CITY COUNCIL WORK MEETING

APRIL 3, 2024

5:30 P.M.

Mayor

Garth O. Green

Council Members

Robert Cox
W. Tyler Melling
R. Scott Phillips
Ronald Riddle
Carter Wilkey

City Manager

Paul Bittmenn

The City Council meeting will be held in the Council Chambers at the City Office, 10 North Main Street. The City Council Chambers may be an anchor location for participation by electronic means. The agenda will consist of the following items:

I. Call to Order

II. Agenda Order Approval

III. Administration Agenda

- Mayor and Council Business
 - Proclamation declaring April as Parkinsons Awareness Month
- Staff Comments

IV. Public Agenda

- Public Comments

V. Business Agenda

Public

Business Agenda

Public

1. Consider single event alcohol permits for a beer garden at the Spring Fiesta on May 3rd and a beer garden at the July Jamboree on July 13th. Payten Crawford, Warehouse Bar & Kitchen/Chief Darin Adams
2. Consider a deferral agreement for frontage improvements in Pasture Lane Subdivision Phase 1. Go Civil/Jonathan Stathis
3. Consider Final Plat for Pasture Lane Subdivision Phase 1. Go Civil/Randall McUne
4. Request to re-consider Staff interpretation of master-planned road improvements in Diamonti Subdivision Phase 2. Platt & Platt/Jonathan Stathis
5. Consider a deferral agreement for improvements on 100 East Street and a variance to the Engineering Standards to allow a temporary driveway. Mike Green/Jonathan Stathis
6. Consider a variance to the Engineering Standards for a curb bulb-out in 775 North Street. Mike Green/Jonathan Stathis
7. Public hearing to consider an ordinance changing the zone from AT to R-3-M for a property near 3400 W South Mountain Drive. Hentstra/Randall McUne
8. Consider the disposal of City property near the golf course. Dave & Michelle Wieber/Randall McUne

Dated this 1st day of April, 2024.

Renon Savage, MMC
Cedar City Recorder

CERTIFICATE OF DELIVERY:

The undersigned duly appointed and acting recorder for the municipality of Cedar City, Utah, hereby certifies that a copy of the foregoing Notice of Agenda was delivered to the Daily News, and each member of the governing body this a 1st day of April, 2024.

Renon Savage, MMC
Cedar City Recorder

Cedar City Corporation does not discriminate on the basis of race, color, national origin, sex, religion, age or disability in employment or the provision of services.

If you are planning to attend this public meeting and, due to a disability, need assistance in accessing, understanding or participating in the meeting, please notify the City not later than the day before the meeting and we will try to provide whatever assistance may be required.

Cedar City, Utah

Proclamation

Whereas, Parkinson's disease is a chronic disorder of the nervous system that affects movement for which there is currently no cure; and

Whereas, one million people in the United States are currently living with Parkinson's disease with an additional 90,000 new cases being diagnosed each year; and

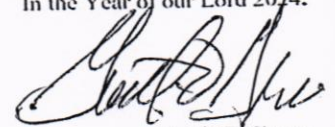

Whereas, according to the Parkinson's Foundation Parkinson's Prevalence project, 1.2 million people in the United States will be living with Parkinson's by 2030. Parkinson's disease is the 14th leading cause of death according to the Centers for Disease Control; and

Whereas, every day the American Parkinson's Disease Association provides the support, education, and research that will help everyone impacted by Parkinson's disease live life to the fullest, through research, patient and family services, education, and more; and

Whereas, increased efforts and awareness are desperately needed to help expedite the research efforts into better treatments, medications and ultimately a cure, as well as enhanced programs and services to help those impacted by Parkinson's disease live life to the fullest until a cure is found; and

Now, therefore, be it resolved, that I, Garth O. Green, Mayor of Cedar City, Utah, hereby proclaim the month of April as Parkinson's Disease Awareness Month.

Signed on this, 3rd day of April,
In the Year of our Lord 2024.

Garth O. Green
Mayor of Cedar City

CEDAR CITY
CITY COUNCIL AGENDA ITEM 2
STAFF INFORMATION SHEET

To: Mayor and City Council

From: City Engineer

Council Meeting Date: April 3, 2024

Subject: **Consider a deferral agreement for frontage improvements in Pasture Lane Subdivision Phase 1.**

Discussion: The developer of Pasture Lane Subdivision Phase 1 is requesting to get their Final Plat approved, which is located in the vicinity of 1125 North 3800 West. As part of the approval process, the developer is requesting a deferral of the required frontage improvements located at the east end of Indigo Street (1125 North) along the frontage of Lot 1.

The developers of the Pointe West Subdivision are planning to complete the construction of Indigo Street when Pointe West Phase 2 is ready for development. At the location where Indigo Street is to be extended, the property is owned by CW Redhawk Village QOZB LLC. Since the property is owned by CW Redhawk, they will be the entity signing the deferral agreement. CW Redhawk has been contacted and they are willing to sign the agreement if it is approved by the City Council.

If approved, the deferral agreement will allow the frontage improvements on Indigo Street to be deferred along the south side of Lot 1. Under the proposed agreement, the improvements will be deferred and required when the road is dedicated adjacent to Lot 1 on Indigo Street. The roadway improvements will need to be installed by CW Redhawk in conjunction with the improvements for Pointe West Subdivision Phase 2.

If the improvements are not completed within the required timeframe stated in the agreement, the City could elect to install the improvements and record a lien against the property for the costs. If approved, the deferral agreement will be recorded with the Iron County Recorder.

Similar agreements have been approved in the past by the City Council. A copy of the proposed agreement with CW Redhawk Village QOZB LLC is included for your consideration.

The following items are attached to this information sheet:

1. A copy of the proposed deferral agreement.
2. An exhibit showing the location of the deferred frontage improvements adjacent to Lot 1 in Pasture Lane Subdivision Phase 1.

Please consider whether or not to approve this deferral agreement for Pasture Lane Subdivision Phase 1. Thank you for your consideration of this matter.

DEFERRAL AGREEMENT

THIS AGREEMENT, is made and entered into this ____ day of _____, 2024, by and between CW Redhawk Village QOZB LLC, herein referred to as CITIZEN, Cedar City Corporation, a municipal corporation organized and existing under the laws of the State of Utah, herein referred to as CITY. Collectively the CITIZEN and CITY may be referred to as the PARTIES.

WITNESSETH:

WHEREAS, CITIZEN owns property located along 3900 West in Cedar City, Utah (Iron County Parcel ID B-1884-0010-0000); said property being more particularly described as attached in Exhibit A.

WHEREAS, said property, pursuant to Ordinance, will not meet certain prerequisites for development;

NOW THEREFORE, in consideration of the mutual covenants and agreements contained here, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the PARTIES agree as follows:

1. CITIZEN may partially dedicate Indigo Street (1125 N) as shown on Pasture Lane Subdivision Phase 1 Final Plat, whereby Lot 1 on said plat is not fully dedicated or improved along the side lot line being 92.70 feet. CITIZEN agrees to dedicate the remaining portion of Indigo Street along said Lot 1 and build full improvements as required by Cedar City Ordinance with the next Phase of the CITIZENS project, Pointe West Subdivision Phase 2, subject to the terms and conditions set forth herein.
2. CITY agrees to waive the requirements below temporarily, subject to the terms and conditions set forth herein.
3. CITIZEN acknowledges their obligation to install their portion of curb, gutter, sidewalk, street, water, sewer, and drainage improvements upon the dedication of Indigo Street in accordance with City ordinance. CITIZEN agrees to install, at their own expense, curb, gutter, sidewalk, street, water, sewer, and drainage improvements fronting Lot 1, Pasture Lane Subdivision, Phase 1 prior to receiving final sign off and as-built approval of Pointe West Subdivision Phase 2 after receiving City approval of the construction drawings of Phase 2.
4. If CITIZEN does not improve said property with the improvements outlined under term 3, CITIZEN acknowledges and consents that CITY may elect to install the improvements and record a lien against said property to secure the repayment of the costs associated with the CITY installing the improvements.
5. This Agreement shall be recorded in the office of the Iron County Recorder.

6. This Agreement shall be binding upon the respective heirs, legal representative, successors, and assigns to the PARTIES hereto.
7. This agreement shall run with the title to the property and be binding on any successor in interest.

IN WITNESS WHEREOF, the PARTIES have executed this Agreement as of the day and year set forth above:

CEDAR CITY COUNCIL
AGENDA ITEMS - 3
DECISION PAPER

TO: Mayor and City Council

FROM: City Attorney

DATE: April 1, 2024

SUBJECT: Pasture Lane Subdivision Phase 1 located at approximately 1125 North 3800 West

DISCUSSION:

Pasture Lane Subdivision Phase 1 is located in the vicinity of 1125 North 3800 West. All fees have been paid. I received the title report for Pasture Lane prior to this memo, which confirmed the correct ownership, but rollback taxes had not yet been paid. The developer has since provided proof that those have been paid. However, because this subdivision relies on a road dedication from an adjacent, as-of-yet not approved subdivision within the Pointe West development (PID approved last week), we also need a title report for that section of Pointe West. We are awaiting that title report.

Per UCA 10-9a-604.5, the Developer is requesting final plat approval subject to the City receiving the bond. The Developer is aware that the final plat will not be recorded until the bond and bond agreement are in place.

Please consider approval of the final plat for the Pasture Lane Subdivision Phase 1.

**CEDAR CITY
CITY COUNCIL AGENDA ITEM 4
STAFF INFORMATION SHEET**

To: Mayor and City Council

From: City Engineer

Council Meeting Date: April 3, 2024

Subject: Request to re-consider Staff interpretation of master-planned road improvements in Diamonti Industrial Subdivision Phase 2.

Discussion: The developer of Diamonti Industrial Subdivision Phase 2 is requesting to get their Final Plat approved, which is located in the vicinity of 250 North 3325 West. As part of the approval process, City ordinance requires that the master-planned frontage improvements be installed when fronting a subdivision. In this case, there is a master-planned road that is located on Center Street to the south of Phase 2.

In 2017, an amendment was made to the City's Transportation master plan to change the location of Center Street. The change moved Center Street to the north where it crosses Westview Drive. A map is included that shows the exhibit that was presented to the Planning Commission. The exhibit is not definitive in the location of the master-planned road in relation to the property line. In the recent Transportation Master Plan update, the location of the master-planned road on Center Street was not changed.

The City's GIS master plan map shows the master planned road adjacent to the proposed Diamonti Subdivision property.

The location of the centerline of the master-planned road is shown on the attached final plat. This is based on centerline information that was provided from the engineer at the time of the master plan change and this was how it was put into the City's GIS at that time.

Typically, master-planned roads are administered such that the centerline of the road will be split between two properties when the road is located along a property boundary. This is most often seen when a master-planned road follows an old County road such as Westview Drive, Lund Highway, 3000 North, etc. In those cases, the expansion of the master planned roadway typically falls equally on both sides of the existing road.

However, in this case, there is no existing road. The new Center Street alignment was drawn through undeveloped property to provide the appropriate curves and alignment based on what could work best in the future. This situation is not as clear cut, because there is no existing road to follow. The developer's position is that the road is located a few feet south of the property so it would not be required. City Staff's interpretation is that the master planned road is adjacent to the property, so the improvements need to be installed as part of the subdivision.

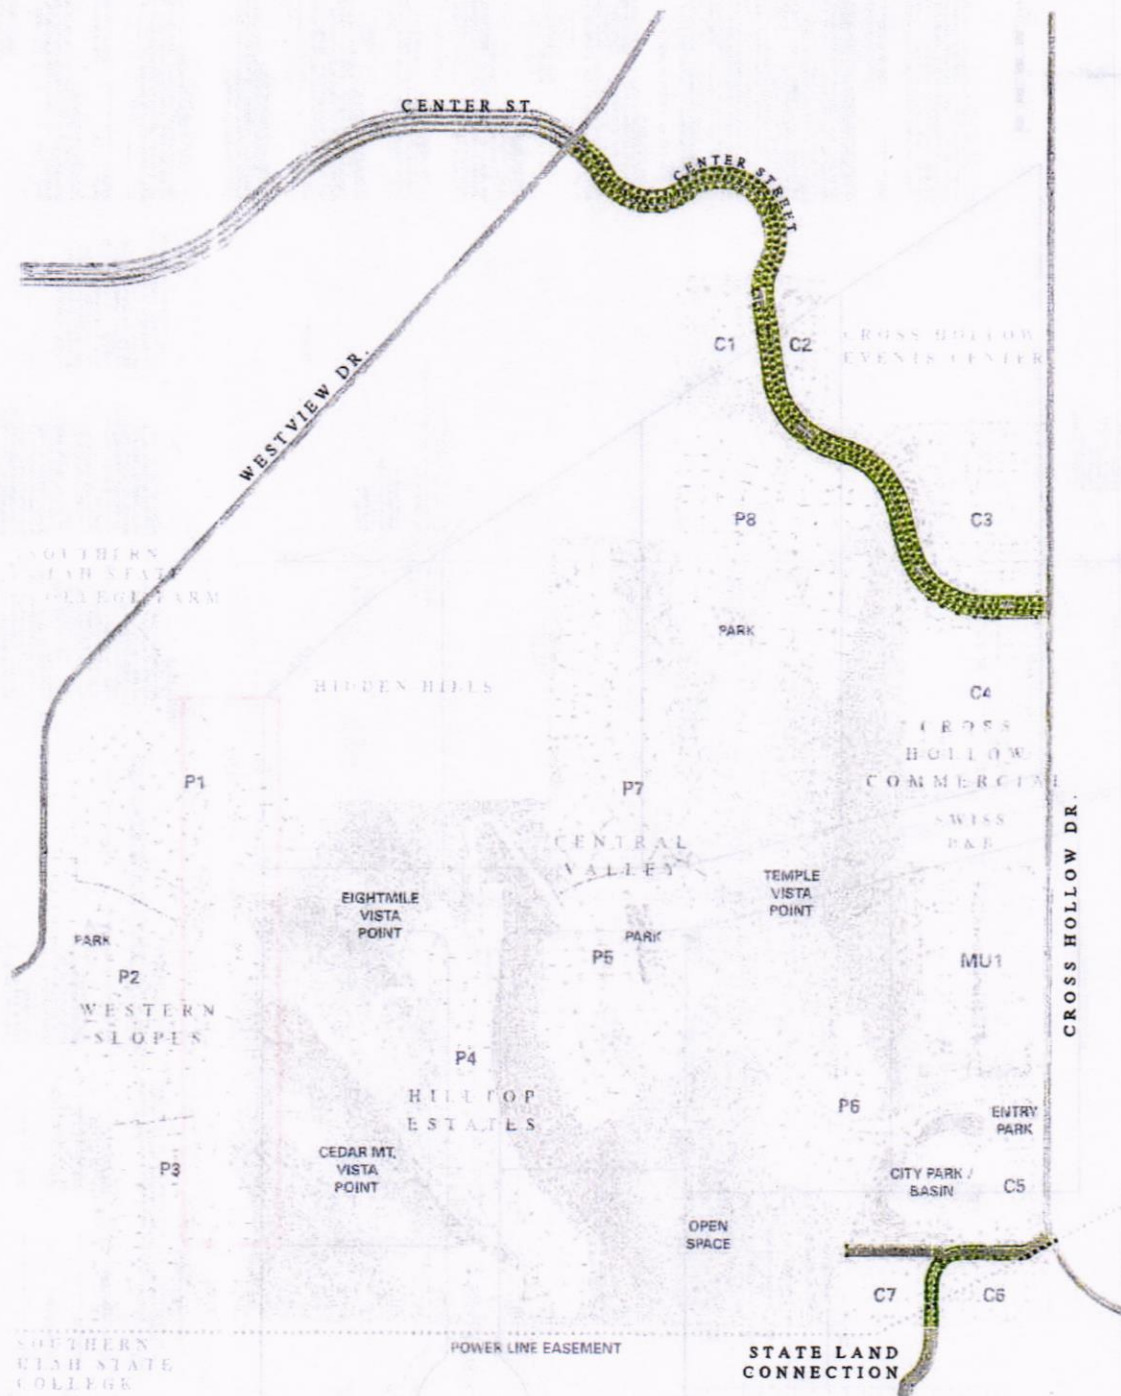

The following items are attached to this information sheet:

1. An exhibit showing the location of the master planned road on Center Street that was presented to the Planning Commission in 2017.
2. The proposed final plat of Diamonti Industrial Subdivision Phase 2 showing the location of the master planned road based on centerline information that was provided at the time of the master plan amendment.

Please consider the developer's request to re-consider Staff's interpretation of the master planned road improvements being required on Center Street as part of the Diamonti Industrial Subdivision Phase 2. Thank you for your consideration of this matter.

**CEDAR CITY
CITY COUNCIL AGENDA ITEM 5
STAFF INFORMATION SHEET**

To: Mayor and City Council

From: City Engineer

Council Meeting Date: April 3, 2024

Subject: **Consider a deferral agreement for improvements on 100 East Street and a variance to the Engineering Standards to allow a temporary driveway.**

Discussion: The developer of the American Preparatory Academy K-8 school located at 782 N. Main Street is requesting a deferral on the master-planned frontage improvements adjacent to the project on 100 East Street. The developer is requesting a deferral of the required master-planned frontage improvements located on 100 East Street along the frontage of the property.

If approved, the deferral agreement will allow the frontage improvements on 100 East to be deferred. Under the proposed agreement, the improvements will be deferred and required when the improvements are installed going north through the Forest Service property. A preliminary design has been completed for 100 East Street through the Forest Service. However, until the right-of-way is actually secured to install the improvements, the final grades and location of the roadway might change.

If the improvements are not completed within the required timeframe stated in the agreement, the City could elect to install the improvements and record a lien against the property for the costs. There is also an option in the agreement that would allow the developer to pay Cedar City for the cost of the improvements at such time as the improvements are installed going north through the Forest Service property. This may provide some economy of scale in doing all of the improvements at once, as well as allowing all of the improvements to be completed by the same contractor.

If approved, the deferral agreement will be recorded with the Iron County Recorder.

Similar agreements have been approved in the past by the City Council. A copy of the proposed agreement with Cedar Green Holdings LLC is included for your consideration.

If the deferral agreement is approved, then a variance would also be requested to allow a temporary driveway that would provide access to the drive approach into the parking lot on the east side of the property.

The following items are attached to this information sheet:

1. A copy of the proposed deferral agreement.
2. An exhibit showing the location of the deferred master-planned frontage improvements adjacent to the American Preparatory Academy school property and the proposed temporary driveway location.

Please consider whether or not to approve this deferral agreement for the American Preparatory Academy school project and allow a temporary driveway into the east side of the property. Thank you for your consideration of this matter.

DEFERRAL AGREEMENT

THIS AGREEMENT, is made and entered into this ____ day of _____, 2024, by and between Cedar Green Holdings LLC, herein referred to as CITIZEN, Cedar City Corporation, a municipal corporation organized and existing under the laws of the State of Utah, herein referred to as CITY. Collectively the CITIZEN and CITY may be referred to as the PARTIES.

WITNESSETH:

WHEREAS, CITIZEN owns property located at 782 N. Main Street in Cedar City, Utah (Iron County Parcel ID B-0067-0002-0067-03); said property being more particularly described as attached in Exhibit A.

WHEREAS, said property, pursuant to Ordinance, will not meet certain prerequisites for development;

NOW THEREFORE, in consideration of the mutual covenants and agreements contained here, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the PARTIES agree as follows:

1. CITIZEN agrees to build full improvements on 100 East Street as required by Cedar City Ordinance at such time as the CITY constructs 100 East Street going north through the Forest Service property, subject to the terms and conditions set forth herein.
2. CITY agrees to waive certain requirements temporarily subject to the terms and conditions set forth herein.
3. CITIZEN acknowledges their obligation to install their portion of curb, gutter, sidewalk, street, water, sewer, drainage and landscaping improvements at such time as the CITY constructs 100 East Street going north through the Forest Service property in accordance with City ordinance. CITIZEN agrees to install, at their own expense, curb, gutter, sidewalk, street, water, sewer, drainage and landscaping improvements fronting 782 N. Main Street at such time as the CITY constructs 100 East Street going north through the Forest Service property. Such improvements must be installed by CITIZEN within 30 days of the CITY installing the improvements on 100 East Street going north through the Forest Service property.
4. CITY agrees to provide written notice to CITIZEN which will start the 30-day time period as stated under term 3. If CITIZEN does not improve said property with the improvements outlined under term 3, CITIZEN acknowledges and consents that CITY may elect to install the improvements and record a lien against said property to secure the repayment of the costs associated with the CITY installing the improvements.
5. As an alternative to CITIZEN installing the required improvements, CITIZEN may pay CITY for CITIZEN's share of the cost to install the improvements. At such time as the

CITY prepares to install the improvements going north through the Forest Service property, CITY shall notify CITIZEN regarding the costs associated with installing the improvements. If CITIZEN agrees to the costs in writing, then the CITY shall include CITIZEN's required portion of the work in the CITY's project. CITIZEN shall pay the CITY for CITIZEN's required portion of the work which includes the frontage of CITIZEN's property and improvements in the intersection of 100 East and 775 North.

6. This Agreement shall be recorded in the office of the Iron County Recorder.
7. This Agreement shall be binding upon the respective heirs, legal representative, successors, and assigns to the PARTIES hereto.
8. This agreement shall run with the title to the property and be binding on any successor in interest.

IN WITNESS WHEREOF, the PARTIES have executed this Agreement as of the day and year set forth above:

- PROPOSED STORM DRAIN / CLEANOUT

GENERAL NOTES

- UTILITY LOCATIONS MUST BE VERIFIED IN THE FIELD BY THE CONTRACTOR. THE CONTRACTOR MUST CALL & SET STAKES PRIOR TO ANY EXCAVATION.
- THE CONTRACTOR IS RESPONSIBLE FOR THE REMOVAL OF ALL EXISTING OBSTACLES AND FEATURES THAT ARE IDENTIFIED DURING THE CONSTRUCTION OF THIS SITE TO INCLUDE ANY UNKNOWN TREE STUMPS, ROOTS, SEPTIC TANKS, BURIED TANKS, ETC.
- THE CONTRACTOR IS RESPONSIBLE FOR THE SAFETY DURING ALL PHASES OF DEMOLITION AND CONSTRUCTION.
- CARE MUST BE TAKEN NOT TO UNDERMINE OR DISTURB THE ADJACENT BUILDINGS DURING ALTERNATE PHASES OF DEMOLITION AND CONSTRUCTION.
- CONTRACTOR TO MINIMIZE ROAD CLOSURES OF EXISTING ROADS AS MUCH AS POSSIBLE. PROVIDE TRAFFIC CONTROL, SIGNS, AND BARRIERS DURING CONSTRUCTION AND ROAD CLOSURES PER REQUIREMENTS OF MUTED (MANUAL OF UNIFORM TRAFFIC CONTROL DEVICES, LATEST EDITION).
- ALL PUBLIC STREET IMPROVEMENTS MUST BE BUILT TO CEDAR CITY SPECIFICATIONS AND STANDARDS. ALL SITE CONSTRUCTION SHALL BE INSTALLED AND TESTED IN ACCORDANCE WITH LOCAL, IF APPLICABLE, AND SPECIFICATIONS AND ALL APPLICABLE CODES.
- UNDERMINES TAKE PRECEDENCE OVER SIGNALS. ANY DISCREPANCIES SHOULD BE BROUGHT TO THE ATTENTION OF THE ENGINEER.
- RECONSTRUCTION TO INCLUDE RECOMMENDATIONS PER SOILS REPORT.
- ALL WATER LINES MUST BE BURIED TO A MINIMUM DEPTH OF 36" TO TOP OF PIPE.
- USE BASIS OF BEARING, COORDINATES, AND ELEVATIONS SHOWN ARE ON THE CEDAR CITY COORDINATE CONTROL NETWORK USING THE CEDAR CITY GPS BASE STATION AND ORIENTATION. ANY WORK IN THE FIELD OF ANY THAT DISTURBS POINT OF MANY MONUMENTS WILL REQUIRE THE MONUMENT TO BE RESET AT CONTRACTORS EXPENSE.
- THE PROPERTY IS LOCATED IN A GENERAL COMMERCIAL ZONE.
- THE PROPERTY IS LOCATED WITHIN FLOOD ZONE X PER CEDAR CITY FEMA AND URBAN MAP FROM FEMA'S 1984 APPROVED FLOODMAPS, UPDATED 1-18-2018.
- THE PROPERTY IS LOCATED WITHIN THE 100 SOIL AREA PER CEDAR CITY'S "RELATIVE HYDROSCOPIC CAPACITY" MAP FROM JANUARY 2011.
- USE "HIGHLY SUSCEPTIBLE" SOILS. TESTING MAY REVEAL INFORMATION INDICATING RESIDENTIAL OR OTHER DEVELOPMENT UNDESIRABLE. TESTING NECESSARY BEFORE PERMANENT OR DEVELOPMENTAL IMPROVEMENTS.
- SEE ARCHITECTURAL PLANS FOR BUILDING INFORMATION AND ADDITIONAL SITE PLAN INFORMATION.
- THE CONTRACTOR TO FIELD VERIFY GRADES AND ADJUST DESIGN ELEVATIONS IF NECESSARY AS PART OF THE CONSTRUCTION.

UTILITY NOTES

- ALL UTILITY CONSTRUCTION WILL COMPLY WITH CEDAR CITY'S ENGINEERING STANDARDS.
- ALL UTILITY TRENCHES WILL BE CONSTRUCTED PER CEDAR CITY'S STANDARD DETAIL #1.
- UTILITY SPACING IS TO COMPLY WITH CEDAR CITY'S ENGINEERING STANDARDS.

SHEET NO:

C10

**CEDAR CITY
CITY COUNCIL AGENDA ITEM 4
STAFF INFORMATION SHEET**

To: Mayor and City Council

From: City Engineer

Council Meeting Date: April 3, 2024

Subject: **Consider a variance to the Engineering Standards for a curb bulb-out in 775 North Street.**

Discussion: The developer of the American Preparatory Academy K-8 school located at 782 N. Main Street is requesting a variance to allow a "bulb-out" at the west end of 775 North Street. The bulb-out would involve the installation of a curb into the City right-of-way. The curb bulb-out would force the queuing lane for drive-through drop-off to merge back into traffic and help alleviate turning movement congestion at the intersection with Main Street.

If the variance is approved, then this would allow a bulb-out to be installed at the west end of 775 North. Any portion of the bulb-out constructed within UDOT right-of-way would need to receive an encroachment permit from UDOT prior to construction.

The following items are attached to this information sheet:

1. An exhibit showing the location of the bulb-out at the west end of the American Preparatory Academy school property on 775 North Street.

Please consider whether or not to approve this variance for the American Preparatory Academy school project. Thank you for your consideration of this matter.

CEDAR CITY COUNCIL

AGENDA ITEMS – 7

TO: Mayor and City Council

FROM: City Attorney

DATE: March 30, 2024

SUBJECT: Requested Zone change for property located at approximately 3400 W South Mountain Drive

DISCUSSION:

Pursuant to the request for a zone change for property located at approximately 3400 W South Mountain Drive, one ordinance was prepared. The requested changes would amend the zone from AT to R-3-M as shown on the map. The requested changes are generally in line with the high density shown on the General Plan.

The Planning Commission gave a positive recommendation to this request.

9. PUBLIC HEARING

Zone Change from 3400 W South Mountain DriveHenstra/ Chamberlain

AT to R-3-M B-1846-0003-0000

(Recommendation)

Cameron Chamberlain: I am helping develop a piece. Asking for a rezone. It follows the Master Plan, there is a RDO that is approved. It is just shy of 9 acres. Falls within the RDO.

Cox: Meets General Plan?

Don: Zoned AT. An RDO is kind of like a small Master Plan.

Jett: Is it private?

Don: No, it is added to Master Plan. Formality they have to change the zone. There was a Public Hearing for the entire thing a few years ago. The RDO has been in place 2-3 years.

Jonathan: Conforms with RDO, so no staff concerns.

Public Hearing Opened

Public Hearing Closed

**Councilmember Cox motions for a positive recommendation; Jett seconds all in favor for

CEDAR CITY ORDINANCE NO. 0410-24

AN ORDINANCE OF THE CEDAR CITY COUNCIL AMENDING CEDAR CITY'S ZONING DESIGNATION FROM ANNEXED TRANSMISSION (AT) TO DWELLING MULTIPLE UNIT (R-3-M) AND DWELLING MULTIPLE UNIT (R-3-M) FOR A PROPERTY LOCATED AT 3400 W SOUTH MOUNTAIN DRIVE

WHEREAS, the owner of two properties located at approximately 3400 W South Mountain Drive has petitioned Cedar City to change the current zoning designation from Annexed Transition (AT) to Dwelling Multiple Unit (R-3-M), the properties are more particularly described and shown in Exhibit A.

WHEREAS, after providing public notice as required by City ordinance the Cedar City Planning Commission considered the proposed zoning amendment and gave a negative recommendation to the proposal; and

WHEREAS, the City Council after duly publishing and holding a public hearing to consider the proposed zoning amendment finds the proposed amendment furthers the City's policy of establishing and maintaining sound, stable, and desirable development within the City, promoting more fully the objectives and purposes of the City's zoning ordinance, or correcting manifest errors.

NOW THEREFORE BE IT ORDAINED by the City Council of Cedar City, State of Utah, that the City's zoning designation is amended from Annexed Transition (AT) to Dwelling Multiple Unit (R-3-M), for property located at approximately 3400 W South Mountain Drive, and more particularly described herein, and City staff is hereby directed to make the necessary changes to the City's zoning map.

This ordinance, Cedar City Ordinance No. 0410-24, shall become effective immediately upon passage by the City Council and published in accordance with State Law.

CEDAR CITY COUNCIL

AGENDA ITEM – 8

TO: Mayor and City Council

FROM: City Attorney

DATE: March 30, 2024

SUBJECT: Disposal of a property located north of the green on Hole #2 of the Golf Course and adjacent to 900 North

DISCUSSION:

The tee box for Hole #2 at the golf course is partly on Dave and Michelle Wieber's property. As a solution, the Wiebers suggested exchanging roughly equivalent, currently undivided parcels between the City's property and theirs. The Council agreed to consider the disposal of the City's parcel in 2023. The City only received the Wiebers' response to the RFP on this disposal, which is not surprising considering the location and the size of the property being disposed. Per City policy, the Wiebers paid to have the City's parcel appraised, and, to show the values were roughly equal, their own parcel as well. The combined appraisal is attached.

In the exchange, the City would receive property measuring 4,301 square feet and valued at \$32,344, and the Wiebers would receive property measuring 4,298 square feet and valued at \$32,321. The exchange will require a parcel/lot line adjustment, which can be done at staff level.

The City Council has a few different options to consider at this time: 1) accept the Wieber's offer as is, 2) make a counteroffer (this should be discussed during a closed session), or 3) reject the offer and retain possession of the property.

March 3, 2024

The Honorable Garth O. Green
Cedar City Mayor
10 North Main Street
Cedar City, UT 84720

Dear Mayor Green,

INTRODUCTION: We are responding to the request for proposals for city property located north of the Green on Hole #2 of the Cedar City Golf Course, adjacent to 900 North, Cedar City Utah.

Dave Wieber and Michelle Wieber are the owners of the adjacent property on the north side of the second fairway. We are developing our piece of property as a subdivision titled Stephens Canyon. During our development process and surveying, we discovered that one of the Cedar City Golf Course's tee boxes is on our property. This information led to a discussion with the golf course and the golf pro as well as the City Engineer and Attorney proposing a land swap.

We secured an appraisal, which the City Attorney has a copy of, and the land values are essentially equal.

PORTION OF PROPERTY: The area proposed for sale is approximately 4298 square feet and the land near the tee box we propose to trade is 4301 square feet. We are proposing an equal land swap with no cash exchange.

ANTICIPATED USE/DESCRIPTION IMPROVEMENTS AND MODIFICATIONS/ANTICIPATED ECONOMIC BENEFIT TO THE CITY: We would add the City property to the Stephens Canyon project and the City would retain the current location of their second tee box thus eliminating extra expense in relocating the tee box to another location on the golf course. The City property once added to Stephens Canyon would be the east boundary of the property and would be the location of the turnaround once the road improvements are completed.

The City property we are proposing to add to Stephens Canyon would be used as a driveway to access lot 6 on the subdivision map.

COMMENCEMENT AND COMPLETION DATES: The final plat for Stephens Canyon will be submitted in April or May of 2024 and the road improvements will begin in the fall of 2024 or spring of 2025 with completion expected in 2025.

ABILITY TO COMPLETE THE PROJECT/TIMING OF PAYMENTS: Since no money will exchange hands, the land swap completion could be done in the next 30 days following City approval.

Thank you for your consideration. A map including the coordinates and location of the proposed land swap is included as an attachment.

Sincerely,

Dave Wieber
2454 Birn Hill Dr
Faribault, MN 55021

NARRATIVE

THIS SURVEY WAS PERFORMED AT THE REQUEST OF DAVID AND MICHELLE WIEBER WHO ARE PREPARING TO DIVIDE THE PARCEL INTO SEPARATE SINGLE FAMILY LOTS. THE PURPOSE OF THE SURVEY WAS TO PREPARE A ROAD FOR THE SUBDIVISION BY TRADING PROPERTY WHICH HAD BEEN DEVELOPED AS A CART PATH TO THE CITY FOR A PORTION OF PROPERTY TO THE EAST OF THE EXISTING PARCEL.

A ROAD DEDICATION PLAT FOR THE NORTH, A 40-FOOT RIGHT-OF-WAY, HAS BEEN PREPARED BY THIS OFFICE. SAID SURVEY BEING THE NORTH BOUNDARY OF THIS PARCEL.

BASES OF BEARS

ELAVATION, BASES OF BEARS, AND BASES OF CONSIDERATION FOR THESE PLANS ARE FOR THE CEDAR CITY DEDICATION OF THE BASE OF BEARS AND CALCULATION. THE VERTICAL BASES FOR THIS SURVEY IS THE CEDAR CITY BASE ELEVATION 1241.10 MSL. THE SURVEYOR HAS USED THE BASE OF BEARS CAP MEASUREMENT AT THE CENTER IN FORMER OF SECTION 16. THE CEDAR CITY DATUM IS BASED ON NAVD83.

THIS ROAD DEDICATION LIES BETWEEN THE NORTHEAST CORNER OF SECTION 11 AND THE EAST QUARTER CORNER OF SECTION 11. THE POINT OF BEGINNING IS NORTH, 88° 10' 00" E, 154.10 FEET TO THE POINT OF BEGINNING. FROM THE POINT OF BEGINNING TO THE EAST QUARTER CORNER OF SECTION 11 IS 154.10 FEET.

File No. 1023-37

Client	Cedar City				
Property Address	E 900 N				
City	Cedar City	County	Iron	State	UT Zip Code 84721
Appraiser	Michelle W Wilson				

Subject Property: approximately E 900 N, Cedar City UT 84720**Survey Description:** See plat map**Assessor's Parcel ID #:** B-0003-0025-00000**Acreage:** 3.758 ac**Owner of Record:** Asteri Cedar City**Client:** Cedar City c/o Randy Mullin, attorney**Taxes (2023):** \$4,493.25**Assessed Value:** \$563,700**Zoning:** R-3-M- Residential unimproved - multiple units allowed**FEMA Map Reference:** 16260 **Census Tract:** 1105.02 **FEMA Map:** 4900740004B **Flood Zone:** X**Map Date:** 10/16/1984 Not in a FEMA Flood hazard zone**Property Rights:** Fee Simple **Assignment Type:** Market Value **The property is NOT currently listed for sale.**Neighborhood:** Cedar City**Neighborhood Boundaries:** To the east Cedar Canyon, to the north E 1800 N, to the west Main Street, to the south E 200 S.1 and east 900 N.

Neighborhood Description: Cedar City is a semi-urban community located approximately 250 miles south of Salt Lake City, UT and 175 miles northeast of Las Vegas, NV with a population of approximately 37,206 as per 2020 Census Bureau estimates. Cedar City is the most populous area of Iron County and offers a full range of amenities that includes a 4 year university, golf course and larger. There is good access to all services, including a hospital less than 2 miles away, 2 high schools and junior high schools, multiple elementary schools, shopping and recreation.

Land Valuation: A thorough search was performed of the subjects market. Due to the lack of any published comparable sales within the past 3 years in the subjects market area, the county assessed land values are being utilized.

Table 1

	APN	Acreage	Square Feet	Assessed Value
1	B-1770-58	0.60	26138	152,230
2	B-1835-6	0.33	14375	152,230
3	B-1611-44	0.30	13068	122,850
	Avg		20257	152230
	Value	0.10	4298	32321
		0.10	4301	32344

Conclusion: The both pieces of land for trade are .10 ac (rounded). The value is based on the sqft method, utilizing closed sales located of f the golf course. Due to the lack of any comparables of a similar size to the subject, the assessed values of three sales were utilized. The difference in comps 1&2 to comp 3 was comp. 3 is located across the street from a fairway. therefore comps 1&2 were considered the most comparable. Based on the assessed average cost of **7.52 per sq/ft.**

Market Value of**Parcel A is \$32,321****Parcel B is \$32,344**

**As a side note, this is not a formula to use to value the whole parcel. As the number of acres increase, the price per acre decreases. Therefore, to value of the whole parcel, a separate market analysis would need to be performed.

Land : Site - Highest and Best not used

In the 'Site' section on page 1 of the URAR, the Highest and Best Use conclusion was reported. A basic definition of Highest and best use follows:

"The reasonably probable and legal use of vacant land or an improved property that is physically possible, appropriately supported, and financially feasible and that results in the highest value." (The Appraisal of Real Estate, 13th Edition, pp. 277-278).

The subject site is located in Iron County, UT and is subject to applicable zoning laws and other ordinances. The subject site is zoned residential 2 ac minimum, which is legally conforming, lends itself to residential use because of physical characteristics, such as site size, topography, location and other factors, such as compatibility with other sites in the subject's immediate vicinity.

Hypothetical Conditions:

At the request of the client, an opinion of market value has been developed based upon the hypothetical assumption of a sale of the Subject at market value utilizing the extraordinary assumption that the property is marketable and transferable as a building lot, not taking into account its future uses, as of the effective date of this report.

Intended Use/Users:

The Intended User of this appraisal report is the Client. The Intended Use is to evaluate the subject property of this appraisal to determine market value for acquisition purposes of the client, not to include financing, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Use/Users are identified by the appraiser.

Scope of Work:

The following steps were taken in order to arrive at the final estimate of value for the subject property:

1. Both ongoing, general and specific market research was carried out to determine market trends, influences and other significant factors relevant to the subject property.
2. A physical inspection of the subject property was performed. Although due diligence was exercised while at the subject property, the appraiser is NOT an expert in such matters as pest control, structural engineering, hazardous waste, or construction etc. No warranty is given or implied as to these or other elements outside of the analysis of market data. Inspections by various professionals within these fields may be recommended within the final estimate of market value subject to their findings.
3. Following, a more detailed review and analysis of the data collected was conducted with a view to determine the most relevant factors in relation to the assignment. Sales were examined and confirmed closed by speaking with an individual directly involved in the transaction or from material provided by one or more service(s) that obtain information from public records and private sources. Note: Utah is a non-disclosure state, which limits the information that can be obtained and confirmed from public sources. Relevant, comparable active listings and properties under contract, if any, were also considered at this point of the valuation process. Market factors were weighted and their influence on the subject property was determined. A highest and best use analysis was performed for the subject property.
- 4-The appraisal report was completed in accordance with the standards dictated by The Appraisal Foundation found in USPAP (Uniform Standards of Professional Appraisal Practice). The report was deemed to include sufficient data and information to lead to credible results and enable its reader to reach a similar conclusion of market value.

Certification, Item 10: The appraiser attempted to adhere fully with the requirements set forth in item 10 of the certification statement, and believes that sources consulted provide reasonably reliable and credible information. Strict adherence to the requirements set forth in item 10, however, was not possible in the normal course of business. Utah is a non-disclosure state, which prohibits the appraiser from verifying data with any published, non-interested third party. The primary data source consulted for the purposes of the current appraisal has been the local area Multiple Listing Service(s).

Report

File No. 1023-37

Client	Cedar City				
Property Address	E 900 N				
City	Cedar City	County	Iron	State	UT Zip Code 84721
Appraiser	Michelle W Wilson				

Other Land Use:

The other land use indicated in the neighborhood section is vacant.

Highest and best use:

The highest and best use considers the following: The reasonably probable and legal use of vacant land and the improved property, which is physically possible, appropriately supported, financially feasible, and that results in the highest value. The four criteria highest and best use meet are legal permissibility, physical possibility, financial feasibility, and maximum profitability.

In this appraisal, the client has requested the highest and best use be ignored and an extraordinary assumption that the subject meets the above stated criteria, for the purposes of this appraisal only.

Marketing Considerations/Time:

Markets in Southern Utah require justification because of the changing marketing forces. The underpinnings of each market change with time and location. If the subject market is declining it is common to see time adjustments on comparables to understand what they would sell for in today's market.

Inspection:

An onsite inspection was performed of the subject.

Comparables:

The comparable properties selected were adjusted based on differences to the subject. Adjustments reflect the value suggested by actions of buyers and sellers in an open and free market. Various methods to extract adjustments were utilized; paired sales analysis, multiple linear regressions analysis, depreciated costs, and appraisal experience. Generally moderate but consistent adjustments to the major market considerations. Where possible, the comparables bracket major value components. The central tendency of the adjusted comparable sales is also considered in the reconciliation of market value. Acreage and location are given the greatest consideration as well as topography. They represent subjective considerations from the MLS narrative, onsite inspections from Realtors, and appraiser.

Comparable information sources:

The state of Utah does not release all information on sold properties. This limits the information sources and the amount of data available. There are three primary sources for sales data. The first source is the Board of Realtors Multiple Listing Services (MLS). This source provides most of the information used in selecting the comparing recently sold properties. The second source is the real estate agent to verify information in the MLS with the listing agent when questions arise. The County Assessor's database was also utilized. The information to verify MLS data when discrepancies occur is given more weight.

Contingent and Limiting Conditions:

The appraiser's certification that appears in the appraisal report is subject to the following conditions:

Limiting Conditions and Assumptions:

This appraisal report is subject to the following assumptions and limiting conditions and to special assumptions set forth in various sections of the appraisal report. These special assumptions are considered necessary by the appraisers to make a proper estimate of value in accordance with the appraisal assignment and are made a part herein, as though copied in full.

1. LIMIT OF LIABILITY - Liability of MWW Appraisals, LLC and employees is limited to the fee collected for preparation of the analysis. There is no accountability or liability to any third party.
2. COPIES, PUBLICATION, DISTRIBUTION, USE OF REPORT - Possession of this report or any copy thereof does not carry with it the right of publication, nor may it be used for other than its intended use; the physical report(s) remain the property of the appraiser for the use of the client, the fee being for the analytical services only. The report may not be used for any purpose by any person or corporation other than the client or the party to whom it is addressed or copied without the written consent of MWW Appraisals, LLC and then only in its entirety. Neither all nor any part of the contents of this report shall be conveyed to the public through advertising, public relations efforts, news, sales or other media, without the written consent and approval of MWW Appraisals, LLC, nor may any reference be made in such a public communication to the Appraisal Institute.
3. CONFIDENTIALITY - The appraiser may not divulge the material (evaluation) contents of the report, analytical findings or conclusions, or give a copy of the report to anyone other than the client or his/her designee as specified in writing (except as may be required by the Appraisal Institute as they may request in confidence for ethics enforcement), or by a court of law or body with the power of subpoena. This appraisal is to be used only in its entirety and no part is to be used without the whole report. All conclusions and opinions concerning the analysis which are set forth in the report were prepared by the appraiser(s) whose signature(s) appear on the appraisal report, unless indicated as "Review Appraiser." No change of any item in the report shall be made by anyone other than the appraiser, and the appraiser and firm shall have no responsibility if any such unauthorized change is made.
4. TRADE SECRETS - This appraisal was obtained MWW Appraisals, LLC and consists of "trade secrets and commercial or financial information" which is privileged and confidential and exempted from disclosure under 5 U.S.C. 552 (b)(4). Notify the appraiser(s) signing the report or MWW Appraisals, LLC of any request to reproduce this appraisal in whole or in part.

City	Cedar City	County	Iron
Appraiser	Michelle W Wilson	State	UT
		Zip Code	84721

5. INFORMATION USED - No responsibility is assumed for accuracy of information furnished by or from others, the client, his designee, or public records. We are not liable for such information or the work of possible subcontractors. The comparable data relied upon in this report has been confirmed with one or more parties familiar with the transaction or from affidavit; all are considered appropriate for inclusion to the best of our factual judgment and knowledge.

6. TESTIMONY, CONSULTATION, COMPLETION OF CONTRACT FOR APPRAISAL SERVICES - The contract for appraisal, consultation or analytical service is fulfilled and the total fee payable upon completion of the report. The appraiser(s) or those assisting in preparation of the report will not be asked or required to give testimony in court or hearing because of having made the appraisal, in full or in part, nor engage in post appraisal consultation with client or third parties except under separate and special arrangement and at additional fee.

7. EXHIBITS - The sketches and maps in this report are included to assist the reader in visualizing the property and are not necessarily to scale. Various photos, if any, are included for the same purpose and are not intended to represent the property in other than actual status, as of the date of the photos.

8. LEGAL, ENGINEERING, FINANCIAL, STRUCTURAL, OR MECHANICAL NATURE, HIDDEN COMPONENTS, SOIL - No responsibility is assumed for matters legal in character or nature, nor matters of survey, nor of any architectural, structural, mechanical, or engineering nature. No opinion is rendered as to the title, which is presumed to be good and merchantable. The property is appraised as if free and clear, unless otherwise stated in particular parts of the report. The legal description is assumed to be correct as used in this report as furnished by the client, his designee, or as derived by the appraiser. The appraiser has inspected, by observation, the land and the improvements thereon; however, it is not possible to personally observe conditions beneath the soil or hidden structure, or other components, or any mechanical components within the improvements; no representations are made herein as to these matters unless specifically stated and considered in the report; the value estimate considers there being no such conditions that would cause a loss of value. The land or the soil of the area being appraised appears firm; however, the degree of subsidence in the area is unknown. The appraiser(s) do not warrant against this condition or occurrence of problems arising from soil conditions. The appraisal is based on there being no hidden, unapparent, or apparent conditions of the property site, subsoil, or structures which would render it more or less valuable. No responsibility is assumed for any such conditions or for any expertise or engineering to discover them. All mechanical components are assumed to be in operable condition and status standard for properties of the subject type. Condition of heating, cooling, ventilating, electrical and plumbing equipment is considered to be commensurate with the condition of the balance of the improvements unless otherwise stated.

9. THE EXISTENCE OF HAZARDOUS SUBSTANCES - No judgment is made as to adequacy of type of insulation or energy efficiency of the improvements or equipment. Further, unless otherwise stated in this report, the appraiser(s) have no knowledge of the existence of hazardous waste products or any resultant contamination, including, without limitation, asbestos, polychlorinated biphenyls, petroleum leakage, or agricultural chemicals, which may or may not be present on the property, or other environmental conditions which were not called to the attention of nor did the appraiser(s) become aware of such during the appraiser's inspection. The appraiser(s), however, are not qualified to test such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde, foam insulation, or other hazardous substances or environmental conditions, may affect the value of the property, the value estimated is predicated on the assumption that there is no such condition on or in the property or in such proximity thereto that it would cause a loss in value. No responsibility is assumed for any such conditions, nor for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in the field of environmental impacts upon real estate if so desired. Also, the appraisers have not commissioned an environmental audit of the property being appraised, nor have we been provided such a report that would indicated presence or absence of hazardous materials/contamination. The appraiser represents that he is not an expert to appraise insulation or other products banned by the Consumer Products Safety Commission which might render the property more or less valuable, and in connection with this appraisal, the appraiser has not inspected for, tested for, nor taken into consideration in any respect, the presence or absence of insulation or other products described above. Therefore, the appraiser assumes no responsibility in the event the presence or absence of insulation, hazardous waste contamination, or other products increase or decrease the value of the property from the value placed thereon by the opinion of the appraiser.

10. LEGALITY OF USE - The appraisal is based on the premise that there is full compliance with all applicable federal, state and local environmental regulations and laws unless otherwise stated in the report. Further, that all applicable zoning, building, and use regulations and restrictions of all types have been complied with unless otherwise stated in the report. Further, it is assumed that all required licenses, consents, permits, or other legislative or administrative authority from local, state, federal and/or private entities or organizations have been or can be obtained or renewed for any use considered in the value estimate.

11. COMPONENT VALUES - The distribution of the total valuation in this report between land and improvements applies only under the existing program of utilization. The separate valuations for land and building must not be used in conjunction with any other appraisal and are invalid if so used.

12. AUXILIARY AND RELATED STUDIES - No environmental or impact study, special market study or analysis, highest and best use analysis study or feasibility study has been requested or made unless otherwise specified in an agreement for services or in the report. The appraiser reserves the unlimited right to alter, amend, revise or rescind any of the statements, findings, opinions, values, estimates, or conclusions upon any subsequent such study or analysis or previous study or analysis subsequently becoming known to him.

13. DOLLAR VALUES, PURCHASING POWER - The market value estimated and the costs used are as of the date of the estimate of value. All dollar amounts are based on the purchasing power and price of the dollar as of the date of the value estimate.

14. INCLUSIONS - Furnishings and equipment or business operations, except as specifically indicated and typically considered as a part of real estate, have been disregarded with only the real estate being considered.

15. PROPOSED IMPROVEMENTS, CONDITIONED VALUE - Improvements proposed, if any, on or off-site, as well as any repairs required, are considered, for purposes of this appraisal, to be completed in good and workmanlike manner according to information submitted and/or considered by the appraiser(s). In cases of proposed construction, the appraisal is subject to change upon inspection of property after construction is completed. This estimate of market value is as of the date shown, as proposed, as if completed and operating at levels shown and projected.

16. VALUE CHANGE, DYNAMIC MARKET, INFLUENCES - The estimated market value is subject to change with market changes over time; value is highly related to exposure, time, promotional effort, terms, motivation, and conditions surrounding

Appraiser	Michelle W Wilson				

the offering. The value estimate considers the productivity and relative attractiveness of the property physically and economically in the marketplace. The "Estimate of Market Value" in the appraisal report is not based in whole or in part upon the race, color or national origin of the present owners or occupants of the properties in the vicinity of the property appraised. In cases of appraisals involving the capitalization of income benefits, the estimate of market value is a reflection of such benefits and appraiser's interpretation of income and yields and other factors derived from general and specific market information. Such estimates are as of the date of the estimate of value; they are thus subject to change as the market is dynamic and may naturally change over time.

17. MANAGEMENT OF THE PROPERTY - It is assumed that the property which is the subject of this report will be under prudent and competent ownership and management, neither inefficient nor super-efficient.

18. AMERICANS WITH DISABILITIES ACT (ADA) - The ADA extends to individuals with disabilities civil rights protection similar to the those provided to persons previously on the basis of race, sex, national origin and religion under the Civil Rights Act of 1964. One objective of the ADA is to make accessible to persons with disabilities all buildings and other facilities open to the general public on the same basis that those buildings and facilities are available to persons without disabilities. Existing buildings were required to be brought into compliance by July 1992. The appraisers are not experts in this matter and unless it is specified otherwise in the report, the value conclusion assumes the subject will not be adversely affected by this act.

19. GENERAL CONDITIONS -A. The fee for this appraisal or study is for the service rendered and not for the time spent on the physical report.

B. ACCEPTANCE OF, AND/OR USE OF, THIS APPRAISAL REPORT CONSTITUTES ACCEPTANCE OF THE ABOVE CONDITIONS.

Definitions

The law of substitution states: That a knowledgeable buyer will pay no more for one item than for a comparatively equivalent substitute. The comparables used are consisted to be a reasonable interpretation of what a probable buyer would substitute the subject for, given the limited data available at time of inspection.

Market Value

(The Dictionary of Real Estate Appraisal-third edition)

The most probable price, as of a specified date, in cash, or in other precisely revealed terms for which the specified property rights should sell after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably and for self-interest, and assuming that neither is under undue duress.

Assumptions & Limiting Conditions

File No.: 1023-37

Property Address: E 900 N

City: Cedar City

State: UT

Zip Code: 84721

Client: Cedar City

Address: 10 N Main St, Cedar City, UT 84720

Appraiser: Michelle W Wilson

Address: 1322 E 4375 N, Enoch, UT 84721

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- The appraiser may have provided a plat and/or parcel map in the appraisal report to assist the reader in visualizing the lot size, shape, and/or orientation. The appraiser has not made a survey of the subject property.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database. Possession of this report or any copy thereof does not carry with it the right of publication.
- Forecasts of effective demand for the highest and best use or the best fitting and most appropriate use were based on the best available data concerning the market and are subject to conditions of economic uncertainty about the future.

Definitions & Scope of Work

File No.: 1023-37

Property Address: E 900 N

City: Cedar City

State: UT

Zip Code: 84721

Client: Cedar City

Address: 10 N Main St, Cedar City, UT 84720

Appraiser: Michelle W Wilson

Address: 1322 E 4375 N, Enoch, UT 84721

DEFINITION OF MARKET VALUE *:

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

* This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

APPRAISER'S CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The credibility of this report, for the stated use by the stated user(s), of the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- I did not base, either partially or completely, my analysis and/or the opinion of value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of the properties in the vicinity of the subject property.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification.

Additional Certifications:

Certification, Item 10: The appraiser attempted to adhere fully with the requirements set forth in item 10 of the certification statement, and believes that sources consulted provide reasonably reliable and credible information. Strict adherence to the requirements set forth in item 10, however, was not possible in the normal course of business. Utah is a non-disclosure state, which prohibits the appraiser from verifying data with any published, non-interested third party. The primary data source consulted for the purposes of the current appraisal has been the local area Multiple Listing Service(s).

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interests; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, 2010.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

CERTIFICATION: The appraiser certifies and agrees that:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

CEDAR CITY COUNCIL
AGENDA ITEM- 9
DECISION PAPER

TO: Mayor and City Council

FROM: Jared Barnes/Ken Nielson

DATE: April 3, 2024

SUBJECT: Crosswalk across 900 North

DISCUSSION:

For years the only traffic coming up 900 North was headed to Thunderbird Gardens. There were very few cars a day that would use this road. Golfers over 32 years have become accustomed to crossing this road without watching out for cars. With all the construction, 900 North is now a fairly busy road, and I am concerned about the golfers' safety coming off of 18 green. I would like to have a crosswalk painted and some signage added for both golfers and vehicles to increase awareness for both.

Thank you for your time and considerations.

**CEDAR CITY COUNCIL
AGENDA ITEM 10
DECISION PAPER**

TO: Mayor and City Council
FROM: Ken Nielson / Scott Christensen

DATE: April 3, 2024

SUBJECT: Diamond Z Expansion

DISCUSSION: Through the 2024 Iron County TRCC grant the Cross Hollow Arenas was awarded a non-matching grant of \$1,000,000 to go towards the Diamond Z arena expansion. Attached is the Memorandum of Understanding between the City and Iron County which we are bringing before the City Council for consideration.

If you have any questions let us know

Thank you for your time and considerations.

**MEMORANDUM OF UNDERSTANDING
BETWEEN IRON COUNTY AND CEDAR CITY
FOR THE DIAMOND Z ARENA EXPANSION
2024 TRCC BOARD PROJECT FUNDING PROGRAM**

This Memorandum of Understanding ("MOU") is made and entered into by and between **Iron County**, a Utah political subdivision the State of Utah ("COUNTY"), through the Iron County TRCC Project Funding Program, and **Cedar City Corporation**, a Utah Municipal Corporation ("CITY"), through the Cedar City Leisure Services, collectively referred to as "Parties."

WHEREAS, the COUNTY conducts a public partnership program known as the Iron County TRCC Project Funding Program, utilizing the funds generated by the Iron County Tourism, Recreation, Cultural and Conventions, and Airport Facilities Tax (TRCC - also known as the Restaurant Tax); and

WHEREAS, an objective of the Iron County TRCC Project Funding program is to leverage the funds generated by the Iron County TRCC Tax for marketing programs and tourism promotion; or for the development, operation and maintenance of tourist, cultural, recreation, and convention facilities; or to pledge as security and reserves on bonds related to financing tourism, recreation, cultural and convention facilities; and

WHEREAS, the Cedar City Leisure Services, has applied and been qualified by the Iron County TRCC Fund Advisory Board to receive up to one million dollars (\$1,000,000) for the expansion of the Diamond Z Indoor Arena at the Cross Hollows Arenas, located at 11 S. Cross Hollow Road, Cedar City, UT 84720; and

NOW THEREFORE, the COUNTY and CITY hereby enter into this MOU wherein the terms of applicable payment to CITY by COUNTY will be set forth as follows:

1. The COUNTY, in consultation with the TRCC Project Funding Program staff, shall administer the funds of this MOU and shall set the terms and conditions by which the CITY may receive the funds associated with the above-named program.
2. The total applicable amount that may be received by the CITY from the TRCC Project Funding Program is up to one million dollars (\$1,000,000.00) (the "Allowed Amount").
3. The funding from the TRCC Project program may only be used for purposes approved by the COUNTY and is subject to verification by documentation and receipts showing proper use of funding.
4. The project proposed by the CITY is for the expansion of the Diamond Z Indoor Arena at the Cross Hollows Arenas, located at 11 S. Cross Hollow Road, Cedar City, UT 84720 (the "Project").
5. Both invoices and payments for the Project Funding shall be made to the appropriate office as designated by the parties.

6. The Project funding will be paid by the COUNTY to the CITY over the course of three (3) years, as follows:

- a. Beginning in 2024, the CITY may submit an invoice to the COUNTY for one-third of the Allowed Amount, or three hundred thirty-three thousand, three hundred thirty-three dollars and thirty-three cents (\$333,333.33). The 2024 invoice may not be submitted prior to execution of this MOU and no sooner than sixty (60) days prior to the Project start date, as determined by the CITY.
- b. The CITY may submit an invoice to the COUNTY in the 2025 calendar year for one third of the Allowed Amount, or three hundred thirty-three thousand, three hundred thirty-three dollars and thirty-three cents (\$333,333.33).
- c. The CITY may submit a final invoice to the COUNTY in the 2026 calendar year for the final third of the Allowed Amount, or approximately three hundred thirty-three thousand, three hundred thirty-three dollars and thirty-four cents (\$333,333.34). The 2026 invoice must be accompanied by copies of receipts or documentation showing that the previous funding dispersed under this agreement has been spent for approved Project purposes. Additionally, the CITY must submit proof of sponsorship recognizing Iron County for contributions to the Project.

CITY AGREES:

7. To fully comply with the policies and procedures outlined by the Iron County TRCC Project Funding Program and this MOU.
8. To complete the Project in a timely manner. In the event the Project cannot be completed as outlined in the CITY's application and this MOU, the CITY will submit an extension request to the COUNTY no later than November 1, 2026. Failure to timely complete the Project may result in the delay of payment of program funding.
9. To submit invoices for program funding within the appropriate calendar year budget along with any required receipts or documentation. The CITY further agrees that it will not submit more than one invoice per calendar year budget.
10. To submit a written proposed plan for naming Iron County as a sponsor and major contributor to the Project as specified by the CITY within 30 days of executing this MOU.

GENERAL PROVISIONS:

11. The effective date of this MOU shall be the date of the signatures below.
12. Either party may request changes to this MOU. Any changes, modifications, revisions, or amendments to this MOU that are mutually agreed upon by the parties shall be incorporated by written instrument, executed and signed by the parties to this MOU, and are effective in accordance with the terms set out herein.

13. The construction, interpretation and enforcement of this MOU will be governed by the applicable laws of the State of Utah and the United States.
14. This MOU, consisting of four (4) pages, represents the entire and integrated agreement between the parties and supersedes all prior negotiations, representations and agreements written or oral.
15. Should any portion of this MOU be determined to be illegal or unenforceable, the remainder of the MOU will continue in full force and effect, and the parties may renegotiate the terms affected by severance.
16. Neither party waives any immunities or privileges by entering into this MOU.
17. In the event of any disagreement between the parties regarding their obligations under this MOU that cannot be resolved by good faith efforts in a reasonable time, either party may refer the disagreement to a neutral mediator, as unanimously agreed by the parties, to timely resolve the issue. The decision of the neutral mediator will be the final decision for purposes of resolving the issue.
18. **The parties to this MOU understand and agree that should the proposed Project not be completed as outlined by the CITY's application and the terms of this MOU, all previously dispersed funds for the Project must be returned to the COUNTY immediately.**

Projected events with Cross Hollows Addition:

The American Horse Council (<https://horsecouncil.org/>) study shows an average of 4 people per horse; for our demographic we will utilize 2.5, that will spend on average \$145 per person per day for non-locals and \$42 per person per day for locals. 10% of the event is local participants, while the remaining 90% is non-local participants (Cedar City Tourism Bureau). The following are events that the Cross Hollow Arena Manager, Scott Christensen, has spoken with and received favorable responses from.

Event/Association	# of days Total	Estimated # of Horses per day	Average # of People per Horse	Estimated number of people total	Average Spent per Person per Horse Non- Local	Average Spent per Person per Horse Local	Estimated Total
Southwest Barrel Racing Association (2 Events- 3 days each)	6	350	2.5	875	\$145	\$42	\$707,175
Rocky Mountain Reining Horse Association (4 events- 5 days each)	20	400	2.5	1,000	\$145	\$42	\$2,694,000
Southwest Desert Classic Barrel Racing Association (5 events- 3 days each)	15	400	2.5	1,000	\$145	\$42	\$2,020,500
Hailey Humphries Barrel Racing (3 events- 4 days each)	12	400	2.5	1,000	\$145	\$42	\$1,616,400
Quarter Horse Association (2 events- 5 days each)	10	350	2.5	875	\$145	\$42	\$1,178,625
Paint Horse Association (1 event- 5 days each)	5	300	2.5	750	\$145	\$42	\$505,125
Utah Cutting Horse Association (2 events- 3 days)	6	300	2.5	750	\$145	\$42	\$606,150
Utah Jr. High Rodeo (3 events- 2 days each)	6	500	2.5	1250	\$145	\$42	\$1,010,250

Event/Association	# of days Total	Estimated # of Horses per day	Average # of People per Horse	Estimated number of people total	Average Spent per Person per Horse Non- Local	Average Spent per Person per Horse Local	Estimated Total
Little Britches Rodeo (5 events- 3 days each)	15	200	2.5	500	\$145	\$42	\$1,010,250
Utah State 4-H Horse Show (1 event- 4 days)	4	400	2.5	1,000	\$145	\$42	\$538,800
Utah Ranch Sorting (2 events-6 days)	12	250	2.5	625	\$145	\$42	\$1,010,250
World Series of Team Roping (2 events- 6 days)	12	200	2.5	500	\$145	\$42	\$808,200
Extreme Barrel Racing (2 events- 6 days each)	12	450	2.5	1,125	\$145	\$42	\$1,818,450
Utah Working Ranch Horse Show (2 events- 4 days each)	8	200	2.5	500	\$145	\$42	\$538,800
Utah Region and State Riding Club Shows (2 events- 3 days each)	6	300	2.5	750	\$145	\$42	\$606,150
Sr. Pro Rodeo Association (1 events- 4 days)	4	200	2.5	500	\$145	\$42	\$269,400
Utah Versatility Ranch Horse Show (2 events- 6 days each)	12	200	2.5	500	\$145	\$42	\$808,500

Equation Key:

First step multiply the number of horses by 2.5 this equals the estimated number of people.

Multiply the estimated number of people by the total number of days for the event i.e.

500X12=6,000. Multiply the total by .1, this gives you the number of local participants. Take the value and multiply it by \$42, this gives you the total value of dollars the local participants will spend over the course of the event. Multiply the total by .9, this gives you the total of non-local

participants. Take the value and multiply it by \$145, this gives you the total of dollars non-locals will spend over the course of the event. Add both values together and you have the estimated total of dollars spent per event/association.

***Estimated number of people total** (# of horses X 2.5)

****Average Spent per Person per Horse Local** (estimated # of people X the number of days X .1 (for locals) OR X .9 for non-local)

*****Estimated Total** ((90% of the average # of people total X \$145 spent per person X # of days) + (10% of the average # of people total x \$42 spent per person x # of days))

We are confident that we can bring in a large part of these events to Iron County with the completion of the new addition. The return on these events over the next 20 years would be astronomical. This much needed addition to the Cross Hollow Arenas will pay for itself multiple times with the taxes received from hosting events over its lifetime. The added addition will allow us to host these larger events year-round. Having these larger events during the winter, late fall, and early spring will have a huge impact on the economy during the slower time of year.

The feedback from participants as well as producers is that once participants have been to our facility and county they want to return. It has been communicated that they want to stay and take in some of the incredible sightseeing we have in our area after their event. Scott has experience working with these organizations and has a good relationship with them.

The following organizations have had conversations with Scott, and they have expressed interest in scheduling their events once the addition is in place.

Arabian Horse Club

Utah Hunter Jumper

Utah Pony Club

Dressage Club

Draft Horse show

Livestock Shows

Utah Mounted Shooters

National Brake-a-way roping

Rocky Mountain pro Rodeo circuit

Western Pleasure shows

Clinics of all types- they like to do these in the wintertime.

Panorama Horse Shows

Livestock Judging competitions.

Winter Festivals

Gun Show

Reptile Show

Cowboys Ain't Dead Yet Festival

Other Addition Amenities

Banquet Room

The following groups and events can utilize the Banquet Room. We believe there are many diversified organizations that need a place such as this to host their meetings and events. Scott has had experience with banquet rooms, and it has the potential to be used during the week as well as weekends when available.

USU Extension (USU has a verity of different meetings each year.)

NRCS

BLM

Forest service

USDA

Water Rights

Farm Bureau conventions

CWMA

Festivals

All Government organizations

Parties

Weddings

Committee meetings

IFA

South Central

Zions Bank

Mountain America Bank

FHA

Water District

Utah Wildlife F&G

Soil Conservation and Water Conservation

The banquet room will be equipped with a projector and other amenities to accommodate the needs of those who utilize it. The following table shows facilities in the area that have banquet room rentals.

Location	# of rentals in 2023
Cedar City Heritage Center	
-Private	109
-City or County	95
Triple C Arena	
-Room 1	210
-Room 2	154
Black Hawk	125
Legacy Center	
-Room 1	290
-Room 2	240
-Room 3	260

Wash Rack

The new wash rack area would be essential in bringing more events to Iron County. Most equine shows require the participants to wash their horses daily and sometimes more than once, same with the livestock shows. The wash rack will have a heated area that can be used in the colder months. Equine owners such as the Reining, Cutting, Quarter Horse, and Sr. Pro tend to invest lots of money and would likely utilize the airport and hotels. Communities have realized that these patrons will spend a significant amount of money attending these events.

Warmup Arena

The addition would be a very impressive selling point for producers, participants, and spectators. Most arena facilities have a warmup arena, and it is a significant draw to hosting events. We have expanded our stalls to be adequate but are currently lacking indoor accommodation; the largest and most important being the warmup arena.

As an example, the Witch Fest barrel race held in October, is one of our larger events that has roughly 340 horses, 387 participants of which 36 are residents and 351 are nonresidents. This brings in approximately 967 people, most of these stay at hotels. Many of these people dined three times a day. One hundred percent of the people that responded to a questionnaire said that they spent an average of \$200 at other stores during their stay such as Walmart, Ace, the grocery store etc... One hundred percent of responses stated they filled up with fuel before returning home or on arrival. The average spent per person was \$190 per day. The producer received responses from 261 participants out of 387. They all rated the stay in Iron County as excellent and the facilities and event as excellent. In 2023 the weather was great, in 2022 we received a huge snowstorm and the event received complaints. The event producer has said with the addition of covered stalls and the potential addition of a warmup arena she would not be worried about her races in the future. Not having a covered warmup arena is a big concern if the weather is bad. She would like to bring two more events to the Cross Hollow Arenas if we have the addition, that would be scheduled in the months of November and March.

There are several individuals, organizations, and private businesses who have or are willing to commit funds to help with the expansion of the Cross Hollow Arenas. Jean Lopour has given \$500,000, with more donations committed (see attached reference letter). The Livestock show has committed \$100,000 to the expansion project. Local contractors have offered in-kind donations as well as several private businesses both with monetary and in-kind donations.

Our belief is that having a multi-use facility that can be used for a plethora of events such as festivals, meetings, weddings, equine events, livestock shows, and more will help enhance our community for generations to come.

PO BOX 684 CEDAR CITY, UT 84721 435-559-4145

April 3, 2023

Cedar City Mayor, Council, and Manager:

The Southwest Junior Livestock Show (SWJLS) is pleased to continue the partnership with the City that was started many years ago. We recognize the benefit to the Agriculture community and the City as well, from an addition to the Diamond Z arena.

The SWJLS board met and pledged \$100,000 to assist with the addition that is currently being planned at the arena. We are certain it will draw more events and visitors to our area.

Thank you for your continued support, and we look forward to the additional amenities.

Sincerely:

Robert S. Cox

CITY COUNCIL AGENDA ITEM 12
STAFF INFORMATION SHEET**

To: Mayor and City Council

From: City Engineer

Council Meeting Date: April 3, 2024

Subject: Consider bids for the Mud Springs Production Well project.

Discussion: This project involves drilling a production well located northeast of the City's Wastewater Treatment Plant. Willowstick identified Treatment Plant Target A located in the Mud Springs drainage as a location for the test well site.

The bids have not been received yet for this project. The bids are due on Friday, April 5th. The bid results will be provided in the packet for the City Council action meeting.

CEDAR CITY COUNCIL
AGENDA ITEMS - 13
DECISION PAPER

TO: Mayor and City Council
FROM: City Manager
DATE: April 1, 2024
SUBJECT: Short term rental ordinance

During last week's council meeting Mr. Jett asked the council to re-examine the City's short-term rental ordinance. In particular, he asked the council to repeal the provision requiring notice to neighbors within 300 feet of the short-term rental (23-9-Q-5). Below is the City's short-term rental ordinance for your consideration. I am not sure what information you would like to review for this proposal. If there is more information you would like to see, please let me know and I will get it for you. Thank you.

Residential Short-Term Rentals:

1. Residential Short-Term Rentals Defined: Excluding Bed and Breakfast facilities, the use and/or commercial use of property located in a Residential Zone (R-1, R-2-1, R-2-2, R-3-1, R-3-M, RE, RA), Commercial Zone (GC, CC, DC, HS) or Mixed Use Zone; by any person or entity; for occupancy, rent or lease; for the purpose of receiving compensation, money, rent, or other bargained consideration; for a term of thirty (30) consecutive days or less. As an exception, Residential Short-Term Rentals are permitted in all zones for existing residential uses. Any rental that is leased out consecutively to the same tenant in excess of thirty (30) days will not constitute a residential short-term rental and will be governed by the City's rental dwelling license ordinance.
2. Purpose: Residential Short-term rentals are to be compatible with and not adversely impact surrounding residential uses. As an example, the use of mass transit to transport renters to a short-term rental is not compatible with surrounding residential uses.
3. License Required:
 1. It is unlawful for any person to keep, conduct, operate, or maintain a short-term rental within the City without a Residential Short-Term Rental Business License. A person who owns multiple short-term rentals is not required to obtain more than one business license for the operation and maintenance of those rentals.

2. A Residential Short-Term Rental Business License is not transferrable between persons or structures. Any person holding such license shall give written notice within thirty (30) days to the License Officer after having transferred or otherwise disposed of legal or equitable control of any rental licensed under this Section. Such notice of transferred interest shall be deemed a request to cancel an existing Residential Short-Term Rental Business License for such rental. No refund or rebate shall be issued for any license cancelled under this provision, except where ownership is transferred for one of the reasons listed in Subsection 23-7(D)(2). The new owner shall obtain a Residential Short-Term Rental Business License as required by this Section.
4. License Application: An application for a Residential Short-Term Rental Business License shall conform to all applicable requirements of Section 23-6. In order to qualify for a residential short-term rental license, an application must meet all requirements outlined in Section 23-9 which shall include but not be limited to the following:
 1. the address of each building containing a residential short-term rental;
 2. proof of liability insurance for the residential short-term rental;
 3. proof of adequate parking as required by 26-V-5;
 4. lodging sales tax number;
 5. identify the number of bedrooms in the residential short-term rental;
 6. a submitted diagram identifying the number of available 9"x18" parking stalls;
 7. the signature of the owner of the residential short-term rental(s) certifying that the owner of the rental shall collect and remit on a timely basis transient lodging taxes;
 8. the property owner must designate a local property representative's name, address and telephone number, who shall be available for the purpose of:
 1. responding within twenty-four (24) hours to complaints regarding the condition, operation, or conduct of occupants of the short-term rental;
 2. taking remedial action to resolve such complaints; and
 3. the name, address, and telephone contact number of the property owner and the local property representative shall be kept on file at the city.

9. The property owner must certify that:
 1. that the use and occupancy of the residential short-term rental(s) conforms to applicable local, state, and federal laws including all applicable building codes and safety standards;
 2. that the property owner or a local property representative will be available twenty-four (24) hours per day, seven days per week, for the purpose of responding within twenty-four (24) hours to complaints regarding the condition, operation or conduct of occupants of the short-term rental and that remedial action will be taken to resolve such complaints;
 3. that per Cedar City Ordinance 26-V-5, the property contains an adequate amount of off-street parking;
 4. that they understand that a renter may not use a short-term rental for a purpose not incidental to a normal residential use. At no time may the tenants of a short-term rental violate state and municipal law concerning nuisances, noise, and/or disturbing the peace;
 5. that they understand that they are assuming responsibility for all guests' activities; and that violations may result in fines to owner and/or guests; and/or license denial, suspension, or revocation;
 6. that they will use best efforts to ensure that the occupants and/or guests of the residential short-term rental do not create unreasonable noise or disturbances, engage in disorderly conduct, or violate any provisions of the City's ordinances or State law, including but not limited to noise, disorderly conduct, the illegal consumption of alcohol, or the use of illegal drugs;
 7. that the short-term rental will not involve the use of any accessory building(s), mobile structures or yard space for activities outside of the dwelling not normally associated with residential use;
 8. that there is no HOA and/or CC&R's that restrict the owner from using the residence as a short-term rental;
 9. that each bedroom and corridor leading to a bedroom contains a smoke detector; and
 10. that each floor contains a working carbon monoxide detector.
5. License Procedure: Notice by the applicant shall be given to all owners of record of property zoned residential or used for a residential purpose within a 300-foot radius from the boundary of the proposed residential short-term rental. Said notice shall be sent by mail or hand-delivered to the property owners in accordance with

the most current Iron County Assessment Roll. Proof of mailing and/or a certificate documenting hand delivery to property owners as required herein shall be delivered to the City Building Official. Notice shall contain language directing property owners who wish to discuss the location of the residential short-term rental to contact the City Building Official within ten (10) days of receipt of notice. The Building Official's name, address and contact number shall be listed in the notice. A short-term business license will be issued if all requirements of Chapter 23-9 are met.

6. License Term: All licenses issued hereunder shall expire on January 1st of each year unless sooner canceled and shall be issued for one year only.
7. License Fee: The fee for a Residential Short-Term Rental Business License shall be identified on the City's consolidated fee schedule.
8. Restrictions on Use:
 1. A renter may not use a short-term rental for a purpose not incidental to a normal residential use. At no time may the tenants of a short-term rental violate state and municipal law concerning nuisances, noise, and/or disturbing the peace.
 2. Maximum occupancy of a residential short-term rental shall be no more than two (2) guests per bedroom plus four (4) guests per home.
9. Signage: No outdoor advertising signs related to the rental dwelling shall be allowed on the site.
10. Inspection: Prior to licensure the City Building Official shall conduct an onsite inspection to verify adequate off-street parking.
11. Effect of License Issuance: The issuance of a Residential Short-Term Rental Business License shall not have the effect of changing the legal status of a rental dwelling, including, but not limited to:
 1. legalizing an illegally created dwelling unit, use, or other circumstances, or
 2. recognizing a nonconforming use, structure, or other nonconformity.
12. Owner Certification: Owner understand that he assumes responsibility for all guests' activities; violations may result in fines to owners and/or guests; and/or licensee denial, suspension, or revocation.
13. License Denial, Suspension, or Revocation: The City may deny, suspend, or revoke a Residential Short-Term Rental Business License for any of the following reasons:
 1. The licensee does not meet the qualifications for a license as provided under this Chapter.

2. For nonpayment of all required fees for the Residential Short-Term Rental Business License, including late fees and inspections, when applicable.
3. The licensee gave false or incomplete information on the licensee's application.
4. The licensee has allowed or intends to allow the licensed premises to be occupied or operated in a manner contrary to the conditions set forth in the license, application, and this Chapter.
5. Failure to provide the contact information, failure to keep the contact information current, and failure to respond within twenty-four (24) hours to complaints.
6. Owner will use best efforts to ensure that the occupants and/or guests of the residential short-term rental do not create unreasonable noise or disturbances, engage in disorderly conduct, or violate any provisions of the City's ordinances or State law, including but not limited to noise, disorderly conduct, the illegal consumption of alcohol, or the use of illegal drugs.

Three (3) or more citations based on any violations of any state or local law including but not limited to Chapter 23-9 within a twelve (12) month period may result in license denial, suspension, or revocation. Any decision denying, suspending or revoking a short-term rental license may be appealed to the Cedar City Manager.

14. Safety: Cedar City acknowledges that the State of Utah restricts the City from requiring the alteration of existing residences to meet current building code and safety standards; however, the City strongly recommends that each room contain adequate ingress and egress, and that each floor contains a minimum 2A:10BC fire extinguisher. Cedar City requires that:
 1. each bedroom and corridor leading to a bedroom contains a smoke detector; and
 2. that each floor contains a working carbon monoxide detector.

CEDAR CITY COUNCIL
AGENDA ITEMS - 14
DECISION PAPER

TO: Mayor and City Council

FROM: City Manager

DATE: April 1, 2024

SUBJECT: Water Rights appraisal

Cedar City contracted with Hymas and Associates to update the appraisal on underground water rights for basin 73. The appraisal gave a value for purchases of less than 10-acre feet and purchases of 10-acre feet or more. There is a discount in value if the purchase is in bulk. The appraisal considers the groundwater management plan and gives values for water rights with various priority dates. The younger the water right the less the value. On page of the appraisal is a chart that summarizes the values. If you have any questions, please let me know. Thank you.

Re: Water Rights in Basin 73
Basin 73 is located in the eastern portion of Iron County, UT
Appraisers' File #24CH149

Dear Mr. Bittmenn,

At your request, I have appraised water rights located within basin 73. The purpose of this appraisal report is to provide a conclusion of the current market value of water rights within basin 73, which incorporates a portion of Iron County, Utah. Further, based on the request of the client, water rights with a priority date of 1934 or senior are to be concluded and water rights with a priority date of 1935 or younger is to be determine if there is an associated discount based on the State of Utah, Department of Natural Resources, Division of Water Rights final adoption of the Cedar City Valley Groundwater Management Plan. The State Engineer has determined that basin 73 is a critical management area with the adoption of the Cedar City Valley Groundwater Management Plan seeking to remedy the over depletion of basin 73. I, Cody Hymas, MAI, did not observe any of the water rights, wells, pumps, or appurtenant parts of water rights within basin 73 or the associated irrigation companies. The results of the appraisal report are presented in the following Appraisal Report which sets forth the most pertinent data gathered, the techniques employed, and the reasoning leading to my value opinions.

According to the Utah Division of Water Rights, basin 73 is described as follows, *"Reaching from T31S to T37S in Iron County, this drainage basin, of about 580 square miles, includes the surface source of Coal Creek in the southeast and several intermittent streams that flow from the Black Mountains in the north. It is bounded on the west by the 7,200 foot Harmony Mountains and the Swett Hills, on the south and east by the 11,307 foot Markagunt Plateau and Cedar Mountain, and on the north by the 8,700 foot Black Mountains. Low saddles on the south, northeast, and northwest lead to the adjacent Ash Creek, Parowan, and Escalante Valleys, respectively. The lowest point is Mud Springs Gap at 5,350 feet, giving the basin a total relief of about 5,250 feet."*

I developed my analyses, opinions, and conclusions and prepared this report in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) of the Appraisal Foundation; the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute; and the requirements of my client as I understand them.

Mr. Paul Bittmenn is the client in this assignment and Cedar City is the sole intended user of the appraisal report. The intended use is to assist in providing a market value baseline for water rights in basin 73 with a priority date of 1934 or senior and determine what if any discount is associated with water rights with a priority day of 1935 or younger. The value opinions reported herein are subject to the definitions, assumptions and limiting conditions, and certification contained in this report.

This appraisal report relies on the following hypothetical condition:

- This appraisal report does not value any specific water rights. I have relied on the hypothetical condition that none of the water rights are currently listed for sale or under contract and none of the water rights have been listed for sale, under contract or sold within the three years preceding the date of this appraisal.

This appraisal report relies on the following extraordinary assumption:

- There have been relatively few water rights that have sold over the past several years in basin 73. As such, I have relied on the sales I was able to verify as well as my interviews with market participants, municipalities officials, and real estate professionals in the area to assist in determining the value baseline and the possible discount associated with 1935 or younger priority water rights.

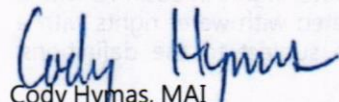

The use of the hypothetical condition and/or extraordinary assumption might have affected the assignment results.

Based upon my examination and study of the water rights within basin 73 and subject to the hypothetical condition, extraordinary assumption, and limiting conditions contained later in this appraisal report, market value of the water rights as of March 25, 2024, is as follows:

Basin 73 Water Right Value Conclusions Summary	
Water Priority, Location, and Acre-Feet	Value/Acre-Foot
Senior to July 25, 1934	
Water Right Sales Less than 10 Acre-Feet	\$14,000
Water Right Sales 10 Acre-Feet or Larger	\$12,600
Priority Dates from July 26, 1934 to December 31, 1935	
Water Right Sales Less than 10 Acre-Feet	\$10,000
Water Right Sales 10 Acre-Feet or Larger	\$8,500
Priority Dates from January 1, 1936 to December 31, 1951	
Water Right Sales Less than 10 Acre-Feet	\$9,000
Water Right Sales 10 Acre-Feet or Larger	\$7,650
Priority Dates from January 1, 1952 to December 31, 1954	
Water Right Sales Less than 10 Acre-Feet	\$8,000
Water Right Sales 10 Acre-Feet or Larger	\$6,800
Priority Dates from January 1, 1955 to December 31, 1957	
Water Right Sales Less than 10 Acre-Feet	\$6,200
Water Right Sales 10 Acre-Feet or Larger	\$5,270
Priority Dates from January 1, 1958 to Present	
Water Right Sales Less than 10 Acre-Feet	\$4,000
Water Right Sales 10 Acre-Feet or Larger	\$3,400

This letter of transmittal must be accompanied by all sections of this report as outlined in the Table of Contents, for the value opinions set forth above to be valid.

Respectfully submitted,
Hymas & Associates, LC

Certification

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have performed prior appraisal related services regarding water rights within basin 73 within the previous three years of the appraisal date.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the *Uniform Standards of Professional Appraisal Practice*.
- I, Cody Hymas, MAI, did not make a personal inspection of any water rights or any part thereof within basin 73 for this assignment.
- No one provided significant real property appraisal assistance to the person(s) signing this certification.
- The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute, which include the Uniform Standards of Professional Appraisal Practice.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- As of the date of this appraisal, I, Cody Hymas, MAI, have completed the continuing education requirements for Designated Members of the Appraisal Institute.

Cody Hymas, MAI

General Assumptions & Limiting Conditions

This appraisal is subject to the following limiting conditions:

1. As the subject consists of no specific water rights, I have not relied on any water right numbers, legal descriptions, or other defining information. I have relied on the general description for basin 73 from the information on the Utah Division of Water Rights website.
2. I accept no responsibility for legal matters. I express no opinion about the quality of the title which is assumed to be marketable. All existing liens and encumbrances have been disregarded and the property is appraised as though free and clear, under responsible ownership and competent management unless otherwise noted.
3. Unless otherwise noted, it is assumed that the subject has no encroachments, zoning violations or adverse restrictions.
4. I am not required to give testimony or attendance in court by reason of this appraisal, unless previous arrangements have been made.
5. Unless expressly specified in this Agreement, the fee for this appraisal does not include the attending testifying at any court, regulatory or other proceedings, or any conferences or other work in preparation for such proceeding(s). If any partner or employee of Hymas & Associates, LC, is asked or required to appear and/or testify at any deposition, trial, or other proceeding about the preparation, conclusions or any other aspect of this assignment, client shall compensate Hymas & Associates, LC, for the time that its employees spend appearing and/or testifying and in preparing to testify according to the appraiser's then current hourly rate plus reimbursement of expenses.
6. The values for land and/or improvements and water rights or water shares, as contained in this report, are constituent parts of the total value reported and neither is (or are) to be used in making a summation appraisal of a combination of values created by another appraiser. Either is invalidated if so used.
7. The dates of value to which the opinions expressed in this report apply are set forth in this report. I assume no responsibility for economic or physical factors occurring at some point at a later date, which may affect the opinions stated herein. The forecasts, projections, or operating estimates contained herein are based on current market conditions and anticipated short-term supply and demand factors and are subject to change with future conditions.
8. The sketches, maps, plats and exhibits in this report are included to assist the reader in visualizing the property and/or understanding the appraisal analysis. I accept no responsibility for the accuracy of these documents.
9. I have not made a survey of the water rights. Although I have developed my estimates of water rights and water shares based on reliable sources, I have not independently verified the accuracy of the information and assume no responsibility for its accuracy.
10. The information, estimates and opinions which were obtained from sources outside of Hymas & Associates, LC, are assumed to be reliable. I have not verified the information and assume no liability for its accuracy.
11. Possession of this appraisal report, or a copy thereof, does not carry with it the right of publication. Neither all, nor any part of the content of the report, or copy thereof (including conclusions as to property value, the identity of the appraiser(s), professional designations, reference to any professional appraisal organization or the firm with which the appraiser(s) are connected), shall be disseminated to the public through advertising, public relations, news, sales, or other media without prior written consent and approval from the appraiser(s).

12. I claim no expertise in matters which require specialized investigation or knowledge beyond levels common among real estate appraisers. Examples of these matters include, but are not limited to, legal, survey, structural, environmental, pest control, mechanical, etc.
13. This appraisal was prepared for the sole and exclusive use of the client. Any party who is not the client identified in the appraisal or engagement letter is not entitled to rely upon the contents of the appraisal without express written consent of Hymas & Associates, LC, and Client. I assume no liability for unauthorized use of the appraisal report by a third party.
14. This appraisal shall be considered in its entirety. No part thereof shall be used separately or out of context.
15. The value opinion provided herein is subject to all predications set forth in this report.
16. I assume that the water rights and water shares have no hidden or unknown conditions which would render them more or less valuable. No responsibility is assumed for such conditions or for engineering which may be required to discover.
17. Unless expressly granted in writing, this appraisal is not intended to be used, and may not be used, on behalf of or in connection with a real estate syndicate or syndicates. A real estate syndicate means a general or limited partnership, joint venture, unincorporated association or similar organization formed for the purpose of, and engaged in, an investment or gain from and interest in real property, including, but not limited to a sale or exchange, trade or development of such real property, on behalf of others, or which is required to be registered with the United States Securities and Exchange Commission or any state regulatory agency which regulates investments made as a public offering. It is agreed that any user of this appraisal who uses it contrary to the prohibitions in this section indemnifies the appraiser and the appraiser's firm and holds them harmless of and from all claims, including attorney's fees, arising from said use.
18. Unless otherwise stated in this report, I observed no hazardous material(s), which may or may not be present on the property. I have no knowledge of the existence of such materials on or in the property and, is not qualified to detect such substances. The presence of substances such as asbestos, urea-formaldehyde foam insulation, or other potentially hazardous materials may affect the value of the property. The value conclusion is predicted on the assumption that the property has no environmental contamination has no such material on or in the property that would cause a loss in value. I accept no responsibility for any such conditions, or for the cost of any expertise or engineering knowledge required to discover such materials and/or conditions. The client is urged to retain an expert in this field, if desired.
19. I have surveyed the property for compliance with the various requirements of the Americans with Disabilities Act ("ADA") which became effective January 26, 1992. It is possible that a compliance survey of the property, together with an analysis of the requirements of the ADA, could reveal that the property is not in compliance with one or more of the requirements of the Act. If so, this could have a negative effect on the value of the property. Since I have no direct evidence relating to this issue, I did not consider possible noncompliance with the requirements of ADA in developing an opinion of value.
20. If any claim is filed against Hymas & Associates, LC, its officers or employees, in connection with, or in any way arising out of, or relating to, this report, then (1) under no circumstances shall such claimant be entitled to consequential, special or other damages, except only for direct compensatory damages and (2) the maximum amount of such compensatory damages recoverable by such claimant shall be the amount actually received by the firm engaged to provide this report.
21. No changes in any federal, state, or local laws, regulations, or codes (including, without limitation, the Internal Revenue Code) are anticipated, unless specifically stated to the contrary.

22. It is the client's responsibility to read the report and to inform the appraiser(s) of any errors or omissions of which you are aware, prior to utilizing the report.
23. All disputes shall be settled by binding arbitration in accordance with the then-existing commercial arbitration rules of the American Arbitration Association (the "AAA").
24. Acceptance of and/or use of this appraisal report constitutes acceptance of the foregoing general assumptions and limiting conditions.
25. The report contains professional opinions and is expressly not intended to serve as any warranty, assurance or guarantee of any particular value of the subject property. Other appraisers may reach different conclusions as to the value of the subject property. Furthermore, market value is highly related to exposure time, promotion effort, terms, motivation, and conclusions surrounding the offering of the subject property. The Report is for the sole purpose of providing the intended user with Hymas & Associates, LC independent professional opinion of the value of the subject property as of the date of the Report. Accordingly, Hymas & Associates, LC shall not be liable for any losses that arise from any investment or lending decisions based upon the Report that the client, intended user, or any buyer, seller, investor, or lending institution may undertake related to the subject property, and Hymas & Associates, LC has not been compensated to assume any of these risks. Nothing contained in the Report shall be construed as any direct or indirect recommendation of Hymas & Associates, LC to buy, sell, hold, or finance the subject property.

Hypothetical Conditions:

- This appraisal report does not value any specific water rights. I have relied on the hypothetical condition that none of the water rights are currently listed for sale or under contract and none of the water rights have been listed for sale, under contract or sold within the three years preceding the date of this appraisal.

Extraordinary Assumptions:

- There have been relatively few water rights that have sold over the past several years in basin 73. As such, I have relied on the sales I was able to verify as well as my interviews with market participants, municipalities officials, and real estate professionals in the area to assist in determining the value baseline and the possible discount associated with 1935 or younger priority water rights.

The use of the hypothetical condition and/or extraordinary assumption might have affected the assignment results.

Summary of Salient Facts

Property Name:	Water Rights in Basin 73
Water Right Basin Description:	Reaching from T31S to T37S in Iron County, this drainage basin, of about 580 square miles, includes the surface source of Coal Creek in the southeast and several intermittent streams that flow from the Black Mountains in the north. It is bounded on the west by the 7,200 foot Harmony Mountains and the Swett Hills, on the south and east by the 11,307 foot Markagunt Plateau and Cedar Mountain, and on the north by the 8,700 foot Black Mountains. Low saddles on the south, northeast, and northwest lead to the adjacent Ash Creek, Parowan, and Escalante Valleys, respectively. The lowest point is Mud Springs Gap at 5,350 feet, giving the basin a total relief of about 5,250 feet.
Valuation Premise:	'as is'
Intended User:	Cedar City
Intended Use:	To assist in providing a market value baseline for water rights in basin 73 with a priority date of 1934 or senior and determine what if any discount is associated with water rights with a priority day of 1935 or younger.
Extraordinary Assumptions:	Yes, See letter, introduction, and body of report.
Hypothetical Conditions:	Yes, See letter, introduction, and body of report.
Highest & Best Use:	Agriculture or transfer to municipalities for potable water.
Marketing Time:	0 to 6 months
Exposure Time:	0 to 6 months
Date of Inspection:	I did not observe any of the water rights, wells, pumps, or appurtenant parts of water rights within basin 73 or the associated irrigation companies.
Date of Value:	March 25, 2024
Date of Report:	March 26, 2024

Valuation

Basin 73 Water Right Value Conclusions Summary	
Water Priority, Location, and Acre-Feet	Value/Acre-Foot
Senior to July 25, 1934	
Water Right Sales Less than 10 Acre-Feet	\$14,000
Water Right Sales 10 Acre-Feet or Larger	\$12,600
Priority Dates from July 26, 1934 to December 31, 1935	
Water Right Sales Less than 10 Acre-Feet	\$10,000
Water Right Sales 10 Acre-Feet or Larger	\$8,500
Priority Dates from January 1, 1936 to December 31, 1951	
Water Right Sales Less than 10 Acre-Feet	\$9,000
Water Right Sales 10 Acre-Feet or Larger	\$7,650
Priority Dates from January 1, 1952 to December 31, 1954	
Water Right Sales Less than 10 Acre-Feet	\$8,000
Water Right Sales 10 Acre-Feet or Larger	\$6,800
Priority Dates from January 1, 1955 to December 31, 1957	
Water Right Sales Less than 10 Acre-Feet	\$6,200
Water Right Sales 10 Acre-Feet or Larger	\$5,270
Priority Dates from January 1, 1958 to Present	
Water Right Sales Less than 10 Acre-Feet	\$4,000
Water Right Sales 10 Acre-Feet or Larger	\$3,400

Introduction

Property Identification and Location – Per Utah Division of Water Rights Website

Basin 73 – Reaching from T31S to T37S in Iron County, this drainage basin, of about 580 square miles, includes the surface source of Coal Creek in the southeast and several intermittent streams that flow from the Black Mountains in the north. It is bounded on the west by the 7,200 foot Harmony Mountains and the Swett Hills, on the south and east by the 11,307 foot Markagunt Plateau and Cedar Mountain, and on the north by the 8,700 foot Black Mountains. Low saddles on the south, northeast, and northwest lead to the adjacent Ash Creek, Parowan, and Escalante Valleys, respectively. The lowest point is Mud Springs Gap at 5,350 feet, giving the basin a total relief of about 5,250 feet.

Client and Intended User

The client of this appraisal report is Mr. Paul Bittmenn. Intended users of this appraisal report include Cedar City and no others.

Intended Use

The intended use of this appraisal report is to assist in providing a market value baseline for water rights in basin 73 with a priority date of 1934 or senior and determine what if any discount is associated with water rights with a priority day of 1935 or younger.

Appraisal Assignment

This appraisal has been completed at the specific request of Mr. Paul Bittmenn of Cedar City. There are no specific water rights valued in this appraisal report. This appraisal report consists of all water rights within basin 73 with respect to the priority dates established in the Cedar City Valley Groundwater Management Plan that was adopted January 11, 2021.

Definitions

A glossary of general appraisal terminology is contained in the Addendum. Following are some of the more pertinent definitions that will be used in this appraisal.

Market Value

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- (1) Buyer and seller are typically motivated;
- (2) Both parties are well informed or well advised, and acting in what they consider their own best interests;
- (3) A reasonable time is allowed for exposure in the open market;
- (4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- (5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Source – Office of the Comptroller of the Currency under 12 CFR, Part 34, Subpart C-Appraisals, 34.42 Definitions [h].

Appraisal Report

A written report prepared under Standards Rule 2-2(a) of the Uniform Standards of Appraisal Practice, 2024 ed.

Note: This is an Appraisal Report as defined by Uniform Standards of Professional Appraisal Practice under Standards Rule 2-2(a). This format provides a summary or description of the appraisal process, subject and market data and valuation analyses.

Marketing and Exposure Time

Marketing time is defined by The Dictionary of Real Estate Appraisal 7th Edition as “an opinion of the amount of time to sell a property interest at the concluded market value or at a benchmark price during the period

immediately after the effective date of an appraisal." Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal. Marketing Time and Exposure Time would ordinarily be the same, unless a temporary market condition existed prior to the date of valuation that would not be a factor postdate of value or vice versa. Market influences like a road widening, local or national election could be considered. Sources of support data include national surveys, comparable sales data and broker interviews.

Based on the above information the marketing time for a property such as the subject has been determined to be approximately 0 to 6 months. This estimate is based upon the statistical information above about days on the market and market times gathered through sales verification as well as interviews with commercial real estate brokers in the Iron County area.

Exposure time is presumed to precede the effective date of the appraisal and reflects the estimated length of time the property would need to be offered prior to the date of the appraisal to achieve a market value sale on the effective date of the appraisal. Based on an analysis of market conditions, the exposure time is determined to be 0 to 6 months.

Property Ownership

This appraisal report does not value any specific water right but rather values general water rights within basin 73. Therefore, no ownership is noted.

Current and/or Previous Listing History

As this appraisal report does not value any specific water rights, I have relied on the hypothetical condition that none of the water rights are currently listed for sale and have not been listed for sale within the three years preceding the date of this appraisal report.

Current Contract and/or Previous Contract

As this appraisal report does not value any specific water rights, I have relied on the hypothetical condition that none of the water rights are currently under contract and have not been under contract within the three years preceding the date of this appraisal report.

Sales History

As this appraisal report does not value any specific water rights, I have relied on the hypothetical condition that none of the water rights have sold within the three years preceding the date of this appraisal report.

Important Dates

Date of Value

March 25, 2024

Inspection Date

No physical inspection.

Date of Report

March 26, 2024

Scope of Work

This report is intended to be a narrative appraisal report, as defined by the Appraisal Foundation in the current Uniform Standards of Professional Practice. All data pertinent to the solution of the appraisal problem has been collected, confirmed, and reported. The difficulty of the appraisal problem is reflected in the extent of the Scope of the Appraisal.

To accomplish the stated purpose of the appraisal, a field observation of the subject and the surrounding neighborhood and marketing area was conducted. In addition, extensive research regarding sales, rentals and other information was collected, confirmed, and analyzed to support the valuation analysis. The specific activities included the following:

Property Identification

There are no specific water rights valued in this appraisal report. This appraisal report consists of all water rights within basin 73 with respect to the priority dates established in the Cedar City Valley Groundwater Management Plan that was adopted January 11, 2021.

Type of Property Observation

I did not observe any of the water rights, wells, pumps, or appurtenant parts of water rights within basin 73 or the associated irrigation companies.

Problem to be Solved (Purpose of the Appraisal)

To assist in providing a market value baseline for water rights in basin 73 with a priority date of 1934 or senior and determine what if any discount is associated with water rights with a priority day of 1935 or younger.

Data and Research

I interviewed officials within Cedar City, Enoch City, Central Iron County Water Conservancy District, irrigation companies, and the Southwest Branch of the State of Utah Division of Water Rights. Additionally, I interviewed numerous market participants and real estate professionals in an effort to obtain sufficient data to rely on within this appraisal report.

Market Analysis

Research was performed into the local economy that drives the demand for water rights.

Highest & Best Use

Research was conducted for comparable sales and listings of water rights to assist in supporting the conclusions.

Informational Sources

Research, analyses, and conclusions are contained within this appraisal report with additional information, research, analysis, notes, and conclusions are retained within the hard file.

Appraisal Methodology & Valuation

The valuation of commercial real estate is typically based on the traditional approaches to value. These are described as follows.

- **Cost Approach** – The Cost Approach is based upon the principle of substitution, which states that a prudent purchaser would not pay more for a property than the amount required to purchase a similar site and construct a similar improvement without undue delay, producing a property of equal desirability and utility. This approach is particularly applicable when the improvements being appraised are relatively new or when the improvements are so specialized that there is little or no sales data from comparable properties.
- **Income Capitalization Approach** – The Income Capitalization Approach is based on the principle of anticipation, or the assumption that value is created by the expectation of benefits to be derived in the future, such as expected future income flows. Its premise is that a prudent investor will pay no more for the property than he or she would for another investment of similar risk and cash flow characteristics. The Income Capitalization Approach is widely used and relied upon in appraising income-producing properties, especially those for which there is an active investment sales market.
- **Direct Sales Comparison Approach** – The Sales Comparison Approach involves the direct comparison of sales and listings of similar properties, adjusting for differences between the subject property and the comparable properties. This method can be useful for valuing general-purpose properties or vacant land. For improved properties, it is particularly applicable when there is an active sales market for the property type being appraised – either by owner-users or investors.

Cost Approach

The cost approach was not developed as the subject consists of water rights and the cost approach is not applicable and does not provide a reliable indication of market value.

Sales Comparison Approach

The sales comparison approach was developed as there is adequate data to develop a conclusion of market value and the sales comparison approach reflects market behavior. In addition to the market data, I have

relied significantly on my interviews with municipalities and water officials, market participants, and real estate professionals.

Income Capitalization Approach

The income capitalization approach was not developed as the subject consists of water rights and the income approach is not applicable and does not provide a reliable indication of market value.

Hypothetical Conditions

This appraisal report does not value any specific water rights. I have relied on the hypothetical condition that none of the water rights are currently listed for sale or under contract and none of the water rights have been listed for sale, under contract or sold within the three years preceding the date of this appraisal.

Extraordinary Assumptions

There have been relatively few water rights that have sold over the past several years in basin 73. As such, I have relied on the sales I was able to verify as well as my interviews with market participants, municipalities officials, and real estate professionals in the area to assist in determining the value baseline and the possible discount associated with 1935 or younger priority water rights.

The use of the hypothetical condition and/or extraordinary assumption might have affected the assignment results.

Utah Water Right History

The Utah pioneers, in the late 1840's, were the first Anglo-Saxons to practice irrigation on an extensive scale in the United States. Being a desert, Utah contained much more cultivable land than could be watered from the incoming mountain streams. The principle was established that those who first made beneficial use of water should be entitled to continued use in preference to those who came later. This fundamental principal was later sanctioned in law and is known as the Doctrine of Prior Appropriation. This means those holding water rights with the earliest priority dates, and who have continued beneficial use of the water, have the right to water from a certain source before others with water rights having later priority dates.

In the early territorial days, rights to the use of public streams of water were acquired by physical diversion and application of water to beneficial use, or by legislative grant. A "county courts" water allocation system was enacted in 1852 and was in effect until 1880 when it was replaced by a statute providing for county water commissioners.

The Office of the State Engineer was created in 1897. The State Engineer is the chief water rights administrative officer. A complete "water code" was enacted in 1903 and was revised and reenacted in 1919. This law, with succeeding complete reenactments and amendments is presently in force mostly as *Utah Code*, Title 73. In 1967 the name of the Office of the State Engineer was changed to the Division of Water Rights with the State Engineer designated as the Director, but the public sometimes still refers to the Division as the State Engineer's Office. The Division of Water Rights is the state agency that regulates the appropriation and distribution of water in the state of Utah.

All waters in Utah are public property. A "water right" is a right to divert (remove from its natural source) and beneficially use water. The defining elements of a typical water right will include:

- A defined nature and extent of beneficial use;
- A priority date;
- A defined quantity of water allowed for diversion by flow rate (cfs) and/or by volume (acre-feet);
- A specified point of diversion and source of water;
- A specified place of beneficial use.

Rights for water diversion and use established prior to 1903 for surface water or prior to 1935 for ground water can be established by filing a "diligence claim" with the Division. Such claims are subject to public notice and judicial review and may be barred by court decree in some areas of the state.

All other rights to the use of water in the State of Utah must be established through the appropriation process administered by the Division of Water Rights. The steps to this process for an "Application to Appropriate Water" are as follows:

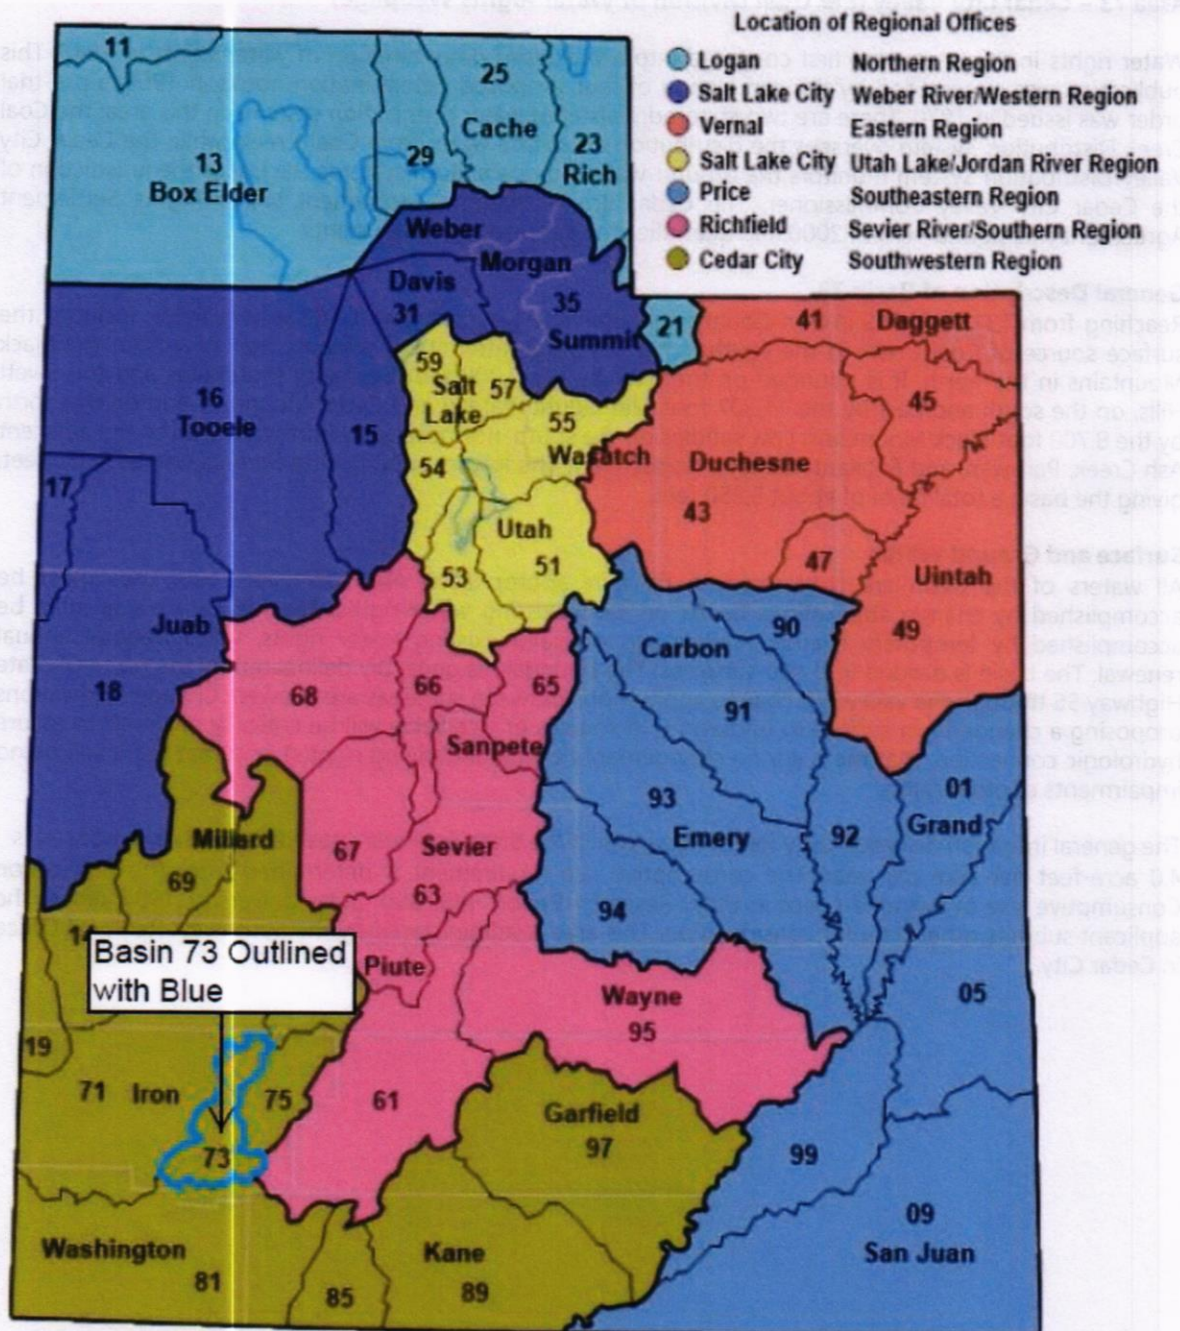

- An Application to Appropriate Water is filed with the Division.
- The application is advertised and protests may be received and a hearing may be held.
- The State Engineer renders a decision on the application based upon principles established in statute and by prior court decisions.
- If the application is approved, the applicant is allowed a set period of time within which to develop the proposed diversion and use water. When the diversion and use are fully developed, the applicant retains the services of a professional engineer or land surveyor who files "proof" documentation with the Division showing the details of the development.
- Upon verification of acceptably complete proof documentation, the State Engineer issues a Certificate of Appropriation, thus "perfecting" the water right.

Many areas of the state are administratively "closed" to new appropriations of water. In those areas, new diversions and uses of water are established by the modification of existing water rights. Such modifications are accomplished by the filing of "change applications." These applications are filed and processed in a manner very similar to that described above for Applications to Appropriate Water.

Water appropriation issues in specific geographic areas of the state are often administered using policies and guidelines designed to address local conditions. These policies and guidelines are generally developed

for all or part of a defined Drainage Basin. Below is a State of Utah basin map which was taken from the Utah Division of Water Rights webpage and it identifies the location of each basin.

Basin 73 General Information

Area 73 – Cedar City Valley (Per Utah Division of Water Rights Webpage)

Water rights in this area were first compiled into a proposed determination of water rights in 1947. This publication was superseded by the completion of four proposed determination books in 1966; a pre-trial order was issued in 1970. There are two state-administered water distribution systems in this area; the Coal Creek Distribution System oversees the distribution of surface water from Coal Creek, while the Cedar City Valley Distribution System monitors the ground-water pumpers. Both systems are under the jurisdiction of the Cedar City Valley Commissioner. The Cedar Breaks National Monument Water Rights Settlement Agreement was signed in April 2000 and quantifies the appurtenant water rights.

General Description of Basin 73

Reaching from T31S to T37S in Iron County, this drainage basin, of about 580 square miles, includes the surface source of Coal Creek in the southeast and several intermittent streams that flow from the Black Mountains in the north. It is bounded on the west by the 7,200 foot Harmony Mountains and the Swett Hills, on the south and east by the 11,307 foot Markagunt Plateau and Cedar Mountain, and on the north by the 8,700 foot Black Mountains. Low saddles on the south, northeast, and northwest lead to the adjacent Ash Creek, Parowan, and Escalante Valleys, respectively. The lowest point is Mud Springs Gap at 5,350 feet, giving the basin a total relief of about 5,250 feet.

Surface and Ground Water

All waters of the basin are considered to be fully appropriated. New diversions and uses must be accomplished by change applications based on valid existing water rights. Fixed-time projects must be accomplished by temporary change applications on valid existing water rights, which require annual renewal. The basin is divided into two subareas. The boundary is generally delineated by the route of State Highway 56 through the valley. No change applications between subareas are allowed. Change applications proposing a change from surface to underground sources or vice versa will be critically reviewed to assure hydrologic connection, that there are no enlargements of the underlying right(s), and that there will be no impairments of other rights.

The general irrigation diversion duty for this area, which the State Engineer uses for evaluation purposes, is 4.0 acre-feet per acre per year. The consumptive use requirement is determined from the publication Consumptive Use of Irrigated Crops in Utah, Research Report 145, Utah State University, 1994, unless the applicant submits other data for consideration. This area is administered by the Southwest Regional Office in Cedar City.

Market Demand

General Market Conditions

Historically there has been good demand for water rights in Utah. However, it is somewhat difficult to analyze the amount of water right transactions as water rights can and are marketed and transferred in many different forums. Although water rights are marketed in different forums, water rights typically have very little variation in sales price if compared to the same basin, drainages, and other similarities, albeit this has changed with water rights rapidly increasing in sales price over the past decade or so with some decrease most recently being noted. The most notable difference in sales price comes from basin 81, which depending on the water rights location can vary five or more times in price from one place to another.

My interviews with municipality officials, market participants, and real estate professionals active in basin 73 water rights generally agreed that the market for water rights use to be fairly predictable with buyers and sellers both generally having a reasonable understanding about water right prices, uses, and locations which has changed over the past decade. Historically, water rights transferred mainly between farmers who utilized the water for irrigation and agriculture purposes but over the past decade developers have become major purchasers of water which has increased the demand and pricing of the water and have priced the agriculture users out of the market.

Sellers typically market water rights competitively with little to no negotiations in asking price. Additionally, water rights are easily split off and typically sell with less than 3 or 4 acre-feet in any one transaction, albeit there are occasions where large amounts of acre-feet sell in one transaction. In these large transaction sales, the sales price per acre-foot can vary from no associated discount to a rather large associated discount depending on the motivations of the buyer and/or seller. Lastly, the marketing period for water rights is relatively low if the water rights are marketed at a price within the context of the market.

Historically, water rights values have been relatively stable but over the past decade have increased in demand and value at an unprecedented rate. Several years ago, the Utah Division of Water Rights Engineer completed a study of basin 73. The study indicated that the average annual groundwater withdrawals from Cedar City Valley (basin 73) exceeded the safe yield, making this basin a critical management area. The safe yield for the groundwater basin is estimated at 21,000 acre-feet per year, while the current average depletion from the groundwater basin is estimated at 28,000 acre-feet per year. Thus, it is estimated that average actual depletion must be reduced by 7,000 acre-feet per year in order to balance recharge and depletion amount in this groundwater basin.

Based off the findings of the Utah Division of Water Rights Engineer, the Cedar City Valley Groundwater Management Plan was adopted on January 11, 2021. The Cedar City Valley Groundwater Management Plan is based solely on the priority dates of the water rights. A copy of the Cedar City Valley Groundwater Management Plan is found in the addendum of this appraisal report. According to this plan, water rights with a priority date of July 25, 1934 or senior are secure and do not face any potential loss. After which, water rights with specific priority dates are tiered with senior water rights having the most security and junior water rights being the most vulnerable of losing the water rights outright. The priority dates regulated are as follows: July 25, 1934 or senior are safe from any loss followed by the following tiers July 26, 1934 to December 31, 1935, January 1, 1936 to December 31, 1951, January 1, 1952 to December 31, 1954, January 1, 1955 to December 31, 1957 and January 1, 1958 to present.

Based on the conclusions of the Cedar City Valley Groundwater Management Plan, both Cedar City Corporation and Enoch City Corporation will not purchase any water with a priority date younger than 1934. Based off my interview with city officials, this is because the Cities are unwilling to risk purchasing water rights that potentially could be completely taken away. Additionally, in September 2022, the Iron County Board of County Commissioners voted all in favor of an ordinance amendment 2022-6, which requires minimum water rights associated with a residential unit increased from 0.45-acre foot to 1-acre foot. Further the amendment included a new paragraph states, "Any water right(s) required in this section shall be of a priority date that insures it(them) not to be in jeopardy of suspension or termination according to the applicable Utah Division of Water Rights State Engineer's "Groundwater Management Plant" and rules for the water basin wherein the water right(s) is(are) issued for a period of at least fifty (50) years from the date

of issuance of a building permit...". This amendment essentially precludes any property located in unincorporated Iron County to have a water right that is 1934 or senior in order to be able to pull a building permit.

My interviews with market participants and real estate professionals have indicated that although municipalities are unwilling to purchase 1935 or younger water, many market participants will. Market participants interviewed who have or are willing to purchase 1935 or junior water rights indicated that they will purchase if they only need water for a fixed amount of time, they believe the groundwater basin will recharge, or they believe that another solution will allow for sufficient water and the water will be able to be used for an extended period.

As water has become such a "hot" topic many more people are becoming educated on the issues. In fact, according to a news article by St. George news dated March 21, 2019, *"The Central Iron County Water Conservancy District recently secured 26,275 acre-feet of groundwater rights from Utah's West Desert."* This water that was secured is located in the Wah Wah and Pine Valley, which is located approximately 50 miles northwest of Cedar City. Although the Central Iron County Water Conservancy District secured the 26,275 acre-feet of groundwater rights, a large amount of time, energy, and cost lies ahead to bring the water to the Cedar City Valley. Based on my interviews with several individuals, a pipeline from Wah Wah and Pine Valley will cost at minimum \$325m. The associated cost is likely a significant barrier, albeit news like this is exciting to some market participants that have young priority dated water or for market participants who believe some solution will protect water purchased with a young priority date. Additionally, Cedar City Corporation has recently been very active in purchasing water rights that are 1934 or senior in an effort to resolve some of the water concerns that lie ahead based off the Basin 73 Groundwater Management Plan.

Further, both Central Iron County Water Conservancy District and Cedar City have been very active in developing and improving recharge efforts. To date the recharge efforts have proven to be somewhat successful but still significantly less than necessary to recharge the aquifer sufficiently. Although recharge is vital moving forward, the most significant recharge is from snow and rain, which provide springtime runoff. Even with the winter of 2022-2023 which produced a significantly wetter winter and provided more runoff and with the slightly above average winter of snowpack in 2023-2024, the area of basin 73 has been in a drought for an extended period and depletion of the aquifer continues. Although recharge efforts are insufficient, recharge efforts to date have been somewhat successful which is encouraging. The successfulness of the recharge efforts have made additional recharge plans in the future.

Historically, there has always been and remains a strong market for water rights, albeit the market is changing because of some of the uncertainty. Although water rights in basin 73 are likely to change moving forward the market for 1934 and senior water currently is secure and not likely to change but 1935 and younger water is likely to change with some uncertainty moving forward. Because the Cedar Valley Groundwater Management Plan was recently adopted, the full extent of the market is unknown and remains uncertain, albeit some clarity has started to occur. It is likely that water rights with a priority date of 1958 or younger will have little if any value in the market within the coming years.

The current economic changes in the market, namely increasing interest rates, will likely impact the market of water rights. This is because if the high interest rates have slowed the pace of development and developers are no longer purchasing actively pursuing water rights in any significant fashion. As developers have been the most active market participants in seeking water rights, without the developers actively seeking the water rights, a major loss in demand for water has occurred. Most recently, a decrease in pricing is being noted because of the loss of demand as the developers have not actively sought out water rights and they were the most active market participants. The reaction of the market is interesting, as most market participants are unable or unwilling to purchase water rights at the price point once paid by developers. With developers recently removing themselves from being active purchasers of water rights and most recently a decrease in water rights pricing, only time will tell what the equilibrium will be in pricing for water rights without the influence of developers.

Population Growth and Trends

According to the U.S. Census Bureau the population of Iron County was 46,163 as of 2010 and is 57,658 as of 2020 census, an increase of 24.90% total or 2.49% annually. It is estimated that Iron County will increase in population by 27,590 between the years 2020 and 2040. This would be a 47.85% increase from 57,658 people in 2020 to 85,248 people in 2040, an increase of 2.39% annually. Given the actual 2.41% change per year from 2010 to 2020 and the demographers expected growth, it is likely that Iron County will meet the expectations of strong growth for the foreseeable future.

Geography	2020 Census	2040 Projected	% Change
Tooele County	73,149	115,253	58%
Box Elder County	57,886	75,494	30%
Iron County	57,658	85,248	48%
Summit County	42,394	52,303	23%
Uintah County	35,679	39,112	10%
Wasatch County	34,933	57,112	63%

<https://gardner.utah.edu/demographics/population-projections/>

The table above is prepared using data from the U.S. Census and Kem C. Gardner Policy Institute. The table indicates the projected population of six similarly sized counties by 2040. Based off the projected population in Iron County, Iron County is expected to have the 8th largest percentage increase when compared with the other 29 counties in Utah between 2020 and 2040.

This growth rate is expected to continue in the foreseeable future according to the Kem C. Gardner Policy Institute. Increasing population growth promotes increased demand for new residential building sites and new demand for commercial development.

The Utah Department of Workforce Services stated the following regarding the economy of Iron County, updated February 2024.

"Iron County continues to experience strong employment growth in the third quarter of 2023. Both August and September saw employment numbers 5.3% above that of the previous year. This is the highest rate of growth the county has experienced all year. Unemployment remains in rock bottom territory, indicating the labor market remains tight. Small signs of weakness were evident in the decrease of taxable sales for the third quarter in a row."

Highest & Best Use

The highest and best use of a property is "the reasonably probable use that results in the highest value. The four criteria that the highest best use must meet are legal permissibility, physical possibility, financial feasibility, and maximally productive."

Source: The Dictionary of Real Estate Appraisal, 6th Edition by The Appraisal Institute

Definitions from The Dictionary of Real Estate Appraisal 6th Edition for the four requirements are found below:

Legal Permissibility – A property use that is either currently allowed or most probably allowable under zoning codes, building codes, environmental regulations, and other applicable laws and regulations that govern land use.

Physical Possibility – For a land use to be considered physically possible, the parcel of land must be able to accommodate the construction of any building that would be a candidate for the ideal improvement.

Financial Feasibility – For a land use to be considered financially feasible, the value of the land use must exceed costs.

Maximally Productive – To achieve maximum productivity, a specific land use must yield the highest value of all the physically possible, legally permissible, and financially feasible possible uses.

This appraisal assignment involves the valuation of water rights. Water rights are unique as the water is not necessarily tied to real estate and if the water is tied to property, it can be severed from the real property and transferred to another location. For this analysis, I have assumed that all water rights are severed from any real property. With that in mind, the discussion of highest and best use in this report addresses only the water right.

According to Utah Code, Title 73, Chapter 1, Section 4 (2a), *"Except as provided in Subsection (2)(b) or (e), when an appropriator or the appropriator's successor in interest abandons or ceases to beneficially use all or a portion of a water right for a period of at least seven years, the water right or the unused portion of that water right is subject to forfeiture in accordance with Subsection (2)(c)."* For the purposes of this appraisal report I have assumed that all water rights have demonstrated beneficial use and are not subject to forfeiture.

Analysis of Highest & Best Use of the Water Rights

Legally Permissible

The water rights are located within basin 73 and are capable of transfer from one point of diversion to another. According to the Division of Water Rights, Highway 56 water rights are required to remain south of Highway 56 and water rights north of Highway 56. However, recently, market participants have not worried about water rights being located north or south of Highway 56 because of the water lines capabilities of having the water transferred from one side of Highway 56 to the other. Although water is capable of being diverted from one point of diversion to another it is required that an application is made to the Utah Division of Water Rights for both approval and transferability. Both transferring the point of use and changing the use would be considered legally permissible.

Physically Possible

Underground basin 73 water rights can be used for a number of purposes. The water can be used for agriculture, irrigation, and industrial purposes without further processing. Some wells are potable while some wells do required treatment to become potable. The water is within treating facilities and could easily be transferred to a different point of diversion to be treated. From a physical perspective, water rights are capable of accommodating many uses within the confines of the use and purity.

Financially Feasible and Maximally Productive

Use is of primary concern. Historically, water rights in the Cedar City Valley have been for agriculture which remains financially feasible and maximally productive, as long as the pricing does not exceed agriculture income generating levels. Recently, the cost of water has increased to the point that agriculture users can no longer financially afford to purchase the water. Over the past several years, both Cedar City and Enoch City requires water right to be deeded to the respective city for any development to occur. Therefore, given the recent increasing in population and the number of new residences being construct, water rights in the Cedar City Valley have also been critically important for development. Currently, Cedar City requires 1.2 acre-feet of water per acre to be deeded to the city if the property is being annexed into city limits or 1.5 acre-feet of water per acre to be deeded to the city if the property is already within city limits. Enoch City requires 1 acre-foot of water per improvement or site. Additionally, neither municipality will accept water that is 1935 or younger because of the possibility of loss of water. Ultimately, water has proven to be financially feasible and maximally productive for both agriculture and development, albeit developers are able to pay a higher price for their water rights than agriculture users because the developers can absorb the higher water cost within development.

Water Valuation

Water Rights

Water rights are classified as "real property" in the State of Utah and are bought and sold much like real estate. Water rights are only classified as real property but do not meet the definition of real property. According to The Dictionary of Real Estate Appraisal 7th Edition, real property is defined as ***"The interests, benefits, and rights inherent in the ownership of real estate."*** Water rights are associated with a general area, or basin and are divisible.

To determine the market value of the subject water rights, I searched for sales, pending sales, and listings of water rights in the specific basin and interviewed numerous municipality and water officials, real estate professionals, and developers who own or have purchased water rights. On the following table are multiple sales, pending sales, and listings of water rights within Basin 73 or the Cedar Valley Basin that have taken place since July 2021.

Water Rights Sales Within Basin 73 Since July 2021 and a Priority Date of 1934 or Senior

Water Right	Priority Date	Source	Amount	Sales Date	Sales Price	Price/Ac-Ft
73-4595	1930	Underground water well	0.50 Ac-Ft	3/18/2024	\$9,500	\$19,000
73-1969	1931	Underground water well	15.00 Ac-Ft	2/29/2024	\$240,000	\$16,000
73-1442 et al	1934	Underground water well	520.00 Ac-Ft	2/22/2024	\$5,330,000	\$10,250

73-148	1934	Underground water well	40.51 Ac-Ft	7/6/2021	\$345,000	\$8,517
73-4376	1934	Underground water well	1.00 Ac-Ft	7/2/2021	\$12,000	\$12,000
Average						\$14,841
Median						\$14,375

In addition to the table above, I have provided a scatter graph with a polynomial line with three orders. This was completed because over the past several years water right sales prices have increased at a more rapid

rate than ever before and most recently have indicated a decrease in sales price per acre foot with a slight increase most recently. The noted decrease is due to the fact that many developers are no longer actively seeking water rights due to the economic concerns in the market. According to my interviews with real estate brokers, market participants, and developers, water rights were highly sought after through the summer of 2022 but since demand has been much less which has placed downward pressure on pricing. Although many interviewees indicated that they believe water rights will again increase in demand and pricing, most stated that market participants are not seeking water because they prefer liquidity. The scatter graph of the noted water right sales below indicate all water right sales since July 2021 that are 1934 or senior that are noted in the table above.

Water Rights Pending Sales and Listings Within Basin 73 with a Priority Date of 1934 or Senior

Water Right	Priority Date	Source	Amount	Listing Date	List Price	Price/Ac-Ft
73-4625	1931	Underground water well	1.00 Ac-Ft	Pending	\$26,800	\$26,800
73-2381	1931	Underground water well	1.00 Ac-Ft	Pending	\$19,500	\$19,500
73-4520	1934	Underground water well	1.00 Ac-Ft	Pending	\$15,000	\$15,000
73-584	1934	Underground water well	1.00 Ac-Ft	Listing	\$17,900	\$17,900
73-3868	1900	Underground water well	1.00 Ac-Ft	Listing	\$20,000	\$20,000
73-21	1932	Underground water well	5.00 Ac-Ft	Listing	\$100,000	\$20,000
73-3484	1932	Underground water well	85.80 Ac-Ft	Listing	\$1,544,400	\$18,000
73-4610	1925	Underground water well	20.00 Ac-Ft	Listing	\$400,000	\$20,000
73-140	1928	Underground water well	5.00 Ac-Ft	Listing	\$100,000	\$20,000
73-112	1931	Underground water well	155.00 Ac-Ft	Listing	\$2,720,000	\$17,548
73-4282	1930	Underground water well	1.00 Ac-Ft	Listing	\$18,500	\$18,500
73-190	1934	Underground water well	1.00 Ac-Ft	Listing	\$18,000	\$18,000
73-2471	1926	Underground water well	1.20 Ac-Ft	Listing	\$28,800	\$24,000
73-584	1934	Underground water well	1.00 Ac-Ft	Listing	\$22,000	\$22,000
73-2274	1929	Underground water well	5.00 Ac-Ft	Listing	\$99,990	\$19,998
73-3911	1933	Underground water well	1.00 Ac-Ft	Listing	\$24,000	\$24,000
Average						\$20,078
Median						\$19,999

Water Valuation

Water Rights Sales Within Basin 73 Since May 2021 and a Priority Date of 1935 or Younger

Water Right	Priority Date	Source	Amount	Sales Date	Sales Price	Price/Ac-Ft
73-154	1935	Underground water well	220.00 Ac-Ft	11/9/2023	\$890,400	\$4,047
73-154	1935	Underground water well	10.00 Ac-Ft	9/11/2023	\$160,000	\$16,000
73-149	1935	Underground water well	1.00 Ac-Ft	8/10/2021	\$9,000	\$9,000
73-149	1935	Underground water well	3.88 Ac-Ft	5/2/2021	\$29,100	\$7,494
73-2480	1937	Underground water well	1.00 Ac-Ft	10/5/2023	\$9,500	\$9,500
73-3758	1937	Underground water well	4.00 Ac-Ft	7/7/2023	\$37,600	\$9,400
73-2282	1944	Underground water well	18.00 Ac-Ft	5/15/2023	\$283,500	\$15,750
73-3549	1944	Underground water well	10.00 Ac-Ft	1/13/2023	\$90,000	\$9,000
73-2282	1944	Underground water well	1.00 Ac-Ft	7/5/2022	\$9,700	\$9,700
73-2282	1944	Underground water well	2.00 Ac-Ft	7/5/2022	\$19,400	\$9,700
73-2282	1944	Underground water well	1.00 Ac-Ft	4/25/2022	\$9,700	\$9,700
73-2282	1944	Underground water well	1.00 Ac-Ft	4/22/2022	\$9,700	\$9,700
73-3001	1944	Underground water well	1.00 Ac-Ft	4/12/2022	\$8,700	\$8,700
73-3195	1944	Underground water well	2.00 Ac-Ft	3/21/2022	\$19,000	\$9,500
73-2182	1944	Underground water well	5.00 Ac-Ft	3/4/2022	\$50,000	\$10,000
73-2282	1944	Underground water well	1.00 Ac-Ft	12/17/2021	\$9,700	\$9,700
73-2282	1944	Underground water well	2.00 Ac-Ft	12/3/2021	\$19,400	\$9,700
73-2317	1937	Underground water well	0.75 Ac-Ft	8/13/2021	\$6,800	\$9,067
73-1788, 1815, 663	1952	Underground water well	9.27 Ac-Ft	8/22/2022	\$78,795	\$8,500
73-2889	1956	Underground water well	9.00 Ac-Ft	3/25/2022	\$56,000	\$6,222
Average						\$9,519
Median						\$9,500

In the tables above, the majority of the water rights are located north of Highway 56. I have included only the most recent sales because of the adoption of the Cedar Valley Groundwater Management Plan as of January 11, 2021. I have color coated the indicated priority date schedule of the comparable water rights in the table above to correlate with the Cedar City Valley Groundwater Management Plan. The table above includes both small number of water rights per sale and larger number of water rights per sale. Although historically, there appears to be some discount associated with larger water right sales than smaller water right sales, most recently a very small to no discount is being noted. Because there are relatively few water rights that transfer over any given year, I have relied on the data in the tables above, my interviews with market participants, real estate professionals, developers, and municipal and water officials in determining a baseline for the 1934 or senior water rights. Most often water rights in basin 73 sell on a divisible of 1.0 acre-foot.

Historically water rights south of Highway 56 have sold for more than water rights north of Highway 56. However, recently water rights that have sold north of Highway 56 have increased to a price point near south Highway 56 water rights. Further, my interview with several real estate professionals and market participants indicated that water rights south of Highway 56 have a similar market and price point as water rights north of Highway 56. Thus, my conclusion of water rights in basin 73 does not reflect any difference in market value if the water right is north of south of Highway 56. As an interesting note, many of the water rights located south of Highway 56 are 1935 or younger and therefore recently have indicated a rate less than water rights located north of Highway 56.

Based on the most recent sales, pending sales, active listings, and my interviews with real estate professionals, market participants, and developers active in water rights in the market area, market value conclusion for 1934 or senior water is **\$14,000 per acre-foot**, for ten or less acre-feet. Additionally, data indicates no discount or only a small discount associated with bulk water right sales. I have concluded that 1934 or senior water rights have a discount of 10% when sold in bulk.

Based on the scatter graph and polynomial line, the recent increase in water right sale prices, current market demand, and the adoption of the Cedar City Valley Groundwater Management Plan, water rights that are 1934 or senior are likely to have continued demand but pricing is very much more sensitive now than many

developers are not actively seeking water rights. The current economic changes in the market, namely increasing interest rates, have impacted the market of water rights. This is because developers are no longer as active in the water market as they once were. From 2021 through mid-2022 developers were the largest and most active purchasers of water rights but are no longer driving the market for water rights. As clearly indicated in the scatter graph since mid-2022, the sales price for water rights have decreased. Ultimately, demand for water rights will remain and it is too early to determine if the pricing for water rights will begin to stabilize or continue to a downward trend.

Discount Associated with July 26, 1934 and Younger Water Rights

The State Engineer stated that the Cedar Valley basin is a critical management area and have adopted the Cedar Valley Groundwater Management Plan as of January 2021. My interviews have indicated that many market participants and real estate professionals do not know the full impact the Cedar Valley Groundwater Management Plan will have on water rights within basin 73. Although most recently, many real estate professionals and market participants have realized and become more versed on the intricacies of the water right market. Real estate professionals interviewed have stated that they will not purchase or sale water rights to their clients because of the uncertainty, while others go through great lengths to ensure their client understands the potential that the water right could be vacated by the State. Additionally, some have indicated that they have represented individuals who have purchased one or two acre-feet of water that is 1935 and younger because they need one-acre foot and the price of several thousand dollars is worth the "risk". Clearly, there are individuals and real estate professionals on both sides of this dilemma, which is primarily due to the uncertainty. With the adoption of the Cedar Valley Groundwater Management Plan, it is likely that some market norms become more established over the coming years.

Some of the most damning evidence that 1935 and younger water has limited marketability is that both Cedar City Corporation and Enoch City will not purchase or accept water that is 1935 or younger. The negative impact of Cedar City Corporation and Enoch City not purchasing 1935 or younger water is most realized by the fact that developers are not able to turn 1935 or younger water over to the municipalities for the potential of development. This essentially limits the 1935 or younger water to individuals who only need the water for a set amount of time or are willing to accept the potential of losing the water right at a future date noted on the Cedar City Valley Groundwater Management Plan that was adopted January 11, 2021. Although this is public information, many citizens and real estate professionals still do not know that Cedar City and Enoch City will not purchase or accept 1935 or younger water rights, although it is becoming more widely known. I would expect this information to continue to become more known over the next several years. As knowledge that Cedar City and Enoch City will not accept 1935 or younger water become more known, it will most likely continue to negatively impact the pricing and marketability of 1935 or younger water rights. Further, the recent decision of the Iron County Board of Commissioners to follow suit of Cedar City and Enoch City regarding a water right that is 1934 or younger in order to obtain a building permit will continue to place downward pressure on the more junior water rights.

Currently, the water right market is in a state of fluctuation but now that the State of Utah Engineer has adopted the Cedar City Valley Groundwater Management Plan, there most likely will be some balance created within the market for water rights. Because the Cedar City Groundwater Management Plan is relatively newly adopted it remains difficult to establish a baseline value or associated discount, albeit some trends are being noted. While there appears to be a relatively strong market for 1934 and senior water rights, there have been relatively few sales of 1935 and younger water rights because of the great concern regarding the water rights potential to be vacated.

As citizens, market participants, municipalities, real estate professionals, and developers become more knowledgeable concerning water rights within the Cedar Valley basin, water rights within the Cedar Valley basin should become much more stable and predictable. Although water rights of 1935 and younger are in a state of fluctuation, there remains a market associated with the water rights, albeit smaller and at a discount. My interviews have indicated that the strong majority will not currently purchase 1935 or younger water rights, but there has been several who indicated that if the water rights are discounted enough it may be worth the "risk" to purchase and see if the aquifer recharges, if other water sources are made available, or if the end user understands that there is an end time frame that they require the water. Ultimately, there still appears to be a market for 1935 or younger water, regardless of their specific reasoning such as ignorance, willing to accept the risk, only needs a small amount, only requires for a specific time, etc.

The client requested that I provide a discount associated with 1935 and younger water. This is difficult because there have been relatively few sales of water rights with 1935 or younger water over the past several years and this market is very much volatile and unstable because of a significant amount of uncertainty and risk. Now that the State of Utah Engineer has adopted the Cedar City Valley Groundwater Management Plan, it is likely that the market will become more balanced moving forward. Additionally, because there is a significant lack of data in which to derive a definitive market based discount, I have relied on my interviews

with market participants, municipalities, real estate professionals, and developers in concluding an appropriate discount. The table below indicates the priority dates, number of sales within the priority date range, market value of 1 acre-foot of water within the priority date range and the percent of change from the baseline. The baseline for Cedar Valley basin (basin 73) is established in the analysis above and is **\$14,000 per acre-foot**. The noted percent of change in the table below is based off the specific priority date range and the baseline rate.

Water Right Sales/Pendings/Listings Since 2019			
Priority Date	Number of Sales	Market Value Per 1 Acre-Foot	%/Change from Base
Senior to July 25, 1934	45	\$14,000	
July 26, 1934 to December 31, 1935	4	\$10,000	-29%
January 1, 1936 to December 31, 1951	14	\$9,000	-36%
January 1, 1952 to December 31, 1954	1	\$8,000	-43%
January 1, 1955 to December 31, 1957	1	\$6,200	-56%
January 1, 1958 to Present	0	\$4,000	-71%

The indicated percentage of change is rather significant from the baseline of \$14,000 per acre-foot. The first initial decrease is rather significant which decreases -29%. After the initial decrease from the base of -29%, the second tier appears to have a relatively small discount from tier 1 to 2 but a substantial discount of -36% from the baseline. Tier three has a discount of -43%, tier four has a discount of -56%, and the final tier has a discount of -71% from the baseline. The above discount chart is based off the most reliable market data and interviews as of the effective date tempered with the fact that both Cedar City and Enoch City will not purchase or accepted any water rights with a priority date of 1935 or younger. Both Cedar City and Enoch City are major market participants in obtaining water rights because they require water rights from developers for development to occur. Therefore, the fact that neither municipality will purchase or accepted 1935 or younger water rights and Iron County also will not accept 1935 or younger water rights is a major limiting marketability factor. Based off the data and conclusions within this appraisal report, my interviews with market participants, and other relevant factors, the concluded discount associated with a bulk purchase of any water right with a priority date of July 26, 1934 or younger is 15%.

Cedar Valley Groundwater Management Plan – Adopted January 11, 2021

SPENCER J. COX
Governor
DEIDRE M. HENDERSON
Lieutenant Governor

State of Utah

DEPARTMENT OF NATURAL RESOURCES

BRIAN C. STEED
Executive Director

Division of Water Rights

TERESA WILHELMSSEN
State Engineer/Division Director

January 11, 2021

RE: Notice of Final Adoption

Dear Water Users:

The Cedar City Valley Groundwater Management Plan was adopted January 11, 2021. The objectives of this groundwater management plan are to ensure groundwater withdrawals do not exceed safe yield, to safeguard the physical integrity of the aquifer, and to protect water quality. A copy of the plan is available on the Division's website at www.waterrights.utah.gov.

The adoption of this plan is subject to Section 73-5-15 Utah Code, which allows an individual to challenge any aspect of the plan by filing a complaint in the appropriate district court within 60 days after the date of this notice.

We appreciate everyone who participated at public meetings and submitted comments during the development of this plan. We look forward to your continued support.

Sincerely,

Teresa Wilhelmsen, P.E.
State Engineer

CEDAR CITY VALLEY GROUNDWATER MANAGEMENT PLAN

Adoption Date: January 11, 2021

Introduction

The objectives of this groundwater management plan are to ensure groundwater withdrawals do not exceed safe yield, to safeguard the physical integrity of the aquifer, and to protect water quality in the groundwater basin of Cedar City Valley in Iron County. The intent of this plan is to provide specific management guidelines for this area pursuant to Section 73-5-15 of the Utah Code.

Studies indicate average annual groundwater withdrawals in Cedar City Valley exceed safe yield, making this groundwater basin a critical management area as defined in Section 73-5-15.1 of the Utah Code. The safe yield for the groundwater basin is estimated to be 21,000 acre-feet per year, while the current average depletion from the groundwater basin is estimated to be 28,000 acre-feet per year. If all groundwater rights that are approved or perfected were to be used the total depletion from the groundwater basin would be approximately 50,000 acre-feet per year. It is estimated that average actual depletion must be reduced by 7,000 acre-feet per year in order to balance recharge and depletion amounts in this groundwater basin.

Affected Area

This groundwater management plan applies to the groundwater basin within the surface drainage area of Cedar City Valley in Iron County. The groundwater management plan area is more particularly described as Water Right Area 73 and is shown in Figure 1.

Priority Regulation

In order to reduce actual depletion to balance recharge, water rights will be regulated according to priority and regardless of a water right's nature of use. Regulation will follow the schedule described in Table 1. A regulated water right will no longer be authorized to divert water beginning on the target date corresponding to the phase wherein the water right is to be regulated. A list of groundwater rights and corresponding priority dates and depletion estimates are posted on the Division of Water Rights website.

The regulated priority date for a given phase in Table 1 may be adjusted by the State Engineer to a later priority date based on the average annual artificial recharge or reductions in depletions that occur within the groundwater basin during the 10 years prior to the target date. Each year in the annual groundwater distribution system report, the State Engineer will report on the status of the aquifer, the estimated annual depletion resulting from groundwater withdrawals, amount and disposition of artificial recharge, and any adjustments to the regulated priority date for a given phase. Recharged water under projects for which a recovery application has been approved and actively pursued will not be considered in adjusting the regulated priority date for a given phase.

Table 1 Priority Regulation Schedule

Phase	Target Date	Priority Dates Regulated Through	Acre-Feet Reduction in Estimated Depletion	Cumulative Acre-Feet Reduction in Depletion	Remaining Depletion (acre-feet)
1	January 1, 2035	December 31, 1957	5,434	5,434	45,530
2	January 1, 2050	December 31, 1954	7,330	12,764	38,200
3	January 1, 2060	December 31, 1951	8,814	21,578	29,386
4	January 1, 2070	December 31, 1935	6,761	28,339	22,625
5	January 1, 2080	July 25, 1934	1,518	29,857	21,107

Depletion Calculations

For purposes of this groundwater management plan, annual depletion from irrigation will be calculated using an annual crop survey prepared by the distribution system commissioner. The crop survey will tabulate the irrigated acreage for every crop type in the management plan boundary. It will include acreage supplied by groundwater and acreage supplied by both surface and groundwater sources. The crop survey will be published every year in the annual groundwater distribution system report. For irrigated acreage supplied by both surface and groundwater sources, water users may be required to meter the amount of groundwater diverted to that acreage so that the groundwater depletion attributable to this acreage can be estimated.

Entities with municipal use will be required to report the following on an annual basis:

1. Amount of water diverted from all sources
2. Amount of water depleted from the municipal uses

Depletion due to municipal use will be the groundwater diversion minus any return flow resulting from the groundwater portion of wastewater effluent returning to the groundwater system and minus any return flow resulting from the groundwater portion of water used for lawn and garden irrigation and any other municipal purposes.

Depletion due to any other uses will be evaluated on an individual basis. Water users will be required to report diversions and depletions associated with these uses as directed by the State Engineer.

Artificial recharge due to recharge projects will be considered as an accretion of groundwater and will be a part of the depletion calculations. To be considered in the depletion calculations, the artificial recharge must be reported to the Division of Water Rights under a recharge permit approved by the State Engineer. The recharged water, if not diverted and left in its natural course, must not have previously recharged the groundwater aquifer.

Voluntary Arrangements

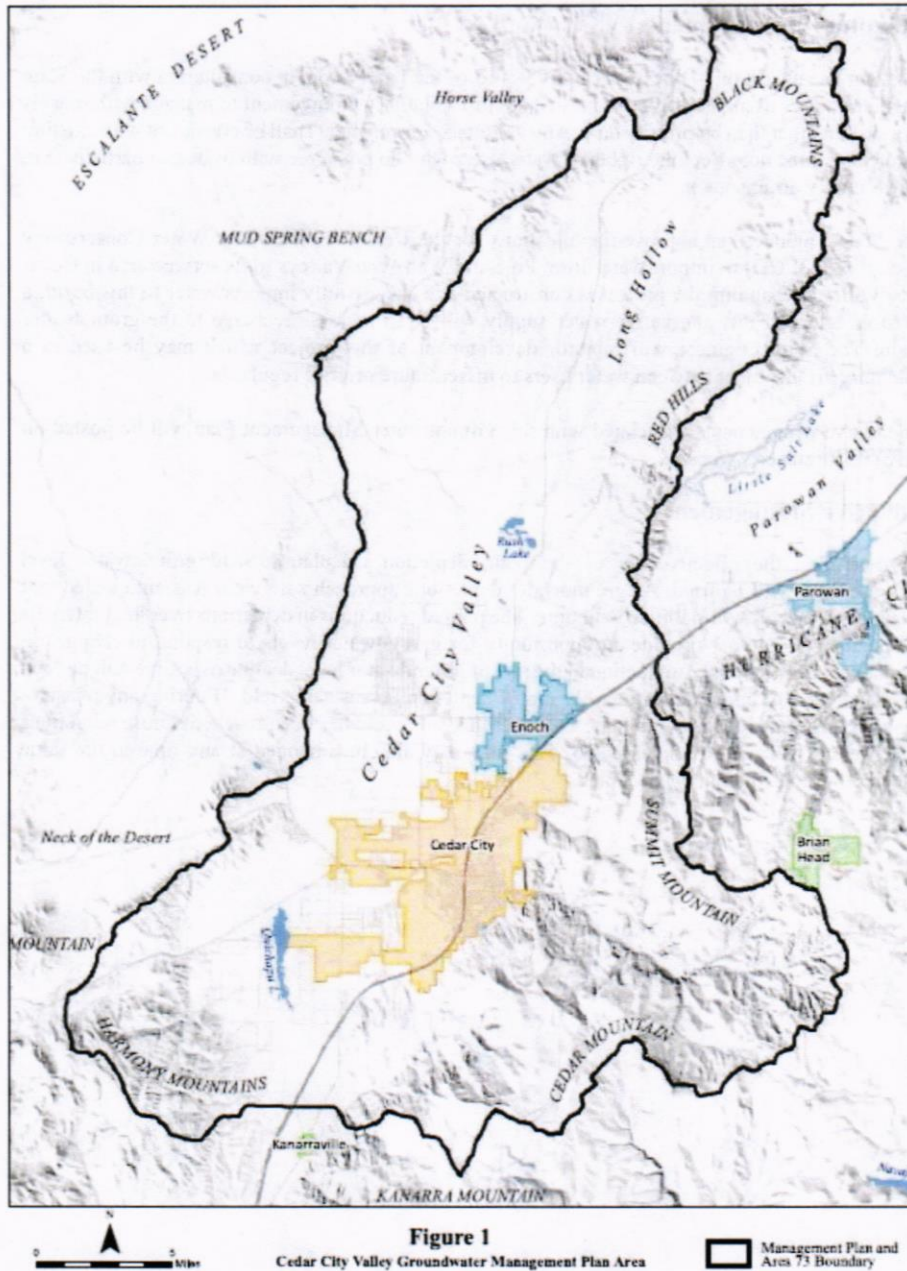

Pursuant to Subsection (4)(b) of Section 73-5-15 of the Utah Code, in consultation with the State Engineer, water users may agree to participate in a voluntary arrangement to manage withdrawals on a system other than by priority date. Any voluntary arrangement shall be consistent with existing statute and must not affect the rights of water users who do not agree with or do not participate in the voluntary arrangement.

The State Engineer has approved applications for the Central Iron County Water Conservancy District (CICWCD) to import water from Pine and Wah Wah Valleys to its service area in Cedar City Valley. Presuming the project is constructed and successfully imports water to this basin, a possible effect of this alternative water supply will be to increase recharge to the groundwater basin. The State Engineer will monitor development of this project which may be used in a voluntary arrangement between water users to offset future priority regulation.

Voluntary Arrangements associated with this Groundwater Management Plan will be posted on the State Engineer's website.

Adaptive Management

To determine the effectiveness of the plan, depletion calculations and groundwater level measurements will be used. As groundwater depletions approach safe yield it is anticipated that groundwater levels will stabilize with time. The phased reductions in depletions over long intervals as specified in Table 1 provide an opportunity for groundwater levels to respond to changes in groundwater depletions. A reduction in the rate of groundwater level decline over time will be used as an indicator of approaching equilibrium of depletion versus safe yield. If during any phase of the plan it is determined by the State Engineer that safe yield has been reached, future reductions in depletion will not be implemented. This plan may also be amended at any time in the same manner through which it was adopted.

Glossary of Terms

Appraisal – (noun) The act or process of developing an opinion of value; an opinion of value. (adjective) of or pertaining to appraising and related functions such as appraisal practice or appraisal services.*

Appraisal Practice – Valuation services performed by an individual acting as an appraiser, including but not limited to appraisal and appraisal review.*

Appraisal Review – (noun) the act or process of developing an opinion about the quality of another appraiser's work (i.e., a report, part of a report, a workfile, or some combination of these), that was performed as part of an appraisal or appraisal review assignment; (adjective) of or pertaining to an opinion about the quality of another appraiser's work that was performed as part of an appraisal or appraisal review assignment.*

Appraiser – One who is expected to perform valuation services competently and in a manner that is independent, impartial, and objective.*

Comment: Such expectation occurs when individuals, either by choice or by requirement placed upon them or upon the service they provide by law, regulation, or agreement with the client or intended users, represent that they comply.

Assessed Value – The value of a property according to the tax rolls in ad valorem taxation; may be higher or lower than market value, or based on an assessment ratio that is a percentage of market value.

Assignment – A valuation service that is provided by an appraiser as a consequence of an agreement with a client.*

Cash-Equivalent Price – The sale price of a property that is equivalent to what a cash buyer would pay.

Client – The party or parties (i.e., individual, group, or entity) who engage an appraiser by employment or contract in a specific assignment, whether directly or through an agent.*

Cost – The actual or estimated amount required to create, reproduce, replace, or obtain a property.*

Effective Date – The date to which an appraiser's analyses, opinions, and conclusions apply; also referred to as date of value.*

Effective Rent – Total base rent, or minimum rent stipulated in a lease, over the specified lease term minus rent concessions; the rent that is effectively paid by a tenant net of financial concessions provided by a landlord.

Expert Witness – (1) A person qualified to give expert testimony. (2) A witness qualified by knowledge, skill, experience, training, or education to provide a scientific, technical, or other specialized opinion about the evidence or a fact issue. Also termed *skilled witness*.

Exposure Time – An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.*

Extraordinary Assumption – An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.*

Feasibility Analysis – A study of the cost-benefit relationship of an economic endeavor.*

Fee Simple Estate – Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Floor Area Ratio: (FAR) The relationship between the above-ground floor area of a building, as described by the zoning or building code, and the area of the plot on which it stands; in planning and zoning, often expressed as a decimal, e.g., a ratio of 2.0 indicates that the permissible floor area of a building is twice the total land area.

Full Service Lease (Gross Lease) – A lease in which the landlord receives stipulated rent and is obligated to pay all of the property's operating and fixed expenses; also called full-service lease.

Gross Building Area (GBA) – 1. Total floor area of a building, excluding unenclosed areas, measured from the exterior of the walls of the above-grade area. This includes mezzanines and basements if and when typically included in the market area of the type of property involved.

2. Gross leasable area plus all common areas.

3. For residential space, the total area of all floor levels measured from the exterior of the walls and including the superstructure and substructure basement; typically does not include garage space.

Highest and Best Use – 1. The reasonably probable use of property that results in the highest value. The four criteria that the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity.

2. The use of an asset that maximizes its potential and that is possible, legally permissible, and financially feasible. The highest and best use may be for continuation of an asset's existing use or for some alternative use. This is determined by the use that a market participant would have in mind for the asset when formulating the price that it would be willing to bid. (IVS)

3. [The] highest and most profitable use for which the property is adaptable and needed or likely to be needed in the reasonably near future. (Uniform Appraisal Standards for Federal Land Acquisitions)

4. [For fair value determination] The use of a nonfinancial asset by market participants that would maximize the value of the asset or the group of assets and liabilities (for example, a business) within which the asset would be used. (FASB Glossary) The highest and best use of a nonfinancial asset takes into account the use that is physically possible, legally permissible, and financially feasible. (FASB 820-10-35-10B). The highest and best use of a nonfinancial asset establishes the valuation premise used to measure the fair value of the asset, as follows: (a) The highest and best use of a nonfinancial asset might provide maximum value to market participants through its use in combination with other assets as a group (as installed or otherwise configured for use) or in combination with other assets and liabilities (for example, a business). (b) The highest and best use of the asset might provide maximum value to market participants on a standalone basis. (FASB 820-10-35-10E)

Hypothetical Condition – A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.*

Insurable Value – A type of value for insurance purposes.

Intended Use – The use(s) of an appraiser's reported appraisal and appraisal review assignment results, as identified by the appraiser based on communication with the client at the time of the assignment.*

Intended User – The client and any other part as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser, based on communication with the client at the time of the assignment.*

Investment Value – 1. The value of a property to a particular investor or class of investors based on the investor's specific requirements. Investment value may be different from market value because it depends on a set of investment criteria that are not necessarily typical of the market.

2. The value of an asset to the owner or a prospective owner given individual investment or operational objectives (may also be known as worth). (IVS)

Jurisdictional Exception – An assignment condition established by applicable law or regulation, which precludes an appraiser from complying with a part of USPAP.*

Leased Fee Interest - The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires.

Leasehold Estate (Leasehold Interest) - The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.

Market Conditions - An element of comparison in the sales comparison approach; comparable properties can be adjusted for differences in the points in the real estate cycle at which the transactions occur. Sometimes called a time adjustment because the differences in dates of sale are often compared, although that usage can be misleading because property values do not change merely as the result of the passage of time.

Market Rent - The most probable rent that a property should bring in a competitive and open market under all conditions requisite to a fair lease transaction, the lessee and lessor each acting prudently and knowledgeably, and assuming the rent is not affected by undue stimulus. Implicit in this definition is the execution of a lease as of a specified date under conditions whereby

- Lessee and lessor are typically motivated;
- Both parties are well informed or well advised, and acting in what they consider their best interests;
- Payment is made in terms of cash or in terms of financial arrangements comparable thereto; and
- The rent reflects specified terms and conditions, such as permitted uses, use restrictions, expense obligations, duration, concessions, rental adjustments and revaluations, renewal and purchase options, and tenant improvements (TIs).

Market Value - A type of value, stated as an opinion, that presumes the transfer of a property (i.e., a right of ownership or a bundle of such rights), as of a certain date, under specific conditions set forth in the value definition that is identified by the appraiser as applicable in an appraisal.*

Market Value of the Going Concern - The market value of an established and operating business including the real property, personal property, financial assets, and the intangible assets of the business.

Marketing Time - An opinion of the amount of time to sell a property interest at the concluded market value or at a benchmark price during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which precedes the effective date of an appraisal. (Advisory Opinion 7 and Advisory Opinion 35 of the Appraisal Standards Board of The Appraisal Foundation address the determination of reasonable exposure and marketing time.)

Modified Gross Lease - A lease in which the landlord receives stipulated rent and is obligated to pay some, but not all, of the property's operating and fixed expenses. Since assignment of expenses varies among modified gross leases, expense responsibility must always be specified. In some markets, a modified gross lease may be called a double net lease, net net lease, partial net lease, or semi-gross lease.

Net Lease - A lease in which the landlord passes on all expenses to the tenant.

Personal Inspection - (for an appraisal assignment) the appraiser's in-person observation of the subject property performed as part of the scope of work; (for an appraisal review assignment) the reviewer's in-person observation of the subject of the work under review, performed as part of the scope of work.*

Comment: An appraiser's personal inspection is typically limited to those things readily observable without the use of special testing or equipment. Appraisals of some types of property, such as gems and jewelry, may require the use of specialized equipment. A personal inspection is not the equivalent of an inspection by an inspection professional (e.g., a structural engineer, home inspector, or art conservator).

Physical Characteristics - Attributes of a property that are observable or measurable as a matter of fact, as distinguished from opinions and conclusions, which are the result of some level of analysis or judgment.*

Price - The amount asked, offered, or paid for a property.*

Prospective Opinion of Value – A value opinion effective as of a specified future date. The term does not define a type of value. Instead, it identifies a value opinion as being effective at some specific future date. An opinion of value as of a prospective date is frequently sought in connection with projects that are proposed, under construction, or under conversion to a new use, or those that have not yet achieved sellout or a stabilized level of long-term occupancy.

Real Estate – An identified parcel or tract of land, including improvements, if any.*

Real Property – The interests, benefits, and rights inherent in the ownership of real estate.*

Rentable Area – For office or retail buildings, the tenant's pro rata portion of the entire office floor, excluding elements of the building that penetrate through the floor to the areas below. The rentable area of a floor is computed by measuring to the inside finished surface of the dominant portion of the permanent building walls, excluding any major vertical penetrations of the floor. Alternatively, the amount of space on which the rent is based; calculated according to local practice.

Report – Any communication, written or oral, of an appraisal or appraisal review that is transmitted to the client or a party authorized by the client upon completion of an assignment.*

Scope of Work – The type and extent of research and analyses in an appraisal or appraisal review assignment.*

Usable Area – 1. For office buildings, the actual occupiable area of a floor or an office space; computed by measuring from the finished surface of the office side of the corridor and other permanent walls, to the center of partitions that separate the office from adjoining usable areas, and to the inside finished surface of the dominant portion of the permanent outer building walls. Sometimes called net building area or net floor area.

2. The area that is actually used by the tenants measured from the inside of the exterior walls to the inside of walls separating the space from hallways and common areas.

Use Value – The value of a property based on a specific use, which may or may not be the property's highest and best use. If the specified use is the property's highest and best use, use value will be equivalent to market value. If the specified use is not the property's highest and best use, use value will be equivalent to the property's market value based on the hypothetical condition that the only possible use is the specified use.

Value – The monetary relationship between properties and those who buy, sell, or use those properties, expressed as an opinion of the worth of a property at a given time.*

Workfile – Documentation necessary to support an appraiser's analyses, opinions, and conclusions.*

Experience

Hymas & Associates/Owner

2018-Present

General Certified Appraiser

Cedar City, Utah

- Routinely complete appraisal reports including: easement, sale, lease, condemnation on various residential, commercial, industrial, retail, subdivision, vacant land and agriculture land
- Completed and prepared hundreds of economic and market analyses for the Southern Utah and Nevada areas, to denote the highest and best uses of the land basis on changing market and economic climates
- Performed more than 100 complex commercial appraisal assignments with analyzation of operating and financial statements
- Managed and maintained demanding deadlines and diverse clients in a positive, professional, and time sensitive manner
- Provided expert advice and guidance to staff and appraisers about USPAP and best appraisal practices

Morley and McConkie Appraisals and Consulting

2014-2018

General Certified Appraiser

Cedar City, Utah

- Perform hundreds of highly complex and controversial commercial real estate appraisals
- Perform detailed reviews of appraisals to determine whether appraisal principles techniques and procedures are used properly, and if appraisals conform to federal laws and regulations
- Consistently engage with local and state governments concerning land laws, regulations, zoning requirements, and ordinances, in order to complete assignments most accurately and reliably
- Frequently utilize automated statistical and analytic analysis to complete appraisal reports

Valbridge Property Advisors / Auble, Jolicoeur & Gentry, Inc.

2012-2014

General Certified Appraiser

Spokane, Washington

Morley & McConkie Appraisal and Consulting

2009-2012

General Certified Appraiser

St. George, Utah

CEDAR CITY COUNCIL
AGENDA ITEMS - 5
DECISION PAPER

TO: Mayor and City Council

FROM: City Manager

DATE: April 1, 2024

SUBJECT: Water rights donation agreement

The owners of Son Builders have offered to donate 17.33 acre feet of water to Cedar City. The water right number associated with the donation is 73-62. The priority date of the water right is June 10, 1934. The water right is supplemental to shares in coal creek irrigation company. The sole source limits of this right will need to be defined. Below is the donation agreement and a copy of the deed. Please consider approving the donation agreement and accepting the donation. If you have questions, please call. Thank you.

WATER RIGHTS DONATION AGREEMENT

This Water Rights Donation Agreement ("Agreement") is dated this ____ day of _____, 2024, by and among Son Builders, Inc., a Utah corporation ("Donor"), and Cedar City Corporation ("Donee"). Donor and Donee may be referred to herein collectively as "the Parties" or individually as "Party."

RECITALS

WHEREAS, Donor owns a fractional interest in water right number 73-62. Donor's interest is for 17.33 acre feet of water as further defined by the records of the Utah State Engineer, referred to hereinafter in this Agreement as "the Property";

WHEREAS, Donor and Donee represent that this donation was made without conditions and no goods or services were provided in exchange for this donation; and

WHEREAS, Donor desires to donate the Property to the Donee, and Donee desires to receive the Property from the Donor according to the mutually beneficial terms and conditions detailed herein,

AGREEMENT

NOW, THEREFORE, without consideration or any mutual promises, Donor intends to give and transfer pursuant to this Water Rights Donation Agreement, and Donee accepts the donation, the receipt and completed transfer of which shall make the gift legally valid, the Parties, intending to be legally bound, agree as follows:

1. Donation and Transfer of Property. Donor will donate its interest in water right number 73-62 as detailed in the Water Rights Report form from the Utah Division of Water Rights and attached hereto as Exhibit A. Donor will transfer title via water rights deed and cooperate with Donee as to any and all processes with the State Engineer related to transferring ownership of the water rights. Donee will be responsible for recording the deed and filing the record of conveyance documentation with the State Engineer.
2. Consideration. The Parties acknowledge that no consideration has been given by the Parties for this Agreement and hereby intend the transfer to be a gift, legally valid upon transfer of the Donor's interest in the water right via appropriate recording and filing.
3. Condition of Title the Property. The Donor warrants and represents to the Donee:
 - A. That Donor holds good and marketable fee title to the Property, and has neither transferred title to nor leased the Property nor permitted it to be encumbered in any other manner; and
 - B. That Donor has neither authorized the encumbrance of or lien on the Property in any manner, nor to the best of its knowledge are there any encumbrances or liens, not of record, encumbering title to the Property

including liens related to unpaid assessments and/or taxes.

4. Survival. The Parties agree that the rights and obligations under paragraph (3) set forth herein shall survive the delivery of the Warranty Deed and transfer of title contemplated herein. No other obligations exist under this Agreement.

5. Complete Agreement. This Agreement constitutes the entire record of this donation and agreement between the Parties and supersedes and replaces any and all prior negotiations, representations, warranties, understandings, contracts or agreements between the Parties whether verbal or otherwise, As it pertains to only these 17.33 acre feet of this 73-62 water right.

6. Governing Law; Venue; and Jurisdiction. This Agreement and all transactions contemplated herein shall be governed, construed, and enforced according to the laws of the State of Utah. The exclusive forum and venue for resolution of disputes arising under or relating to this Agreement shall be in a court of competent jurisdiction in Iron County, Utah.

7. Headings. Section Headings shall not be deemed to be included as terms of this Agreement and are used for convenience only.

8. Authorized Signers. The Parties hereto represent and warrant that the individual signers of this Agreement below are each the duly authorized and empowered representative of the Party on whose behalf they sign, and that the signatures of no other individuals are required to bind the respective Parties to this Agreement.

9. Binding Effect. This Agreement shall inure to the benefit of and be binding upon the Parties, their heirs, successors, agents, and assigns.

10. Counterparts. This Agreement may be executed in any number of counterparts, whether by facsimile or otherwise, each of which, when so executed and delivered, shall be deemed an original, and all such counterparts together shall constitute one original instrument.

11. Cooperation – Further. From time to time, as and when reasonably requested by any Party hereto after the Closing, the other Party will (at the expense of the requesting Party) execute and deliver, or cause to be executed and delivered, all such documents, instruments and consents and will use reasonable efforts to take all such actions as may be reasonably necessary to carry out the intent and purposes of this Agreement.

12. Severability. In the event one or more provisions of this Agreement should, for any reason, be held to be invalid, illegal, or unenforceable in any respect, such invalid, illegal, or unenforceable provision will not affect any other provision of this, and this Agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been a part hereof.

[signatures on following page]
