Dear Members of the WCSD Board of Education,

We are writing to ask for your approval of an amendment to Horizon Elementary's School Improvement Plan. Due to a late hire of one of our paraprofessionals, our State Land Trust funds have exceeded the allowable carryover of 10%. We would like to move \$3,000 into our STL Technology account. This will support our 2nd PEERS Goal, Action Step 2, which will allow us to keep current with the technology in our classrooms. We will measure whether the action step has a positive impact on student learning by monitoring grade level goals set with our online software programs, as well as monitoring the number of students proficient based on our Acadience Reading data and our RISE end of year data.

We want to thank you for your time and dedication to all of Washington County School District. Your support for educators, students, and families is beyond appreciated. .

Thank you for your consideration.

April Heath and The Horizon Elementary School Land Trust Community Council
