9. Mayor's Report

Mayor Hall reports the library fundraising budget is \$3500.

Lewiston is moving ahead with the Verizon contract. Site plans have been received and they look as we expected them to. Verizon is now in the process of submitting for a building permit.

The annexation paperwork was forwarded to the State. It was returned because they require County signatures on the plat. We are still waiting for Cache County to process and sign the plat. Seth Tait has talked to the county attorney, and we are stuck waiting.

Seth Tait is drafting the interlocal agreement for Lewiston to bill Cornish for their share of the garbage going to the landfill.

At the business park, the road has been completed and water has been connected and is available to all the lots. There is more interest in the remaining lots for sale. Buildings have been erected, and others are actively being built.

The chlorinator at the Griffin well is still a work in progress. The new million-gallon water tank at the Cub River Sports Park has had all the concrete poured; floor, walls, and roof are intact. Work on the pump house has begun.

The sewer project – Mayor Hall has met with DWQ and USDARD and asked if we can have our funds allocated towards a new project that could provide a long-term solution. We've applied for more grant and 0% interest money.

City Business. The city party will be on September 30th at 6:00 pm.
