CCRE Board Update

1/16/24

Advisory Council (AC)

Areas of Focus

- Recruit AC Membership: Engineering & Technology, Manufacturing, Drone, Heavy Equipment Operations, Oil & Gas/ LDAR focus (*on hold per Rikki*)
- Utilize existing connections at school and community, workforce development, professional organizations, etc. for AC Membership
- Create agenda and onboarding/CAU overview deck for 1st Advisory Council meeting on March 12, 2024

Actions Completed

- Obtained Board confirmation of AC members – **November 20, 2023**
- Finalized parent and student AC membership – **December 2023**
- Shared with AC Member Guide for feedback – **December 18, 2023**
- Finalized AC Member Guide based and set meeting schedule – **December 2023**
- Requested additional AC recommendations from Board – **December 18, 2023**
- Sent welcome and confirmation email to current membership – **January 2024**

Next steps

- Obtain input from Board on AC membership (areas noted above) – **January 2024**
- Implement AC recruitment efforts – **January/February 2024**
- Send welcome letter and meeting dates to added AC membership – **Ongoing**
- Send meeting invite and 1st meeting agenda – **February 2024**
- Onboard current advisory members & make formal introductions – **March 2024**

Pathway Development

Heavy Equipment Pre-Apprenticeship Pathway

Drone Capstone Option

Reminder:

- Confirmed Construction Exploration course available for use – **December 2023**

Update:

- Received Utah CTE Course Codes – **December 2023**

Next Steps:

- Review Utah course codes with the State contact for feedback– **January 2024**
- Secure the signed letter of intent with IUOE Local 3 Skills Fund – **January/February 2024**
- Meet with IUOE to determine Journeyman hours earned after completion of CAU pathway – **February/March 2024**
- Tentative pathway start date: **Fall 2024**

Reminder:

- Shared implementation plan at November Board meeting; potential impacted pathways: Engineering & Technology, Heavy Equipment Operations, Oil & Gas – **November 2023**

Update:

- Received Utah CTE Course Codes – **December 2023**
- Identified state course code options – **December 2023**

Next Steps:

- Review Utah course codes with state contact for feedback– **January 2024**
- Tentative pathway start date: **Fall 2025**

Pathway Development

Oil and Gas Pathway

Bioscience Pathway

Reminder:

- Received initial Board feedback on proposed pathway progression – **November 2023**

Update:

- Meeting with Rikki to capture needs of Oil & Gas pathway – **December 2023**
Focus of pathway: LDRA Technician (highest priority), Landman, and Production Accountant
- Evaluated an option for coursework (evaluated and deemed poor alignment) – **January 2024**

Next Steps:

- Research and review alternate vendor options for coursework – **Spring 2024**
- Leverage technical college system options – **Spring 2024**
- Tentative pathway start date: **Spring 2025, vendor dependent**

Reminder:

- Received Board feedback on proposed pathway progression – **November 2023**
 - Bioscience Engineering focus not Medical Innovations /Manufacturing

Next Steps:

- Reschedule December's meeting with Kelvyn to capture needs of Bioscience pathway– **January/February 2024**
- Investigate course options for revised pathway based on feedback –**Spring 2024**
- Determine state aligned & industry recognized certification(s) – **Spring 2024**
- Leverage technical college system options – **Spring 2024**
- Tentative pathway start date: **TBD based on feedback and input**

CCRE Pathways

Pathway	Grade Level	Semester 1 Enrollments	Semester 2 Enrollments
MS Exploratory	7th grade	31	32
	8th grade	48	46
Health Science	9 th grade	15	15
Manufacturing	9 th grade	11	8
Engineering & Technology	9 th grade	12	10

CCRE Event Spotlight

- CAU students in grades 4th-9th have the opportunity to attend Junior Achievement Biz Town in February. Teachers are busy preparing students for the event by discussing careers, finance and job skills.
- The event will cover career exploration, finance, loan applications, advertising and more!
- This hands-on experience allows students to get real-world knowledge in an engaging atmosphere!
