Sheriff Curtis informed the council that he had been appointed to an additional board, and due to this commitment, he expressed concerns about the time constraints. He indicated that while he wanted to support the council, taking on additional council positions might pose challenges in managing work.

5. OTHER ITEMS

Mr. Johnson shared that he met with Iron County Search and Rescue, who expressed immense gratitude to the council for approving their drone request. He reported that they were able to utilize the drones and were extremely pleased with their performance. They expressed their heartfelt thanks for the council's support, emphasizing that the drones had proven to be valuable assets in their operations.

Mr. Blankenagel inquired about the status of information regarding the rules related to County B roads. He also sought updates on the roads in Washington County.

Ms. Toker addressed the council regarding County B roads, explaining requests for funding can come from the roads department. She highlighted the challenge faced by the Desert Road Trail Society, which was unable to receive funding due to not being part of the county. She then passed the discussion to Mr. Pili, who provided an update on the Great Zion road.

Mr. Pili clarified that the road was categorized as a B road owned by St. George, making it difficult to secure additional funding as there were already allocated funds for it. He emphasized that the responsibility for funding fell on the city or county, depending on ownership. Ms. Toker further elaborated that the unallocated 1.1 million dollars would be returned to the funding pool and earmarked for the next year's cycle, set to commence in February.

Mr. Blankenagel inquired about the county's plans regarding the Toquerville Falls road. Ms. Toker responded, stating that the council did not have much information on it at the moment and deferred the question to Mr. Pili.

Mr. Pili clarified that the crucial aspect regarding roads like the Toquerville Falls road was understanding the jurisdiction. He emphasized the need to guide the concerned parties in the right direction to ensure they receive appropriate assistance. Mr. Pili mentioned that B and C roads would likely not receive funding, as they were covered by different funding sources. Exceptions could be made under certain circumstances, but the primary focus would be on D roads.

Sheriff Curtis proposed obtaining certification from the county to clearly identify the types of roads, making it easier to determine which roads were eligible for funding. He emphasized that this certification process would provide essential clarity for the council's funding decisions.

Ms. Toker acknowledged Sheriff Curtis's. She mentioned that the changes resulting from classifications of roads would be reflected in the program guide and updated on the website.

Sheriff Curtis informed the council about his conversation with Sheriff Doug Anderson from Juab County regarding the Little Sahara applications for Mika. He mentioned exploring alternative options and scheduling a meeting to discuss the matter further. Additionally, Sheriff Curtis shared positive feedback he received during the Search and Rescue and Sheriff Conference, where attendees expressed satisfaction with the council's initiatives and extended their gratitude for the council's efforts.
