Survey Results discussion: In August, the City Council and Planning & Zoning Commission sent out a survey questionnaire to full time residents of the city. The survey has been returned and the commission split up into two groups to go through and tally the results independently so that they could be verified by at least two parties. The results will be counted by the office staff at a later date. The major points are that 76% of people want to keep 1.06 acre lots and open space, the vast majority want to keep ATVs legal in town. Craig Paulsen read through some of the other figures.

General Plan Update: The commission members discussed the plan as it was presented.
