Review of Robert's Rules as the standard for the board. Mike asks Commissioner Meyeres to give an explanation of what the Commission would like for the Resource Development Committee. He also mentions that the resource board is responsible for managing the resources available to the citizens of Kane County. Commissioner Meyeres expresses her desire to broaden the understanding of the issues the board discusses. She mentions that the State is

looking to explore different ways of generating energy and challenges the board to research the effects of small nuclear power.

Clayton brings up that he would like to add a discussion topic to future agenda items. He also mentions the importance of the board understanding Kane County's Resource Management Plan (RMP). A discussion about how the board and the Public Lands office can work together to keep the RMP up to date ensues.

Members of the board give an update about the changes in the Utah State Legislature for 2024.
