

June 10, 2014

Dear Draper City Planning Commission Members,

We are in opposition of the proposed zone change and development of the property at 132nd South and 13th East in Draper.

Draper City has managed to destroy (through zone changes) numerous open spaces and farmland and turn them into hodgepodge, mini developments. This open space at 132nd South and 13th East is not only beautiful, but provides an area for wildlife to flourish in and around the 100-year-old trees.

Please remember that Draper City's mission and values statement emphasizes that, "Draper is clean, pleasant, pastoral..." Please keep the "pastoral" in those values and stop catering to developers through this rezoning.

Sincerely,

Linnea Charnholm
