Discussion and possible adoption of all titles in the Centerfield City Code Book

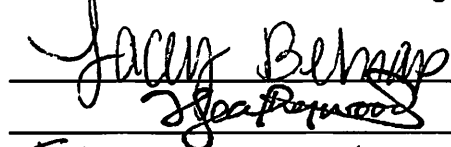

Public Hearing was held at a previous Planning and Zoning meeting. Everything went well there.

There are a few items that have been previously talked about and need to be added on subdivisions. Sidewalks, curb and gutter, asphalt from curb to curb, containment of runoff water produced from subdivision either through dry wells or other means, and a third party inspection for compaction, asphalt thickness, and cement thickness paid for by the subdivider.

Councilman Sorenson would like to talk to Kevin Danials about final subdivision approvals, that for any current utility lines that may be found or not documented that run through the property an easement be granted to the city.

Councilman Sorenson made a motion to adopt all the changes in the city code book along with the changes discussed tonight on subdivisions. Seconded by Councilman Christensen. Carries 3-0.

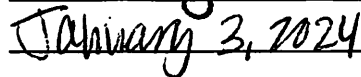

Councilman Sorenson made a motion to adjourn the meeting. Seconded by Councilman Christensen. Carries 3-0. Meeting adjourned at 8:11 PM.
