APPLICATION FOR ISSUANCE OF CONDITIONAL USE PERMIT

The Municipal Code 17.48.020 requires that the following be considered to obtain a Conditional Use Permit.

Application Date 1/4/2024 Applicant Name Adam Lambert

Mailing Address 1495 N. 1500 W Farr West Utah 84404

Phone Number _____

Property address of proposed conditional use 1495 N. 1500 W Farr West Utah 84404 Current Zoning: A-1

Please list the requested conditional use as listed within the city zoning ordinance Accessory Building

A) Explain how the proposed use of the particular location is necessary or desirable to provide a service or facility which will contribute to the general well-being of the community.

The proposed building is designed to be large enough to accommodate the hobbies of the owner of the property. In part for, the accommodation of a 5th wheel travel trailer, and various other "toys" and woodworking interests. This also creates a safe covered space to work on and maintain those interests without disrupting neighbors' enjoyment of their property.

B) Explain how such use will not be detrimental to the health, safety and general welfare of persons nor injurious to property or improvements in the community, but will be compatible with and complementary to the existing surrounding uses.

By enclosing these items in an outbuilding, we will be securing items that would otherwise be an eyesore in a single building that fits into the architectural design currently existing in the neighborhood. This neighborhood is appealing in that respect both to us and future owners of the property.

C) Explain how the proposed use will comply with the regulations and conditions specified in this title for such use.

This building will be located at the rear of the property. The furthest corner from the front and side of the house and street respecting all setbacks from property lines.

D) Explain how the proposed use conforms to the goals, policies and governing principles and land use of the Farr West City General Plan.

In the *General Objectives and Characteristics* section for zoning A-1-R it talks about this area characterized by large lots with outbuildings and maintaining a rural atmosphere. This building is designed to do just that by maintaining the rural atmosphere with one outbuilding that houses the less than rural-looking items within it. Also, future owners will have the same opportunity along with the added benefit of being able to easily modify the structure for their large animals as stated in the objectives.

E) Explain how the proposed use will not lead to the deterioration of the environment, or ecology of the immediate vicinity, the general area, or the community as a whole.

Along with the aforementioned benefits to the sensibilities of the neighbors, safety for the owners, and architectural benefits, this structure will be engineered to hold the weight of the future installation of solar panels. This will have the added benefit of water conservation while retaining a large amount of green space.
