Distribution of February 28, 2024 Minutes

The minutes for the Council Workshop Meeting held on February 28, 2024 were distributed prior to the meeting.

Division Updates

Patrick Craig reviewed the Division Update sheet that was provided as part of the meeting package. General Information – Personnel: One employee at the Landfill and one at the Transfer Station currently on FMLA. Board member absentee voting clarification: Ryan Lambert confirmed that only Brent Beardall – Technical Expert representative can't have a replacement for voting. It is applicable for other board members to have a voting replacement. Solid Waste received a request from the Forest Service to store timbers from a project at the top of Millcreek. Forest Service has a program to work with the Indian Reservations for firewood. Due to the quantity (area needed) and the timeframe needed, Solid Waste would not be able to accommodate them. Currently working on several amendments to the ET Technologies (ET) contract. One is the annual price increase they have requested. Second is to revise the language that allows us to request an annual inflation adjustment of the current closure bond ET Provides.

Financial Report

Patrick Craig reviewed January's Financial Report, MSW Report, Green Waste Report, and Top MSW Customers Report that were all provided as part of the meeting package.

ET Technologies Draft Permit Comments

Patrick Craig reviewed the ET Technologies Draft Permit Comments sheet and discussed the items of concern. **Brent Beardall** mentions the Council is not the owner or operator. All SWMC members agree that the permit language needs to be revised. **Ron Lund** said the language in the document is very risky. **Ryan Lambert** will review and work on a response, including working with the Salt Lake City attorney to discuss the response.

Other Business

Ryan Lambert will present a Virtual Webex Open Meetings Training after the Council Meeting has ended. **Chris Bell** updated that Salt Lake City is very close to approving the request to close 7200 West between California Avenue and I-80. Gates will be on the south and north ends. This could be temporary or remain closed for up to 2 years or until the risk subsides.
