 Description of proposed grading/excavation Grading and development of parcel (utilities) in preparation for the building of the maintenance shed.

Items Required With This Application

- The grading/ site plan, showing NORTH arrow, and drawn to scale is required in all cases requiring a permit.
- Nine copies of a grading/site plan, no smaller than 11" X-17", must be submitted with this application. NOTE: If the Planning Commission cannot easily read or understand the plans, a new set may be required and the application may be delayed until the next Planning Commission meeting.

Based upon the extent of your project, the Rockville Building Inspector has determined the following information is required and must accompany your application.

- ✓ 1. Property boundaries. - Grading Plan
- ✓ 2. Amount of cut and/or fill material(s) (in cubic yards). Grading plan
- ✓ 3. Accurate predevelopment contours in no greater than two-foot (2') contour intervals. Grading plan
- ✓ 4. Post-development contours shown as solid lines. Grading plan
- NA 5. The one-hundred (100) year flood plain.
- ✓ 6. Analysis of post development drainage in and near the property.
- ✓ 7. Measures taken to minimize run-off to downstream properties.
- NA 8. Notations on all areas of thirty percent (30%) or greater grades.
- ✓ 9. Location, height and slope of all cut and fill slopes.
- ✓ 10. Engineered plans for slope stabilization if the project contains any cut or fill slopes steeper than 1.5-to-one and/or greater than four feet (4') in height.
- NA 11. Rock ledges, boulders and native vegetation within the grading limits that are to be preserved.
- ✓ 12. A note indicating that all areas that are outside of the permitted grading area are to be protected from accidental or incidental disturbance.
- NA 13. Color renderings, to scale, of any cut or fill slope over four feet (4') in height that will be visible from the Highway 9 Corridor. No
14. Other _____

Conditions of Permit

- Prior to the commencement of excavation/grading, grading limits of the permitted area must be clearly indicated by poles and flagging that extends a minimum of six (6) feet above the ground.
- If the area to be excavated/graded is located in a flood hazard area as identified by the Town Flood Plain Map, and/or is located in sensitive lands as identified by the Town's Zoning Map, no grading will be allowed until appropriate studies have been completed.
- This permit is only for work approved on the property and for the work specified on this application.
- Approval of this permit does not relieve the applicant for compliance with the Federal Endangered Species Act.

APPLICANT CERTIFICATION

I certify under penalty of perjury that this application and all information submitted as part of this application are true, complete and accurate to the best of my knowledge. I also acknowledge that I have reviewed the Rockville Land Use Code and that items and checklists contained in this application are basic and minimum requirements only, and that other requirements may be imposed that are unique to individual projects or properties. I also agree to comply with any and all applicable Town Ordinances in effect as of this date. Should any of the information or representations submitted in connection with this application be either incorrect or false, I understand that the Town may rescind any approval(s), or take any other legal or appropriate action. I also agree to allow the Planning Commission, Town Council or appointed agent(s) of the Town to enter the subject property, with reasonable notification, to make any necessary inspections. I have carefully reviewed and verified that all of the above required items have been included with this application. I have made a check mark or indicated N/A for items that do not apply, and have insured that the plans and application are complete.

Town of Rockville
Grading Plan for Maintenance Building

6. All drainage will drain from North to South on the property.
7. The drainage will drain towards a concrete wall separating the property from the Town Park which will minimize the drainage into the Park.
9. The only slopes that may be cut would be the slope on the north side of the property which are only between 3 – 4 feet in height. These slopes will be stabilized with a wall running perpendicular to DeMille Road.
12. Areas outside of the permitted grading area will be protected from disturbance with disturbance fencing.
