

Short-Term Projects 2024-2025 Grant Cycle Project Idea Worksheet

Please complete this worksheet and the questions found at the bottom of this page and send to Sam Kilpack at samantha@cw.utah.gov no later than **March 25, 2024.**

For project criteria, visit cw.utah.gov.

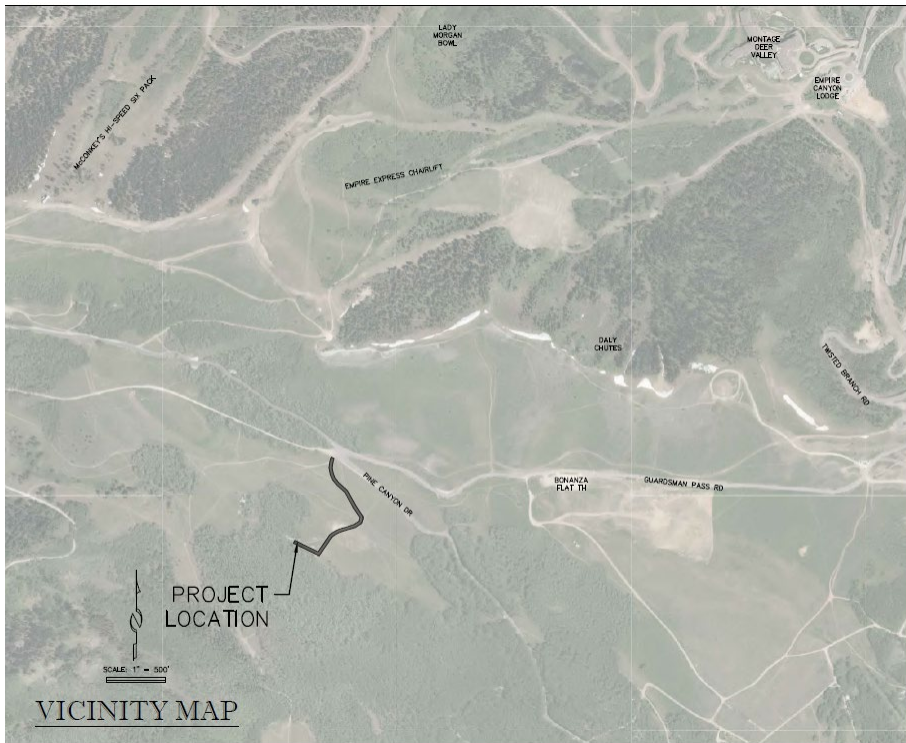

Name of the project:	Bonanza Flat Accessible Trail
Location of the project:	Bonanza Flat Open Space
Project contact person:	Heinrich Deters
Project contact email address:	hdeters@parkcity.org
Project category (select any that apply)	<input type="checkbox"/> Transportation and transit <input type="checkbox"/> Environmental protection <input checked="" type="checkbox"/> Recreation stewardship <input type="checkbox"/> Economic sustainability
Do you have community partners for this project? Please list your partners, if applicable:	Utah Open Lands
What is the estimated total cost of the project? How much will you request from the CWC?	\$145,000 total project cost. \$15,000 CWC request.
What is the expected starting date and completion date for the project?	July 15, 2024

Please attach your answers to the following questions:

- Briefly describe your idea. How will it implement transportation and transit solutions, protect the ecosystems that originate in the Central Wasatch, steward recreational access, or sustain the economic viability of the project area?**

The project involves creating an inclusive outdoor recreational facility with educational and stewardship programs. This endeavor, supported by Park City Municipal Corporation and Utah Open Lands, seeks to cater to individuals with disabilities while promoting ecological awareness

and conservation efforts. In an area like the Wasatch Back, where such initiatives are scarce, this project presents a unique chance to expand outdoor experiences for all. Rather than a conventional hard surface, the trail will adhere to Forest Service Accessibility Guidelines (FSTAG), ensuring accessibility without compromising natural integrity. The trail provides access from dedicated accessible parking spaces and traverses nearly a quarter-mile across the meadow, which invites inclusive participation. For those without disabilities, access from the Bonanza Flat Trailhead, just over half a mile away, ensures engagement for all.

2. Does this idea result in other benefits to the Central Wasatch and its users?

The trail project primarily aims to provide access for persons with disabilities, while also catering to programs and non-profit groups throughout the Central Wasatch that serve disabled communities. These organizations may utilize the facility for additional programming and educational purposes. The management of programming would be overseen by either Park City Municipal Corporation (PCMC) or Utah Open Lands (UOL).
