Department of
Environmental Quality

Kimberly D. Shelley
Executive Director

DIVISION OF DRINKING WATER
Nathan Lunstad
Interim Director

PUBLIC NOTICE

The Division of Drinking Water (the Division), Utah Department of Environmental Quality, herewith publishes a Finding of No Significant Impact (FONSI) for the Wallsburg Town project, located in Wasatch County. An Environmental Report has been developed to examine potential environmental impacts associated with this project. The Environmental Report and the FONSI are available at the Division office:

Division of Drinking Water
Utah State Department of Environmental Quality
195 North 1950 West, P.O. Box 144830
Salt Lake City, Utah 84114-4830
Phone: 801-536-4200 or 801-536-0048

FINDING OF NO SIGNIFICANT IMPACT

As required by the guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed State of Utah, Division of Drinking water action below:

Project: Wallsburg Town Water System

Water System: Utah26009

Office Location: PO Box 52
Wallsburg, Utah 84082

Project Number: 3F1889

Total Estimated Cost: \$6,933,000

Funding Amounts:

DWB Loan: \$3,536,000

DWB Principal Forgiveness: \$3,397,000

The project entails replacement of an existing 100,000-gallon concrete storage tank with a new 500,000-gallon storage tank, installation of approximately 40,000 linear feet of new PVC transmission line with new valves and hydrants, and a new 8" PRV station.

An Environmental Report has been developed for this proposed project. Letters requesting comments from federal, state, and local agencies have been sent out; comments will be summarized and included in the Report. Division of Drinking Water staff have reviewed this document. Temporary and long-term environmental impacts were identified, as well as mitigating measures to minimize these impacts. The review process indicated that no significant environmental impacts would result from the proposed action. Consequently, a decision has been made to issue a FONSI.

All contractors will be required to comply with all pertinent federal, state, and local laws, regulations, and executive orders, such as Utah State Air Quality regulations R307-309. If anything is uncovered or otherwise discovered during construction of this project that may have cultural or historic significance, work must stop, and the Division and the State Historic Preservation Officer will be notified. These two agencies will investigate any such discoveries. If it appears that part of the construction work may be causing an adverse environmental impact, construction must stop, and the Division will be notified.

The FONSI will be available for review until Date: December 22, 2023. Any comments received during this comment period will be evaluated and incorporated as appropriate. There will be a public meeting on December 5, 2023, at 7:00 pm, at the Wallsburg Town Hall located at 70 West Main Canyon Road, Wallsburg, Utah, to discuss the FONSI and receive additional public comments.

Questions or comments may be directed to Kjori Shelley at 385-227-1638 or at kashelley@utah.gov.
