SLDA explained that condoms and undergarments have been used as arguments to explain away contact and this bill provides clarity. Defense expressed concerns on the 25 years to life sentence and prefers the amendment which would remove the definition of simulated intercourse. Questions were raised on existing "romeo and juliet" laws 77-5-401.3. AGs office supports. The amendment was not adopted but will probably be circled on the senate floor. Passed 3-0. Draft language would work on the romeo juliet issue, section 76-5-401.3. HB0068	Firearm Modifications	Passed out of LECJ as a committee bill. This bill requires a court to sentence individuals who use or possess a firearm while distributing drugs to an indeterminate prison term: for a first degree felony violation, of at least five years and which may be for life, for a second degree felony violation, of at least one year and which may be up to 15 years. Exception for the second degree felony: if the court on the record details why it's in the interest of Justice not to impose the prison term and makes a finding on the record that the person does not pose a significant risk to the public and then orders supervised probation the judge can offer and or suspend the sentence and offer probation on the second degree.	SUP	SUP	Tyler Kotter	Tom Ross	<input checked="" type="checkbox"/>	1/12/2024	no opposition, Jennifer Yim abstain It's been amended to all dangerous weapons, not just firearms and used in furtherance of criminal conduct. CCJJ S/C to change floor amendment back to firearm only. 1/11 SC: Wouldn't necessarily change the categorization of the crimes but would remove the possibility of probation. This is mandatory minimum sentencing. Concessions were made and included a strong presumption for when an indeterminate sentence can be suspended. Bill only focuses on drug distribution cases, these are the biggest public risk cases. Some considered this is appropriate and not a mandatory minimum. Existing law, if you possess drugs and possess a firearm, you are a restricted person. This bill came from the St. George LECJ interim meeting, driven by, increase officer safety during traffic stops. Consensus that this is dangerous conduct requiring intensive intervention, concerns on judicial discretion. 1/18 House LECJ: Public comment was similar in SC. Passed 7-2. 1/22 House floor: Attempt to amend which would expand the firearm piece to any dangerous weapon. Voice vote was called twice and determined as, "passed", somebody called division which triggered electronic vote. Ultimately it failed 34-36. Back to the original bill, failed 29-41. 1/24 House floor: Brought back from the dead, motion to reconsider. Amendment 3 was adopted which change the name of the bill to drug sentencing modifications, expands to dangerous weapon. Questions were raised why judiciary discretion is being taken away, what is the amount of drugs to qualify for this penalty? References were made to a past AP&P audit on magistrates lack of findings on the decisions that were made? Arguments were made about the rise in deaths of fetanyl and that individuals who commit crime should be held accountable. Also adds training requirements and liability section for Guardian program					☑		2/1 House LECJ: 1st sub addresses a lot. 1. Will allow the state security chief to develop a timeline for everyone to come into compliance. 2. Eliminated one of the four required security, now it only requires one of three: SROs, Guardian program, and contract security 3. The Guardian program allows the ability to revoke. 4. Allows flexibility for private schools. Adopted and passed unanimously. Original fiscal note is greatly underreported.

This was brought forward to Rep. Eliason after a local baker was killed from a driver fleeing from LE.					<input checked="" type="checkbox"/>		UT Homicide Survivors group is in support. Discussion at SentComm results in the mindset that the goal is noble but the reality is impractical.
