Water and Sewer Fund

Staff requests an increase to the professional services budget for both funds: \$9,000 for the Water Fund and \$50,642 for the Sewer Fund. Employee overtime was greater than originally anticipated.

6:00 PM - WORKSHOP

• Trans Jordan Landfill Update [Glen Kennedy, Public Works Director]

Glen Kennedy introduced Kane Loader, Chair of the Trans Jordan Board.

Kane Loader reviewed the history of the Landfill. He introduced Jaren Scott, General Manager, and Jill Fletcher, Education Outreach, from the Trans Jordan Landfill to discuss the changes with the Landfill.

Mr. Scott said the new Sandy transfer station is forecasted to open early Spring 2025. The South Jordan Transfer Station is forecasted to open in 2032. There are 4.7 million tons of landfill space available at the current site. Approximately 8.5 years of life remaining with current economic projections (3% annual growth). After the landfill closure, the site will be maintained for 30+ years with adherence to post closure requirements from EPA and DEQ. He discussed how household hazardous waste including oil, paint, batteries, and other household chemicals will be taken free of charge from residents through a partnership with the Salt Lake County Health Department. The household hazardous waste is dropped off but still useable items are placed in their reuse shed and available for residents to pick up free of charge. He discussed the Sandy Transfer Station design and use in detail. He also discussed recycling and the recycling facility transparency amendments that were passed through the legislature. The amendment requires a recyclable material hauler to report data to political subdivisions about the amount of recycling materials collected. It requires a recycling facility to submit an annual report on the amount of recycling material collected to the division of waste management and radiation control; and requires a political subdivision to publish the recycling data.

Proceedings of City Council Meeting February 20, 2024

Jill Fletcher discussed her educational outreach program where she visits schools to give presentations on the Landfill and offers tours.

6:30 PM - REGULAR MEETING

Mayor Marcus Stevenson called the business meeting to order at 6:35 p.m.

I. GENERAL BUSINESS

A. WELCOME AND PLEDGE OF ALLEGIANCE

B. ROLL CALL - Council Members Heidi Robinson, Dustin Gettel, Bryant Brown, Bonnie Billings, and Paul Glover were present at roll call.

C. UNIFIED POLICE DEPARTMENT REPORT

Chief Randy Thomas reviewed the stats for calls showing a small trend down this year in comparison to last year, but still in the middle over 5 years. Chief Thomas gave an update concerning the homicide that occurred on January 4th. The suspect was arrested in California where the US Marshalls surveilled the suspect and effected the arrest. The suspect has multiple violations in California that will be processed before the suspect can be extradited to Utah.

Chief Thomas contacted UDOT about pedestrian traffic at I15 and 7200 South on the south side of the intersection under the underpass. His concern is how difficult it is to see pedestrians under those underpasses, particularly when it's dark. UDOT has turned the lights on under 2 of the 3 underpasses, the remaining lights need to be upgraded which will take time and money. Chief Thomas has asked UDOT to observe the intersection after dark to assess safety improvements. He will report back when he has more information.

Chief Thomas said he would like to highlight and praise the work his officers did handling a single incident that happened this last weekend. Officers were dispatched to a domestic call at Bingham Junction where they stopped a suspicious vehicle. Upon stopping the vehicle, two gunshots were heard. The officers relied on their training and were able to clear the vehicle safely, resulting in an arrest and no injuries were reported.

The Road Home is working on a way to support asylum seekers and obtain services that are currently not available to them.

Chief Thomas reported that with the installation of the improved security cameras at the entrance of City Hall officers may be able to identify the individual responsible for breaking windows at City Hall.

He also reported that a warrant was served this afternoon at Motel 6 on a suspect that had made threats to staff and law enforcement. For the safety of everyone involved, the Swat team was called and the suspect was taken into custody; however, he did assault one of the police canines. The dog will recover.

Proceedings of City Council Meeting February 20, 2024

Council member Dustin Gettel asked what the charges are for assaulting a police dog. Chief Thomas explained that they are the same charges as assaulting a police officer.

II. PUBLIC COMMENTS

Lorene Butler welcomed Bonnie Billings as a new council member. She also wanted to thank Adam, Wendelin, Elizabeth and the Mayor for responding to her emails and questions. She said she wants to know how the duplex overlay zone works. She asked that Birch Street have a moratorium from building any more duplexes, because the parking is horrendous and there is a problem with construction related traffic and parking. She will email her remaining comments to the council members.

III. MAYOR REPORT

Mayor Stevenson stated that today there has been a significant push from the business community and mayors across Salt Lake County for the legislature to fully fund Governor Cox's homelessness budget. This Thursday Midvale City is holding one of two meetings for businesses along 7200 South, between I15 and State Street, to address concerns about crime and homelessness in that area.

He also wanted to put out a reminder that this Thursday evening from 6-8pm is the Parks and Rec Open House at the West Jordan Library. He's hoping for a big turnout and wants attendees to remember to mark that they are Midvale residents on their cards. And don't forget about the Fort Union Corridor Study Open House at Ganesh Indian Cuisine on Wednesday, March 6 at 5:30pm.

IV. COUNCIL REPORTS

- A. Council Member Paul Glover Emphasized the importance of attending the meeting for the recreation center. Council Member Glover also received an email from Unique Autobody about the possibility of a rezone on a piece of property they are looking at. He would like the City to review the request and possibly come up with some ideas to help this move along. He believes it will benefit the city as well as Unique Autobody.
 - B. Council Member Bonnie Billings had nothing to report.
- C. Council Member Dustin Gettel said he was contacted by the chair of the Association of Municipal Councils; they still have him as the Midvale City representative on that board. He informed them that he is willing to continue serving on the AMC board. He did attend the last meeting and the guest speaker was Sherrif Rosie Rivera. She was there to talk about the Unified Police Dept. dissolution. He also wanted to thank Public Works for the removal of two mattresses left curbside on Ivy Drive. There is a lot of junk and garbage in that area east on Ivy Drive, and south on 700 West to Sandy Parkway is also littered with junk and garbage. He asked for special attention to be paid to cleaning up the parcels and park strips as the new park is promoted in that area.
- **D.** Council Member Bryant Brown said he agreed with Council Member Gettel about cleaning up the Ivy Drive area. He also agrees with the comments about Birch Street. The commercial trucks should not be using that road. He'd like to look at current Ordinances in search of a resolution to that problem.

E. Council Member Heidi Robinson – had nothing to report.

V. <u>CITY MANAGER REPORT</u>

Matt Dahl said March 28th is the budget retreat date. No location has been chosen yet.

B. CONSIDER RESOLUTION NO. 2024-R-11 ADOPTING THE MIDVALE BINGHAM JUNCTION STATION AREA PLAN

Adam Olsen said in 2022 the Utah State Legislature passed HB 462 which, among other things, requires municipalities with fixed rail guideways (commuter and light rail) to prepare and adopt station area plans (SAP) covering a half mile radius of each fixed rail station. SAP's may be unique to their jurisdiction and setting; however, key aspects are to include strategies to increase the availability of affordable housing, promotion of sustainable environmental conditions, enhancements of access to employment opportunities and increase of transportation choices and connections.

Midvale has three stations within its boundaries: Midvale Ft. Union, Midvale Center and Bingham Junction. The Midvale Ft. Union and Midvale Center Station Area Plan was adopted by the City Council on January 16, 2024. The Bingham Junction Station Area Plan is ready for adoption.

Design Workshop, the consultant group commissioned to prepare the Bingham Junction SAP will lead the discussion and presentation at the February 20th City Council meeting. They will highlight recommendations of the plan and proposed implementation steps.

Upon Council adoption of the SAP, staff will submit a request for certification to Wasatch Front Regional Council (WFRC) and the Utah Transit Authority (UTA). Certification by WFRC and UTA will place the City in compliance with the State as required in HB 462.

STAFF RECOMMENDATION Approval of the resolution adopting the Midvale Bingham Junction SAP.

Chris Gettes reviewed the Bingham Junction Station Area Plan in detail.

Council Member Dustin Gettel said he would like to see a dog park and sidewalk.

Council Member Bryant Brown asked why West Jordan is approved to build 50 luxury homes on a large area and Midvale is approved for higher density.

Chris Gettes replied that Gardner Village would not support high density. They want to retain the character and history of Gardner Village. Also, the UTA property on the Gardner Village side is smaller than the UTA property on the Midvale City side.

C. CONSIDER RESOLUTION NO. 2024-R-12 AUTHORIZING MIDVALE CITY STAFF TO SUBMIT A BALLOT ON BEHALF OF MIDVALE CITY FOR THE ENDO INTERNATIONAL PLC PROPOSED CHAPTER 11 PLAN REORGANIZATION

Garrett Wilcox said two weeks ago, Midvale City received a ballot to accept, reject, or abstain from Endo International PLC's second amended, joint Chapter 11 Plan of Reorganization. The ballot indicates that Midvale City is a holder of a claim in a local government class action opioid claim against Endo International and its subsidiaries. Midvale City has not participated in this litigation.

In the proposed bankruptcy reorganization plan, Midvale City may participate in the public opioid trust if it accepts the proposed plan. Midvale City will release all claims against Endo International in exchange for its participation in the public opioid trust. Because Midvale City does not directly provide services related to the opioid epidemic, it is unlikely that the City will receive any direct financial benefit. However, staff do not want to foreclose the possibility of participating in the public opioid trust if resources and finances are available to assist the community through the State or Salt Lake County.

Midvale has previously participated in other opioid national settlements in coordination with the Utah Office of the Attorney General. On December 14, 2021, the City Council approved Resolution No. 2021-R-40 authorizing Mayor Hale to register the City in the national opioid settlement with McKesson, Cardinal Health, AmerisourceBergen, Janssen Pharmaceuticals, and Johnson & Johnson. On April 4, 2023, the City Council approved Resolution No. 2023-R-14 authorizing Mayor Stevenson to register the City in the national opioid settlement with Allergan, Teva, CVS, Walgreen's, and Walmart. In both of these instances, the settlement amount available to the State and counties was directly dependent on the number of municipalities who joined the settlement.

Staff has contacted the Utah Office of the Attorney General to coordinate its response with the proposed bankruptcy plan for Endo International. We hope to coordinate our response with the State to maximize the available resources available to Utah, Salt Lake County, and, indirectly, our community. Due to how recently these ballots were provided, the Attorney General's Office does not have a position on the plan as of the date this report was drafted. The Attorney General's Office is reviewing the proposed plan and has indicated that it will attempt to coordinate with the City.

Staff suggests that the City follows its past practice of coordinating its response with the State to maximize the resources available to serve our community. In the event that we are unable to coordinate our response with the State due to the short notice provided to both parties, staff recommends that we accept the proposed Endo International bankruptcy plan so that the City does not foreclose its ability to participate in the public opioid trust.

STAFF RECOMMENDATION Staff recommended approval of Resolution No. 2024-R-12 which authorizes Midvale City staff to submit a ballot on behalf of Midvale City for the Endo International PLC proposed Chapter 11 Plan of Reorganization.

Capital Projects Fund Staff requests an increase of \$1,943,200 to the FY2024 Capital Projects Fund budget. The majority of this increase is for pavement management and transportation projects \$1,415,000. These projects were originally planned for FY2023 but were not completed and are now part of the FY2024 budget. A detailed list of all projects in this budget amendment is included in the attached document.

Water and Sewer Fund Staff requests an increase to the professional services budget for both funds: \$9,000 for the Water Fund and \$50,642 for the Sewer Fund. The Water Fund requires funding for water system modeling and engineering services, while the Sewer Fund requires additional budgetary allocation for projects related to the Sewer Master Plan.

Storm Water Fund Staff requests an increase of \$41,400 to the Storm Water Fund. This increase is primarily to the professional services budget and will be used on the Storm Water Master Plan. These funds were previously budgeted during FY2023 but went unexpended during the fiscal year. \$7,000 of this increase is dedicated to the fund's overtime budget. The need for employee overtime was greater than originally anticipated.

Fleet Fund The total requested increase to the Fleet Fund budget is \$726,213. \$411,804 of this increase is to purchase a Ford F550 and six Ford F150s that were budgeted for in prior fiscal years but were not available for purchase. \$183,839 is for the purchase of a Caterpillar loader which is on a buyback plan with Caterpillar and be offset by the sale of the City's current loader. The Fleet Fund also replaced a Chevy Colorado and two crossovers totaling \$130,570 which were also scheduled for replacement in prior fiscal years.

Information Technology Fund The total requested increase to the Information Technology Fund budget is \$21,000. \$10,000 increase to the software budget for LastPass software licenses. \$11,000 for hardware, including iPads for Engineering, computers for GIS, and Council IT peripherals

FISCAL IMPACT: General Fund – Increase in budgeted expenditures of \$258,380 and an increase to budgeted grant revenues of \$35,000, sales tax revenue of \$46,000 and an increase in use of fund balance of \$177,380.

Water Fund – Increase in budgeted expenses of \$9,000 and a decrease of contribution to fund balance of \$9,000.

Proceedings of City Council Meeting February 20, 2024

Sewer Fund – Increase in budgeted expenses of \$50,642 and a decrease in contribution to fund balance of \$50,642.

Storm Water Fund – Increase in budgeted expenses of \$41,400 and an increase in use of fund balance of \$41,400.

Fleet Fund – Increase in budgeted expenses of \$430,289 and an increase in budget revenues of \$183,839 and an increase in use of fund balance of \$246,450.

Information Technology – Increase in budgeted expenses of \$21,000 and an increase in use of fund balance of \$21,000.

Council Member Dustin Gettel said he would like to see replacement vehicles be electric vehicles.

B. DISCUSSION ON THE REPLACEMENT OF THE SEWER DIVISION'S CCTV (CLOSED CIRCUIT TELEVISION) TRUCK AND EQUIPMENT

Glen Kennedy said the sewer division's CCTV Truck is on a 10-year replacement schedule and is due for replacement.

CCTV equipment and software play a key role within sewer utilities for inspection, maintenance, and management purposes. This equipment is instrumental for inspection and condition assessments and to detect blockages, cracks, leaks, and other structural defects within the sewer system before they become major issues. In addition, this equipment and software will integrate with our GIS mapping and records, documenting location, size material, and condition of pipes providing valuable data for asset management and future planning.

The division held demos with a number of vendors in an effort to find the best software and equipment package to fit the City's needs. Neverest Equipment and Wincan Software were determined to be the best fit to achieve the inspections, assessments, and management of the City's sewer infrastructure and to ensure compliance with State regulations, and cost-effective operation and maintenance.

The cost via State Contract pricing to replace the truck/van and the internal CCTV equipment and software is \$270,000.00.

After a thorough inspection of the current truck by our fleet staff. We are confident that we can get another 7 years out of that truck. This will save approximately \$100,000. \$70,000 for the van itself and \$30,000 for internal equipment fitting (generator, sink, workspace, tool cabinets etc.).

FISCAL IMPACT: \$168,402.24 via State contract - MA4267

The Council agreed to place this on the consent agenda for approval at the next meeting.

C. BUSINESS SPONSORSHIPS FOR CITY EVENTS DISCUSSION

Proceedings of City Council Meeting February 20, 2024

Erinn Summers said Midvale City has not regularly sought out sponsorships from businesses for city-run events. Currently, Midvale City Code does not prohibit private sponsorships, however, Midvale City Staff are required to come before the City Council prior to the acceptance of each monetary or in-kind donation.

This year, the Harvest Days Festival Committee would like to pursue sponsorships to enhance the offerings at the Harvest Days Festival, without additional cost to the taxpayers. This also gives Midvale businesses an opportunity to actively engage in the Harvest Days Festival, of which businesses have requested more ways to participate. The request to sponsor events has been growing for many of Midvale's city-run events, as well as throughout the valley. Many municipalities have adopted policies or procedures to allow for event sponsorships.

In reviewing how sponsorships could be beneficial to Midvale, and researching how other communities have approached sponsorships, Midvale City staff is interested in developing a sponsorship policy for city-run events. Staff are preparing a process that would authorize the City Manager to consider and accept sponsorships that are under \$5,000 in value and limited to funding specific activities or purchases for an event. This process would include:

- ensuring the sponsorship would meet the interest and values of the city,
- the approval of the specific activities or items being sponsored,
- acknowledgement of the sponsorship,
- reciprocity, and
- criteria for the dissolution of sponsorship.

Council Member Dustin Gettel said he wants to use caution when pursuing and considering sponsorship.

Matt Dahl made it clear that the City would be considering businesses that are a good fit for the event. The Sponsors would have to apply and be vetted by the City.

Council Member Bryant Brown suggested that the City have something in place to avoid conflicts of interest.

Council Member Heidi Robinson reminded the Council that seeking sponsorship would allow the City to provide events and experiences that larger cities offer at their festivals.

Mayor Stevenson said he understands and wants to be cautious about perceived conflicts of interest; however, he would like some flexibility with the business licensing piece.

Council Member Dustin Gettel said he would prefer the sponsorship decision stay with the staff and not come before the council.

D. DISCUSSION REGARDING AMENDMENTS TO CHAPTER 9.32.090 OF THE MIDVALE MUNICIPAL CODE REGARDING ALCOHOLIC BEVERAGES IN PUBLIC PARKS AND PUBLIC PLACES

Kate Andrus discussed a redline copy of the Midvale City Municipal Code containing proposed amendments that modify the existing regulations concerning the consumption of alcoholic beverages in public parks and public places. Currently, Code 9.32.090 prohibits the consumption and possession of alcohol on all public property and public right of ways. The catalyst for this code amendment includes the recent ability for restaurant and entertainment businesses on Midvale Main to enter use agreements for the use of bulb outs and other publicly owned property on Midvale Main to enable outdoor dining. This amendment would allow those businesses with appropriate liquor licenses to serve alcohol in these leased areas. In addition, it will provide the opportunity for events to host beer gardens or other related activities. This will be pivotal in activating Midvale Main through events, creating a controlled environment for the consumption of alcohol when appropriate for the event.

The proposed amendment follows models adopted by similar cities, including Salt Lake City, Ogden, Park City, and Moab. This amendment aims to provide a framework for allowing alcohol consumption in public parks and public places under the following conditions and requirements:

- 1. **Approved Site Plan Requirement:** The proposed amendment allows the consumption and possession of alcoholic beverages in specified public areas if the location is included in an approved site plan filed with the city by a licensee.
- 2. **Compliance with State and Local Regulations:** The amendment specifies that any licensee wishing to allow alcohol consumption must adhere to all state and local regulations related to the sale and distribution of alcoholic beverages.

If approved, this proposed code amendment will enable certain permitted events and businesses to serve, sell, and allow the consumption of alcohol on City-owned property. This will only be allowed under the conditions and requirements stated above.

City staff believes that the proposed code amendment provides an approach that allows for controlled and regulated alcohol consumption within specific public areas. It offers potential benefits for local businesses and events while maintaining public safety and adherence to both state and city regulations.

Council Member Dustin Gettel asked why the City needs to do this now.

Kate Andrus explained that the city code currently prohibits the consumption and possession of alcohol on all public property and public right of ways, alcohol cannot be served in an outdoor dining area even if all DABS regulations are met.

Council Member Gettel said he has concerns with alcohol being served in public spaces. He doesn't want alcohol to be present at all city events.

Council Member Heidi Robinson said the businesses that serve alcohol have their license on the line if they don't follow rules and regulations.

Council Member Bryant Brown agreed with Council Member Robinson.

A. CONSIDERATION OF ORDINANCE NO. 2024-O-02 ESTABLISHING TEMPORARY LAND USE REGULATIONS FOR COMMERCIAL PARKING LOTS, PARKING LOTS, PARKING STRUCTURES, AND PRIVATE PARKING LOTS UNDER MIDVALE MUNICIPAL CODE SECTIONS 17-2-3 AND 17-2-16

Adam Olsen said staff proposes establishing temporary land use regulations that would apply to several types of parking lots in Midvale. The proposed changes would affect parking lot definitions in 17-2-3 and 17-2-16 of the Midvale Municipal Code. The changes would include the following language in each definition: "a vehicle may not be parked in a (commercial parking lot, parking lot, parking structure, private parking lot) for more than a total of 24 hours if the vehicle is inoperable, disassembled, dismantled, or in a state of disrepair". The proposed language will enhance the City's ability to regulate and maintain parking lots by limiting their use for parking of inoperable vehicles. The change is needed to address issues of safety, stormwater contamination, aesthetics and overall property values city-wide. The proposed temporary land use regulations would be in effect for 180 days or until the Council adopts revisions to the Code, whichever occurs first. If approved, staff will begin the standard process of adopting the revisions in Code. This will

Proceedings of City Council Special Meeting February 27, 2024

be initiated by staff providing notice of a public hearing for the Planning Commission to discuss and forward a recommendation to the City Council for final adoption of the proposed ordinance.

STAFF RECOMMENDATION: Approval of the ordinance.

Council Member Bryant Brown wanted to make sure other cities had a similar ordinance.

Garrett Wilcox stated this type of ordinance is common. He stated businesses that are currently in business would be grandfathered under the current code. New businesses would be subject to the new language. This would be enforceable for private property owners.

MIDVALE CITY COUNCIL STAFF REPORT 3/12/2024

SUBJECT

Consideration and Approval of Resolution No. 2024-R-15 Calling for the Resignation of Utah State Board of Education Member Natalie Cline

SUBMITTED BY

Matt Dahl, City Manager

BACKGROUND AND OVERVIEW

The Utah State Board of Education is established in the Utah State Constitution with the purpose of exercising general control and supervision over the public education system throughout Utah. The members of the Utah State Board of Education are elected by district. Natalie Cline is the board member representing District 9, which encompasses a significant portion of Midvale.

On February 6, 2024, Natalie Cline denigrated a student through the weaponization of social media, with the effect of invoking online comments and threats that placed the student and her classmates in danger. In response, Mayor Stevenson and Midvale City Council Members, sent a letter to Natalie Cline on February 9, 2024, through which they condemned her behavior and expressed their belief that she was incapable of fulfilling her duty as a member of the Utah State Board of Education. Mayor Stevenson and the Midvale City Council members also used the letter to demand Natalie Cline's resignation.

Since February 6, 2024, state officials, city councils, school boards, parents and students have called for Natalie Cline's resignation or condemned her behavior. Natalie Cline has been stripped of many of her privileges and duties as a board member, but has not resigned.

The letter sent by Mayor Stevenson and the City Council members on February 9, 2024, represented their individual opinions, but was not a formal action of the Midvale City Council that memorialized the position of Midvale City. Given that Natalie Cline has not resigned, the City Council will consider Resolution No. 2024-R-15 reaffirming the positions they expressed in the February 9, 2024, letter and formally demand Natalie Cline's resignation.

RECOMMENDED MOTION

I move to adopt Resolution No. 2024-R-15 Calling for the Resignation of Utah State Board of Education Member Natalie Cline.
