- Dan is applying for a special grant. Glendale has critical infrastructure in the well. Lydia's Canyon well registers 100 gallons/minute.
- FEMA had a meeting last week and the mayor was instructed to mark a map for a 3–5-year study for coverts and bridges. Grant money might get a bridge repaired. Once the study is done, they will refile the map and that would alleviate the flood insurance burden for Glendale.
- Kane County applied a 1% sales tax to everything for roads. They claimed it was going to be a fuel tax.
- Construction on the sidewalk at the north end of town looks good. Intersection by Iverson's will begin.
- Dan asked for suggestions for any construction needs. The pavilion in the cemetery could be moved.
