42 **DISCUSSION ABOUT JANET ST. UNDERPASS WITH BRADLEY MARSTON.**
43

44 Bradley Marston introduced himself and asked the council for their support in fixing the
45 Janet St. Underpass. His background is in risk management. Bradley Marston would
46 like to work on making Janet St. Underpass safe for all residents in Helper. He

47 suggests having an engineering analysis done on the Janet St. Underpass and forming
48 a committee to make it safe. He has concerns with the chemicals and fuels that are
49 shipped on the rails, if the structure of the underpass is compromised a derailment
50 could remove Helper from the map.

51
52 Mayor Peterman responded the State's Historic Architect came down and evaluated the
53 underpass. The hope was that we could get the underpass deemed a historic
54 landmark, and UP shut it down. When the architect evaluated the underpass he did not
55 seem concerned with the structure of the underpass. Mayor Peterman asked Bradley
56 Marston how much would an engineering analysis cost.

57
58 Bradley Marston stated an engineering analysis would cost about \$5,000 to \$8,000.
59 The analysis would be a good place to start. Then reach out to UP and see what we
60 can do in partnership with them.
