

Simplifying Your Job Through Technology

Utah's Premier Audio Video Technology Integrator

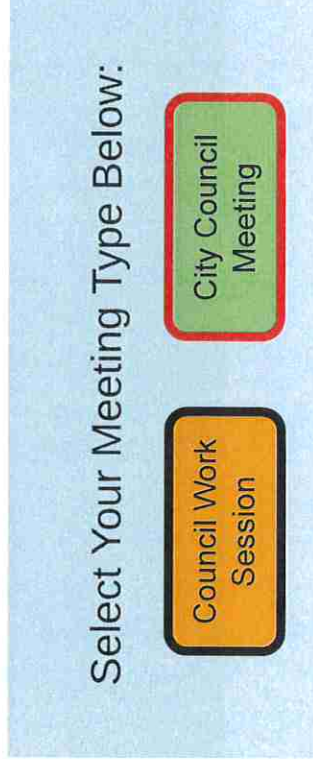

A FEW OF OUR LOCAL CUSTOMERS:

Seamless Transition From Work Session to City Council

Zoom, Audio/Video recordings, Youtube streams transition with a single button press

YouTube

zoom

YouTube

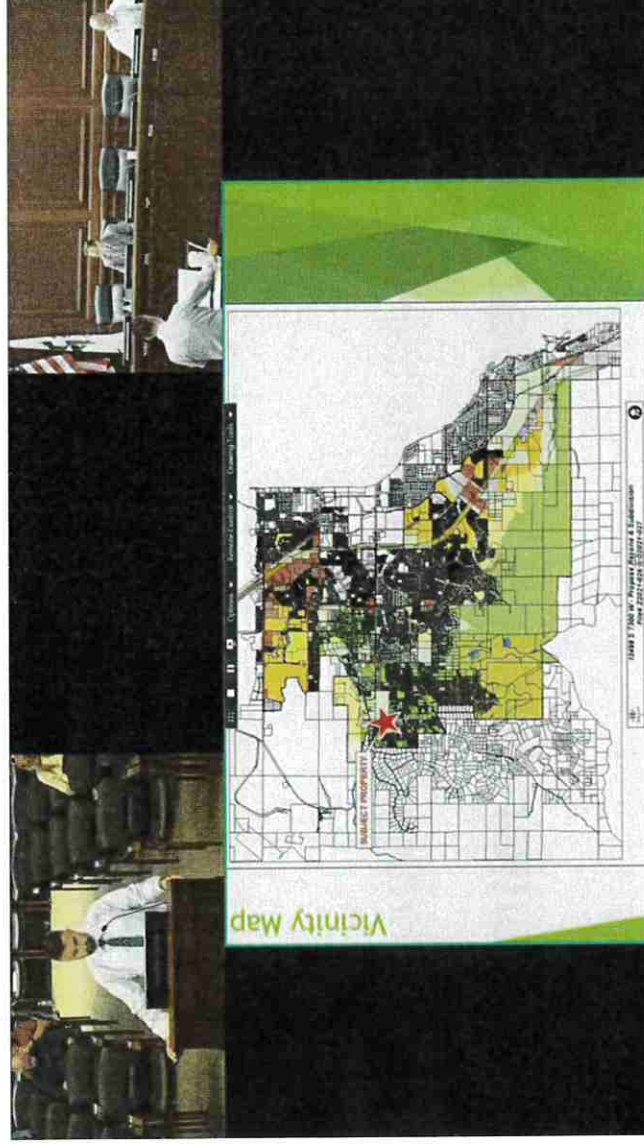

zoom

Multi-View Picture-In-Picture

Show the council, presenter, remote attendees, and the presentation all without flipping between views.

Easy Camera Presets

Presets can be easily recalled based on the type of meeting, or an event in the meeting with a dedicated button on the touch panel.

Digital On-Screen Timer

Citizen comments have gone over their limit for the last time! Timer runs out and an audible ding sounds in the room, and the mic mutes. (In-person or remote!)

Item 3: Citizen Comments

A screenshot of a Zoom meeting interface. The main video feed shows a person in a small window. Below the video feed, there are three white boxes with blue borders. The first box says "Join by Computer" with the URL "https://www.zoom.us/". The second box says "Join by Phone" with two phone numbers: "(346) 248-7799 or (312) 626-6799". The third box says "Meeting ID 936 5222 9182" and "Password is: 8000". There are also some red text prompts: "*9 Raise Hand to Speak" and "*6 Unmute When Called On".

ADA Assistive Listening Systems

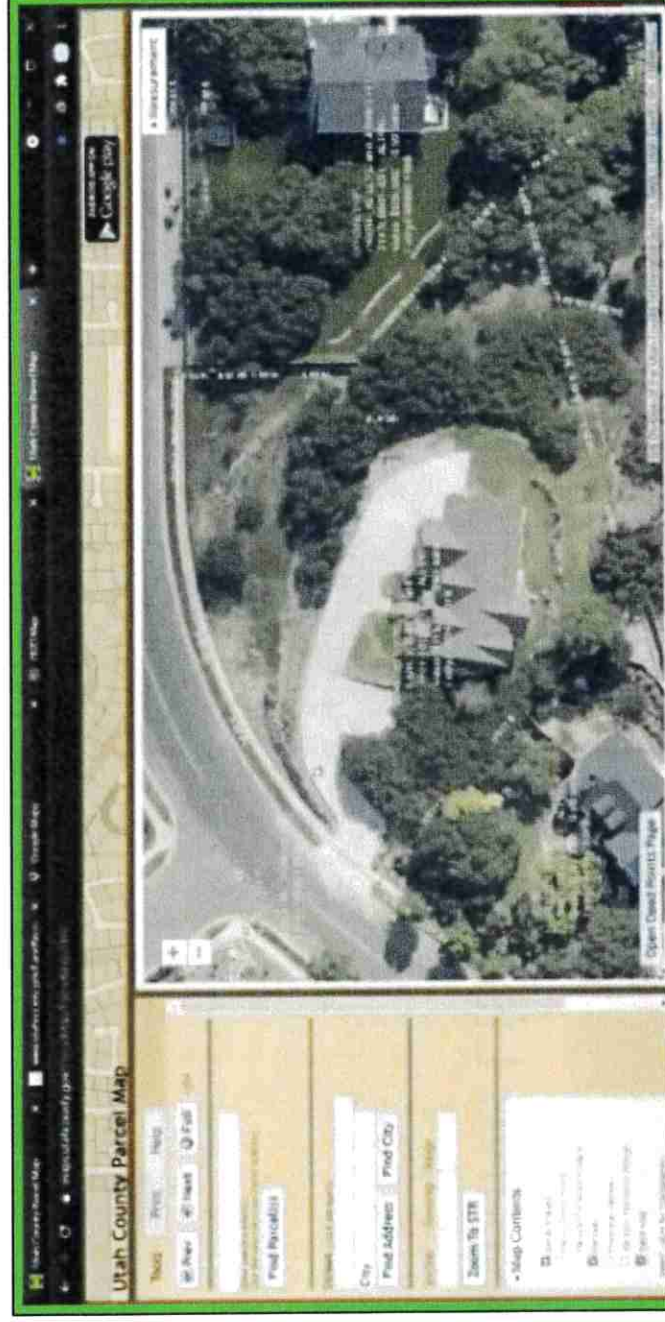

Add inductive loops, or RF receivers for those that are hard of hearing.

Digital Pointer

A Digital Pointer allows everyone to be on the same page. No more lasers, no more confusion, allowing everyone in person or remote to see what's presented.

One-Touch Streaming

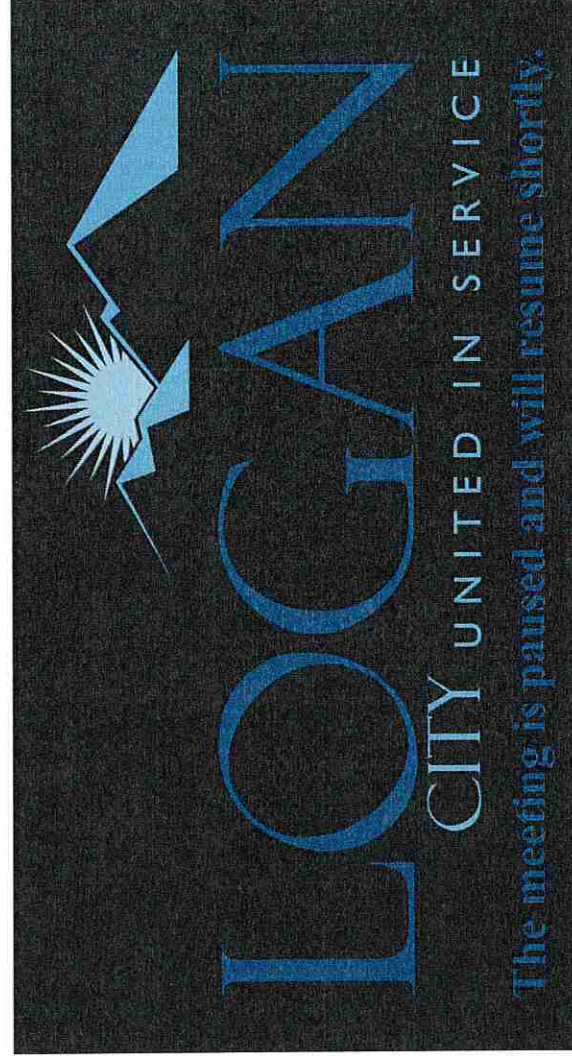

YouTube Live, Facebook Live, your city website, etc with a single button press.

Streaming Pause

Need a break? A button on the touch panel will allow for council to take a break with a elegant splash screen sent to all room displays, and streams, it will also mute all mics and play some elevator music until you turn it off, refreshed and ready to continue your 6 hour council meeting.
