

August 29, 2023

To Whom It May Concern,

We are pleased to have received additional STL funding and unallocated carry-over from the previous year. In an effort to support our literacy goal of improving reading growth and proficiency, we would like to use this funding to purchase additional headphones (\$500) for literacy software and iPads (\$2,000) for progress monitoring. We hope that our amendment to our school plan will be approved.

Thank you for your consideration.

Sincerely,

Riverside Community Council
