayor O'Hare asked Heather what date, and Heather said, it was December 2.

Mayor O'Hare said it will be the first Saturday of December at 6 p.m. He's available. So on December 2 at 6 p.m., his fee went up to \$150. We paid him \$100 bucks last year. But he was at the last minute and he was able to fill that. So he did it. But he is now with gas and everything. He has to up it to \$150 which isn't bad because that's what we used to pay to Santa Claus anyway, which was \$150. Always.

Rod said the only thing that I heard is the church is going to have their Christmas party on the first of December the first or second or something like that. So are they doing that Saturday too? Yeah. So I think we need to find that out too.

Mayor O'Hare said well, the problem we have is that's the only day we can do it with Santa Claus because he's booked the other weekends.

Tammie asked, so it's December second, a Friday or Saturday? Usually, the ward party is on the 1st of December.

AJ said, heard the first.

Rod said okay, there we go.

AJ said, but that doesn't mean anything, I want to hear

Tammie say someone counsel would know.

Rod said I am in the ward counsel.

LuAnn said, Usually never on a Saturday, cuz then we have to have it all cleaned up. So it's always on a Friday.

Tammie said we should be good.

Rod said that'd be fine.

Mayor O'Hare, so is the council okay with the \$50 for Santa Claus going to \$150?

Rod asked, does that take away from the cookies?

Mayor O'Hare said, well, there'll be \$350 left for decorations, and unless we increase the budget for the Christmas party. Yes, we will have another \$219 because Heather's donating the payment that she gets for being on the Town Council. She's turning around and donating back to the Christmas party. So that'll be another \$200 so \$719 will be the budget that we'll have for this year. That's counting the money that you get paid from the town council that donate back to the Christmas party.

Tammie said if you want to make it bigger, and then take some from Easter if you want to kind of divide it differently. If you want to make one better than the other.

Mayor O'Hare said, well, I always think Christmas should be that you know, that's well besides the Fourth of July, and we spent a lot of money on the Fourth of July. But that's because we're feeding everybody. Most are and then the fireworks are, you know, \$2000 and all that. Then if we find that we're getting low, we'll just have to contact us to counsel and see if we need to pull from somewhere. So \$719 is what we'll have. Santa for Christmas. You can go ahead and confirm Santa Heather.

Heather said, Already did.

Tammie said we confirmed that December 1 is the ward party.

Mayor O'Hare said, okay. The last one on the agenda is somebody living in the trailer by Webb's house. I found out that was the father-in-law. And he's just staying there for a few days. So he's not, he comes up every now and then he lives in that trailer, his little white trucks out there. And then he goes home. It is Jeremy Webb's, Dad. So he's within his rights to do that. I forgot to add this, but that's okay. Is there a way that we can put the so I was told that the water bill when it goes out that the town's phone number is not on it?

Stacey said, Oh, yes. I heard about that.

Mayor O'Hare asked Is there a way we can add that to the town? Okay, thank you. AJ said were you the bitches post Stacey the other day?

Mayor O'Hare said It'll be the last time.

Stacey said Exactly.

Mayor O'Hare said That's what I told him. When I was on the phone with him. I said, Well, let me tell you something. There's this thing called Google. If you go to Google and type in Snowville Town Hall, it'll show you the address and the phone number. I told him on the phone that and I was like I'm not trying to be sarcastic but in a way, it was, cuz he was very rude. Stacey said He told me that he didn't want to drive 140 miles to straighten out his water bill again.

LuAnn said, then stay home. Pay your bills, stay home.

Stacey said I told him why do you call me?

AJ said I am not sure how he got my phone number and Scott's phone number.

Mayor O'Hare said, know that's what you're supposed to do, my phone numbers for whoever needs to. But that's the other thing I did tell the gentleman so the council knows that the next time he comes up here and starts being aggressive towards any staff that is here, the staff has been informed to ask them to leave and call the sheriff deputies in the sheriff's deputies can come and take care of talk to us talk to his concerns.

Stacey was here and nobody needs to be talked to that way. You know, even if he's had four months that he said of bad bills and all this you still don't need to talk to people that way. So I explained that to him.

Mayor O'Hare said, the next one is Eddington's not here again, I think that we did get July stats.

Stacey said that July's stats.

Mayor O'Hare said we didn't get anything for today.

Stacey said, No.

Mayor O'Hare said, Well, Eric did get back to me. He said no update on the curb and gutter yet. So there's no update on that yet. So we'll excuse him as well.

Jed Pugsley is being excused; he's had another engagement this evening open burn October 1.

Stacey said He t texted me today and he said that was the wrong date. The dates are open September 15th. The first is September 15th Through October 30th

LuAnn asked if those are open burn days.

Mayor O'Hare said anybody who does open burn has to contact Jed to get a burn permit.

Jim said, if it is open burn day let's burn some stuff out there on the other side of the freeway.

Mayor O'Hare said, You mean you talk about the property we have over on the south side of the freeway? Let's do it. Let's see if the fire department wants to do some burn training.

LuAnn said, are they gonna burn down that house over there? That one that you know is the one between the two houses?

Jim said, should be.

Mayor O'Hare asked what house?

LuAnn said, between the house on the corner

Mayor O'Hare said, what corner is the one across from Vit's, on the west side?

LuAnn said the one with all the windows busted out. I thought that was already set up to be burned as a practice fire

Mayor O'Hare said, I don't know. I would get with the Fire Department if they wanted to go up there and burn.

Jim said I don't think the county is going to be out here checking up on us. Well, it's open burn

Mayor O'Hare said, we didn't say anything about we couldn't burn. Right. They just said we can't take in anything else.

LuAnn asked what do we have to burn? Do you mean the landfill?

Mayor O'Hare said, they just shut it down for receiving anything else. They never said anything in that letter. We couldn't burn our stuff that's there. I say burn.

Tammie asked what was the reason.

Rod said because we're not a transfer station.

Jim said, "We don't have a permit.

Tammie said We don't have a permit. They've had it inspected. A lot of time. Nobody has said that.

Jim said the last time anything was discussed about a permit was 2003, and apparently the town fell through about getting it permitted at that time. So there's nothing on record.

LuAnn said they would just throw it on the road, there would be all kinds of garbage lying all over everywhere.

Mayor O'Hare asked Snowville EMS, did they had contacted you guys. They're not here tonight as well.

Stacey said, Actually Dave did he said he won't be there because he's in Malad cutting barley. I asked him if he had anything for the council. He said, Tell him I'm bad at doing my job. I said you're not getting off that easy. Then he said to the next part of the text he says I don't have anything to report.

Tammie said I don't have anything.

Mayor O'Hare said, Treasurer.

Stacey said, well, I forgot the little thank you note for Mr. Bunderson. Sorry about that. Scott, you have to sign this. This is for the elections and it needs to go back to the Marla.

Mayor O'Hare asked do we have the account payables for this month.

Stacey said, so then I'll give you a sign that I'll send that back to Marla.

Tammie said we usually don't ever end up using them because we don't have an election, just in case. You have a contract with them. Mayor

O'Hare said Okay no worries.

Stacey said, I'll give you a Thank you note to sign at the next council. So the reason I put in the delinquent water customers. We have a gentleman that just up the road on the east, he and his wife had been put in a nursing home. So the water bill has not been paid. I talked to the neighbors. They were going to talk to the family and see if they could give them their number. Because she didn't want to get the number out. That's fine. I am here on Mondays, but we need to get it taken care of. I mean, he always used to pay, and so it's really outrageous. And can I say the name?

Mayor O'Hare, I wouldn't know.

Stacey said, Okay. Anyway, it's up there. I talked to AJ about it too. I don't know, we put a lien against their property if they sell it?

Tammie said you can send it to collections.

Mayor O'Hare said, but how much are we talking about?

Stacey said it's probably around \$300. Now, but it's just gonna keep adding. I'm trying to get a hold of the family member. But the lady, the neighbor that I talked to said that the families said that it's going to go to the state anyway to take care of the bills for the nursing home. So I don't know what you guys want to do about that.

Mayor O'Hare said, So there's nobody living on the property right now?

AJ said It's actually turned off.

Mayor O'Hare said So the water is turned off. So they're not, while they won't be using anything anyway, nobody's there.

Stacey said, it's in the county, so it's just \$37 every month, but it's accruing. So I didn't know what you guys wanted to do.

AJ said It's just become so delinquent that they lose their connection. And the next person that buys that's got to buy a new connection.

Stacey said I've got all the bills back, I have the stack of everything that came back to me from the mail.

Tammie said, I think we just need to go through the process, like AJ said, you send them a letter, you got to keep all that documentation. And then when they do sell the house, somebody has to pay \$3,500, and how much is that? LuAnn asked how much it is every month that they are delinquent.

Tammie said It's \$37.00 dollars.

Mayor O'Hare said I think a late fee is like \$1 or something.

Tammie said I don't know, that's because you have to treat everyone fairly. And that you would treat someone else you know,

Jim said, the only way it's going to get paid is if you put a lean against it.

AJ said, If you do, let it go delinquent, and you take the meter away, pull the meter out. You can't collect on funds, but a new owner, could buy a new meter to put back in there, but you can't collect the funds from the previous owners.

Tammie said you would have to send that to collections.

AJ said it's not like they would have to pay the back bill to get it for you got that connector. That's not the way it works, right? You would have to get the money out of them one way or another even if there wasn't a connection.

Jim asked what have you done in the past?

Stacey said, That's, hasn't come up.

Tammie said, so I'm just thinking of it as another utility like power. I'm sure they're getting bills, and now that the power is probably shut off, I'm guessing.

Mayor O'Hare said, But when the power shuts off, they don't accumulate any more bills.

Tammie said, That's true, and it's in our ordinance.

Mayor O'Hare said, unless they turn off the water unless they say I no longer need water.

AJ said, It doesn't matter whether you have the connection, you're paying \$37 every month. Even if it's shut off.

Mayor O'Hare said if the person is moving,

AJ said, it doesn't matter because that's the only way you can upkeep your system, so I could say my connection up the road up here. I only use it three months out a year so I'll just turn it off and off to pay. But you can maintain your system.

Tammie said we do have people that are paying for or, like the house on the corner across from Branches, the Buckingham house and he still has a water connection. And he pays \$37 A month to actually pay for garbage. Yep. Even though he doesn't use it, yeah, \$64 a month

AJ said, that bill goes away if you take the meter out and they no longer have a meter, and the next group will have to put it back again. That's the way it's set up right now, which is really the only way.

Mayor O'Hare said, So when they sell the property, then the new owner has to come in and set up the water there.

AJ said, yeah, they have to just build a new billing. It's not like they have to get a new meter.

Stacey said they wouldn't pay the previous bill.

Mayor O'Hare said, I know that because they weren't responsible for whoever was selling that home.

Tammie said the buyer should know that There's no water right now. It's gonna cost you \$3,500 to get the water turned on.

AJ said It's a unique situation, with them anyway.

Mayor O'Hare said I would just say continue trying to get a hold of the family, and then see what happens next month.

Stacey said that she would talk to the neighbor again.

Mayor O'Hare said they've already got their bill for this month. Stacey said, actually, I didn't send it because it came back to me in the mail, they don't have a mailbox anymore.

Mayor O'Hare said, so they have no forwarding address. But you're still printing out their bill though, right? Stacey said Yeah.

Mayor O'Hare said, okay, has anybody else got a question for the Treasury?

AJ, the floor is yours, so months ago, I talked to you about a cross-connection guy, somebody's got to be trained to be cross-connection. Well, that time is quickly approaching, it has to be done by October, or

maybe it's September, I don't know. But anyway, our best alternative right now is I've talked to Nate Spackman, who was certified. He's on the Deweyville town council Plus, he serves as their water operator. And he's certified. He said he would do it for us, in theory, to keep the state happy. So we can be in compliance with that. But we're gonna have to pay him to do that. And my thoughts are, we pay him \$100 a month to be the cross-connection specialist if that's just to be the guy. And if he asked to come and do anything, we ought to probably pay his mileage to come and do it. He works for the school district. So he's always out here anyway, at the school, he is the maintenance person. So he would probably be good about it. But he said he would do it for us if that's what you guys want to do because as of right now, we have nobody trained. And we can still do something in the future. But as of right now to be in compliance, I think that's the best option.

LuAnn said That's a good idea.

Well, and then also, it takes the training off of Snowville Town, which costs money, and to keep them certified, and all that.

LuAnn asked what is the cross-connection.

AJ said It's a whole new thing that this division of drinking water is implied. It's just, don't get me started.

LuAnn asked if he was willing to do it.

AJ said, When comes to the next thing, too, we had a sanitation survey, and the Cole Smith guy, he was out and I was talking to him about that cross connection. And he says, actually, that wasn't thought out very well for small water systems, how they were going to implement and do that because it's just an added expense to a small water system that doesn't have a lot of new connections and a lot of things that's got to go on. So anyway.

LuAnn asked if Nate was good with 100 bucks.

AJ said, I didn't tell him the price, but I'm sure he would be. If he has a problem with that. I'll let you know. But I don't assume that he would have an issue with it. So if you guys are okay with that, I will get with him. And so we can have him added to the division of drinking water on our record, so we're in compliance.

Jim said, Sounds good to me. Rod also said Yes.

Mayor O'Hare asked Heather and LuAnn if they were okay with having Nate Spackman be our cross-connection person. They both said Yes.

Rod asked does he come and do anything for it.

AJ said I think there could be a lot to it. But as he said in Deweyville, they have done nothing with it. It's, just kind of, in theory, a type of thing. I don't know what it really entails because I haven't gone and taken the course or what their intel on what they want to do. So that's the best answer I can give you. And if we have somebody in the town that wants to go and do that, we can send him to St. George, when I go in February they can take the course. And the town can have their own dude, I just don't want to do it. I just don't want one more thing to do.

Mayor O'Hare asked, what about Scott Page, your other guy for the water? Right? Was there something he might want to do?

AJ said, I doubt it, he doesn't want to be the water operator, he's doing it because I asked him to do it. It's not because he wants to.

AJ said he's gone Saturday now in Salt Lake all week.

Mayor O'Hare asked if you're saying this is something that's right now is basically just a title.

AJ said, I mean, but that's what I kind of call it. I'm sure stuff that needs to be done. And I'll have to get more information from Nate, but on exactly what he has to do. And so that way, you don't have an option, you have to be in compliance with the State.

Mayor O'Hare said so this is something we need to have a position now.

AJ said, yes he needs to be on the books, at least, for the town purposes, or we started getting points against us.

Mayor O'Hare Gotcha. AJ said That's our water rating.

Jim said, what if we put them on that? And we've come up with someone that wants to go through the course.

AJ said that's fine. I don't think he would care. We would just have notes. For your services. Yeah. So he is. I don't think many of the towns want to do it. Knock yourself out, if you know of anybody who wants to go do it.

Mayor O'Hare said. Go ahead and talk to Nate and let him know.

Tammie said, officially put him on and the amount whatever you guys decide on the agenda for next month to visually talk to him.

AJ said the Brett Reeder thing is kind of in limbo. We talked about that last time about the connection. Nope, nothing has been done with it. He hasn't contacted me. And I kind of got it from Eric. Eric doesn't think we got enough water supply out there anyway, so I haven't pursued it, because I don't know if it's gonna work anyway.

LuAnn said, wasn't a bigger thing than what he was saying.

AJ said, well, I don't really know.

LuAnn said That's what I've heard.

AJ said, I know, it'd be I don't know. But that's kind of a dead issue. And all their Sanitation Surveys, we had that sort of Division of Drinking Water. That was what they do, they do that Thursday, last Thursday, we fell short in a couple of areas. One of them is at the tanks, two overflows eight-inch pipes that come out and come out of the ground, there has to be 12 to 24 inches of draw off the ends of those times. God only knows why for the last 80 years. That's the way they've been. Nobody's ever written anything up. But this guy gave us a violation for that. So I don't know if we can dig it by hand because it's in that bedrock up there. So we may have to get Traco to go dig around those two drains to be in compliance as to be done within 120 days. So I'm just letting you know, I've got to do some with that. And then just some screens that had to be replaced. But other than that, we did pretty well on that.

Tammie asked how often is that survey. AJ said once a year is every year.

AJ said, It's once a year, and the reason they say it's different is there's like nine of them that do it throughout the state of Utah. And they pretty much it's a different one every time so this Cole guy's never been here. And I asked him about us. That's the dumbest thing ever. And it's been here eight years, and he's like we'll do for an instructor's picked up different things for you.

Mayor O'Hare asked what about the gentleman we had an issue with last week. Did you talk to a master meter?

AJ said, I haven't talked to him, but on the town side that's been resolved. We've got that figured out as far as his meter.

Mayor O'Hare asked, was there a problem with it?

AJ said the meters were fine, it was being put in the computer for the billing part of it and were not 100% Correct.

Mayor O'Hare asked So is his bill \$118 this month?

Tammie said it'll be \$37. AJ said he is not using enough water. So it's just the base rate.

Mayor O'Hare said, so he's not hitting his 10,000 gallons. Okay. So you've talked, have you guys talked to him? Do I need to call him back to follow up with him?

Stacey said that Jennifer came in and gave me the money. I don't know how much it is.

AJ said I don't know if you even need to call him.

Mayor O'Hare said, well I told him I would follow up with them after the meeting. And I want to make sure that somebody follows up with them. And I'm fine calling.

AJ said, I just sent him a new bill.

Mayor O'Hare said he'll pay the bill he's got now. I've already told him not to pay until we figure out what happened. So tell him to trash it.

Tammie said, well he'll just get confused. Because it's a two-inch meter, not a one-inch.

Mayor O'Hare said I explained that to him already. I said what we were thinking because the meter may be reading one zero too much, So I did explain that to him.

AJ said It's all about the zeros on the end of the reader. So that's been resolved.

Mayor O'Hare said you're gonna send a new bill for \$37.

Tammie said, But he'll last month and this month, so you owe 74.

Stacey said I have some money in the office. But I don't know how much it is.

Mayor O'Hare said, when I talked to him again, because they called me back. They said she brought cash in.

Stacey said, No, she did not bring cash in. Let me tell you that story. So it was last night. And so she texted me, and the daughter-in-law texted me. And she said she says I'm going to drop some money off. And I said, Okay, well, I'm down here. And so I talked to her for a minute. And she actually went and looked through her car to see if I had a handwritten receipt, because I always when people bring me cash, if I always handwrite my receipt, put it in the mail. So you have a receipt. Okay, well, she could not find that receipt. And I said because you didn't send me any cash. And so she brought me, I think there's a check in there. If you want me to go look up, I can go. Anyway, it was her bad and not my bad. And I kept telling him that it was her bad and not my bad. And he was like, well, she doesn't do that. And I said, Well, she did because I don't have your money. So yeah. Mayor O'Hare said they owe for last month and this month. So their bill right now is \$74 is what they need to be up to be current. Tammie said that they pay some that does not apply to that. Mayor O'Hare said But you're sending out a new bill for 37. Stacey said Yes.

Mayor O'Hare said, so I'm just gonna tell him that you're gonna get a new bill for \$37, throw that old bill away, and it's been taken care of, perfect.

Mayor O'Hare said, anything else? AJ, thank you for everything that you continue to do. It gives me a headache. Just remember,

AJ said I just ignore phone calls. If I want to answer.

Mayor O'Hare asked Councilmember McGary, Rod said that he was good for this month. Okay.

Mayor O'Hare asked Councilmember Beagley.

Okay, I got some thoughts on this land deal, in which you can't go to the landfill for a transfer station. There's a reason why they're complaining because that's the County. If we have something in town, they don't have to say so. Someone made a suggestion to me here just recently. What if we put a gate or a fence behind that building there?

Mayor O'Hare said The Fire Station?

Jim said, Yeah, with a gate. And we put a dumpster there. The county can't say anything.

Mayor O'Hare said, So like you're talking about a Rupp's dumpster like we have out there?

And people can dump it there.

Jim said, Yeah, they'll have to contact me to let him in there and stuff like that. Okay. We can eliminate the dumpster out there. Eliminate the metal out there. And we'll the trees, maybe I should say it's a lot. But anyway, bring that out there. And you don't have anything to complain about.

LuAnn asked so what would we take at this new dump site?

Jim said we would just take the trash like before we're not garbage. You don't want to put garbage in the garbage just because it'll start smelling

LuAnn said what about trees.

Mayor O'Hare said, No trees can still go out there to put out there. Jim said because it won't be a transfer station and won't be a transfer station to burn stuff.

Mayor O'Hare asked, But this would be a transfer station. that they would consider that transfer station, Jim said they can't call a transfer station, which is a dumpster on private property.

Mayor O'Hare said that we're still paying out of the town funds zone.

Jim said It's your town or community.

Tammie said, I think as long as I don't know, maybe ask the lawyer for sure.

Jim said then that gets him off our back. We don't have to ever worry about it again.

LuAnn asked, so you take like couches.

Jim said, Now I wouldn't put the couches in the dumpster, I would have the same policy I have now. The couches definitely put off this side. And they'll be taken to that landfill when we get enough couches and stuff in a trailer or whatever. But we'll just put smaller stuff in there. So we'll fill up that dumpster.

Mayor O'Hare said we would have to put a fence around it or high enough to where they couldn't get in, or throw stuff over.

Jim said I put a six-foot fence right. And I see chain link fences on KSL for free all the time. And during the winter, I could accumulate a chain link fence and maybe a big gate, so it won't cost that much. We can put it in next spring. I'm all about saving.

Mayor O'Hare said, and this would alleviate having to have a permit or anything like that, then the county.

Jim said that she used to have a dumpster business right here. Mollie's, no one ever says anything to her.

Stacey said, There's one over to the Sinclair and we have one at the Flying J.

Jim said, the county can't even say one thing to us.

Stacey asked I thought it was the State.

Mayor O'Hare and Jim said no it's the county.

LuAnn asked if we ever got the fence fixed over behind, Jackie's on the side.

Mayor O'Hare said No, I forgot to put that on the agenda for tonight, we can talk about it. But we just can't vote on anything.

LuAnn said, Can we fix it?

Jim said, No. Well, it's done with commercial products.

Mayor O'Hare said, So let me put that down here.

Jim said the lawyer could have a dumpster on city property without a permit.

Mayor O'Hare said I'll ask Molgard about that when I talk to him about the bill.

Tammie asked about charging people that might be a problem.

Jim said They don't need to know about that.

Tammie said, me and Stacey can go to jail. We are not doing that.

LuAnn said, for sure we'd have to charge no matter what.

Jim said, Yes, we will still charge.

LuAnn said, How are we going to do that? Oh, we did, we ever decide. We haven't really.

Mayor O'Hare said, we kind of put it on hold when they closed down that landfill. I think that's a good idea to get rid of that down there and put it over here.

Jim said we'll still put GreenWaste out there and burn it once a year.

Mayor O'Hare said we have Rupps come and pick up their dumpster out there and take it and bring us another one over here.

Jim said, wait because we're really not going to use a dumpster or use the landfill. Now I had that one person call last night. I told them that it was close.

Mayor O'Hare said I had one person call me today. I sent them your way. Maria. She wanted to use it.

Jim told AJ Thank you for the suggestion.

Mayor O'Hare said Okay. Anything else for us? Okay.

Councilmember Johnson, do you have anything for the council? No.

Councilmember O'Hare? Nothing.

Mayor O'Hare said, So before we go to public comment, let me do a couple of things here. I forgot to touch on it. I talked to Scott Lyons with Box Elder County about getting the application for the Mayor's Association to request the \$240,000 or \$250,000 to fix this bridge. As of right now. The application process for the end of this year's deadline was September 1. So our next deadline is the next deadline which is fine because they can't do anything now. The next deadline is in March so he's gonna get it to me as soon as he gets it. I'm gonna get up with Luann and we're gonna go over getting this thing filled out and getting it so we can send over 20 million to him. So no, we only need our portion of \$240,000. The other thing was he told me that he says well, and then they've already got applications in for this next one. And one of them is from Mantua. And then I questioned I'm like, wait a minute, we just awarded Mantua away like, Well, as far as the Mayor's \$300 thousand dollars for a project. Now they're going for more money for another project. Like Well, that doesn't sound too fair. What about these other people you know, that need money, these other towns? He says Well, we talked about that last meeting you weren't there, though we talked about it, but this next meeting is coming up in November. I'm gonna go gotta make sure I'm there for it. Or October, Yeah. I had to make sure I was there. So I'll be home for that. I'll just tell you about my job. I've got to be home. And I'll go to that meeting because then I can stick my piece on. Because I don't think it's fair for a town to come and ask the Mayor's Association for \$300 thousand. I mean, we awarded over almost \$2 million that last time. Well, we did, we agreed on it, but then it goes to the county commissioners, and then they approve it. But I don't think it's fair for like,

we'll just use the Town of Mantua as an example, Mantua comes in one quarter and gets \$197,000 I think it was what it was. I've got it right here. But anyway, and then the next quarter, when its money has been able to come back out again, they get more money for another project. And this town doesn't because they need money for a project. I think we need to restructure how that works. And that's my two cents on it. I don't think it was well, that's, I kind of agree with you on that. But that is your guy's thing I think it should be now we did get \$75,000 for the light. You know, we did get the money to do that. But that was two years ago, three years ago. I think it should be a quarter. I mean a yearly thing that if a town gets money, because there's two accounts one for big cities like Tremonton, Brigham City and all that, and then there's another account for smaller towns like Mantua, Snowville, Perry or not Perry, Willard, Elwood, Corinne

.

LuAnn asked if we have to still get the grant.

Mayor O'Hare said "If we can get the money from the Mayor's Association, we don't need to even go after the grant for money for that we can go after the grant for something else, which we should. But the thing with the Mayor's Association is we have to add lights over there. We have to go to the Mayor's Association, we have to get this application, and we have to fill it out. And then it's awarded by points and you've got to get so many points to even be eligible for it. So we'll get full points on the emergency because I told him I said Well, this is an emergency we're getting ready to be condemned. And then I also want to ask the counselor. Okay, I want to go and talk to the county roads. The guy that I can't remember his name, it can be you county roads guys that came and helped us with our so he might know more about this road that flooded up here. And they've got and then we got that little 36-inch pipe that all the stuff was going through, right? That road is no different than this road. It's a drain of water. But I mean the road itself? No. Because the road guy told me that he could get us these eight-foot culverts cement out here for like 50-something \$1,000. That's right. And they would have a county witness put it in and repave it. So and that's taken by big trucks. There's no weight limit on that, LuAnn said, that it's a state road.

Mayor O'Hare said. Yeah, but why can't the state do the same thing that we'd have on a county road?

LuAnn said They won't. Rebecca Nicks told me that won't fly. We can't do it that way. It has to be designed as a State Road bridge. And there's only certain things.

Mayor O'Hare said Right there. That's to me. That's a waste of money.

Tammie agreed but they have that money you're tagged.

Mayor O'Hare said, But that's Oh my gosh.

AJ said the interstate from here to Twin Falls is all that there are culverts underneath the road on interstate and I-84.

Mayor O'Hare said Yeah, We have one down heading into town.

LuAnn said, I asked her specifically, and we had a conversation about that specifically. And she said, No, we can't do it that way.

Stacey said It's in the minutes.

Mayor O'Hare said, I know that. But there's got to be something we can do. Because personally, I think it's a bunch of BS. You know, I know that they want to spend \$3.7 million on this. That's what they're saying. And they want to hire all of these engineers and give them all this money. That's to me, that's it. That's a waste of taxpayer dollars because that's taxpayer dollars.

Rod said, Your alternative is let them condemn

Mayor O'Hare said to condemn it. What if I were to accept the council, go try to take it higher, try to go higher with it, whatever?

LuAnn said would we talk to see if we can get around that somehow?

Mayor O'Hare said Well, I could get a hold of Perry or what's our other senator's name.

Rod said Who's the representative that came out here?

Mayor O'Hare said He's with Carry out of Idaho. But he's on his staff. I can give him a call.

Rod said, Yeah, he said we'll help you with infrastructure. \

Mayor O'Hare said his name is Chandler Bueller, Northern Utah director Senator Mitt Romney. I will call him again. He's not but he's still got a couple more years ago Right? Yeah. What about our other senators?

Mike Lee, if he doesn't end up in jail, might have left. Oh, I'm pressing him on that election thing because he spoke out so he might end up in trouble. Who did what? He spoke out about the election with President Trump.

Stacey said, Just another thing on Potter's Hollow. There is a hole up there. Klane showed me the other day. I totally forgot. So it's on the side. And you can see there's a hole.

Mayor O'Hare said it is on the West Side. Was it collapsed? What they're supposed to asphalt. We're supposed to have the County come out and fix it permanently.

AJ said I know exactly where she's talking about, that it looks like where the culvert had a hole in it that the gravel is falling through the hole.

LuAnn said the county.

Mayor O'Hare said we need to call the County Guy.

AJ said they would put a two-by-four on top of it and dump more gravel on the finish on our road.

LuAnn said the road guys came out to do that. They got the one that was where your guys' place was by the dairy to the Cemetery they did that but I think it looks kind of half-assed because all they did was put some asphalt and then throw some rocks on it. Oh, am I wrong? They put oil and oil drops they didn't like into the asphalt so it sealed in and was good. It was that different guy. It was a different guy. We talked too.

Rod said and they still miss places.

Mayor O'Hare said I've got those are the people numbers I have. Can't remember the guy was Darren McFarland, Gordon Young, Bill Gibson.

Stacey said I think we're still there. That sounds familiar.

LuAnn said, Okay, anyway, Brent talked. And he wrote down all the addresses, and then we were gone that day to a ballgame or something. And they came out and did it. They really did a crappy job. I think he did a crappy job. When I looked at it, I was like, this is all they did is throw some oil and rocks on it.

Rod said, Yep. That's not a fix. And they missed it.

Mayor O'Hare said That's not a fix. That's just a band-aid. That's all they did.

LuAnn said that she had Brent talk to them and say we'd be back out. And then Brent was being taken to the other spots that needed that.
Mayor O'Hare said where do we need to call them for this? Potter Hollow?
Stacey said to call Gordon Young
Mayor O'Hare said Gordon Young. I will call him in the morning.
LuAnn said it wasn't Gordon McFarlane.

Mayor O'Hare said no Gordon Young, do you want to call them you are over roads. I'm sorry, I'm going to let you take care of it. Stephen and Gordon Young are 435-230-4306. And then there's Darren McFarlane. And his number is 435-230-4277.

So I'll get that application in. And me and LuAnn will start working on it to get it so we can present it in March. Well, we can turn it in as soon as it's done. So we'll do that.

LuAnn asked where the hole was on the west side, and right in the middle.

AJ said Exactly where the culverts that you can see in its black right yes, right at the edge of the asphalt. It's pretty easy to say and then

Mayor O'Hare said we've got a speed limit sign that's been knocked over Heather where was it again? It's right there at 800

Heather said, right when you go down on the revenue turn to go down towards the Morgan farm. Or sorry, OSI Vineyard.

Rod said the Stop sign by the RV park is still gone.

LuAnn said we just fixed that.

Mayor O'Hare said Where did that one go? What do we do with that? Oh, it's still over here. We needed to get the stop sign put up on Cemetery Road and Main Street. We haven't put it back up yet. Still found it set right out here.

Stacey said, That's never been put up on Cemetery Road

Mayor O'Hare said, Cemetery Road

Stacey said we found it a few months ago.

Mayor O'Hare So this was when those kids took it and stole it.

Stacey, we found it and we brought it to Tim.

Mayor O'Hare said, No, no, no, no, no, they threw it out at the what's their names? At the RV park, she called me. At Sabrina Burmester's yard, they

threw it through the stop sign out of their car and to the people that kids had stolen and then came through town. I picked up the stop sign and put it out here and I completely spaced it. We need to get done.

That stop sign has been tagged by someone by Wilma Neal's.

Mayor O'Hare asked which one was by Wilma Neal's.

Jim said Across the street from Brent and LuAnn's.

Mayor O'Hare said underneath the freeway.

AJ said that's probably been that way for at least a year.

LuAnn said So who replaces the signs?

Mayor O'Hare said, No, that was ours. Because it's on the north side of the freeway, you can tell them we got a couple of signs down. Because I know Keith moved one of our signs.

Mayor O'Hare said okay, public comments.

Stacey said I just have one. Do you want Klane to mow the sides of the roads again?

LuAnn said Some are really tall.

Mayor O'Hare Yes. That's public comment. So yeah, I would think we'd get the streets mowed one more time before the end of September.

Stacey said the weeds have grown really tall with all the rain.

Mayor O'Hare said, Also, there's a bunch of trash over on 800 across from where the workers are living in their trailers up against the fence. I mean, a bunch of trash. Now I'm not accusing anyone of throwing trash and doing that. It's very good because one of the dumpsters got blown over or whatever, but they need to clean it up.

AJ said I think it was that great big dumpster in there. That's the inside because it just blows straight through there.

Mayor O'Hare said They have a big dumpster.

AJ said they got a big dumpster carrying the lids up.

LuAnn said, so Ryan is the Secretary that over there is right now talk to her.

AJ said You can see from where I went into my mom and dad's old house in the driveway.

Mayor O'Hare, It's over on Tyler's Jackson property crossed over on the fence. But it blew over from there. It's because it's beer cans and beer boxes and coolers.

They better get that pick-up before Klane mows.

Mayor O'Hare asked are you gonna go talk to her?

LuAnn said yes.

Mayor O'Hare said Anybody else? Mr. Rios? Good to see you. Is everything going? We have till the end of this month and then we'll be done for the season. So we don't know any after September for free after September 30. No, no September's the end of the month at the end of September. That's it. We're done with until May until we'll start May 1st of next year. And if you want to continue doing it just stop in here, you know before next year and let Stacey or anybody know that you want to continue doing it, or call Brent or call Heather and let them know that you're still interested in doing it and if you're still interested still want to do it then we'll just continue having you do it that way then we don't have to put it out to bid or for anybody to apply for.

LuAnn asked AJ if he knew anything about draining the line and the Cemetery. AJ told LuAnn to call Scott Page because he was the one who helped Gwen turn off the Well.

Mayor O'Hare asked Jim, can you let everybody know because I did not know this? About the other powers turn on the switch for the park. Oh, I was getting ready to have Stacey call Rocky Mountain Power to get about here because there's no power to the Bowery.

Jim said, What I think happened was, when I heard about this, I just wandered over there. And just to check it out. The box down there that controls the Bowery. The first shed is where you have the lawn mower. The power kept flipping off for the 4th of July.

There's a 60-watt line or amp circuit breaker, and it didn't look like it was all pushed back, So I tripped it, I went out there and there was power.

Mayor O'Hare said, So if you go to the Bowery on the outside.

Jim said, you got a smaller box down below and you got to lift this up.

There's supposed to be a lock on that. In fact, the lock is there. But it's not locked.

Mayor O'Hare said So down at the shed was down here at the street. There's a box there it controls and it can be the main box for the Bowery box. It's inside the maintenance closet and is not the main box.

LuAnn said we found that out during the fourth of July.

Rod said that Jed said to go down and check that we went down and checked.

LuAnn said It kept flipping off.

Jim said the reason why it trips is because It is 60 watts. We need something bigger than you have six roaster ovens on at the same time.

Mayor O'Hare said so we need to try to maybe get an electrician out here to fix it for next year. We don't need to right now because it's closed.

Jim said the wire would be a candidate compatible with anything above 60 amps there.

Mayor O'Hare said well, we can have the electrician look at it and figure it out.

Jim said I would think you need to put 100 amps in there and check.

Mayor O'Hare said I was up there the other day, So Brian was up there mowing I had him look at it. He says there's just no power up here at all. I said check the breaker box. And he checked it. And he's like, Nope, none of them are tripped. Well, I'll come up there. I went up there and I spent a good hour, an hour or so up there trying to figure out

Why can't get power to this building. That I did not know that there was a box down here that Yeah, so we're learning.

Jim said, If it was me, I'd put a new lock on the box.

Mayor O'Hare said So what I'll do is I'll go look at the box and see what size lock we need. And then I'll have Heather order a new lock.

Jim said, There's one on there. It's not locked.

Mayor O'Hare said then we're going to winterize the park coming up here in October. We'll get it winterized.

Rios and Brent, we'll get that done. And with help that you'll have to watch them how they do that. So we have to winterize the cemetery so at the end of September, your last thing to do is to winterize the cemetery, get up with Brent and Heather there and it's basically flushing out all the lines in the

water lines because you guys don't have sinks or anything up there. So it's just it's just basically the sprinkler system right the irrigation system shut the world down.

Rod said and shut the well down and flush all the lines. So they don't freeze.

LuAnn said Brent was trying to get that guy out to come and show him how to flush the system. So it might be another service call.

Mayor O'Hare said Well, if they're if he's gonna do that when they will just have that guy winterize it then if he's gonna flush it anyway.

LuAnn said, right winterize it he just doesn't know how to tell him and the guy hasn't come back.

Mayor O'Hare asked if everyone had seen the expenses. Everybody signed it. I have. Do we have anything to add? Nope. Okay, if I get a motion to pay the bills to accept the expenses. LuAnn made a motion to accept the bills. Second from Rod, All in favor, Aye. Any opposed? Motion to Adjourn? Rod made the motion to Adjourn. LuAnn seconded it. All a favor to Adjourn. Okay, we are Adjourned.

Two hours 48 seconds.
