Note: Cases were classified by *Morbidity and Mortality Weekly Report (MMWR)* year. Utah data for 2022 is preliminary. The 2022 population was estimated by calculating the average growth of the population over the last 10 years and adding it to 2021's estimate.

Data sources: Utah Department of Health and Human Services, Office of Communicable Diseases, UTRIEDSS (for reportable disease surveillance system) and population data from Utah Population Committee estimates by the Ken C. Gardner Policy Institute.

* Use caution in interpreting the estimate has a relative standard error greater than 30% and does not meet DHHS standards for reliability. Rate estimates with relative standard error greater than 50% have been suppressed.

Note: Cases were classified by *Morbidity and Mortality Weekly Report (MMWR)*, year. Utah data for 2022 is preliminary. The 2022 population was estimated by calculating the average growth of the population over the last ten years and adding it to 2021's estimate.

Data source: Utah Department of Health and Hum an Services Office of Communicable Diseases, U TNEDSS (reportable disease surveillance system) and population data from Utah Population Committee estimates by the Kam C Gardner Policy Institute.

* Use caution in interpreting the estimate has a relative standard error or greater than 30% and does not meet DHS standards for reliability.

Note: Rate estimates with relative standard errors greater than 50% have been suppressed.
