Ms. O'Grady stated that Confluence Cottages LLC is a single-asset entity created by UHC, and UHC is the sole managing member. This project will construct rental housing for workforce households between 80%-115% AMI. This project will not utilize tax credits for its financing. UHC will serve as the developer of this project, and work in partnership with the Housing Authority of Southeastern Utah under a Memo of Understanding between both parties. Upon completion and stabilization, UHC will exit the LLC and have the Housing Authority enter the LLC as the sole owner of the project. UHC is both the borrower and the lender for this project, utilizing funding from UHC's HDLF. UHC is being treated as any other borrower. This is not a money-making project for UHC, but it aligns strongly with UHC's mission. Resources are very limited in the Moab area to do a project like this, which is why UHC is taking initiative on the development of the project.

MEMORANDUM

To: UHC Trustees

From: David Damschen, President

Date: March 7, 2024

Subject: Resolution 2024-10 Approval of Internal Audit Department 2024 Audit Plan

Recommendation:

It is recommended that the Trustees approve Resolution 2024-10 Approval of Internal Audit Department 2024 Audit Plan (Exhibit A).

Background:

Utah Housing Corporation's (UHC's) Board effectively oversees UHC's operations and funding activities. The Internal Audit Department was created at UHC based on the recommendations of the Audit Committee in January 2022. Internal Audit's role is to provide independent assurance that the organization's risk management, governance, and internal control processes are operating effectively. Approval of the Internal Audit Department 2024 Audit Plan will provide the department with the required authority to complete its processes.

Approval of the audit plan will be completed annually. The audit plan details the audits to be completed based on the anticipated available resources. Audit planning is a critical responsibility of the Internal Audit Department. When done effectively, audit planning creates efficiency throughout the audit workflow and supports optimal allocation of limited resources. The audit plan ensures that all areas of the process are covered and receiving appropriate attention. The Internal Audit Department 2024 Audit Universe, Schedule, and Budget (Exhibit B) and 2024 Audit Universe Detail (Exhibit C) are provided for informational purposes.

Adoption of resolution 2024-10 will provide the Internal Audit Department at UHC with the tools required to complete audit engagements appropriately and to optimally utilize resources. Internal Audit will help UHC meet its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

MEMORANDUM

To: UHC Trustees

From: David C. Damschen

President

Date: March 21, 2024

Subject: Resolution 2024-11, Acquisition of Unity Place Apartments, Vernal, Utah

Recommendation:

It is recommended that the Trustees adopt Resolution 2024-11 authorizing the expenditure of UHC resources for the acquisition of the Unity Place Apartments (the "Project"), located in Vernal, Utah. In authorizing the acquisition, UHC will prevent the foreclosure of the first mortgage secured by the Project and become its short-term owner. But for this acquisition by UHC, the foreclosure of the mortgage would be completed and the Low-Income Housing Credit Agreement and Declaration of Restrictive Covenants (the "LURA") would be terminated.

Background:

The Project is a 22-unit low-income housing tax credit ("LIHTC") development located in Vernal, Utah. The original sponsor, developer, and owner was the Uintah Basin Assistance Council (name since changed to Uintah Basin Housing ("UBH")), which is the local housing authority of Uintah County with a staff of two and a governing board of directors. The Project was awarded 2005 federal, 9% LIHTCs in the annual amount of \$222,000, and upon expiration of the 15-year compliance period, the investor, Homestead Capital, exited the ownership entity, leaving UBH as the sole owner.

The Project was originally financed with the proceeds of the sale of the tax credits and a first-lien mortgage from Wells Fargo Bank. Other financing for the Project included a subordinate, low-interest loan from the Olene Walker Housing Loan Fund. Total development costs in 2005 were \$3,194,855. In February 2023, the Wells Fargo debt was purchased by National Loan Acquisitions Company ("NLAC"), with a balloon payment of the outstanding debt due on December 21, 2023.

UBH defaulted on the balloon payment of \$150,678.66 due to NLAC on December 21, 2023. UHC received a copy of the Notice of Default and Election to Sell from the Trustee early in January 2024. UHC staff immediately reached out to UBH and learned that UBH had no plan or ability to pay the debt. Further, the executive director and board chair indicated a desire to no longer own or manage the property, having concluded they have insufficient staff capacity. If the NLAC debt, plus fees and interest, is not paid in full by April 3, 2024, the Trustee will execute foreclosure sale, which would terminate the LURA and its affordability restrictions. Faced with the loan default, initiation of foreclosure proceedings, and the corresponding short timeframe to either cure the default or take the necessary steps to market and sell the property to a qualified LIHTC buyer, UBH determined it was unable to prevent the foreclosure or complete a transaction with a qualified LIHTC buyer.

Project Description:

The 22 units are a mix of 2- and 3-bedrooms, serving households between 38% and 54% AMI. UHC last conducted a physical inspection in December 2023. Minor physical deficiencies were reported, many of which have been corrected. Four units are currently vacant, three of which are rent-ready. One vacant unit requires repair of a water leak and damage caused by an improperly sealed shower pan. Over the last year, the Project has experienced a vacancy rate of approximately 15%-18%. General deferred maintenance issues also exist, stemming from poor property management and insufficient capital reinvestment. The Project has struggled to provide UHC-required financials and operating reports in a timely manner. For many years, the owner has not raised rents to the maximum allowed under the program, and as a result has foregone significant revenue. In 2023, the estimated lost revenue was approximately \$72,000. The current LURA has an expiration date of December 2104.

Other LIHTC projects in the Uintah Basin report current vacancy rates between 3.13% and 6.25%. One property is reporting a higher vacancy rate, 15%, which is due to a new owner who has recently implemented a rent increase. All are achieving rents as high as 46% of area median income for 2- and 3-bedroom units.

Capital Needs:

The total initial cash required from UHC is approximately \$300,000, with a breakdown as follows:

- Approximately \$160,000 for the acquisition of the property. This is the amount necessary to pay off the NLAC balance, plus fees and interest.
- \$105,000 to pay accounts payable owing as of February 29, 2024. These include approximately \$99,000 to UBH for reimbursements, payroll, and management fees dating back to 2020, and approximately \$6,000 for 2023 property taxes.
- Approximately \$35,000 for immediate repairs and operating expenses during the transition period while rent revenue is stabilized. Rent stabilization is expected to be achieved when all units are rented and rent levels are gradually adjusted to (or close to) allowed rents under the program, anywhere from 6-12 months.

The exact amounts of the payoff to NLAC, accounts payable, and immediate repairs and operating expenses are unknown. Therefore, UHC is requesting approval of a not-to-exceed amount of \$350,000 for the initial purchase and an additional \$150,000 for ongoing operating or other unforeseen expenses that arise during UHC's ownership of the Project. Expenditures made by UHC will be recouped upon resale of the Project.

The Olene Walker Housing Loan Fund loan balance of approximately \$332,197.23 will be assumed by UHC and paid through net operating income of the property.

Professional property management services will be contracted with The Sellers Group. The Sellers Group performs third-party management for many other LIHTC owners throughout the state, including in the Uintah Basin. UHC will immediately begin a process to identify a qualified, long-term owner who will recapitalize the property through either resyndication or other means, possibly a UHC Risk Share loan. UHC expects to recoup all of its capital investment when the project is sold to a new owner.

MEMORANDUM

To: UHC Trustees

From: Cleon P. Butterfield, CPA

Senior Vice President and CFO

Date: March 21, 2024

Subject: Operating Report Summary and Trends

Summary:

The January 31, 2024 financial statements and the operating reports dated January 31, 2024 shows both the impact of higher interest rates; the impact of our blended tax-exempt bond rate; and UHC management team's ability to bring new programs and capital sources to help mitigate the negative affordable housing environment we are in. UHC loan production has been surprisingly strong as average home acquisition price has stabilized as the market levels. These factors have contributed to the higher dollar volume of production and the higher number of units financed under UHC's programs. The higher interest rate environment adversely impacts the one-time premium investors are willing to pay for program loans securitized in mortgage-backed securities, diminishing the profitability of our single family funding and marketing activities. UHC has gone to a more traditional bonding mechanism for 70 percent of its program capital.

Analysis:

- The Single Family Program Capital Sources table in blue shows a multi-year perspective of UHC's capital sources totaled by calendar year. During this calendar year the major three active sources have been: GNMA Securities Sold; Tax Exempt GNMA Securities Sold; Tax-exempt and Taxable Bonds issuance. In addition, there have also been a small amount of volume for Freddie whole conventional loan sales and some CRA Participation Pools. All of these sources have provided \$732.5 million in funding for affordable housing programs during the first seven months of the fiscal year. The average net premium for the taxable MBS Securities sold has decreased nearly 247 basis points (2.47%) lower than the multiyear average. Our average net premium on the Tax Exempt Mortgage Securities (TEMS) has been 2.43 for the calendar year about 57 bps less than last year and about 21 bps better than the standard GNMA MBS. Because of these decreases in profitability and the ability to achieve a lower interest rate UHC has moved to issuing more bonds for its single family capital source. UHC believe over the next twelve months 70 percent of it capital will come from bonding rather than the TBA markets. The net present value (NPV) of those projected bonds will be between 350 and 250 basis points (3.5 % - 2.50%) depending on the prepayment speeds, which we believe will be more profitable for UHC and produce a lower interest rate on the mortgage loans for the lower income homebuyers.
- The set of pie charts summarize UHC's program production, differentiating by capital source. Total volume of production for the first seven months of this fiscal year is \$732.5 million, funding 1,978 loans for an average of \$370,300 per unit. This fiscal year's production is over 180% of last fiscal year to date. The fiscal year to date production implies projected FY 2024 totals should be around \$1.25 billion, funding 3,400 homes as the fiscal year concludes.
- Financial Analysis Dashboard: The SF loan pipeline reflects a 58/37/4/1 % split in the pipeline production between **firstHome** loans; **FHA/VA**, **HFA Advantage**; and for **Score**. The FHA/VA with its buy down option was the preferred product by our homebuyers, but the firstHome is now the preferred since we have started allowing buy downs. The market is becoming a buyer's market with sellers willing to pay points for closing costs or buy downs. These options that we are providing allow homebuyer the ability to select the UHC loan product that best fits their income and circumstances.

- Month-end Unaudited Financial Statements, which consolidate hundreds of individual self-balancing entities consisting of bond issues and housing programs, as analyzed:
 - An analysis of the Balance Sheet shows that the Corporation's total assets are over \$2.5 billion and 21.7 percent higher than the fiscal year ended June 30, 2023. The fair market value adjustment (FMV) has now changed directions as the interest rate environment has lowered and as the mix of balance sheet investments has changed with the new bonding activity. The FMV adjustment is now positive \$13.9 M and adds to net income. This valuation is mainly for our large portfolio of MBS investments. It will continues to trend in the opposite direction as interest rates until the portfolio has a mix both higher and lower coupons. This adjustment is also noted below in the Statement of Revenue and Expenses section since it impacts both statements. The analysis also shows that the volume of prepayments has slowed down and the mortgage loan portfolio held on the balance sheet has increased producing changes in the mix between mortgage loans held as investment and MBS held as investments and how they are valued.
 - o The Statement of Revenue and Expenses analysis indicates that fiscal year net income is \$21.8 million before Fair Market Value (FMV) adjustment. This amount is favorable when compared with the forecasted amount of \$17.9 million. The two biggest contributor to this increase in net income, this fiscal year, is higher interest revenue and additional other fees across the Corporation. The main driver of net income has traditionally been the Gain on Sale of Loans, which varies with the interest rate environment and our pricing decisions. The Gain on Sale of Loans revenue for the fiscal year is \$11.6 million as compared with our Forecasted gain of \$11.8 million. Again showing a stable revenue in a very volatile mortgage market.
 - O The budget summary indicates that the Corporation is on track with the overall annual budget that the board approved for the fiscal year. The General and Administrative Budget is at 51.3 for the fiscal year, which is 56% complete. The Mortgage Servicing Budget shows it staffing budgets and other budgets came in under year-to-date budget at 46.7% for the fiscal year. Capital Acquisitions continues to represents a shift to software as a service and ongoing capital projects that will carry over into the new fiscal year. More detail can be provided as needed.
